

**LINES.**  
Written on the passage of Pinckney's Resolutions in the House of Representatives, and of Calhoun's 'Bill of Abominations' in the Senate of the United States.

**BY J. G. WHITTIER.**  
Now, by our fathers' ashes! whose the spirit  
Of the true-hearted and the unbacked one?  
Sons of old freedom, do we but inherit  
Their names alone?

Is the old pilgrim spirit quenched within us?  
Stoops the proud manhood of our sons so low,  
That mammon's lure or party's wit can win us  
To silence now?

No—when our land to ruin's brink is verging,  
In God's name, let us speak while there is time;  
Now, when the paddocks for our tips are forging,  
SILENCE IS CRIME!

What! shall we henceforth humbly ask as favors  
Rights all our own? In molasses shall we barter  
For treacherous peace, the Freedom Nature gave us  
God and our charter?

Here shall the statesman seek the free to fetter?  
Here Lynch law light its horrid fires on high?  
And in the church, their proud and skilled abettor,  
Make truth a lie?

Torture the pages of the hallowed Bible,  
To smother crime and robbery and blood,  
And in Oppression's hateful services, bid  
Both man and God?

Shall our New England stand erect no longer,  
But stoop in chains upon her downward way,  
Thicker to gather on her bow and stronger  
Day after day?

O no; methinks from all her wild green mountains—  
From valleys where her shadowing fathoms lie—  
From her blue rivers and her swelling fountains,  
And clear, cold sky;

From her rough coast and isles, which lonely ocean  
Guares with his surges—from the fisher's skill,  
With white sail swaying, the laborer's motion  
Round rock and cliff;

From the free fire-side of her unthought farmer—  
From her free laborer at his loom and wheel—  
From the brown steeple ship, where beneath the  
hammer  
Rings the red steel;

From each and all, ah! if God hath not fore-ken  
Our land, and left us to an evil choice,  
Loud as the summer thunder, but shall waken  
A PEOPLE'S VOICE.

Starting and astart! the northern winds shall bear it  
O'er Potomac's to St. Mary's cove,  
And buried Freedom shall awake to hear it  
Within her grave.

O let that voice go forth—the hallow'd sighing  
By Santee's wave—in Mississippi's cove,  
Shall feel the hope, within his bosom dying,  
Revive again.

Let it go forth!—The millions who are gazing  
Sadly upon us, from afar, shall witness  
And, unto God devout thanksgiving raising,  
Bless us in the wide.

O for your ancient freedom pure and holy,  
For the deliverance of a groaning earth,  
For the wronged captive, bleeding, and lowly,  
Let it go forth!

Sons of the best of fathers! will ye falter  
With all they left ye, piled and at stake?  
Ho! once again on Freedom's look alark  
The lie awake!

Prayer strengthened for the trial, come together,  
Put on the harness for the moral fight,  
And, with the blessing of our heavenly Father,  
MAINTAIN THE RIGHT!

**SINGULAR.** Some days ago, as the attendants were about to place in the coffin the body of the wife of a physician of the town of St. Chamond, in Canada, who was supposed to have died the day before, the assistants fancied that the body was still and even that it moved. It was in fact, alive and even that the vital spark was not extinct; and the room was about to be cleared when the sister and servant of the doctor were both suddenly struck dead by lightning, which injured several persons present, and set fire to the upper part of the house. The flames were soon extinguished. The shock also destroyed the feeble hope that had been entertained of restoring the physician's wife, and on the following day three corpses were carried to the cemetery instead of one. *Gilligan's Messenger.*

**Bad news for the Barbers.**—The following advertisement appears in the late numbers of the London Courier: "To shave without a razor, soap, or water, has been deemed impossible; the newly invented Axrite will, however, effectually supersede the old plan, and be found to possess most extraordinary advantages. To the sportsman, or traveller, the nervous, or overworked, it is invaluable, its operation being safe, easy, and expeditious. It may be used whilst walking, riding, or sailing; is cleanly, durable, and economical."

**Imports of Grain.**—It appears from a statement which the N. Y. Journal of Commerce procured from the Custom House, that there have been imported into that city, for the two first quarters of the present year, ending on the 30th of June, 120,176 bushels of wheat and 27,421 bushels of oats. The quantity of rye imported is supposed to be as large as that of wheat.

The New York Commercial Advertiser says that Richard P. Robinson is not with in the United States, but is fighting against the Mexicans. Mr. Hoax, Robinson's employer, has authorized the editor of the Commercial to say that he has never yet been able to ascertain that the wretched young man has ever wronged him to the amount of a single cent.

The number of suicides in Paris during 1835, was 229, of which 73 were committed by females. The women principally destroy themselves by submersion from the vapor of charcoal, 47 of the above having taken this means. Not one had killed herself by any sharp or pointed weapon; 6 had died from throwing themselves out of windows, but only four men have chosen this death. Among the suicides by men, 24 have effected it by means of fire arms; 7 by sharp weapons; 71 by self-cutting from the fumes of charcoal; 17 by drowning; 32 by hanging, a death which has been chosen by 9 women. Poison was taken by 4 men and 4 women. The number of suicides between 17 and 20 years of age was 17, of which 4 were females; between 20 and 30 there were 55, of which 23 were by women. After 30 the women are less given to suicide; but they continue to be numerous among the men up to the age of 50. *ib.*

### 1836.

**Summer Arrangement.**  
On Monday, the 4th of July, the Franklin and Winooski will leave Whitehall and St. Johns, at TEN o'clock, A. M.; and will continue to leave at that hour until Monday the 5th day of September, when they will again leave the above mentioned places at ONE o'clock, P. M. the remainder of the season.

PANGBORN & BRINSMARD.

### NOTICE

To the inhabitants of Burlington & Vicinity.  
THE undersigned has rented the store formerly occupied by Wm. Wells, and the last year by David Irish, where he is now receiving from New York a general assortment of DRY GOODS, WET and DRY GROCERIES, CROCKERY, GLASS and HARD WARE, which he will sell for cash or such kinds of country produce as cheap as the cheapest.

He takes this opportunity to thank the public for the general support he has received for the short time he has been in business, and he hopes, by giving good bargains and paying strict attention to business, still to receive the same general support.  
SOLOMON WALKER.  
Burlington, May 21, 1836.

### Atina Insurance Company.

THE subscriber continues to insure all kinds of real and personal property as agent for said Company, to whom an application may at all times be made at his Office in Burlington. The established reputation of this Company for stability, fairness and liberality in their dealings, needs no further commendation.  
Wm. A. GRIEZWOLD.  
Burlington, April 6, 1836.

### Dye Stuffs.

150 BBLs. ground Campeachy Log wood, 100 do do Nicaragua. 100 do do Fustic. 50 do do camwood. 10 do do Madder. 25 do do copperas. 15 do alum. 15 do blue vitriol. 25 carboys do oil. 2 lbs argol. 2 do cream tartar. 2 bales nut galls. 5 carboys indigo. Clothiers' brushes, tent hooks, and press papers.  
J. & J. H. PECK & CO.

### Cotton Goods.

10 BALES Lawrence, Cambric, Cabot and Red River Cottons; 4 bales heavy stout Sheetings; 900 lbs. Cotton Yarn, 5 to 10—by  
LEMUEL CURTIS & Co.  
July 22, 1836.

### Mannilla Mats.

4 Doz. Mannilla Mats, of every size and color—by  
LEMUEL CURTIS & Co.  
July 22, 1836.

### IMPROVED Rotary Stoves.

THE subscriber has just received from the Foundry of J. D. Ward, Vergennes, No. 2 and 3  
**Rotary Cooking Stoves & Trimmings; Box do. Coldron Kettles, Ploughs, &c. &c.**

which are offered for sale for cash or approved credit.

P. S. He wishes to call the attention of the economical, to the fuel and labor-saving properties of the Rotary Stove, and its peculiar adaptation as a Summer Cooking Stove. By the use of the grate, a very small amount of fuel is required for the culinary operations of any family; less by one half, it is believed, than is required by any other Stove in use. Its form and height is such that it admits of being placed in the fire places of ordinary kitchens, so that most of the heat and effluvia from it passes off by the chimney. The saving of fuel effected by the Improved Rotary, in one year, over that of almost any other Cooked Stove, is fully equal to its cost. Besides its superior facility and care with which the several culinary operations are performed with it.

Also, Tea and Marlin Kettles of various sizes, cast expressly for this Stove.  
GEO. PETERSON.  
Burlington, March 31, 1836.

### Tin Plates, &c

Tin Plates; Russia, English and American sheet Iron; iron Ware; sheet and bolt Copper; sheet Zinc; tinned and black Rivets; wire Vellum, &c.

J. & J. H. PECK & CO.  
June 16.

### DOCT. WHICHER.

FORMERLY from Dover, N. H. takes this opportunity to inform his friends and the public that he has opened a Botanic Infirmary at the Green Mountain House, in Pearl street, Burlington, Vermont, where he has fitted up rooms for the accommodation of the sick and infirm, and will practice in strict conformity to the system of Doct. Samuel Thomson of Boston, who has now become so celebrated, not only in the United States, but in Europe. "The Thomsonian System" has not only received the entire approbation of all who have tried its merits, but it has also received the unqualified approbation of many of the regular Practitioners. Doct. W. would beg leave to say to strangers, in regard to his qualifications, that he has spent three years diligently studying the principles of his profession, with Doct. Thomson and other distinguished practitioners; that he has visited all the Infirmarys in New England, and can confidently offer himself to the public as well qualified to administer to the diseases of the sick, so far as preparatory studies and the best advantages for information, will enable him to do.

Mrs. Whicher having been at great pains to acquire information in Botanic practice, and having had two years experience in the profession with her husband, will take charge of the female department of the Infirmary.

Doct. W. in addition, would beg leave to report a number of cures performed under his own hand. First, the cure of William Walker of Franklin, N. H., who was entirely cured of the Rheumatism and Strangury in their worst stages, in the course of twelve days, after baffling the skill of all the learned doctors in the country.

Second, the case of Robert Sibly, cured of a bad eye, in five days, after having been deprived of his sight for a very considerable time.

Third, the cure of Fidelia Elkins of Northfield, N. H., deprived of her reason seven years, was restored to again after a treatment of eighteen days, and to perfect bodily health.

Fourth, the cure of Aedine Ham, had eyes for six years, exceedingly sore—entirely cured in five days.

Fifth, the cure of Martha Scrutin, swelled neck, supposed to be Kings-Evil—cured in five days.

Sixth, the cure of Mr. Maro. This was a case of Asthma, which had continued one year and was cured in four days.

Seventh, the cure of Sibil Watton, was a case of Dyspepsia, Rheumatism and Croup—cured in eight days.

Eight, the cure of Elnedia Quimby, cured of Consumption, after having been given over by all the doctors in the place.

Cure of Jacob Sawyer of Dover, N. H., cured of Dropsy and Fever Sore, seventeen years standing, in four weeks.

The case of Amelia Whicher, after twenty years sickness of Dropsy, Dyspepsia and Paralytic shock, and of taking opium six years—was cured in twenty days.

Mr. W. has had two hundred patients and has given between four and five hundred courses for complaints of all descriptions, with entire success. Mr. W. is satisfied that his mode of treatment has all the beneficial effects of a visit to the springs—while it saves the patient in many cases, an enormous expense.

Mr. W. would just inform his friends that he has on hand a complete assortment of Botanic Medicines, from the hand of Doct. Samuel Thomson. That he has also family rights and Doct. Robinson's Bitters for sale.

Mr. W. acts as agent for Doct. Samuel Thomson of Boston, not Benjamin Thomson of Concord, N. H. nor Jesse Thompson of Mount Vernon Charles-street, Boston.

N. B. Patients should always have a change of linen when they put themselves under his care.  
April 14, 1836.

### Soda, Seidlitz, and Lemonade

Powders, prepared and sold by Dr. Heineberg, at his apothecary shop, Church st. July 8, 1836.

June 23.

### Liverpool Blown Salt.

20 SACKS, just received by T. F. & W. L. STRONG.  
June 14, 1836.

### KERN & EVANS

HAVE just received from New York, their spring supply of goods, comprising a choice selection of CLOTHS, CASSIMERES, VESTINGS, TRIMMINGS, &c. which with their former stock, makes their assortment the best they have ever offered. And notwithstanding the present unparalleled high prices of goods in market, our arrangements are such that we shall still be enabled to furnish our customers with very superior articles at a small advance from former prices for prompt pay.

We will take the present occasion also, to correct an erroneous impression, that we sell only to those who employ us to make their garments. This is entirely a mistake. Much as it might gratify us to do our friends justice in the fit, as well as the fabric, we shall nevertheless be equally happy to furnish the materials for those who may find it more convenient to employ other mechanics.

Burlington, May 12, 1836.

### Botanic Infirmary.

Burlington, Vt.

DOCT. BENJAMIN THOMPSON, founder of the Concord Botanic Infirmary, feeling a deep interest in the cause of suffering humanity, and determined to use his most exertions to complete that reform in medical practice, which has already so gloriously commenced, has opened an Infirmary in the Mansion House, on Burlington square.

The unparalleled success which has attended his practice in New York, Boston and Concord, in which places he has had several thousand patients under his care, (more, probably, than any other practitioner in the civilized world in the same time,) will be a sufficient guaranty of the confidence of the intelligent citizens of Vermont. Those who are acquainted with the Thomsonian system of practice from personal knowledge, need no commendation of its truly wonderful virtues. "To such, (as says the venerable Dr. Benj. Waterhouse, for many years professor of Materia Medica in the University of Cambridge) it is the anchor of hope—the most invaluable of earthly blessings." But with those who have never had an opportunity of witnessing its health-preserving and restoring influences, it is the part of common sense and discretion, candidly to examine its claims, and not (as has too often been the case) condemn the Botanic Physician unseen and unheard.

Doct. Thompson, although he is unwilling to assume and defend the mal-practice which has characterized some of the pretended Thomsonian practitioners, seeks not to hide himself from public scrutiny, but solicits free and fair discussion, and a fair comparison of the Botanic with the Mineral practice. This course he has always desired, and has repeatedly, in his former communications to the public, challenged the regular physicians to a comparison of the merits of their respective systems. He who candidly engages in the investigation of the system, will find its theory of disease simple, yet supported by sound reasoning—its practice based upon, and in accordance with that theory, simple yet effectual, and the success that has attended it, wonderful beyond any thing which has preceded it in the history of medicine.

The Female Department of the Infirmary is constantly under the superintendance of a female, who is competent to perform all the duties assigned to that department.

Terms—Three dollars per week for board, and three dollars for each course of medicine, and if only one course proves necessary, one dollar extra is charged.

No accounts will be opened. Payment must, in all cases, be made in advance.

N. B. A general assortment of genuine Botanic Medicines, for sale, together with several works on the Botanic System, which have not before been offered to the public, for which Doct. Thompson and his brother in Boston, are sole agents for the principal part of the New England States. Further particulars hereafter.

BENJAMIN THOMPSON, Botanic Physician.  
May, 1836.

### Drugs & Medicines.

THE subscriber has just received from New York and is now opening an extensive assortment of Drugs and Medicines, which he offers cheap for cash or short credit. The stock comprises many of the new French medicines and an assortment of the most approved genuine patent medicines. June 10.

### Winooski Patent Block Manufacturing Company.

THE Directors of this Company respectfully inform their friends and the Maritime public of the United States generally, that they have purchased the whole of the establishment formerly known as the Livingston Patent Block Machinery, with all the extension of the patent rights recently granted by Congress to Thomas Blanchard, Esq. the original inventor and patentee, together with all the late improvements made and patented by him. They have manufactured and now offer for sale a large stock of machine made, solid, common and bushed Ship's Tackle Blocks, from 5 to 9 inches, and machine made Plank Blocks, from 7 to 16 inches, and other articles on reasonable terms.

They further inform the public that they have made arrangements for removing their machinery from New York to the site of a new mill with an 80 horse power water wheel built expressly to receive it, at Burlington, Vt. in the heart of a country abounding with the finest and best of timber for their purpose—whence they intend sending to the New York market a large, constant, and regular supply of these and other articles in the Block making line. They further add that it is their intention to increase the machinery so as to meet the present and future demands of the blockmaking trade and maritime public throughout the United States.

This Company has lately been incorporated by the State of Vermont with a large capital expressly for this purpose.

A large discount will be allowed to the trade, and a liberal discount to ship chandlers and others. Orders addressed to William Sterrett, superintendent at the company's office and store, No. 34 South street, N. York, will meet due attention.  
Burlington, 21st March, 1836.

### Tobacco and Snuff.

J. & J. H. PECK & Co.  
June 16, 1836.

### Important Information!

TO PERSONS AFFLICTED WITH THE FOLLOWING COMPLAINTS.

SCROFULA, Leprosy, Salt Rheum, St. Anthony's Fire, Fev. Sores, even when the bones are affected, White Swellings, Violent Eruptions of measles, when merris, has failed and all disorders arising from an impure state of the Blood and Humors—  
DR. RELFES

### BOTANICAL DROPS

continue unrivalled for the Prevention, Relief and Cure of these complaints. In proof of which read the following:

Remarkable cure of a case of 12 years standing. Extract of a letter. Sir—My leg which before did not look like a human limb, is now entirely healed up, (after resisting every other application for 12 years.) Previous to taking your Relief Botanical Drops, I had given up all hope of relief.

Another Case. An agent writes—"There is a person taking the Botanical Drops, evidently with the greatest advantage." He declares, to use his own words, "It is doing wonders for him," and as it were, "snatching him from the grave."

Numerous instances have occurred where persons were pining away a miserable existence, nothing they could procure affording them a permanent relief, until they had made use of the above invaluable Medicine.

They are also the best spring and autumnal Pharmacy. Price \$1, or 6 bottles for five dollars.

### THE PILLS

One of the most thorough remedies known for this troublesome complaint. It has more perfectly answered the purpose for which it is intended than any other now in common use, and affords immediate and permanent relief, both from the disorder itself, and its accompanying symptoms of pain in the bowels, vertigo, headache, loss of appetite, indigestion, and other marks of debility.

Price \$1 for both articles—Ointment & Electuary—or 50 cents when but one only is wanted.

J. & J. H. PECK & CO. Wholesale Agents.

None are genuine unless signed T. KIDDER, on the wrapper, (sole proprietor and successor to Dr. Conway,) by whom they are for sale, at his Counting Room, No. 99, Court st. Boston, and by his special appointment,  
J. & J. H. PECK & Co.

### LOOK!

ONLY 2 1/2 cents per light for window sash where 50 windows are sold, or 2 3-4 cents for a less number; warranted to be equal if not superior to any manufactured by hand, for sale by the subscriber, north side the Court-house Square.  
WM. BLAKE.  
Burlington, May 10, 1836.

### EYE WATER.

Dr. Adams' Celebrated Eye Water, Warranted an effectual cure for sore, weak, and inflamed eyes.  
PRICE 25 CENTS PER VIAL.

THIS celebrated article was invented by one of the most distinguished physicians of the age, and during an extensive practice of 30 years, he invariably resorted to it in all cases of sore, weak and inflamed eyes, that came under his notice, and so great a celebrity did he acquire thereby, that it came to him from all parts, and in no instance was it ever known to fail in producing the desired effect. A short time only has elapsed since the article was first introduced to public notice, and during that period, upwards of THREE THOUSAND BOTTLES have been disposed of, and the demand for it is rapidly increasing. So sure and speedy is the effect produced by this article, that one single vial has completely cured an inflamed eye, though various remedies had for a long time previous been resorted to, but in vain. Ample directions accompany the article, as well as letters of recommendation from the most respectable physicians in the country.

With a view to insure its usefulness in a more extensive way, the proprietor has appointed the following persons Wholesale Agents for the sale of it, where the public may rest assured of procuring the genuine article.

JOSEPH FISHER, Proprietor, 7th & Buttonwood, JOHN R. ROWAND, 249, Market & E. A. HOSKINS, 376 Market streets, Philadelphia. DR. W. L. ALTEE, Lancaster. J. & J. H. PECK & CO., Burlington, Vt.

As will of all druggists and storekeepers throughout the State.

Orders thankfully received and punctually attended to for eye water or drugs.  
Philadelphia, June 23, 1836.—

### 27th July, 1836.

SCYTHES—12 dozen Harris' March's Scythes, received and for sale by the Dozen or single at the Hardware Store. Also, a few dozen of the Seguin's grass Cradles by ROBERT MOODY.

### The Genuine Swains Panacea.

also Rowland's, and Green's celebrated Tonic Mixture for Fever and Ague, this day received, and for sale at the Drug Store corner of church st. and the square.  
ROBERT MOODY.  
June 23, 1836.
