News and Views from this Hustling Village

Congregational Church Notes The midweek service will be held in the Chapel tonight at half past seven. The topic, "The Gospel of Recreation," is especially appropriate to this season of the year and we hope for a good attendance and expect a profitable meeting.

Morning worship Sunday at the usual hour. The pastor's sermon will be upon "The Value of Cheerfulness." There will also be some good music and a helpful service is assured. All not worshipping elsewhere are cordially invited to join with us.

The Sunday school will meet at the close of the morning worship. Lesson topic: "The Barren Fig Tree and the Defiled Temple." This is a teaching theme and its study ought to do us all good. Classes for all ages are organized and a cordial invitation to all to study these lessons with us.

We were all glad to welcome Dr. Merrill last Sunday. This survey of present day features in Christian work was very practical and we all ought to get a new grasp upon our tasks and perform them with renewed vigor and hopefulness because of it.

ORLEANS

Will Hayward and daughter Hazel are moving to St. Johnsbury this week where Mr. Hayward is employed by the Fairbanks company.

Orleans Makes it Even Break.

Not since "the good old days," has there been any such crowd or enthusiasm at Skinner Athletic park as was seen last Saturday, when the North Troy team arrived for its second game with Orleans. A week ago North Troy were able to tie up the score in the latter part of the game and finally by a score of 7 to 6, but Saturday no scores were made after the fifth inning, and the final score of 5 to 3 shows just about the margin that Orleans had on their visitor all through the game. A perfect day drew one of the best crowds seen at the park in a long time and with a total of 26 automobiles parked at the grounds, the little grandstand fairly well filled with one hundred local fans occupying the benches, the boys certainly had good support, and they furnished an exhibition of the kind of ball that should draw crowds to all their games, the very best feature of it all being the fact that the entire team was a loyal aggregation. North Troy seemed their hope to Hadlock, a south paw box artist, and he certainly pitched a good game, but when hits were actually needed to keep the lead, Orleans boys were always equal to the occasion. H. Bassett the pitcher for Orleans was continually feeding hits to the batters, and he was again in this game, proved the entire undoing of the North Troy batters. On an attempted double play in the first with one on and Heath's single through third, North Troy made their first tally, but in the second half of the inning a pass, a bunt by Ted Lee and a line drive by Pike sent two across and with two out scored hit for three bases and scored Pike, so that the end of the inning saw the score 3 to 1 in Orleans' favor. Both pitchers were going good in the second and third, and nothing doing. In the fourth North Troy scored another run on a hit by Dana and advanced on Gardyne's line bunt, an error permitting him to reach third and score on the next man up who hit through second. In the fifth North Troy put another run across, and for just a minute the score stood at three three, but in Orleans' half of the fifth with two gone and a man on second, Pike and Turnbull hit the ball hard, and before the third out, Orleans had cooped two more runs and was again in the lead. After the fifth inning neither side scored and each pitcher tried to out-guess the other, with the honors easily going to Bassett; men whom we have known to hit the ball hard, swung wildly at that slow ball of Bassett's or popped the easiest kind of flies. Both teams played a good clean game, and permit us to remark that the umpiring of Dr. Cleasby was the most impartial as well as the cleanest of exhibitions; there were few features, and no grand stand stunts on either team, Orleans got to Heath a little but he took it in good part and played a fast game. In the sixth North Troy making two of their seven hits and fielding some mighty fast infield hits. Dana's big stick contributed much to North Troy's scores. Orleans played ball every minute of the game and we have already mentioned the features. Below the score by innings:

Table with 10 columns: Innings, R, H, E. Rows for Orleans and North Troy.

Batteries for Orleans, Bassett-Bassett. Umpire Dr. Cleasby. Time 1 hour 45 minutes. We understand that Orleans has the three games during the county Fair, good judgment on the part of the Fair management, let us hope that North Troy may be one of the contestants, they are a good team.

Miss Marie Darling has returned from her vacation and resumed her position in the office of the R. W. Eldridge handkerchief factory. The repairs are completed at the Veneer mill and that branch of the Chandler company resumed business Monday; they have a large amount of orders on hand and will keep well employed from now on.

The Chandler company are framing a building here at Orleans which will be taken to the new Greensboro mill of that company and erected as a boarding house for their winter operations there. The Orleans ball team will play all three games of the Orleans county fair at Barton this season. They will have Spear of U. V. M. and Gallagher to assist Bassett in the box and will meet a team from St. Johnsbury, from North Troy and Sherbrooke. These games should show exceptionally fast ball.

There will be a regular meeting of the Orleans club at the club rooms tonight, Wednesday, there will be the regular business of the club and the report of the special committee appointed to report on the amendments to the constitution and by-laws of the club as well as the names of three candidates to be acted upon.

The Orleans Library has a recent addition in the new Encyclopaedia Britannica of 28 volumes, printed on India paper. As usual the Book and Thimble club is responsible for getting it, as it was through their efforts the money was raised. They were helped by the Mothers' club, the Village Improvement society, the old Lecture Association and several generous citizens who realized that this valuable reference was needed.

Miss Wilhelmina Jocoelya who was last season a teacher of the first grade in the Orleans high school was married Wednesday evening of last week at the home of the bride's father, to Floyd A. Swett, only a few of the relatives and intimate friends being present. The young couple left for a wedding trip to Boston and Bar Harbor, Me. Upon returning they will make their home in West Derby, where Mr. Swett is engaged in business.

The New England branch of the American Panel manufacturing company met at the offices of the E. L. Chandler company Saturday. There were present C. T. Hall of Montpelier, president; A. A. Doe of Orleans, treasurer; Col. Nelson of Derby Line, A. Littlefield and A. T. Littlefield of F. W. Mosher of Haydenville, Mass., F. W. Dove of Bradford and W. Wilson of East Haven. A general discussion of business prospects was had, and an adjournment to the Valley house for dinner followed. In the afternoon the entire body attended the ball game.

BEAUTIFUL WILLOUGHBY

One of Nature's Most Charming Lakes. Many Cottages and Cottagers. Favorite Auto Drive.

Any authentic account of just how Willoughby lake came to be known by that name has thus far escaped us, but that it took its name from John Willoughby who is said to have first discovered it through Indian guides is probably the fact, although other theories and solutions of the name are advanced. One thing seems to be a settled fact, and that is that Willoughby was known long before the town of Westmore came into existence. It may be of interest at this time, when much is being done to the road on the east side of the lake to note some of the facts connected with the early history of the town of Westmore we quote the following: "There were two Westfords in Vermont for a time; but at length Westford in Orleans county was changed to Westmore. The first settlers, the Forsters and some others, were from Connecticut. The township was granted November 7, 1780. The first settlement of this township was abandoned in 1813 but finally Mill City one of the last settlers of East Brownington, a salts maker, moved to Westmore and made many tons of salts of lye. He was an honest man, a federal smuggler of salts." Thus the town of Westmore with its most beautiful Lake Willoughby became first chartered and settled. Except by a most circuitous route the first citizens of Westmore were unable to go to the south to Burke or Lyndon until in 1850 there having been much agitation over the building of a road along the east side of the lake, the

Petty thefts have occurred from the freight station and cars as well as the sugar storage house since last winter, and last week the B. & M. railway sent their special detective here to investigate. As only fruit, peanuts and candy were taken, the evidence pointed to boys as the guilty parties and Wednesday, Guy Ranney, Edward Johnson, Edward Magee, Wallace Dubuc and Chester Blake were brought before the juvenile court, at Colby Stoddard's office accused of the thefts. The hearing resulted in the Ranney and Johnson boys being sent to the Industrial school at Vergennes while the other boys were put on probation. This ought to be an example to other young fellows who are similarly inclined, that they cannot commit thefts without being detected in the end and suffering the penalties of their crimes.

BROWNINGTON CENTER

History as She's Told.

When Jean Leon Gerome's painting of the dead Caesar was on exhibition in the Corcoran gallery a Chicago visitor heard this conversation between a woman and her ten-year-old son, who were looking at the stricken Caesar lying at the foot of Pompey's statue while the conspirators were disappearing in the distance. "Mamma," said the boy, "what is the matter with the man?" "When you get older," answered the mother, "you will read all about it in history. The man is Julius Caesar. He has just been shot by Mark Antony."
