Reno, the Magician.

Professor Edward Reno gives the
last entertainment of the lecture
course Saturday evening, April 19th.
Professor Reno comes recommended
very highly. He is a man of fine per-
sonality and engaging stage presence.
Prof. Reno is superior to the large ma-
jority of contemporary magicians. He
is original, marvelously clever, and en-
thusiastically devoted to his art. He
is not the sleight of hand man that too
often passes as a magician, but is em-
inently fitted by nature and training
for the high class, refined and puzzling
entertainment that he presents. In
his performance of two hours he
springs one surprise after another on
his audience, keeping everyone in a
state of breathless wonder and deli-
ght. A pleasant feature of his per-
formance is the running fire of com-
ment with which he enlivens every-
thing he does. These remarks are full
of fun and wit, and good tempered sat-
ire aimed at himself and his work.
The committee take pride in offering
to the people of Orleans such a popu-
lar entertainer.

gift.

The formation of a club for men is
being agitated. For some time a place
of recreation of this sort has been
needed in this village, but no steps
had been taken to organize such a
club until recently. It is hoped that
a suite of rooms can be leased in the
building which the bank is to remodel
and move to the site now occupied by
Mrs. Spafford's store. The idea is a
good one and is receiving the approval
of the business men. Everyone in-
terested in this movement should talk
with F. M. Allchurch as early as pos-
sible.
