Supreme Court Cases.

At the October term of the supreme court at Montpelier last week Judge Munson read an opinion affirming the decision of the Caledonia county court in the breach of peace case of Joseph O. Drouin vs. Henry E. Wilson. The defendant occupied the plaintiff's store and the latter sued to recover for the cost of a broken plate glass window. The defendant claimed that the window was broken by the action of the frost and that he was not responsible for the accident. The lower court awarded a verdict for Mr. Wilson to recover his costs. The case was appealed by the plaintiff who excepted to the admission of evidence and to the judge's charge.

In the Orleans county case of State vs. Boston and Maine Railroad, violation of telephone law, W. B. C. Stickey for the defendant said a motion had been filed for hearing at St. Johnsbury. Attorney-General Pitts wanted the case heard this term. The clerk of the court had not received notice of the request for hearing at St. Johnsbury, and the case is held open for a while.

Suit is brought in this case by the state to compel the railroad to install an independent telephone in the Barton railroad station as provided by one of the laws of the last legislature.

Sunset Home Notes.

Arrangements are being made for two entertainments to be given in the near future for the benefit of Sunset Home. It has always been the aim of those in charge of the entertainments which are a necessary source of income to the Home to present to the public only those of a high order and well worth the money and effort attending them. The coming entertainments are to be of the usual merit and it is hoped that a good patronage be given. The dates set are November 9 and 23. Kindly keep these dates in mind and the evenings free as far as possible as the Home is in need of your thought and your money as well.

Vermont Medical Association.

The above is a reproduction of the badge which Harry W. Randall has designed for the members of the Vermont State Medical Society whose annual meeting will be held here on Thursday and Friday. It is adapted from the trademark of E. and T. Fairbanks & Company and made of copper bronze. The badge reflects great credit upon the designer's skill and will be greatly prized by the delegates.

An important meeting of the Vermont Tuberculosis Commission will be held Thursday and Friday in connection with the annual meeting of the Vermont State Medical Society. The members of the commission comprise Dr. Bryant of Ludlow, Dr. Lee of Wells River and Dr. D. C. Hawley of Burlington. Dr. Hawley is also president of the State Medical Society. The Tuberculosis Commission will discuss the matter of holding public meetings throughout the state as under the law at least one must be held in each county during the year. Meetings have already been held at Proctor, St. Albans and Burlington.

As more doctors are expected than can be entertained at the hotels, it is requested that all who can furnish board and room during the convention will notify the landlords of the hotels or Dr. Farmer of the entertainment committee.

Amateur Cracksmen.

Edmond and Archie, the 12-year-old and 15-year-old sons of John Laliberty, are in jail awaiting a hearing for breaking and entering the offices of A. L. Bragg and E. T. and H. K. Ide early Monday morning. At Mr. Bragg's office the boys raised havoc with about everything in the room. The drawers in Mr. Bragg's desk were emptied of all their papers, gold bronze was scattered around the room, an unsuccessful attempt had been made to break into Mrs. Bertrand's desk and the big safe had been opened. This was not locked and after opening the big doors the boys pried open the two little drawers and the steel cage, taking away a ten dollar gold piece, a 2 1/2 dollar gold piece, an aluminum drinking cup and a silver toothpick. They also appropriated two bags of candy.

Entrance to Ide's office was made by cutting out a pane of glass in the store-room. Here the boys found the big safe locked and contented themselves with playing on the typewriter, monkeying with the adding machine and stuffing the cash register with sticky fly paper.

The officers quickly found a clue to the robbery, as the ten dollar gold piece had been sold at the Concord candy kitchen for 85c and the other piece offered at a dollar less than par and finally sold at face value. The boys were arrested about 11 o'clock Monday morning and will be given a hearing as soon as State's Attorney Hill can attend to it.

Police Court Doings.

The past week has been about the busiest as well as the most varied week in recent months. Aside from the safe cracking adventure of the two boys there have been other doings equally adventurous. Monday night, for instance, Officer Smith received word by telephone from a Peacham deputy that George Percy would arrive here about midnight and to hold him until Tuesday morning for examination. Mr. Smith remembered the man as two weeks previous he visited the police station looking for trouble and armed with a double barreled shotgun, a rifle and a Colt's revolver. Mr. Smith found him in the police station again Monday night, just as he was returning from one of his official rounds, and on this occasion Mr. Percy had left his shotgun at home, but carried the other weapons to kill a man, he said, who wouldn't apologize to him. Chief Stafford was summoned and Percy posed through the night as Sherlock Holmes and made numerous suggestions as to the capture of alleged crooks whose names and faces adorned the rogue's gallery at our station. Tuesday morning two of our St. Johnsbury physicians pronounced him insane and he will be taken to the Waterbury asylum today.

The officers raided the pool room kept by Henry Bedor under the Avenue House Friday night and took away 10 bottles of lager beer. On Friday Bedor pleaded guilty to furnishing intoxicating drinks and was fined \$300 and costs, the whole amounting to \$311.10. He paid his fine on Monday morning.

Justice Worcester had one case Monday morning of intoxication for the third offense and the party was sentenced to pay a fine which with costs amounted to \$22.60. He paid the fine.

Lecture on the Panama Canal.

Athenaeum Hall was well filled Monday evening to hear Congressman D. J. Foster of Burlington, who gave a most interesting and instructive address on the Panama canal. The lecture was given free to the public and was under the auspices of the travel committee of the Woman's Club. Mr. Foster was gracefully introduced by the president of the club, Mrs. P. F. Hazen, and prefaced his address with an appreciative tribute to the work of the women's clubs of the

country in shaping legislation against child labor. He also spoke briefly upon the duty of each state to pass such stringent laws that it would be unnecessary to appeal to the national government for any legislation along these lines.

Coming to the subject of the evening, Mr. Foster gave the history of the various attempts to build a canal on the isthmus and the necessity of taking plenty of time for our government to do the preliminary work. Towns had to be built, sanitary conditions improved, harbors dredged and everything in the line of building material and machinery brought from the United States before the real work of excavation could be commenced. Thanks to Wallace and Stevens, the preliminary work had been so splendidly performed that the engineering department of our army could complete the canal in six years.

At the close of the lecture he showed a number of stereopticon views which gave all an opportunity to see for themselves what is being done at the "big ditch" and how it will look when completed.

Many of his friends greeted him afterwards and congratulated him upon his success as a lecturer. Mr. Foster spent yesterday with his aged mother in Barre, returning to his home in Burlington on the afternoon train.

North Church Men's Club.

About 100 men of the North church attended the men's club supper at the North church chapel Thursday evening, and after all had been most cordially greeted by the new pastor, they were invited upstairs where Caterer Atwood had prepared a fine turkey supper, which was served by the young ladies and young gentlemen of the church. P. F. Hazen had charge of the postprandial exercises and first presented Gov. Henry C. Ide who interested all with a presentation of his views upon our control of the Philippines and what has been accomplished there in seven years of American administration. Arthur F. Stone presented the greetings to Rev. George W. C. Hill, Harlan N. Wood spoke upon our individual responsibility to the church, and Mr. Hill closed the speaking with a cordial acknowledgment of all the good wishes expressed by the preceding speakers. The guests of the club included the pastor of the South church and the Y. M. C. A. secretary.
