DIES FROM INJURIES.

B. S. DeWitt Thrown from Wagon and Ruptures Blood Vessel. Dies in Hospital.

A sad accident occurred here Thursday at 5:20 o'clock p. m. which resulted in the death of the injured man. The circumstances are as follows: B. S. DeWitt, a teamster working for the E. L. Chandler Co., took a horse and pair of hind wheels and went to J. B. Winget's shop for the body part. After starting back a box fell out of the lumber wagon, which frightened the horse so that he became unmanageable and ran. Near Harry Lee's Mr. DeWitt was thrown out of the wagon and struck on his head with such force as to render him senseless. He was taken to his home and everything possible was done for him by the local physicians and friends; but he grew worse, never coming to himself during the week. On the midnight train Sunday night he was taken to Brightlook hospital at St. Johnsbury, and at 2 a. m. Monday morning was operated upon, dying shortly afterwards. It was found that a blood vessel on his brain was ruptured. Mr. DeWitt was a faithful, conscientious workman, much esteemed by his employers, and his tragic death cast a gloom over the community. He was born in Waterville, Nova Scotia, but came to Massachusetts, and 13 years ago married Miss Katharine Brown of Jamaica Plain, Mass. About one year ago they came to this village and Mr. DeWitt began work for the E. L. Chandler Co., where he has been since. He was a man 40 years old, a member of the Baptist church for a number of years before coming here. A few weeks ago he joined the Modern Woodmen, which proves a blessing to his family as his life was insured for \$1000. He was a man who could be relied upon everywhere, kind and affectionate as a father and husband, neighborly and unselfish, a man beloved by those who knew him best. He leaves a wife, a little son 11 years old and daughter eight years old, besides two brothers, three sisters and a father. Monday night his wife and children went on the midnight train to Boston to take the body there and Tuesday they went to Nova Scotia, where the body was to be interred at his old home. Mrs. DeWitt has the sympathy of the community.

Kodol For Indigestion. Relieves sour stomach, palpitation of the heart. Digests what you eat.

F. B. Hall Made Manager of Large Printing Establishment.

Our Barton Landing readers will be interested in the success of F. B. Hall of Springfield, brother of F. L. Hall of this place. It will be remembered that Mr. Hall went to Springfield a few years ago and purchased a job printing business which has grown to large proportions and last week's papers report the following: "The Springfield Printing Co., which was incorporated last week, has bought the business of The Reporter Publishing Co., publishers of The Springfield Reporter, of which F. W. Stiles is editor, also the job printing plant of F. B. Hall. Possession will be given August 1 and the two plants will be combined. The directors of the new company are Allyn J. Crosby, president; M. L. Lawrence, vice president; Harry A. Bingham, treasurer; F. B. Hall, manager; H. G. Tupper, clerk. Mr. Bingham also will be editor. Editorial offices have been engaged in the new building. The mechanical end of the business will be in the charge of Mr. Hall. The capital stock of the new company is \$15,000. Springfield has a population of 4,800, of whom 1,100 are voters."

BARTON LANDING.

Mrs. J. M. Rosebrook was quite sick last week.

Miss Anna Bassett is taking a two weeks' vacation.

E. E. Doe went to North Troy Monday on business.

Daniel Skinner is spending a few weeks at Skinner, Me.

Mrs. O. B. Dunham continues to improve from her recent illness.

C. A. Nute was in Lisbon, N. H., on business a part of last week.

C. S. Gibb has had a roof built over the piazza of his shoemaker's shop.

Roy Bean and family took an outing at Willoughby several days this week.

Mrs. F. C. Brown is the guest of relatives in Albany for a few weeks.

A. D. Phillips of Newport, N. H., visited at F. C. Sherburne's last week.

Miss Winifred Dean is the guest of relatives in Coventry for a couple of weeks.

Verne Howard has returned from his Canada trip, where he spent his vacation.

The Perley brothers are making repairs and improvements about their residence.

The veneer mill was shut down last week to install the new engine and make a glue room.

Mr. and Mrs. Geo. E. Melvin of Cambridge visited a week at the Valley house recently.

Newell Lumbre has moved from one of Twombly & Colton's houses into Miss Florence Gilles's house.

Miss Susie Ford, who has been visiting friends at Concord, N. H., for several weeks, is home again.

It is reported that H. H. Person has bought a building lot of F. C. Sherburne on Grand avenue.

Miss Miranda Merritt of Meriden, N. H., was the guest of her nephew, E. R. Baraw, for a week recently.

Miss D. M. Pudah, who has spent a couple of weeks with relatives in Lowell, is home in her store again.

Mrs. Josie Dutton of Concord, Mass., recently visited her sister, Mrs. Laura Metcalf, at Mrs. Henry Conway's.

Miss Maggie McKenna will keep house for her father while her mother spends a few weeks with friends in Montreal.

J. A. Watson has built a new barn 30x40 on the ground with a basement. Later he intends to move his other barn to join the new one.

Miss Eva Chandler of Laselle seminary is spending a week with her grandmother, Mrs. A. D. Chandler, in her cottage at Willoughby.

Wallace Sawyer was employed by the 53d regimental brass band of Sherbrooke to play at Quebec several days this week. He will return Friday.

Eighty-three souvenir post cards were sent through the post office here Monday to Mrs. C. W. Skinner of Brownington to congratulate her on her 50th birthday.

The Supreme lodge of the Knights of Pythias meets the first week in August in Boston. The New England headquarters will be at Faneuil Hall. It is expected that quite a number from this place will attend the meetings.

Dr. and Mrs. C. S. Campbell and two children came here from St. Albans with their automobile July 9 to

PEOPLE'S TELEPHONE CO.

Annual Statement Out. Company One of Largest Independent Concerns in New England. 1424 Telephones Out.

The annual statement to the stockholders of the Vermont People's Telephone company of this place, dated July 1 is out. H. W. Buchanan, president, and R. W. Buchanan, secretary and treasurer. Few people here realize that this company is one of the largest independent companies in the East and has over 1400 telephones out by actual count, and connects with many others. In this statement the directors say: "Our directors feel proud of the building of a telephone plant that furnishes more service to the people of Orleans county for the money than is being received by any other county in the state, nearly every other county in the state is paying from \$27.00 to \$33.00 for what you are getting for \$12.00." This and much more is probably true of the service rendered by this company as compared by other companies.

The total cost of the plant as it stands to-day is over \$60,000 and nearly \$10,000 has been laid out on construction in the past year, and important construction plans for the coming year are laid out. One of the most important is that of reconstructing the lines between here and Irasburg and making all Irasburg calls from the central here, eliminating entirely the central station at Irasburg.

Figures Surely Count.

The following is from the Barton Landing Signal of Saturday:

"We have read the Monitor's comparison in figures between the Monitor and Signal relating to the reading matter and locals the papers contain and are glad to note the Monitor has improved. No doubt the figures are correct. The Monitor has made a special drive in the past few weeks to keep up to the scratch and no doubt has succeeded. We have measured the locals and other reading matter several times in the past, and have found the measurements entirely different; but we have not measured in the time mentioned by the Monitor, or in fact during 1908. Out of curiosity, since reading the Monitor's measurements, we took the issue of July 15, containing it, and compared it with the Signal's issue of July 11. No special effort has been made to fill the Signal with locals, especially for measurement, so they came in regular order. This is the result: Monitor, total amount reading, 546 in. locals, 257 "

" " " state locals, 52 " " " gen'l news, 00 " " " editorials and gen'l reading, 34 " Barton Landing Signal Total amount reading, 737 " " " locals, 248 " " " state locals, 41 " " " general news, 28 " " " editorials and ex-changes, 100 "

It will be observed in their special issue that the Monitor is ahead nine inches in locals and 11 inches in state news, and for the Monitor's benefit we will state that its state news has been more in the past few weeks than we ever noticed before. These things vary. Generally the Signal intends to run between two and three columns of state news; but sometimes they do not exist and the space is filled with general news. For instance our state and general news measures 69 inches in July 11th Signal, which is exceedingly light. If the Monitor thinks its eight point type set solid (what the Monitor uses) takes less room than seven point lead (used in the Signal) let it compare the two issues we have measured to prove its mistake. Not only this, but many of the Signal's locals are set solid. To be precise the Signal gains about two lines in every three inches of locals and about five letters in every line which, figured up would place the Signal's locals ahead in even the last two issues. The Monitor is improving and if the Signal is the cause of it, we are glad of it; but its measurements will have to be reduced to a little finer basis to be quite correct."

There is no contention as to the total

visit Dr. E. G. Stevens. Dr. Stevens took his guests to his cottage at Willoughby, where he gave them a ride in his motor boat, much to their enjoyment. On Friday he accompanied them to this place, entertained them at dinner at the Valley house, and in the afternoon took them to Barton to see the baseball game between the Ludlows and Bartons. From Barton Dr. Campbell went to Greensboro to visit friends and then returned to St. Albans, very much pleased with Barton and Willoughby and his hospitable entertainment by Dr. Stevens.

Largest Local and County Circulation

amount of reading matter published in the Signal (the Barton Landing edition of the Express and Standard) and the Monitor. The Monitor stated last week that the Signal published more general reading, editorial and press clippings than the Monitor, we freely admit that, but when it comes to local news we object to the statement that the Signal "publishes more locals than all the other county papers put together." This statement cannot be proved and is not a fact. We have on file nearly every Signal since it was started and since the statement above referred to was made have taken at random many issues and compared it with the Monitor and in nearly every issue the Monitor has more locals, on an average nearly two columns more. We can prove this statement. This fact also proves the fact that we have not made any special drive for locals in the past few weeks, or else proves that we have made a special drive every week for more than two years. As to state news neither can boast of much lead. The statement above copied says our issue of July 15 contained 257 inches of locals. This is a mistake. Page one contained 70 inches; page four, 77; page five, 39; page six, 42; page seven 32 and page eight 20, or a total of 280, or more than a column more than we were given credit for. Anyone can measure this issue and see for themselves. As to the room the Monitor type takes in comparison with the Signal type one has but to measure the statement copied above in our type and then measure it as it appeared in the Signal, to prove the statement made last week that our type takes less room. All we are looking for is fair play.

Baseball Notes.

About 25 of the fans went to Derby Line Saturday to witness the game.

Remember the great Prescelle and his company appear at the Barton Landing opera house August 27 and 28, for the benefit of the baseball treasury.

Tomorrow the newly organized and fast St. Johnsbury team appear here for the first time. The game is called at 2 o'clock and a fast one is assured. Hunt will pitch for Barton Landing.

The game here last Wednesday was the record, to date, in the state, for fast fielding and few errors. Two slight errors were charged to the Frontiers and one to Barton Landing. Four hits were made off Thomas, three off Davis. Strike-outs, Thomas 13, Davis 3.

The game Derby Line Saturday was witnessed by a record crowd, and was exciting from start to finish. Both pitchers had an off day. Thomas's support was gilt edged. The score:
