### Y. M. C. A. NOTES.

The Boys to Visit the Scale Works on Saturday.

Next Saturday afternoon at two o'clock the boys will visit Fairbanks scale works. This will be the first visit for many of the boys. The company has kindly offered a guide. The bowling tournament for the past week resulted in the following:

Jan. 16th	644	555	646	1845
Somebets	648	688	616	1912
Clerks				
Jan. 18th				
Toilers	569	576	579	1724
Professionals	000	000	000	0000

The team standing Jan. 23rd was as follows:

Somersets	21
Class	18
Professionals	15
Toilers	14
Fairbanks Office	13

The Academy Athletic meet was held in the gymnasium last Saturday and proved a great success. Great interest was manifested in the meet and a large crowd turned out to witness it.

Last Thursday evening the Boys' Sunday club gave a supper to the members of the boys' department. Mr. Flint and Mrs. Carpenter kindly assisted. After the supper games were enjoyed.

Sunday afternoon Chaplain M. W. Farman, of the state senate, gave a very helpful talk at the regular meeting of the Boys' Sunday club. The subject of the address was "Show Thyself a Man." Next Sunday at the usual time Hugh Clifford and Merritt Scott will give a report of the first boys' conference held in Vermont. The conference was held at Ludlow, with 160 boys delegates from 26 towns of the state.

In the pool tournament one game was played during the week. It was the first game in the second round. C. E. Fuller defeated Lisle Spaulding.

### TURNING ON THE LIGHTS

of the laundry industry for the benefit of the public. We know that we are striving every day of our lives to eliminate the waste on the customers goods. We know that we are spending hundreds of dollars to soften water that we may do away with the use of injurious chemicals. DOES THE PUBLIC KNOW THIS?

We know that the speed of all machines has been cut down and soft beds have taken the place of hard ones on all ironing machines in the up-to-date plants. With the high polish that necessitates enormous pressure and excessive friction is being done away with and steam press machines are taking their place in the ironing rooms. DOES THE PUBLIC KNOW THIS?

The old idea that any old building is good enough for a laundry has been abandoned and modern ideas of architecture are being used in the construction and sanitation of laundry buildings. Ten years ago when the writer started in this enterprise a weekly or monthly concern was considered good enough, now the whole plant is thoroughly cleaned every day. DOES THE PUBLIC KNOW THIS?

Hereafter we considered an essential in the old days. HOW ABOUT TODAY? Pure air was one of the things principally thought of in the construction of our new building. In the old days there were no fixed number of hours constituting a day's labor, on the present conditions laundry help are only allowed to work 55 hours a week giving them the Saturday afternoons off for rest or recreation, and in fact every thing is done for their comfort and well being. DOES THE PUBLIC KNOW THIS?

The manufacturer in these good old days we hear so much about, used to make honest goods. Old linens today are valued as highly as old master pieces of art. WHY? Because good linens are as rare.

This is one of the launderer's chief sources of trouble, the iniquity of the manufacturer is visited on him. A lady buys some bed or table linen. She is told that it is good and believes that it is. She sends it to the laundry and when it is returned to her she thinks it is not her goods. WHY? I know and I want you to know—because the filler has been taken out of it and one half of this good linen's weight has gone with it. DOES THE PUBLIC KNOW THIS?

The public can all remember not such a great many years ago that the laundry man would call Monday morning for their clothes and would begin to get some of them to deliver Friday or Saturday. This was not an exception but a rule in those days. HOW IS IT TODAY?

Does the laundry man get any thanks for the progressive spirit that he must be saturated with in causing the daily deliveries that are being

### DOES THE PUBLIC KNOW HOW VASTLY IT HAS BEEN IMPROVED IN THE LAST DECADE? SO WE BELIEVE.

Publicity is just the thing to make us go ahead

It kills the germs of prejudice and makes the thing stay dead. We've got to let the people know the way we wash their "suds" and tell them the ingredients we put into our "suds."

We have no signs on our building. "Keep Out." Our sign is WELCOME. While we do not know it all we are glad to tell you all that we do know about the way that your clothes are being handled.

Yours very truly,  
OLIN D. ADAMS,  
Proprietor of The New Method Laundry.

# Small Depositors

There are several reasons why the management of The Citizens Savings Bank & Trust Company of St. Johnsbury welcomes small depositors and considers it a matter of good business policy to give equal attention to small and large accounts.

In the first place, most of our large depositors started as small depositors. We have had the pleasure of seeing many accounts grow steadily over a period of years and are glad to say that we have helped our customers to increase their business and deposits.

So far as the bank is concerned, it is just as satisfactory to have several small accounts aggregating the same as one larger one, because, although there is three times the bookkeeping involved, that is more than offset by the possibilities of development of three different accounts, besides the advertising value to the bank of three satisfied customers.

This bank's capital, surplus and profits of over \$278,000.00, its very complete equipment and strong personnel make it the ideal depository for small depositors who expect to be bigger ones.

The officers will be glad to talk over banking relations with you at any time and pledge themselves to serve your interests faithfully when you intrust your business to this bank.

We pay 4 per cent interest on savings deposits.
