

POETRY.

THE PLACE OF GRAVES.

"It is related in the Biography of Wilson, the Ornithologist, that he expressed a wish, when conversing on the subject of death, that when he died, he might be buried where the birds should come and sing over his grave."

In the wild forest shade, Under some spreading oak, or waving pine, Or old elm, festooned with the gauding vine, Let me be laid: In this dim, lonely grove, No foot, intrusive, will disturb my dust; But o'er me, songs of the wild birds shall burst— Cheering the spot!

Not amidst charnel stones, Or coffins dark, and thick with ancient mould— With tattered pall, and fringe of cankered gold, May rest my bones: But let the dewy rose, The snow-drop and violet lend perfume, Above the spot, where, in my grassy tomb, I take repose.

Year after year, Within the silver birch tree o'er me hung, The chirping wren shall rear her callow young, And the red robin, the green boughs among, Shall build her dwelling near: And ever, at the purple dawning of the day, The lark shall chant a pealing song above, And the shrill quail, when eve grows dim and gray, Shall pipe her hymn of love.

The black-bird and the thrush, And golden oriole, shall flit around, And waken, with a mellow gush of sound, The forest's solemn hush. Birds from the distant sea, Shall sometimes thither flock, on snowy wings, And soar above my dust in airy rings, Singing a dirge to me!

[Knickerbocker.]

MORAL & RELIGIOUS.

THE GOODNESS OF GOD IN CREATION. For what purpose did the infinite Creator give existence to the majestic monuments of his almighty power? For what purpose did he create the earth and the heavens, with all their unnumbered hosts? Was it not evidently, that he might communicate happiness; and does not this design appear conspicuous on the open space of nature? What is the plain and unequivocal indication of all those marks of infinite wisdom, and skillful contrivance, in the general dispositions, and in all the parts of surrounding nature? Is it not, that the creator of all things is infinitely good? Is there not a display of infinite goodness in the regular and harmonious disposition of the heavenly orbs? Instead of this beautiful order, why was there not the most horrible confusion? Instead of this benign harmony of the spheres why was there not a perpetual jar, and the most disastrous confusion.

Is there not a display of infinite goodness, in the grandeur & beauty of the creation; so favorably adapted to elevate, to inspire with admiration and to fill with the purest pleasure, the devout and contemplative mind? Why was the whole creation so formed as only to excite amazement, terror, and despair? Is there not a display of infinite goodness in the beautiful scenery of our globe, so agreeably diversified with continent and seas, islands and lakes, mountains and plains, hills and valleys, adapted to various beneficial purposes and abounding with productions in endless variety, for the convenience, the support, and the happiness, of its diversified inhabitants. Why was not the whole year one continued scene of dull uniformity, or so irregular in its changes, as utterly to baffle all the calculations, and arrangement, and pursuit of life? Why was not every sight a spectacle of horror, every sound a shriek of distress, every sweet a most pungent bitter, every gale a blast of pestilence? Is it not because the creator and preserver of the world is a being of infinite goodness.

Is it not strange, that we do not constantly perceive the glory of God, which the heavens declare, and gratefully recognize his goodness so richly spread abroad through all his works? Happy, happy, were it for us, did nature constantly appear to us as it really is, animated & enlivened by the presence of its glorious author! When the sun rises or sets in the heavens, when spring adorns the earth, when summer shines in its glory, when autumn pours forth its fruits, or when winter returns in its awful forms, happy were it for us, did we constantly view the great creator and preserver of all, continually manifesting himself in his various works. Happy did we meet his presence in the smiling fields, feel his influence in the cheering beams, hear his voice even in the whispering breeze, and taste his goodness in every gift of nature and providence! Happy did we feel ourselves every where surrounded with the glory of that universal Spirit, who fills, pervades & enlivens all; and did we live in the world, as in a great and august temple where the presence of the divinity who inhabit it, fill the mind with awe, & inspires the heart with devotion.—Dr. S. Worcester.

A Description of the Person of Jesus Christ as it was found in an ancient manuscript sent by Publius Lentulus, President of Judea, to the Senate of Rome.—There lives at this time in Judea, a man of singular character, whose name is Jesus Christ. The barbarians esteem him as prophet, but his followers adore him as the immediate offspring of the immortal God. He is endowed with such unparalleled virtues as to call back the dead from their graves, and to heal every kind of disease with a word or touch. His per-

son is full and elegantly shaped—his aspect amiable, reserved. His hair flows in those beautiful shades which those united colors can match, falling into graceful curls below his ears, agreeably couching on his shoulders, and parting on the crown of his head, like the head dress of the sect of the Nazarites. His forehead is smooth and large, his cheeks without spot, save that of a lovely red; his nose and mouth are formed with exquisite symmetry, his beard is thick and suitable to the hair of his head, reaching a little below his chin, and parting in the middle like a fork; his eyes are bright, clear and serene.—He rebukes with majesty, counsels with mildness, and invites with the most tender and persuasive language. His whole address, whether in word or deed, being elegant, grave, and strictly characteristic of so exalted a being! No man has seen him laugh; but the whole world behold him weep frequently; and so persuasive are his tears that one cannot refrain from joining in sympathy with him. He is very modest, temperate and wise. In short, whatever this phenomenon may turn out in the end, he seems at present a man of excellent beauty and divine perfections, every way surpassing the children of men.

STATE OF VERMONT.

ORLEANS DISTRICT, SS. In Probate Court holden at the Probate Office at Irasburgh, on the 24th day of June, 1839.—BIGAIL FARR, Guardian of Marcus O. Farr, represents to said Court that her said Ward is possessed of certain real estate situated in Morgan, in said District of Orleans, and that it is for the interest of her said Ward that said real estate should be sold together with his interest in the reversion of the Widow's dower.—Whereupon it is ordered that said application for license to sell said real estate be referred to the first Wednesday of August next, at the Probate Office at Irasburgh for hearing; and that all concerned be notified thereof by publication of this order three weeks successively in the Caledonian, a newspaper printed at St. Johnsbury, in this State, the last of which publications to be before the day of hearing.—That all concerned may appear and be heard in the premises.

By order of the Court—GEO. NYE, Register. 101—3w

STATE OF VERMONT.

ORLEANS DISTRICT, SS. In Probate Court holden at Irasburgh in and for said District, on the 15th day of June, A. D. 1839.—ASA K. SMITH, Administrator de bonis non on the estate of JAMES SEAVEY, late of Brownington, deceased, applied for license to sell all the real estate of said deceased, representing that a part thereof cannot be sold without manifest injury to all concerned—and that it is necessary to sell so much of said estate for payment of debts as will amount to the sum of five hundred dollars due from said deceased; and the same appearing necessary. It is ordered that said application be heard at the Probate Office, in Irasburgh, in said district, on the 3d Wednesday of July next, & that the heirs & all concerned of said deceased be notified hereof by the publication of this order in the Caledonian printed at St. Johnsbury three weeks successively, as soon as may be, that they appear, if they see cause, at said time and place, and give bonds for the payment of said debts, agreeably to the provisions of the statute in such case made.

By the Court, GEORGE NYE, Register. 100—3w

New Goods.

THE subscribers would inform their friends, enemies, and the public generally, that they have just received, and are now offering for sale, a new assortment of Spring and Summer GOODS, among which may be found BROADCLOTHS, CASSIMERES, AND FANCY BUCKSKINS, Gingham, Copperplate, Muslins, bishop's Lawn, printed Lawn, plain and check Cambrics, Cambric Muslin, Lace, lace Quilling, Edgings and Insertings, Linens, Ladies Kid and Silk Gloves. A few STRAW BONNETS on hand and more expected soon. Bonnet Trimmings; a large assortment of ENGLISH, FRENCH, AND AMERICAN PRINTS; plain and figured Silks for Dresses; Silk Handkerchiefs and fancy Cravats, Vestings, Padding, Canvas, Silica, brown Linens, Crash, Ticking, Drilling, Sheetings, Shirtings, Umbrellas, Hats, and many other articles too numerous to mention.—ALSO.

Hard and Hollow Ware, CUTLERY, GERMAN SILVER WARE, GOODS, CROCKERY AND GLASS WARE, &c.

W. I. Goods and Groceries. Ladies and Gentlemen—We take this opportunity to tender our grateful acknowledgements for your liberal patronage thus far, and we hope to insure the continuance of the same by fair dealing and reasonable prices.

We do not pretend to use soft saunders, nor shall we presume to publish to all the world that our Goods were carefully selected, and bought where they keep good articles and sell cheap, (although we acknowledge that we were more than four days in selecting.) All we can say is, please call and examine qualities and prices, and then judge for yourselves. Those wishing to purchase are invited to call before purchasing elsewhere. If our prices are satisfactory we shall be pleased to sell, if not we will discount a little and enjoy secrecy, nor say, seeing it is you, you shall have our Goods a little lower than we have sold to others, but you must not tell of it, but our course shall be to state prices where we can afford to sell, and use all alike.

WANTED, in exchange for Goods, most kinds of COUNTRY PRODUCE, for which a liberal price will be paid. H. CUTTING & CO. Lower Waterford, May 20, 1839. 95—3m

FINE CHANCE FOR AN ENTERPRISING FARMER. Farm for Sale,

CONSISTING of one hundred and fifty acres of excellent land, well fenced with stone wall, boards and cedar. There is a fine lot of Sugar Maples on the farm. The mowing and tillage land is in a fine state of cultivation, and the pasturage is good. Good water at the house and barns.—Said farm is situated on the stage road from Burlington to Portland, two miles west of St. Johnsbury Plain, and one and one half from Fairbanks Village. Terms easy, and a liberal credit given for a part of the purchase money. Apply to JAMES WHEATON. St. Johnsbury, April, 25, 1839. 91—1f

WANTED, BY KITTREDGE & COLBY, 1000 YARDS Tow Cloth; 2000 do Wool Flannel; 500 do Froeking; 500 prs Footing; Wool, Butter and Feathers. St. Johnsbury, April, 1839. 91—1f

New Goods.

THE subscriber would take this opportunity to express his grateful acknowledgements to his friends and customers for the constant and liberal patronage which they have heretofore extended to him, and he now flatters himself that he can offer inducements sufficient, not only to merit, but to secure an increase of the same patronage. He has now the pleasure of offering for sale a new and carefully selected assortment of FOREIGN AND DOMESTIC

DRY GOODS,

consisting in part, of BROADCLOTHS and CASSIMERES, Cloths suitable for summer Pants and Spencers; Scotch and English Ginghams; printed, checked and plain Muslin; Mousselin Delano, a new and fashionable article; Swiss Muslin; bishop Lawn; Cambrie; Irish Linen; black and colored Silks for dresses; Inserting, Edging, Quilling; Gloves and Hosiery; a nice assortment of ENGLISH, FRENCH AND AMERICAN PRINTS, and of STRAW BONNETS, and Garnitures; Taffeta and Cap Ribbons, Bonnet Linings, &c. ALSO.

W. I. Goods and Groceries, CROCKERY, GLASS AND HARDWARE, and a variety of other articles which need not be enumerated; all of which were bought where they keep good articles and sell them cheap—no matter whether it be New York, Boston, or New Orleans. Ladies and Gentlemen of this and neighboring towns are requested to call and examine for themselves. The subscriber will take great pleasure in showing his Goods, and still greater in selling, if on examination it shall be found, as it is believed will be, that they are cheap, and that they are just the articles wanted.

MOST KINDS OF PRODUCE taken in exchange for Goods. T. R. FAIRBANKS. Lower Waterford, May 7, 1839. 93—1f

AS SUPPLEMENTARY TO his advertisement of May the 7th, the subscriber would say, (though with due regard to the impropriety of personal remarks connected with advertising, yet through motives of self defence,) that on noticing the advertisement of a certain firm not 20 miles off, I was induced to inquire, and would here take the liberty to inquire, whether the individuals referred to might not confer a favor on the ladies and gentlemen, whom they address, by giving a definition to their soft saunders phrase, as it would seem that they must have a lexicon peculiar only to their own language. If, however, they mean by the phrase decent and civil treatment, I think they must be correct in saying that they do not make any pretensions to such appearances; and as to their boasting of spending much time in Boston, I think none will doubt the correctness of the statement. Yet should any one wish to know how the gentleman purchaser employed his time while there, I would from his own story and reports, recommend that they apply to the occupants of the third row in the theatre, and other kindred characters, for information. And as to the promise of the gentlemen in regard to regularity in prices, (and their 'seeing it is you, you' remarks) I am pleased that there is in them even a faint indication of a forsaking of any bad habits. And as to the gentlemen always asking prices alike, I would not accuse them of so doing, for ever since the honorable gentleman's return from his protracted stay in Boston, he has boasted of getting a fair profit when he pretended to sell at cost; I cannot therefore but hope that some of their customers, have been used different from this. I do however, come to the conclusion that if the gentlemen wish to go into an investigation of character in doing business, that they may do well first to cast the beam out of their own eyes, that they may more clearly discover the mote in their brother's eye.

T. R. FAIRBANKS. Lower Waterford, May 30, 1839. 96—1f

New Goods!

THE subscribers have just received, and are now offering for sale at their Store in Lyndon, the largest and best selected assortment of FOREIGN AND DOMESTIC GOODS that they have ever before offered to the public.—Although we cannot boast of going to New York (and back again in 36 hours without buying any goods) for the sake of puffing, and saying that we bought our Goods at auction, and therefore we can under sell our neighbors, nor will we say that we will sell a pound of pepper or spice at 7 or 8 cents, & at the same time sell them forty times as much of some other articles that did not cost 1-8th as much as the pepper or spice for the same or a higher price; but we would say to the LADIES and GENTLEMEN that if they will call and examine our GOODS and prices, we feel assured that they will purchase of us, and we are confident that when they get home and compare their Goods with their neighbors, (that are bought elsewhere,) they will be perfectly satisfied with their bargains.

Wanted, in exchange for Goods, 5 TONS of good Maple Sugar; 500 yards of Tow Cloth, 5 tons of WOOL; and most kinds of Country Produce, and the privilege of charging to good paying customers. Cash not refused. PADDOCK & HOUGHTON. Lyndon, May 9, 1839. 93—1f

DR. WILLIAM EVANS' CAMOMILE PILLS. HAPPY would it have been for many persons of both sexes, who are now in the silent grave, if they had known to check the morbid tendencies of their stomachs and bowels, by these tenacious and aperient Pills, manufactured by pure Tom and Apertient Pills, manufactured by Dr. Wm. Evans, of New York, without resorting to quack remedies, the names of which they know nothing. That dreadful scourge CONSUMPTION, might have been checked in its commencement, and disappointed of its prey, all over the land, if the first symptoms of Nervous Debility had been counteracted by CAMOMILE, chemically prepared and those bowel complaints, which lead to a host of fatal maladies, might have been obviated by that fine alkaline extract of Rhuubarb, which is a leading ingredient in the APERIENT FAMILY PILLS. Before both of these medicines, which are adapted to a majority of the purposes for which a hundred others are unnecessarily used, fevers, agues, bilious disorders, headache, female debility male decline, indigestion, and liver complaints would have entirely disappeared, where many of them have proved fatal. The afflicted reader is respectfully asked to give them a trial. You are assured they will do you NO HARM—and as a proof of their great virtues Dr. Evans need only tell you that they are ONLY PATENT Medicines of the present day that are recommended, and have the approval of Physicians generally. See Dr. Evans' advertisement in another part of this paper.

Messrs E. P. Walton and Son of Montpelier, are the appointed Agents for the sale of the above valuable Pills, and they are authorized to appoint Sub Agents in other towns and to supply them with the medicine. They are also the appointed Agents for the sale of that most excellent article for children when cutting their Teeth—Paris' Celebrated Soothing Syrup. If mothers will but give it a trial they never will have cause to regret it. For sale by LUTHER JEWETT, St. Johnsbury. 53—1y

Cod Fish OF a very superior quality, for sale CHEAP, by SHEDD & JEWETT. June 11, 1839

REAL ESTATE—For Sale.

For further particulars enquire of HORATIO G. MORRILL. N. B. The above stand is suitable for any mechanic whatever. 97—1f June, 1839.

Read, reflect, and Judge.

WHO so proper to instruct mankind with regard to their bodies, as he who had been 35 years sick and now enjoys good health? JAS. MORRISON, Gentleman (not a doctor.) A little more than one year has elapsed since the people of Vermont and Vicinity have been enabled to obtain again in its ORIGINAL PURITY, the medicine made at the British college of health, London, under the direct care of James Morrison who first sent it forth to work its resistless way against the combined opposition of all who were interested in keeping the people shrouded in ignorance with regard to disease; and to all new and better ways to cure by VEGETABLE MEDICINES, which cure quicker and more effectually, and do not break down the patient and broken down in his CONSTITUTION; but on the contrary, with more vigor, more strength and better health. In a word, the current of life, relieved of the load of vicious humors, eradicated by Morrison's medicine, flows buoyant on its way, diffusing pleasurable sensations which are alone produced by GOOD HEALTH.

The call for this medicine is constantly increasing as it did before, when the genuine was to be obtained. A great number of cures have been effected within a few months past in Vermont. And from time to time some of them will be made public, they are not needed to prove the goodness of Morrison's HYGEAN UNIVERSAL MEDICINE.

All that is needed is, to let the people know that they can get the genuine article, which they are sure of getting in Vermont, and in Essex, Clinton, Franklin and St. Lawrence Counties, N. Y. if they will buy only of the regular advertised sub agents, and see that the packets are signed in writing by Pangborn and Brinsmaid. [No other are genuine.] J. Jewellers of Burlington Vt. who are state agents and to whom application must be made for agencies and medicine. The following is an extract from a letter received by mail, which in regard to the satisfaction expressed by all who have used this medicine since its introduction again among us, is the language of the sub agents in the state of all who have communicated with us upon the subject. Feb. 12, 1839.

Gentlemen, with respect to the medicine of the British college of Health, London, imported by Geo. Taylor, the general agent, I can say that during the past year those persons who have purchased of me as your agent, have in every instance, so far as has come to my knowledge, been perfectly satisfied on trial that the pills are genuine Morrison's pills, and have also found them to answer every reasonable expectation as medicine. Very many instances of cures and relief might be mentioned but this seems to me superfluous, there is scarce a neighborhood in the country where their extraordinary efficacy is not to be met with. I will just mention one of recent occurrence. A gentleman informs me that his son 13 years of age was taken ill with a violent fever accompanied with DELIRIUM. The 20th of January last, he gave his son Morrison's Pills and relied on them wholly as a medicine in the case. The Fever though very severe, virulent and dangerous was subdued in about five days and the boy speedily restored to health; the father is convinced that fevers may be successfully and safely treated with this Vegetable Medicine, without recourse to such means as may be curing Fever, ruf-

LIFE. And I hope that a steady and persevering course of the Hygeians will yet convince the world of it, for their good. We thought that we should not publish in the papers ANY CURES. But have concluded to, with the solicitations of some friends to the cause of HYGEISM, whose opinions we respect, who say that some poor despairing Invalid who tried almost every thing else, in vain, may be induced to make Morrison's medicine, which has in THOUSAND AF CASES Cured when almost every thing else has failed to afford relief. We give here a very brief sketch of relief by Morrison's Hygean Pills in a case, and a very severe case of DROPSY & RHEUMATISM. A gentleman of this town (Burlington, Vt.) was and had been for some time very low with the above disease, he had become a cripple and a very helpless one too, his legs which were complete sores, discharging a great quantity of matter every day; were drawn and bent nearly up to his body, he could not feed himself, could not turn himself in bed, could not attend any of the ordinary calls of nature, without assistance. It was thought he would not hold out long. When in this deplorable condition, one our oldest and BEST PHYSICIANS recommended him to take Morrison's Pills, telling him he thought they would help him. "IF ANYTHING WOULD!" He not without any objections, (having tried so many things in vain,) consented to take them, he sent for two \$1 Packages, and before he had used a ONE DOLLAR PACKAGE, and a box of Powders which cost 25 cents he came to the village driving his own team and called to the agent's store to tell a story of gratitude for the great relief he had experienced by using Morrison's Pills. His legs healed up, and have since been getting more and more straight, and he says he has not felt so well for years.

Another cure of CONSUMPTION BY MORRISON'S PILLS. A gentleman in Washington Co. who had been sick gradually consuming away with what was pronounced by the physicians and others to be the Consumption, accompanied with a Cough; after trying many things without relief was persuaded by a person who was himself cured of the CONSUMPTION by Morrison's Pills, to commence taking them; in less time than he had been 'running down,' with this terrible disease, he was restored to health and is again able to labor at his accustomed business; he says 'Morrison's Pills saved me.' SICK HEAD ACHES. Where the persons had been afflicted with it for days, weeks, and years, almost all of the time, or were subject to it two or three times per week, have in numerous instances been entirely cured by using Morrison's Pills, perseveringly, upon every recurrence of the disease as we are informed by LADIES who have tried them.

Now to close with, we caution you who wish to be cured, not to go to a druggist for this medicine they do not have the genuine Pills; but only of our advertised sub agents and see that the packets are signed in writing by PANGBORN & BRINSMAID who are State Agents. GEORGE TAYLOR, 61 1/2 Wall st. New York, is U. S. Agent. T. R. FAIRBANKS. Lower Waterford, May 30, 1839. 96—1f

Wanted, in exchange for Goods, 5 TONS of good Maple Sugar; 500 yards of Tow Cloth, 5 tons of WOOL; and most kinds of Country Produce, and the privilege of charging to good paying customers. Cash not refused. PADDOCK & HOUGHTON. Lyndon, May 9, 1839. 93—1f

SHEDD & JEWETT. May 9, 1839. 93—1f

New and important Discovery. DR. PHELPS' COMPOUND TOMATO PILLS, ENTIRELY VEGETABLE.

A new and invaluable medicine for all diseases arising from impurities of the blood, morbid secretions of the Liver and Stomach, also a substitute for Calomel; as a cathartic in fevers and bilious affections.

THESE popular Pills being a combination of a newly discovered alkaline substance, extracted from the TOMATO PLANT, with other vegetable substances which have been found to modify and diffuse its effects, are believed to be the best alternative and cathartic medicine ever discovered. They have been abundantly and successfully tried, and have received universal approbation for scurvy, rheumatism, coughs, colds, influenza, catarrh, nervous diseases, acid stomachs, glandular swellings of all kinds, costiveness, cholera, headaches, &c. They are an antidote to contagious and epidemic diseases; prevent the formation of bilious and liver affections, fever and ague, &c., in those who reside in hot climates, and low and marshy countries, are the best cathartic that can be used for those localities. Seamen will find them an infallible remedy for the scurvy; and travelers, the best medicine they can use to counteract the dangers of exposure in unhealthy climates. For ordinary FAMILY PHYSIC, they are universally approved as the best ever offered.

As a DIETETIC or DINNER Pill, one taken half an hour after dinner, will sufficiently stimulate the digestive powers of the stomach to a healthy and invigorated action, and invigorated action and they are found extremely serviceable for those who indulge in long dinners, or late suppers, or immediately in deserts of fruit. The peculiar virtues of the Tomato Plant, have for a long time attracted the attention of the medical profession and the public; and a lively interest has recently been directed to the future development of its active powers, and its antiphlogistic and alternative qualities;—which the proprietor is now happy in being able to gratify—and presents his pills to the public, with the full confidence of their being the most safe, and valuable remedy ever discovered.—adapted to all cases, where nature is disturbed, and when any of the functions do not perform their natural or healthy action. Numerous certificates of cures, from those who have taken them, and the testimony of several physicians, who have prescribed them, all concur to corroborate this opinion. The rapidly increasing demand for, and the universal approbation bestowed upon them, is an additional evidence of their merits and usefulness.

In presenting this article to the public, the proprietor was influenced by the hope, that a medicine prepared with such care, and strict regard to the chemical and Therapeutic properties of its several ingredients, should take the place of the thousand and one irresponsible nostrums of the day, with which the country is deluged—and from the favor already bestowed upon it by physicians and others, he feels justified in expecting this result. For a full account of this interesting discovery, testimonials, mode of operations, &c. see pamphlets, which may be had gratis of all who sell these pills.

None are genuine without the written signature of G. R. PHELPS M. D., sole proprietor, Hartford, Conn. CAUTION. The unprecedented popularity of these pills has induced several persons to prefix the name of Tomato Pills to their various preparations, evidently with the intention of deceiving those enquiring for Phelps' Tomato Pills. The public cannot be too cautious to avoid all these anomalous 'Tomato Pills,' and 'extracts of Tomatoes,' nor too particular to observe that the original and only genuine compound Tomato Pills, are signed by the proprietor, G. R. PHELPS, M. D. Hartford, Conn. For sale by Dr. LUTHER JEWETT, St. Johnsbury Plain. And also, by G. W. BARKER, and SILAS BURBANK, Jr. Montpelier, Vt. General Agents. 100—3m

PROOF POSITIVE OF THE EFFICACY OF PARIS' SOOTHING SYRUP.

To the Agent of Dr. Paris' Soothing Syrup: DEAR SIR: The great benefit afforded to my D suffering infant by your Soothing Syrup, in a case of protracted and painful dentition, must convince every feeling parent how essential an early application of such invaluable medicine is to relieve infant misery and torture. My infant, while teething, experienced such acute sufferings, that it was attacked with convulsions; and my wife and family supposed that death would soon release the babe from anguish, till we procured a bottle of your Syrup, which as soon as applied to the gums a wonderful change was produced, and after a few applications the child displayed obvious relief; and by continuing in its use, I am glad to inform you, the child has completely recovered, and no recurrence of that awful complaint has since occurred, the teeth are emanating daily, and the child enjoys perfect health. I give you my cheerful permission to make this acknowledgement public, and will gladly give any information on this circumstance. WM. JOHNSON.

A gentleman who has made trial of Dr. Paris' Soothing Syrup in his family, (in case of a teething child,) wishes us to state that he found it entirely effectual in relieving pain in the gums, and preventing the consequences which sometime follow. We cheerfully comply with his request.—Boston Times. For sale by E. P. WALTON & SON, Montpelier Vt. & LUTHER JEWETT, St. Johnsbury, Vt. 52—1y

Dutch Bolting Cloths,

OF the best quality, for sale by the subscribers, at No. 82, Milk Street, Boston. HOSMER & TAPPAN. Boston, April 15, 1839. 99—1f
