Methodist Episcopal Church Notes.

REV. I. A. RANNEY, Pastor

You are cordially invited to attend all services.

Morning worship, 10.45.

Sunday school, 12 o'clock.

Epworth League, 7 o'clock.

The subject of the Sunday morning service was, "The Making of a Man," the text being I Timothy 2:5. The mystery of the incarnation is no greater than that of many things around us which we readily accept, saying they are the workings of nature. Nature, however, is but a manifestation of the power of God. As a man Jesus knows our humanity. In no other way would Jesus have become what he is to us, a pattern of all that is noble, true and pure. By his incarnation he dignified our manhood and makes us see how great a thing it is to be a man. Many of the combinations of flesh and blood called men have no real right to that name. Physical strength alone does not make a man. Some measure a man by his intellectual power, others look at the statesman, diplomat or business man and say he is the ideal man. Nothing so truly makes a man as real service. Every age has had its great men but each has had its imperfections. It is a sad reflection upon our American people that fraud and deception are so often applauded when they should be condemned. The call today is for men with strong convictions of right and wrong and strength to stand for right against ridicule and opposition. The call is for men who believe in Christ and are willing to stand back of his work. Money alone will not run a church, but money, people and religion make a fine combination.

The Epworth League had charge of the evening service at 7 o'clock and a very interesting meeting was held. The topic for next Sunday evening is, "How Can Our League Make Our Town Better?" and the leader is Alden Owen. Everyone is invited to attend these meetings which will take the place of the evening preaching service for a few Sundays.

Prayer meeting Thursday evening at 7.30 p. m.

Get \$100 Cash Haul.

For the third time within a few years the meat market of H. A. Folsom has been broken into. On Saturday morning when Clayton Wilson opened the market he discovered that the money drawer had been tampered with, and going to the safe found the money had been taken from that also. The entrance was made through a window into the back room and the money drawer had been opened without breaking it and about \$15 in silver had been taken.

The safe had not been locked the night before and more than \$100 had been taken from that. Four checks, which were with the money, were all safe as was a small amount of money in a pocket book. The work was evidently not that of a professional, but rather someone who knew local conditions.

Gov. Gates a Senatorial Candidate.

The St. Albans Messenger contains the following announcement from Charles W. Gates: "Numerous requests have come to me during the last few months and especially during the last two weeks, that I become a candidate for the office of United States senator. Until recently I have not been inclined to treat these requests seriously, but having become satisfied that they represent the honest wish of a considerable number of voters in different parts of the state I have, after careful consideration, decided to allow my name to appear on the ballot at the coming primary election as a Republican candidate for United States senator. I shall appreciate the support of all those who have confidence in my integrity of purpose, and who feel that I, if nominated and elected, would creditably represent Vermont in the United States senate. "Charles W. Gates, "Franklin, July 15, 1916."

Beach the Scene of Many Bathers.

May shore beach is the scene of a host of bathers these warm days since the water in Crystal lake has been very warm and the bathers have been many. It was estimated that at least 100 different persons were in the water during the day and evening yesterday and every one reports it delightful. Automobiles from Albany, Glover and Orleans have brought loads to bathe at this excellent beach. No more perfect conditions for bathing can be found. Here is a long sand beach with a perfectly gradual and smooth bottom where children can play in the water in perfect safety. A public bathhouse provides a means for dressing and there is opportunity for all. Car owners in this section may take advantage of this place.

Removing Danger Spots on Orleans Road

George Reed is removing the projecting ledge just north of the Plunkett place on the road from Barton to Orleans. This curve has been a dangerous one for motorists, and others, for years and the removal of the rock, allowing unobstructed sight, will render this heretofore dangerous place a safe one. Mr. Reed does the work for the town. The Monitor understands the selectmen after reading the following from the Brattleboro Reformer, thought the danger here must be eliminated. "Another danger spot is the narrow road with sharp curves where it is impossible to see the road ahead on account of shrubs and trees. Automobiles have considerable trouble at times when they meet on such curves, but the danger to them is by no means so great as it is to the young man who is holding his best girl in a buggy and neglecting his horse." The ledge opposite the Mitchell place on the same road has been removed also and the strip of road near it is to be fixed. This is the last bit of road to be improved between the two villages.

Mr. Hughes's Picture.

With every copy of the Monitor this week going to regular subscribers is a fine photograph of Charles E. Hughes, republican candidate for president. The picture is suitable for framing and is worth preserving. You will then have a picture of him after he becomes president.

The campers at Stone pond were astonished Sunday afternoon to see a large doe swimming in the pond. W. Reiden and C. A. Barrows.

Twenty members of the Barton band in four automobiles took their fourth annual outing Sunday and report the most enjoyable trip they have ever had. The full mileage was a trifle over 200 miles and the route was Irasburg, Lowell, Eden, Montgomery, Berkshire, Enosburg, Swanton, Albion, down the Islands, Sand Bar, Bridge, St. Albans, Cambridge, Johnson, Morrisville, Hardwick and Greensboro Bend.

Considerable excitement was caused Thursday afternoon by the runaway down Main and Church streets of the ice team belonging to Blake & May.

The team was standing in front of A. J. Smith's when they became frightened by an automobile which hit a buggy near them, and ran down the street, getting up considerable speed but making the "Keep to the Right" in front of the McLellan store. They attempted to make the turn up Mill Hill and crowded up on the Congregational church lawn, where they collided with a tree and freed themselves from the wagon and ran to the barn. Aside from slight damage to the wagon no harm was done but had there been any team or person in, the way it might have been serious.

The Barre Times contains the following, which is of interest to Mr. Johnson's many friends in Barton: "The marriage of Miss Alice Nora Averill, daughter of Mrs. Stella C. Averill of 8 North street, and William Curtis Johnson, Jr., also of Barre, took place yesterday (Wednesday, July 12) afternoon at the home of the groom's father, Rev. W. C. Johnson, in Windsor, whither the wedding party had motored earlier in the day. Only the immediate relatives were in attendance and the couple were unattended. Rev. Mr. Johnson was the officiating clergyman. Following the ceremony, Mr. and Mrs. Johnson left on a wedding tour to places in Canada, after which they will take up their residence at 74 Tremont street, Barre, and will be 'at home' after Aug. 15. The bride has been for several years in charge of the instrumental music department at Goddard seminary, having studied music for some time in Boston following her graduation from Brookline, Mass., high school. The groom is cashier of the People's National bank, in which institution he has been employed for seven years, coming to Barre from Barton."
