To the Newly-Wedded in 1890. The Caledonian is offered free to newly-wedded couples for one year from date of marriage.

There is much satisfaction in living in Vermont after all when one reads of the terrible cyclone which visited the "Sunny South" last Thursday.

The dependent pension bill has passed the Senate by a vote of 42 to 12. Senator Plumb's amendment removing the limitations as to arrears of pensions, making pensions on account of wounds, disease, or injuries commence from the death or discharge of the soldier, was defeated by a vote of 46 to 9.

The Burlington Free Press and St. Albans Messenger have indulged in a pleasant controversy this winter over the signs of spring in their respective localities.

Some of the state papers who predicted a "walk over" for Judge Powers of Morrisville in the First Congressional district are beginning to "hedge" a little, though last week's Hardwick Gazette refers in all sincerity to the "wide and spontaneous movement" in his favor that is "likely to prove irresistible when the convention is held."

It was the sight of our Brattleboro friend, Col. George W. Hooker, calling for a fourth cup of coffee at the hotel at West Derby last morning that moved ex-Congressman Scott of Pennsylvania to say: "Col. Hooker, I would give every cent I possess for that stomach of yours."

As Mr. Scott has \$20,000,000, Col. Hooker's appetite for the first time is given a money value.—[Springfield Reformer.]

Vermonter loves to honor the memory of her sons who have so honored the Green Mountain State, and we do not doubt that Leonard Johnson, though less famous, has proved himself to stand side by side with the other members of that band of heroes who first combined to work for the downfall of slavery; but our Peacemakers must not bring out any more "last dinner members of abolitionism." The lists are closed.—[Burlington Free Press.]

Judging from present indications and conditions in this state, no prominent issue will be made in our state legislature this coming fall between prohibition and any kind of license. The principle of absolute prohibition is well grounded in Vermont, and is apparently settled for years to come. The next legislature will have more democrats than usual and a sprinkling of "high license reformers." The lists are closed.—[Springfield Reformer.]

The serious illness of that brave reformer, Gov. Goodell of New Hampshire, is much to be regretted. His personal crusade against the illicit liquor dealers of the state has proved too much in addition to his regular labors and he has broken down. There is enough of the Martin Luther about Gov. Goodell to challenge the respect and admiration even of his enemies. A result of his work may be a local option enactment for the benefit of the cities and large towns where the prohibitory law cannot be enforced.—[Springfield Reformer.]

The North Star and the Morrill Tariff. The North Star of Danville, Vt., the second oldest paper in the state, has suspended publication. It was founded in 1806 by Ebenezer Eaton, and was kept in his family for sixty-five years. It once held high rank in the weekly journalism of the Green Mountain State, but its old age has been an unpleasant one. Several months ago both the town and the paper suffered a stunning blow from fire, and business was prostrated. Danville, one of the towns in the northwestern part of the state, has fallen in recent years in population and business; it is chiefly a farming community, and many of its farms have been abandoned. The suspension of its paper is significant. Shall we go from "abandoned farms" to "abandoned villages"?—[Springfield Reformer.]

We think this question so far as Danville is concerned may safely be answered in the negative. When the North Star "held a high rank in the weekly journalism of the Green Mountain State," Danville was a county seat of Caledonia county, and though perched on the top of one of the steepest hills in Vermont was a thriving community. In those days St. Johnsbury and Lyndonville were of "no account" comparatively. The building of the railroads changed all this, however, many years ago and brought about the removal of the county seat to St. Johnsbury, and St. Johnsbury has gained in wealth

and population much more than Danville ever lost, and its two newspapers have much more than made good the loss of the Star in its best estate. Moreover, the recovery of this plucky little town from the effects of the fire that for a time prostrated it is something noteworthy in the present condition of affairs in New England. Danville is not one of Commissioner Valentine's "red" towns, not many of its towns have been "abandoned," and it boasts a fair number of the good old-fashioned thrifty New England farmers, a race of men by no means extinct. We do not imagine that Danville will ever become a great business centre, but the little village stands very high up here in Vermont, and we do not believe it will be deserted right away. It was the railroads and not the Morrill tariff that robbed Danville of some of its former glory, dear Republican.—[Burlington Free Press.]

GEN. GROUT'S RETURN.

The Caledonian's plea that Gen. Grout be returned to Congress next fall has met with the hearty endorsement of the state press and the Brattleboro Phoenix says that the article "correctly represents the sentiment of the people of the district, a very large majority of whom have a high appreciation of the services of Gen. Grout and wish to see him kept in Congress. It is understood that in this section an effort is being made to create a prejudice against him on account of his course in the Brattleboro post office matter, but the attempt can have no effect when the facts are correctly known."

In a column editorial in last week's Phoenix the whole course of Gen. Grout in the post office case is reviewed and his position justly praised. The article concludes as follows: "Himself a farmer no less than a lawyer, and representing a constituency made up so largely of farmers, he has shown special interest in measures to benefit the farmers, notably in the passage of the oleomargarine bill and in his present purpose to secure to the Vermont maple sugar makers the benefit of a government bounty should the proposed change in the tariff laws and the general treatment of the sugar industry, be made."

It has always been the policy of Vermont to keep good men long in Congress, and to go back to the land's time, it was his experience, no less than his ability, which gave him his influence and high standing, and it is a fact recognized the country over that the unequalled strength of his estate in the Senate in the continuous terms of service given to Senators Morrill and Edmunds. Gen. Grout is not only an active, energetic and right-minded man, who takes high standing with all who come in contact with him, but he is a man whose capacity for usefulness will increase with every added year that he remains in Congress, and the Second district will honor and serve itself by giving him united support for re-election.

PRESS COMMENTS.

North Star Subscribers in Luck. The subscribers to the Danville North Star, which suspended publication last week, are in luck. The Star's subscription list has been bought by the publishers of the St. Johnsbury Caledonian, and all whose names were on the Star's list as paid-up subscribers will receive the Caledonian until their several terms expire.—[Burlington Free Press.]

Col. Hooker's Appetite. It was the sight of our Brattleboro friend, Col. George W. Hooker, calling for a fourth cup of coffee at the hotel at West Derby last morning that moved ex-Congressman Scott of Pennsylvania to say: "Col. Hooker, I would give every cent I possess for that stomach of yours."
