## ORLEANS LOCAL MENTION

(Continued from opposite page.)

Mr. and Mrs. M. M. Taplin and Mr. and Mrs. Harry Dickens attended the sale of pure bred Red Cross calves at St. Johnsbury Monday evening. Mr. Taplin was auctioneer and Mr. Dickens assisted. There was a great crowd and the calves brought \$420, being bid off several times.

Gov. Horace F. Graham comes here Friday, May 31st under the auspices of Orleans high and graded schools in the interest of the W. S. S. The school will march in a body to the opera hall leaving the school at 2 o'clock. Gov. Graham will bring a message to the people that will enable them to see their duty regarding the war savings and thrift stamp campaign and it is the purpose of the committee to make the day count for Uncle Sam.

Mr. and Mrs. Bert Converse of Barnston, Que., visited their cousins, Mr. and Mrs. E. H. Lothrop, last week and while in town bought what is known as the Perley house on Prospect street of Mrs. E. O. Ranney. Mr. Converse is a creamery man and he just sold his business and place of residence in Barnston and will move his family here about the first of June. He has a son, Hazen Converse, in the Canadian army and two daughters, Miss Clemma Converse, a teacher in Barnston and Miss Hazel, a musician of marked ability.

The Red Cross wishes through the Monitor to express its thanks to the Orleans club for the hospitality of the winter, and the cordial invitation given to continue the use of the club rooms. A large attendance at the sewing department is requested for Thursday afternoon. The surgical dressing department will meet with Mrs. Ranney Wednesday and Thursday. All are urged to prepare for this line of Red Cross work as the need is great during the battles of the summer for surgical dressings and we must not let the supply at the storerooms run short.

Last evening about 30 relatives and friends met at the home of Henry Currier and went in a body to the home of his brother, Walter Currier, where a surprise party was given in honor of his departure the 25th for military service. Leon Tatro of Newport, in behalf of the friends, presented Mr. Currier with a wrist watch and Miss Flora Goddard of Newport presented a traveling kit, which she had made in the factory in which she is employed. A very pleasant evening was spent. Mrs. Currier will remain at her apartments in the Brown block for the present.

### AFTER THREE YEARS

Many men and women are sick and don't know it. Some never discover they have kidney trouble until they apply for life insurance. The kidneys are working all the time, filtering poisonous waste out of the blood stream, and when they become weakened or deranged, backache, pains in sides and groins, so-called rheumatism, languidness, swollen joints and other symptoms develop. W. B. Moss, Ogden, Ark., writes "Foley Kidney Pills relieved me of severe kidney trouble after three years' standing."—Fred D. Pierce, Barton; G. H. Hunt, Evansville.

### Longevity of Customs.

The longevity of customs is curiously illustrated in the case of Lord Forester, the fifth baron, whose death is announced. King Hal took an ancestor of Lord Forester so deeply into favor as to grant him leave to wear his hat in the "presence." The right became an heirloom, and is one of the trifles of etiquette to be remembered on occasion by officials of the court. The Foresters were originally of Watling street, and had charge of the Wrekin forest.—London Chronicle.

APPRECIATION OF PAUL L. HARRIMAN.

"Vermont Association Notes," the official organ of the Young Men's Christian Association of Vermont, has the following regarding Paul L. Harriman, whose death was recorded in these columns in January. The above publication kindly loaned this paper the cut of Mr. Harriman presented herewith:

"The sorrow connected with the great war was brought home to us Vermonters by the death of Paul L. Harriman early in the winter, at Camp Greene, N. C., where he was in

training in the ambulance corps. So far as we know Mr. Harriman is the only one thus far to give the great sacrifice who has been actively connected with the Y. M. C. A. in Vermont early in the spring of 1916, Mr. Harriman became an assistant in the state office of the Y. M. C. A. and spent the summer in the same capacity at Camp Abnaki, the state Y. M. C. A. boys' camp. While at camp Mr. Harriman made many friends of the boys from all over the state and also from other states. Everyone who knew him will regret that he has been claimed by the God of War."

María Theresa.  
The most celebrated instance of the Sallic law in history is the accession of María Theresa, empress of Austria, writes Fred H. Peterson in Case and Comment. She was the only child of Charles VI, who was emperor from 1711 to 1740. During his entire reign he devoted himself to assure his succession in María Theresa, making many sacrifices and treaties to accomplish that purpose. The Sallic law excluded her from her father's throne, but in 1713 he caused an act to be passed, known as the Pragmatic Sanction, which suspended the Sallic law in so far as she was concerned.

Extracting Broken Screw.  
A tool for extracting broken set screws is described by the Scientific American as resembling a drill with a coarse left-handed thread. A hole is drilled into what remains of the screw or bolt, the extractor is inserted and as it turns it exerts a reverse influence on the broken screw and backs the latter out on its own thread.

## Save Fuel Wisely

Saving fuel is working hand in hand with the Government these days. And one way to save wisely and well is to use SO-CO-NY—the quality gasoline. It means minimum consumption and maximum power.

Inferior, low-grade mixtures mean waste in the form of increased consumption, lost power and excessive carbon deposits.

There's power in every drop of SO-CO-NY. It's clean, quick starting; reliable; obtainable everywhere.

Look for the Red, White and Blue SO-CO-NY Sign. It's the wise way to save fuel.
