THE MOTHER PERISHING IN A SNOW STORM.

BY SUSA SMITH.

The cold winds swept the mountain's height,
And pathless was the dreary wild,
And 'mid the cheerless hours of night
A mother wandered with her child,
As through the drifting snow she press'd,
The babe was sleeping on her breast.

And colder still the winds did blow,
And darker hours of night came on,
And deeper grew the drift- of snow:
Her limbs were chill'd, her strength was gone,
"Oh, God!" she cried in accents wild,
"If I must perish, save my child!"

She stripped her mantle from her breast,
And bared her bosom to the storm,
And round the child she wrap'd the vest,
And smiled to think her babe was warm.
With one cold kiss one tear she shed,
And sunk upon a snowy bed.

At dawn a traveller passed by,
And saw her 'neath a snowy veil;
The frost of death was in her eye,
Her cheek was cold, and hard, and pale—
He moved the robe from off the child,
The babe look'd up and sweetly smiled.

A NAUTICAL ANECDOTE.

General Morris of the New Mirror, relates the following anecdote in relation to Mr. Preserved Fish:—This gentleman, in early life, was a sea captain. One day his vessel was hailed by a brig, when the following dialogue took place—"Ship-a-hoy!" "Hallo!" "Who's your captain?" "Preserved Fish." "Who?" Preserved Fish." The master of the brig, thinking he was misunderstood, and wondering at the stupidity of the opposite party, again applied the trumpet to his mouth and bawled out—"I say, mister, I don't want to know what your cargo is; but what's your captain's n-a-m-e?"

"I CAN CALL SPIRITS FROM THE VAST DEEP."—This should be the language of earthquakes. The great earthquake at Point-a-Petre, threw up a turtle, which was found dead a few days after the eruption; it weighed three thousand pounds. The shell, if mounted, would make a carriage that would conveniently take six persons. This monster was probably an inhabitant of one of the coral grottos in the bosom of the deep, where he must have lived "in silent meditation" for centuries.

CONSUMPTION AND LIVERWORT-CO PLAINT!!

DR. TAYLOR'S,

BALSAM OF LIVERWORT.

From 375 Bowery, New York.

FOR the cure of Coughs, Colds, Asthma, whooping Cough, Catarrh, pains in the side and breast, Bronchitis liver complaints, and all those affections of the throat and lungs, which are a source of so much suffering and so often terminate in CONSUMPTION, this remedy is justly and highly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases with safety as well as well as utility. So extensively has it been used and so often proved successful even in extreme and apparently almost hopeless cases, not only as a palliative but as a remedy; that the proprietor feels no hesitency in introducing it and recommending it to all who unfortunately may have occasion to resort to some means of recovery. Physicians, familiar with its effects and aware of the healing properties of this vegetable preparation, not unfrequently prescribed it in their practice, and with the Medical Faculty generally, it has met with more than ordinary approbation.

CONSUMPTION.

The following remarks were taken from a late number of the Medical Magazine:—

"The surprising effect produced by the genuine Dr. Taylor's Balsam of Liverwort, made at 375 Bowery, in Consumption cases, cannot fail exciting a deep and thrilling interest throughout the world.—We have so long believed the disease (Consumption) incurable, that it is difficult to credit our senses when we see persons evidently consumptive, restored to health. Yet it is a fact of daily occurrence!

Certificates from the highest and most respectable sources of persons who have either been greatly relieved by it, or entirely recovered from affections of the lungs and liver, could be furnished in abundance but we insert only the following:—

CERTIFICATE.—"Being constitutionally predisposed to Consumption, a member of my family having suffered severely from irritation of the Lungs, accompanied with cough and raising matter and blood, together with severe pain in my sides and breast, all I was supposed to be beyond recovery, I was induced by advice of Dr. Perkins, as a last resort to try "Taylor's Balsam of Liverwort," I have taken five bottles in all. I began to improve with the first bottle, and while taking the third, was so far recovered as to be able to get about. Since which time, by continued use of it I am quite restored and able to attend to my usual business. To persons suffering from coughs and affections of the Lungs, I do earnestly recommend it.

(Signed) JAS. C. SCOTT.

Elizabeth City, N. C. Dec. 16, 1842.

For a common cold and cough, this is one of the very best remedies ever discovered.

N. B. There is a spurious and counterfeit article afloat, and lately introduced into this place. Therefore be careful to get the genuine, which is from 375 Bowery N. Y. and see that the new engraved wrapper is on the bottle to prevent counterfeits.

COMMENCEMENT

THIS year the Graduate from Howard's has a call to locate himself in the city of Troy, N. Y., where a reputation of the enterprize of its business men stands equal to those of any city in America.—The above requisition for one from Howard's is made by one of the most ancient and reputable standing commercial houses there, and with a full knowledge of the acquirements of a previous graduate, who is in business by their side; those also who have located themselves at other places from the same Almanator are Number Ones. Previous to the degree being about to be given a full audience may be daily accommodated in receiving abundant evidence of the Valedictorys being deserved, by any mutual interchange that may be wished with the various patrons of the Store by his giving as heretofore his assiduous attention in putting the goods fast and cheap into their hands at HOWARD'S.

SAND'S SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM, NAMELY:

SCROFULA, OR KING'S EVIL, RHEUMATISM, OBSTINATE CUTANNEOUS ERUPTIONS, PIMPLES, OR PUSTULES ON THE FACE, BLOTCHES, BILES, CHRONIC SORE EYES, RING WORM OR TETTER, SCALD HEAD, ENLARGEMENT OF THE BONES AND JOINTS, STUBBORN ULCERS, SYPHILITIC SYMPTONS, SCIATICA OR LUMBAGO, and diseases arising from an injudicious use of Mercury, Acsitic, or Dropsy, exposure or imprudence in life. Also, Chronic Constitutional Disorders will be removed by this preparation.

Improvement in whatever regards the happiness and welfare of our race is constantly on the march to perfection, and with each succeeding day some new problem is solved, or some profound secret revealed, having an important and direct bearing over man's highest destinies. If we take a retrospective view over the past twenty years, how is the mind struck with wonder! What rapid strides has science made in every department of civilized life! particularly in that which relates to the knowledge of the human system in health and disease. How valuable and indispensable are the curative means recently discovered through the agency of chemistry! How does the imagination kindle and our admiration grow at the ingenuity, the near approach to the standard of perfection, of the present time! Through the elaborate investigations of Physiology, or the science of LIFE, and the Pathology of prevalent disease, much valuable practical knowledge has been gained. In consequence of becoming acquainted with the organization, the elements of the various tissues and structures of the system, remedies have been sought after and discovered exactly adapted to combine with, neutralize and expel morbuce matter, the cause of disease, and substitute healthy action in its place. The beautiful simplicity of this mode of treatment is not only suggested by the pathology of diseases, not only grateful to the sufferer, but perfectly in consonance with the operations of Nature, and satisfactory to the views and reasonings of every intelligent, reflecting mind. It is that SANDS'S SARSAPARILLA, a scientific combination of essential principles of the most valuable vegetable substances, operates upon the system. The Sarsaparilla is combined with the most efficient aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it the exalted character, for nishing as it does evidence of its own intrinsic value, and recommending it to the afflicted in terms the afflicted only can know. It has long been a most important desideratum in the practice of medicine to obtain a remedy similar to this—one that would act on the liver, stomach and bowels with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system.

The attention of the reader is respectfully called to the following certificates. However great achievements have heretofore been made by the use of this invaluable medicine, yet daily experience shows results still more remarkable. The proprietors here avail themselves of the opportunity of saying it is a source of constant satisfaction that they are made the means of relieving such an amount of suffering.

NEWARK, N. J., Dec. 13, 1842.

Messrs. Sands: Gent—Words cannot express the gratitude I feel for your treatment to me, a stranger suffering under one of the most loathsome diseases that nature is capable of bearing. The disease with which I was afflicted commenced with inflamation of the eyes, in the year 1836, which caused almost total blindness. For this I was treated and finally relieved, but the remedies were such as to cause the development of a scrofulous affection on my left arm near the elbow.

The pain extended from the shoulder to the end of my fingers, and for two years my sufferings were beyond description. I tried various remedies and consulted different physicians in New York, and amongst them the late Dr. Bushe, who told me the disease of the arm was caused by the large quantity of mercury taken to cure the inflamation of my eyes.

My sufferings continued, the arm enlarged, tomors formed in different places, and in a few months discharged, making ten running ulcers at one time, some above and some below the elbow, and the discharge was so offensive that no person could bear to be in the room where I was. I then applied to another distinguished physician, who told me amputation of the arm was the only thing that could save my life, as it was impossible to cure so dreadful a disease; but as I was unwilling to consent to it, he recommended me to use Swaan's Panacea freely, which I did without deriving but little benefit. For three years I was unable to raise my hand to my head, or comb my head, and the scrofula now made its appearance on my head, destroying the bone in different places, causing extensive ulcerations, and I feared it might reach and destroy the brain—the head swelled very much, accompanied with violent pain. Numerous external remedies were recommended, but they did no good.—About a year since I was taken severely ill with a swelling of the body from head to foot, so that I was entirely helpless. The doctor advised me to go to the hospital, for he did not understand my case. For the last few months I had been afflicted with a severe pain in both sides, at times so hard I could scarcely hold my breath. A hacking cough constantly annoyed me, and this combined with my other maladies, rendered me truly miserable. Such, gentleman, has been my situation for seven years of my life, when I commenced the use of your Sarsaparilla; but as my case was considered hopeless, and the near prospect of a speedy dissolution seemed inevitable, I felt but little encouragement to persevere. The persuasion of friends induced me to try your medicine which in a few days produced a great change in my system generally, by causing an appetite, relieving the pains, and giving me strength. As success inspires confidence, I was encouraged to persevere. My pains gradually left me, my strength returned, food relished, the ulcers healed, new flesh formed, and I once more felt within me that I might get well. I have now used the Sarsaparilla about two months, and am like a different being. The arm that *was to be amputated* has entirely healed, a thing that seemed impossible. I can scarcely believe the evidence of my own eyes, but such is the fact; and it is now as useful as at any period of my life, and my general health is better than it has been for years past.

Health, what magic in the word! how many thousands have sought it in foreign lands and sunny climes, and have sought in vain! Yet it came to me when I had given up to die; and as I feel the pulsations of health coursing through my veins, my whole heart and soul go forth in fervent gratitude to the author of all our sore mercies, that he has been graciously pleased to bless the means made use of. Truly have you proved yourself the good Samaritan to the afflicted, for next to my Creator my life is indebted to you (or rather) the use of your invaluable Sarsaparilla. The value of such a medicine is countless beyond price, money cannot pay for it. I have been raised from death, I may say, to me my friends and myself thought it impossible I could recover. And now gentlemen suffer me to add another proof certified too by my friends and guardians as a just acknowledgement of the virtues of your health restoring Sarsaparilla. That the afflicted may also use it and enjoy the benefits it alone can confer, is the heartfelt, fervent wish of their and your friend.
