

FIRST WAR NEWS.

Daily Paper Six Months for \$1.

The Monitor can get you a daily paper giving all the latest, best and most authentic war news, six months for \$1. Having made special arrangements with the Boston Record we are authorized to take subscriptions at present for \$2 a year or six months for \$1. This is the greatest bargain in a daily paper ever offered. The Record is a good paper and being an evening paper reaches you on the rural route the morning after it is printed. And the evening paper is noticeable in its early war news. An evening paper is far ahead of a morning paper on the news of the great European war because 5 o'clock in Boston is 10 o'clock at night in London and nearly midnight in the heart of the war district. Wherefore, the news of daylight—the most important of all—comes in the afternoon press and is repeated in the morning papers. So the lead of the evening paper is very marked in this war—probably the greatest the world has ever seen. You ought to keep posted. Take advantage of this offer while it lasts. Clip this ad., fill in below, pin a dollar bill to it and mail. Do it NOW. We'll do the rest, and you'll get a daily with all the war news every morning for six months.

Monitor, Barton, Vt.

Gentlemen:—For the \$1 herewith send me the Boston Evening Record six months as advertised.

The Microscopic Search

Give the toll operator some clue to the supposed whereabouts of the salesman, touring automobile party, possible customer or client you want to talk to, and she will try to connect you. The toll operator does some extraordinarily clever work in following up these clues. Tell her the name of the person you want, where he is likely to be or where normally he ought to be and there's more than an even chance she will put you in communication with him—and quickly, too.

There will be no charge for a particular party toll call if you are not connected to the person whose name you have given to the toll operator.

R. Moore and went out upon the lake and has not been seen here since, though his boat was found floating with his hat in it about five miles down the lake near the farm of A. W. Hines about 6 o'clock. Parties were on the lake yesterday dragging with grapples and several parties are going out with boats and grapples in an endeavor to get the body, if in the lake.

WAR.

War is the concentration of all human crimes. Under its standard rage, fraud, rapacity and lust. If it only slew men it would do little. But it turns man into a beast of prey. Here is the evil of war—that man, made to be the brother, becomes the deadly foe of his kind; that man, whose duty is to mitigate suffering, makes the infliction of suffering his study and end.—William Ellery Channing.
