#### Hoar and Everts.

On one of his later birthday anniversaries Senator Hoar wrote to William M. Everts and congratulated him upon his length of years. In his reply the aged lawyer said it brought to mind an old lady in New England who had occasion to write to a friend about some matter of trifling importance and when she had reached the end of the thirteenth page awakened to the fact that she had been rather diffuse and added, "Please excuse my longevity."—Boston Globe.

**MR. WILSON HAS HAD NO MEXICAN POLICY.**  
"We cannot let the American spirit fall so low that, lapped in the luxury occasioned by a foreign war, we shall see American lives sacrificed without a determination to prevent it and to make the American game honored and respected wherever our flag flies. The trouble with this administration is this: I don't think it ever has had a policy in Mexico worthy of the name."—From Mr. Hughes' Speech at Chicago.

#### MR. HUGHES HAS EXPLODED THE "KEPT US OUT OF WAR" ARGUMENT.

Mr. Hughes' attack upon the "kept-us-out-of-war" argument has aroused a storm of enthusiasm. "Kept us out of war!" he demands. "Why, there were nineteen men—good American soldiers, shot down at Vera Cruz, and many Mexicans were killed by our men. That was war. Moreover, it was a very ignoble war. I have heard three explanations of the Vera Cruz move. "First, it was explained that it was made in order to compel somebody to salute the flag—somebody who had insulted us. But the flag was not saluted and has not been to this day. Then it was said that the salute was not what we sought, but to prevent the landing of a boatload of ammunition intended for Huerta. The ammunition landed, however, and it has been shown that it reached Huerta in due season without interference on our part. "When that reason was shown to be untenable a third one—and possibly the real one—finally was advanced. It was said that our seizure of Vera Cruz was a move to compel the retirement of Huerta. It seems possible that this is true, although we had promised the Mexicans that we would not interfere in their affairs and told them more than once that we wanted them to handle their own affairs. "That is why the Mexicans could not understand us and that is why they show little faith in our promises."

#### MANANA.

Manana, which is Mexican for "watchful waiting," is the Democratic keynote in the campaign. The Wilson drive is to begin "some time" after Sept. 1, but no definite engagements have been made, it is announced, for him to commence making political speeches. He has tentative engagements to make some western visits about the middle of September, but nothing positive. Plans are being formulated for carrying on a campaign to capture the woman vote of the country, but who will make the speeches on this phase of the controversy has not been determined. It has been expected that Mr. Bryan would speak in the Maine campaign, but it is now believed he cannot do so, but will make some speeches later. And so it goes. Watchful waiting will prevail, while in the meantime Mr. Hughes is carrying on a positive campaign and arousing the entire western country.

"I don't care, if I am elected president, what becomes of my personal political fortunes. I propose that we shall have no more, if I can stop it, of these 'kiss me and I'll kiss you' appropriations in Congress."—From Mr. Hughes' Speech at Chicago.

#### SOUTH-IN-SADDLE IN NAVY.

Out of the 17 Ranking Officers in Charge of Naval Affairs 12 Are From South.

To Josephus Daniels, who has represented the Administration's Policy with regard to the first line defense, is credited responsibility for cramping and thwarting progress and efficiency in the navy.

Many new men have been brought into the Washington end of the navy organization. Of the seventeen high ranking officers who are charged with the responsible duties of administering the affairs of the navy twelve are from the Southern states. In years gone by necessity did not arise to question from what section come the officers chosen to head the bureaus of the Navy Department. Comparisons between the army and navy in this respect will show that no such conditions exist in the war Department.

It is true, as Vice President Marshall remarked, that the Hughes speech of acceptance "had all the length and tone of a dissenting opinion." But he omitted to add that the dissenting opinion thus expressed is that of the American people.

#### WE WANT THE AMERICAN FLAG UNSULLIED.

"Now, my friends, we want not only American efficiency in business, in efficiency in the organization of business, in the protection of the factors of human industry and commerce, we want the American flag unsullied and the American name honored throughout the world."—From Mr. Hughes' Speech at Chicago.

#### How Much is Now Left of the Baltimore Platform?

The president had boldly signed the Pork river and harbor bill, and his facile pen is dripping with ink eager to attach itself to a pork public buildings bill.

The friendliest apologists of the president's part in the profligate waste of money wrung from the people by oppressive taxation have nothing better to say for him than that it is hardly fair to expect a man to say "I forbidd" in his presidential year when he is a candidate.

The foregoing words describing the profligate waste of the people's money with executive approval are taken without change from a plank of the platform on which Woodrow Wilson was elected in 1912.

"We denounce the profligate waste of money wrung from the people by oppressive taxation through the lavish appropriations of recent Republican congresses, which have kept taxes high and reduced the purchasing power of the people's toll. We demand a return so that simplicity and economy which befits a democratic government."

How much is now left of the principles declared and the promises registered at Baltimore as inducements to citizens to vote for Wilson.

Possibly it is because he and his party have been such reckless, such wholesale repudiators of the pledges of 1912 that few people remember or care to remember what pledges were made in his behalf about forty days ago at St. Louis.—New York Sun.

**THE AMERICAN WORKING MAN SHALL NOT SUFFER**  
The Republican party stands for the principle of protection. We must apply that principle fairly, without abuses, in as scientific a manner as possible; and congress should be aided by the investigations of an expert body. We stand for the safeguarding of our economic independence, for the development of American industry, for the maintenance of American standards of living. We propose that in the competitive struggle that is about to come the American working-man shall not suffer.—From Mr. Hughes' Speech of Acceptance.

It was stated that the president would work on his acceptance speech during his week end trip on the Mayflower. Among the salt blivvers there should be some inspiration for ringing sentiments on naval preparedness.
