The Tuskegee Concert.

Remember the concert by the colored quartette and reader from Tuskegee college to be given in the Congregational church Tuesday evening next, Aug. 26, at 8 o'clock. In their tour of New England this company of students have given the highest of satisfaction in their dialect songs, readings and southern melodies. They were sent out by Dr. Booker T. Washington to represent Tuskegee university and bring to us that richness of quality in vocal tones found only in the negro. The young men are clean fellows, working for the interests of their school, which wants the support of this community. The proceeds will be divided between the school and the local C. E. society. The admission price is 25 cents and the concert will be well worth the price.

BIG LIVE STOCK SHOW

One of the Largest and Finest Exhibits of Stock Ever Seen at Orleans County Fair. Good Crowd Today.

The Orleans County fair has "come back." Every horse stall and every cattle shed is full to overflowing with exhibition stock and many stalls were necessarily rented outside the grounds to give shelter to stock brought for exhibition. And the quality of the exhibits is above the usual. Not only is the stock exhibit above par but the floral hall exhibits are better than last year; every inch of space is occupied in the floral hall by displays of various kinds and every inch of ground is rented to various fakers which makes up a large "midway."

The racing promises to be exceptionally good also. Over 50 race horses are on the grounds and as this is the first fair of the season most of them will start at Barton "to find their pace," and some of them at least will not start at other meets later in the season. In two classes starting this afternoon, there are six and nine starters and the races for Thursday and Friday are as full.

All premium stock will be kept on the ground until Friday and with some of the best races, a good ball game, band, stage performances and all, Friday will be one of the best days. Elegant weather appears to have favored the management and the crowd today seems to foretell three big days.

TELEPHONE SITUATION DISCUSSED

Mr. Editor.
Will you permit an ex-telephone subscriber to say something through the columns of your paper relative to the live topic of the present telephone situation? Coming to town four years ago we found an excellent independent telephone line, serving the public well at the price of one dollar per month. After a time we heard with regret that a contemplated sale of the independent line to the New England Telephone company was about to be consummated.

We hear this with regret because the public knows well that, due either to inefficient management, or to an inordinate desire to get the last possible dollar at the earliest opportunity an advance in price ranging from 25 per cent to 100 per cent in telephone rates must be expected under the New England Telephone company. We also expected a decrease in free zone territory; a tyrannical enforcement of toll-rates to guests who happened to be temporary residents in our homes; and spot cash payment or a notice to pay at once or 'phone service would be discontinued. These were our expectations and we were disappointed in them only once, namely, when the first notice of advance came, an advance of 25 per cent, because the

The ladies of the Village Improvement who plan to wage a campaign on the fly this fall and another year, had the Monitor the following item: "If you have a breeding place for flies about your premises, buy a gallon of pyroligneous acid at Pierce's and sprinkle freely once in twelve days. This kills the egg of the fly."

Fourteen members and friends of B. A. 10 went to Willoughby lake Thursday for the annual class outing. The party carried a picnic dinner and the day was very much enjoyed, bathing and bowling and other sports being part of the program. The trip was made in May's auto truck and the return by way of West Burke. At the business meeting, Ruth Freeman, Pearl Sutor and Aftan Scott were elected a committee to make arrangements for next year's trip.

A cross on the telephone and electric system Wednesday afternoon of last week caused much trouble for the telephone company as well as the electric lines. In fact, the circuit evaded the search of trouble men until the next day and several electric lines were shut off and a number of the telephone lines out of use for several hours. The Monitor was unfortunately on duty of the electric lines shut off during the afternoon and was therefore, several hours late in going to press.

3 DROWN AT WILLOUGHBY

Sailboat, Heavily Ballasted, Topples Over and Sinks, Carrying Three With It. Bodies Not Recovered.

The first drowning accident in many years at Willoughby lake occurred yesterday when Dana and Motty Tripp, brothers, and Clayton Badger were drowned. The young men started out in an old sailboat about 11 o'clock in the forenoon for a trip about the lake. The boat was heavily ballasted and the ballast tied in, as considerable trouble had been experienced with this old "catboat" before and several people spilled into the lake. The party had not been on the lake more than 20 minutes or half an hour when a gust at the Willoughby house saw the boat tip until the sail lay flat on the water and then the whole suddenly disappeared. Boats were rushed to the spot which was in a line between the hotel and the Pease residence and about two-thirds of the lake across toward the west shore, but no trace of the boat or its occupants could be found. It is thought the ballast carried the boat to the bottom after it was tipped over, probably by the wind, and the occupants were entangled with the rigging and carried down. All three of the young men were good swimmers.

Dragging was begun in the afternoon but nothing was brought up and this morning a systematic hunt was begun by means of many grapnels.

Dana Tripp and Clayton Badger, former Orleans boys, were on their vacations from positions in Massachusetts and Motty Tripp was employed by his brother, H. G. Tripp, in his store at Orleans. The Tripp boys leave a father and mother, Mr. and Mrs. C. R. Tripp of Orleans, and several brothers and sisters. The Badger boy leaves a mother, Mrs. Jennie Hunt and sisters Beatrice of Orleans, Miss Carrie in the West and Mrs. Richard Liddell of St. Johnsbury.

Earl Fisk goes next week to Norwich to attend a sophomore summer school for a course in practical surveying.

The band boys got most of the fun scheduled and some that was not, from their trip on Saturday. They were conveyed in five automobiles to Waterbury Inn for breakfast, and through the courtesy of General Crow, were conducted over the Vermont state hospital for the insane. From there the party went to Fort Ethan Allen, where they saw the men who have been selected from the Vermont National Guards from all over the state at target practice preparatory to going to Ohio for a fall term of national training. The rest of the day was spent in various ways in Burlington, a failure to make connections with the boat necessarily cancelling that part of the program.

The annual meeting of the Orleans County Historical society was held in the vestry of the Congregational church Thursday afternoon. Rev. W. A. Warner offered prayer. Mrs. F. H. Pillsbury favored the meeting with a piano solo and A. Clayton Lang with a vocal solo. F. W. Baldwin, president, presided over the meeting, reading a short paper of historical notes and exhibited a \$5 banknote on the Irasburg bank issued in 1865 and signed by Ira Allen, and also a certificate of stock issued by that bank to Wm. P. May in 1851. Mr. Baldwin was selected president. C. S. Emery of Newport and W. S. Robbins of Derby, vice-presidents and Wallace H. Gilpin of Barton, secretary-treasurer. White, left the first of the week for Graham River Junction to spend some time with relatives there, before returning to their home in Boston. They made the trip by auto.

Mr. Chase screamed when he came in contact with the wire and Titus jumped to his assistance and also received the fatal shock. A coil of telephone wire hung upon a post of the barbed wire fence, part of the coil touching, it is said, electric light wires, and also the wire of the fence, making a circuit.
