THE GEOGRAPHY OF THE HEAVENS, and CLASS BOOK OF ASTRONOMY, accompanied by a Celestial Atlas. By Elijah H. Burritt, A. M. Third edition, with an Introduction by Thomas Dick, LL. D., author of the Christian Philosopher, &c.

From the Rev. T. H. CALLAUDET, late Principal of the Asylum for the Deaf and Dumb, Hartford Conn. The simple object of the work is, to form a Class Book which shall be to the stary heavens what Geography is to the earth. The Atlas, which contains six maps, is so arranged as to furnish a very valuable substitute for a Celestial Globe, and in some respects to be superior to it. It is much cheaper. It gives a faithful portrait of the heavens for every day in the year, and does not require to be rectified for that purpose like a Globe. Nearly all the problems that are peculiar to the Globe, and a great number beside, can be solved by it. It can be put into the hands of each member of a class at the same time, but a Globe cannot be. There are other advantages also which are enumerated in the preface of the work. For sale by SMITH & HARRINGTON.  
May 17.

RICHARDSON'S DICTIONARY. This Day published, part 2, price 50 cents. of a new Dictionary of the English Language; by Charles Richardson. This work will form two quarto volumes, each page containing three closely printed columns, and the whole will be completed in 30 parts.

"We are inclined to consider the English language as having attained that fulness of maturity which leaves no wish for increase, but only anxiety for preservation. As helps to this, we have the various acceptations, in which every word has been used by approved writers, collected by Mr. Richardson, in a Dictionary, such as, perhaps, no other languages could ever boast; and we have a new guide for the theory and use of languages, exemplifying his (Horne Tooke's) principles by applying them to our own tongue."—Quarterly Review.

Notice.—The publisher has, with the hope of bringing this VALUABLE DICTIONARY within the reach of all classes, reduced the price from sixty-three to fifty cents each part. The whole will be completed for FIFTEEN DOLLARS. A large circulation, at this low price, will be required to meet the actual cost of the materials, which the patronage extended to the first part leaves ample reason to expect will be attained. Two thirds of the work being now in stereotype, two parts will be published each month. Subscribers names received by SMITH & HARRINGTON.

### KERN & EVANS

HAVE just received from New York, their spring supply of goods, comprising a choice selection of CLOTHS, CASSIMERES, VESTINGS, TRIMMINGS, &c. which with their former stock, makes their assortment the best they have ever offered. And notwithstanding the present unparalleled high prices of goods in market, our arrangements are such that we shall still be enabled to furnish our customers with very superior articles at a small advance from former prices for prompt pay.

We will take the present occasion also, to correct an erroneous impression, that we sell only to those who employ us to make their garments. This is entirely a mistake. Much as it might gratify us to do our friends justice in the fit, as well as the fabric, we shall nevertheless be equally happy to furnish the materials for those who may find it more convenient to employ other mechanics.  
Burlington, May 12, 1836.

### Botanic Infirmary.

Burlington, Vt. DOCT. BENJAMIN THOMPSON, founder of the Concord Botanic Infirmary, feeling a deep interest in the cause of suffering humanity, and, determined to use his utmost exertions to complete that reform in medical practice, which has already so gloriously commenced, has opened an Infirmary in the Mansion House, on Burlington square. The unparalleled success which has attended his practice in New York, Boston and Concord, in which places he has had several thousand patients under his care, (more, probably, than any other practitioner in the civilized world in the same time,) will be a sufficient guaranty of the confidence of the intelligent citizens of Vermont. Those who are acquainted with the Thompsonian system of practice from personal knowledge, need no commendation of its truly wonderful virtues. To such, (as says the venerable Dr. Donj. Waterhouse, for many years professor of Materia Medica in the University of Cambridge) it is the anchor of hope—the most invaluable of earthly blessings. But with those who have never had an opportunity of witnessing its health-preserving and restoring influences, it is the part of common sense and discretion, candidly to examine its claims, and not [as has too often been the case] condemn the Botanic Physician unseen and unheard.

Doct. Thompson, although he is unwilling to assume and defend the mal-practice which has characterized some of the pretended Thompsonian practitioners, seeks not to hide himself from public scrutiny, but solicits free and fair discussion, and a fair comparison of the Botanic with the Mineral practice. This course he has always desired, and has repeatedly, in his former communications to the public, challenged the regular physicians to a comparison of the merits of their respective systems. He who candidly engages in the investigation of the system, will find its theory of disease simple, yet supported by sound reasoning—its practice based upon, and in accordance with that theory, simple yet effectual, and the success that has attended it, wonderful beyond any thing which has preceded it in the history of medicine.

The Female Department of the Infirmary is constantly under the superintendance of a female, who is competent to perform all the duties assigned to that department. Terms—Three dollars per week for board, and three dollars for each course of medicine, and if only one course proves necessary, one dollar extra is charged.

No accounts will be opened. Payment must, in all cases, be made in advance. N. B. A general assortment of genuine Botanic Medicine, for sale, together with several works on the Botanic System, which have not before been offered to the public, for sale by Doct. Thompson and his brother in Boston, are sole agents for the principal part of the New England States. Further particulars hereafter.

### TICKETS OF ADMISSION 25 CENTS, CHILDREN UNDER 10 YEARS OF AGE HALF-PRICE.

### THE UNICORN.

### OR ONE HUMPED RHINOCEROS.

This animal has been a subject of much curiosity among naturalists. It has been described by Theophrastus Commentator, as the Unicorn of Holy Writ, as mentioned in a certain certain rank next to the Elephant in size, and many writers consider him equal in bulk. He is usually found about 12 feet long, and the circumference of the body about equal to the length, and his height about 8 feet. He is a native of Asia and Africa, and is usually found in those extensive forests that are frequented by the Elephant, Lion and Royal Tiger, and subsists entirely on vegetable food. The one here offered for inspection is the first Living Rhinoceros ever brought to this country; he is 8 years old, his weight is Four Thousand Two Hundred Pounds; he was taken at the foot of one of the Himalaya mountains.

This splendid collection of rare and curious Animals, will be opened to the public at Burlington, on FRIDAY, and SATURDAY, the 20th and 21st of May, instant. The hours of Exhibition will be, from 1 to 3 o'clock, on Friday, and from 10 to 12, and 2 to 4 on Saturday. In addition to the animals above enumerated, the Menagerie embraces the following rare catalogue: Young Elephant, the smallest ever offered for exhibition in the United States; male Kangaroo; male Porcupine; Dromedaries; Polar Bear; large Elephant; African Ostrich; Peruvian Lama; pair of Pelicans; spotted Hyenas; Monkeys; gigantic Crane; Badger; Vultures; large Chamois; Zebras; Jaguar; two humped Camel; Macanco; North American Bear; Lynx; pair of Emeus; Cassowara, &c. &c. The keeper will enter the cage with the Lion and Lioness and Leopards, four animals in one cage, and with a pair of Royal Tigers, at 3, P. M.

There will also be exhibited at the same place and on the same day, a large collection of Wax Figures, Comic Singing, &c. Doors of admittance from the inside of the caravan. Admittance 12 1-2 cents.

The above will also be exhibited at Safford's in Richmond, on THURSDAY, the 19th, and at Milton Falls, on MONDAY, the 23d.

### Winooski Patent Block Manufacturing Company.

THE Directors of this Company respectfully inform their friends and the Maritime public of the United States generally, that they have purchased the whole of the establishment formerly known as the Livingston Patent Block Machinery, with all the extension of the patent rights recently granted by Congress to Thomas Blanchard, Esq. the original inventor and patentee, together with all the late improvements made and patented by him. They have manufactured and now offer for sale a large stock of machine made, solid, common and bushed Ship's Tackle Blocks, from 5 to 9 inches, and machine made Plank Blocks, from 7 to 16 inches, and other articles on reasonable terms.

They further inform the public that they have made arrangements for removing their machinery from New York to the site of a new mill with an 80 horse power water wheel built expressly to receive it, at Burlington, Vt. in the heart of a country abounding with the finest and best of timber for their purpose—whence they intend sending to the New York market a large, constant, and regular supply of these and other articles in the Block making line. They further add that it is their intention to increase the machinery so as to meet the present and future demands of the blockmaking trade and maritime public throughout the United States.

This Company has lately been incorporated by the State of Vermont with a large capital expressly for this purpose. A large discount will be allowed to the trade, and a liberal discount to ship chandlers and others. Orders addressed to William Serrell, superintendent at the company's office and store, No. 84 South street, N. York, will meet due attention. Burlington, 21st March, 1836.

Burlington, April 6, 1836.

### IMPROVED Rotary Stoves.

THE subscriber has just received from the Foundry of J. D. Ward, Vergennes, No. 2 and 3 Rotary Cooking Stoves & Trimmings; Box do. Coldron Kettles, Ploughs, &c. &c.

which are offered for sale for cash or approved credit. P. S. He wishes to call the attention of the economical, to the fuel and labor-saving properties of the Rotary Stove, and its peculiar adaptation as a Summer Cooking Stove. By the use of the grate, a very small amount of fuel is required for the culinary operations of any family; less by one half, it is believed, than is required by any other Stove in use. Its form and height is such that it admits of being placed in the fire places of ordinary kitchens, so that most of the heat and effluvia from it passes off by the chimney. The saving of fuel effected by the Improved Rotary, in one year, over that of almost any other Cooking Stove, is fully equal to its cost, besides the superior facility and care with which the several culinary operations are performed with it.

Also, Tea and Marlin Kettles of various sizes, cast expressly for this Stove. GEO. PETERSON.
