The repairs voted at the last school meeting have been made to the school hall and consist mainly in new sheathing and the erection of a suitable porch, or entry way before the door, thus keeping out the cold and putting the hall in much better shape for use in paid entertainments of every sort. Here's Champion Nature Faker. Some one was telling Sam about the longevity of the mud turtle. "Yes," said Sam, "I know all about that, for once I found a venerable old fellow in a meadow, who was so old that he could scarcely wiggle his tail, and on his back was carved (to crably plain, considering all things), these words: 'Paradise, Year 1, Adam.'"

The Rayo Lamp

The Lamp That Saves The Eyes

Children naturally never think of possible strain on their eyesight when poring over a fascinating book.

It is up to you to see they do not ruin their young eyes these long evenings by reading under a poor light.

The Rayo Lamp is an insurance against eye troubles, alike for young and old.

The Rayo is a low-priced lamp, but it is constructed on the soundest scientific principles, and there is not a better lamp made at any price. It is easy on the eye because its light is so soft and white and widely diffused. And a Rayo Lamp never flickers.

Easily lighted without removing shade or chimney; easy to clean and rewick. Solid brass throughout, with handsome nickel finish; also in many other styles and finishes.

Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agency of the
