Scrofula, or King's Evil,

is a constitutional disease, a corruption of the lood, by which this fluid become weak, and poor. Being in the circulation, a pervades the whole body, and may burst out disease on any part of it. No e gar is fre om its actacks, nor is there one which it ma t destroy. The scrofulous taut is variously caused by mercarial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending . from parents to childre unto the third and fourth generation , indeed it seems to be the rod of Hun who says, " will visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, the lungs, liver, and internal organs, is terms subcreles; in the glands, swellings; and the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constite tions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; conse quently, vast numbers perish by disorder which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which of cimates the human family has its origin directl in this scrofulous contamination; and man destructive diseases of the liver, kidneys, brain. and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are screfulous; their persons are invaded by this lurking infection, and their health is undermined by cleanse it from the system we must renov the blood by an alterative medicine, and it vigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this eve where prevailing and fatal malady. It is ear bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also these other affections which arise from it, such as Licenty and Skin Diseases, St. Anthony's Figu ROSE, OF ERTSIPELAS, PINTLES, POSTULES, BLOTCHES, BLAINS and BOILS, TEMPORS, TRITER capther lot of DESIRABLE GOODS. and Salr RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and EASES, DROPSY, DYSPUTSIA, DESI indeed, ALL COMPLAINTS ARISING FROM VI. NEW ENGLAND AILMENTS

THE ONLY REMEDY!

THE Eastern States, including New York and that section of the Union which is most widely known as "New England," contain a thrifty, industrious, intelligent people, who have achieved an uncommon degree of prosperity: with a climate extremely trying to certain constitutions, and a soil of small fertility, they have contrived to surpass more favored communities in almost every thing that conduces to social comfort and happiness. Unfortunately, they are occasionally so absorbed in business and mental cultivation, that they neglect the precautions which are essential to bodily health. Dyspepsia and physical debility are prevalent among all classes. The first dis-case is produced by inattention to the digestive organs, which are so susceptible of derangement. Thousands are now paying the penalty of this neglect, and suffering daily the most trying pains, almost without a hope of relief. They have come to believe that their ailment is chronic, and that they must bear with it to the end. It gratifies us exceedingly to announce to these afflicted individuals that they may now command a remedy of unquestionable potency and virtue, which has never been found to fail in all cases of digestive weakness or de-rangement. Hundreds of tongues are ready to grow eloquent in praise of this wonderful conqueror of dyspepsia, which is known as

DR. J. HOSTETTER'S CELEBRATED STOMACH BITTERS. But that numerous class who devote them-

selves to literary and other sedentary pursuits,

and in consequence of a want of physical exercise, become the victims of languor and debility, without nerve or appetite, have hitherto sought in vain for some invigorating, life-giving medicine, whose effects upon the system shall be both speedy and permanent. Physicians of eminence, and profoundly acquainted with the requirements of the human frame, commend HOSTETTER'S BITTERS as the safest and swiftest stimulant to the recuperative energies of the system yet discovered. It restores the appetite, gives fresh vigor to the digestive organs, sends the blood through the veins with a more lively current, corrects a tendency to depression of spirits, and fits a man for the ransaction of business with a cheerful heart and an active mind. Unlike other medicines have been de sed for the same object, BITTERS do not act spasmodically, or with a temporary power - the influence of the remody is lasting. And if a patient will but give some attention to securing proper exercise, after the relief has been ufforded, he need foar no return of the affliction. o The debility natural to the encroachments of years. upon the bodily frame is also alleviated by this great strongthening medicine, thus enabling the aged to pass their declining days in physical ease; whereas they are now suffering from extreme weakness and nervousness. To this ven class of people. HOSTETTER'S BITTERS may be commended as invalu able. The proprietors of this invigorator have, in addition, a deep gratification in assuring NURSING MOTHERS that they will find BITTERS the best and safest of Very few medicines are sanc-

ed by physicians as proper to be adminis ered during the period of nursing; and this has obtained an universal preference. AB* These who desire to purchase this great ramedy for HOSTETTER'S CELEBRATED STOMACH BITTERS. It is put up in ies, with the name, DR. J. HOSTETTER'S STOMACH BITTERS, blown on the bottle, and als stamped on the cap covering the cork, with the untograph of HOSTETTER & SMITH on the label. These things are important, on account of the numerous counterfeits

or Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and also sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.

Sald by AMOS C. SPEAR, and J. W. ROBY Burlington, J. S. Storrs & Son, Wincosk WHERS & POFFER, Buston, General Agents the New England States.

SEWING MACHINE

the machine-what every part of it does-and how

the whole may be kept in perfect working and

We specify some of the chief points of excellen selonging to these machines. They make the LOCK-STITCH

This is the only stitch that cannot be raveled, as that presents the same appearance on each side of the seam. It is made with two threads one upo

They are simp a in construction, Musical Instruments, Singing, Thorough Bass and | fitted to adorn the parter and suited to the workshop-applicable alike to the use of the family and Also the largest and most complete assertment of the manufacturer. Their speed is from 1,200 to 2,000 stitches per minute, or equal to 10 seam-

Among their uniforbted advantages are-. Elegance of model and finish:

2. Simplicity and thoroughness of construction, and consequent durability and freedom from derangement and need of repairs; . Ease of management and radidity and quietner

of operation: 4. Hemmin and seaming attachments. . Beauty of stitch, alike on both sides of the fabric sewed;

. Strength and firmness of seam that will not rip nor ravel; and made with Economy of Thread;

Applicability to a variety of purposes and ma-The change made in the tension during the pas year, so that the upper thread is used from the original spool, and the addition of the hemmer, by which home of any width are turned and stitched

Our receipts of Music, every two months, are, without any previous basting, evin e the care of been invented for sewing, and we feel confident These machines are now sold at reduced prices a at College street, two doors east of E. Lyman's ing. The medium size machine, is specially adapted

for family use, is very compact in its structure, and the handsomest machine before the public. It cannot impregnate each other. Mik, delicate fruits sews every kind of material, working equally well | and ments, can be preserved much longer than in any upon silk, linen, woolen and cotton goods-seam. other Refrigerator. ing, quilting, gathering, hemming, &c., with a give this article a trial. The cost is about the beauty and strength unequalled by any machine same as the common ice chests, and they are made CCORDING to a recent desision of the Sur that we have seen. They are sold by us at the same with panelled sides and top, and tastefully grained preme Court of Bry Goods, stealing thunder is initiable. THE MANUAL of the WARDROBE 100 LARGE OCTAVO PAGES, IN PAPER. BY MRS. PULLAN. T IS A COMPLETE TREATISE upon the A branch of Domestic Economy, and by far the most valuable publication upon this subject ere issued. It comprises a thorough dissertation upon taste in dress; an explanation of the differen stitches made in sewing, remarks opn the various kinds and qualities of fabrics used in the wardrobe, with complete directions for cutting

children's wear ; the preparation of table, tellst and bed linens. Illustrated by nearly 100 CUTS OF PATTERNS & MODES No Housekeeper can afford to do without it. Mrs. Pullan is the highest authority extau upon the subject of the Manual, having written nore upon this subject than all others combined Her contributions to English publications have rendered her name a "household word," and have een a perpetual source of supply to the Ladies Department in the Magazines of this country.

I TAKE this opportunity to inform my friends, and the public generally, that I have taken the store formerly occupied by Hisses & Wills.

PRICES, I hope to secure a share of the Public Please call and examine Goods and Prices before purchasing elsewhere. Respectfully, L. W. PAGE.
