Ball went to the safe, which cannot be seen from the back room, and helped himself to five five-dollar bills. A little girl about 12 years old was in the store at the time and she saw what Ball did and told her parents about it when she went home and told Mr. Potts. Mr. Potts called an officer and they found Ball at his cousin's over the store of C. A. Currier. When Ball was searched the money was found on his person, but he claimed that he had just received the money from the west. Just for Illustration. In 1895 a man in this village secured a 30 year endowment policy in the State Mutual Life of Massachusetts through me, with premium of \$30.55. He died the last of January and I had the satisfaction of paying his widow last week \$1,000, being the face of the contract, and in addition the extra sum of \$53.85 for dividends accrued to same. Figure this out and you will see that this represented an average dividend of \$9.32 for the nine years, or over 30 per cent of the premium. The point is right here, if he had taken a policy as issued by the majority of companies represented in this section, he would have forfeited his accumulated equity. This fact is worthy of consideration when you are negotiating for a life insurance contract. CHAS. S. HASTINGS, GEN. AGT., St. Johnsbury, Vt.
