OCCUPY NEW HOME

Larabee & Centebar Move to Main Street Block Just Finished.

The firm of Larabee & Centebar, organized in March, has moved to their new home just finished by Contractor F. N. Bilodeau on what is known as the "Woodman" lot on Main street.

Members of the firm need little introduction to the people of Barton and vicinity. A. A. Larabee having been in the plumbing and heating business in one capacity or another in Barton for nearly 30 years. Mr. Larabee learned his trade in Craftsbury and worked a year in Greensboro before coming to Barton where he entered the employ of H. T. Seaver and remained 13 years. Fifteen years ago he went into business for himself in the Elliott block on Main street where he remained 14 years, moving his business to his house on Glover street some more than a year ago when the Elliott block was sold to A. R. Robinson.

Mr. Centebar has been in Barton more than three years, having come to the employ of Frank Paddelford from service overseas and remained with I. A. McRitchie when he bought the Paddelford business until this spring when he and Mr. Larabee formed a partnership. Mr. Centebar learned his trade in Rochester, N. Y., and previous to the World war was employed by True & Blanchard Co. of Newport and by Mr. Kier of Craftsbury.

The new building of the firm is a wood structure, two stories high with basement, 32x42 feet. The street floor is built for a store, the entire space being one large room, well lighted, sheathed with wood on the walls and steel overhead. This makes a splendid store space. The front is of glass containing a central entrance and two plate glass windows, 11 1/2 x 6 1/2 feet. An entrance and stairway to the tenement on the second floor is on the south side of the building. The store contains a stock of heating and plumbing goods and will be enlarged to contain a full line of hardware, etc.

The basement is arranged for a plumbing and heating shop, is extremely light and convenient. A cash pocket extends across the entire front under the cement approach to the building which sets back about 10 feet from the sidewalk. A hot water heating plant will be installed.

The second story is a splendid tenement consisting of two rooms, a bath and toilet room and porch at the back. These rooms are nicely finished, light convenient and pleasant. Mr. and Mrs. Centebar will occupy this tenement.

The building occupies one of the finest lots in town and is a distinct addition to Main street.
