State Brand for Butter. State Commissioner of Agriculture E. S. Brigham is much in earnest in his efforts to have the farmers of Vermont adopt a state brand for their butter and we believe should be supported in his efforts.

The Move on Mexico. President Wilson has finally taken a step toward the settlement of the Mexican problem. He has asked the South American countries to join the United States in a demand upon the various leaders to get together and establish peace in that country.

War Fatalities and Probabilities. A French authority gives out an estimate of the killed, wounded and prisoners lost by the different nations now at war. According to his figures on May 31, the total loss of France had been 1,300,000, of England 471,000, of Belgium, 112,000, of Russia 3,780,000, of Germany 4,000,000, of Austria 4,385,000 and of Turkey 349,000.

tal figures for the different countries is the strongest comment that can be made on the fighting each nation has done. While the losses of Belgium are the smallest of any country in the war from the beginning, its proportion of losses is the largest of any. We need say nothing more about England than to compare her total losses with those of France or the other large nations involved.

The duties collected on sugar for the twelve months from March 1, 1914, when the reduced rates went into effect, to March 1, 1915, amounted to \$49,774,345. Had the duties on this commodity been permitted to remain as they were, the revenue from sugar imports for this period would have been about \$68,000,000, or \$18,000,000 more than actually yielded.

Strong light on the real conditions in Mexico is given in the report that two daughters of the late Gen. Porfirio Diaz are living in obscurity there and sending out servants to sell jewels and household effects to get money for the necessities of life, and that an effort will be made to smuggle them out of the country that they may go to France where the rest of the family reside.

Thomas N. Carver of Harvard in an address before the New Hampshire farmers the other day said that woman is working as hard today as her grand mother did, notwithstanding the labor saving devices, and that she would continue to do so as

POETS an' ball players are born, not made, but they shore can be marred if you ain't right careful. Pipe tobacco is "born," too. The best of it is born in Kentucky, an' its fam'ly name is Burley. But some of it gets a little "bow-legged," so to speak, from tryin' to walk too soon. Not so VELVET. We don't sell VELVET until Nature has had a chance to finish the work she started when she grew it. The VELVET Burley spends not less than two years in wooden casks agin' an' mellowin', to bring out all its fragrance an' flavor an' take out all its bite. We don't run any chances of marrin' VELVET by processes. We make it by natural agin'. Regal & Myers Tobacco Co. Copyright 1915

EXTRA DIVIDENDS are the surest evidence of the "Mutual" feature of financial institutions. This bank has made two such dividends in the past two years in addition to paying the regular guaranteed rate of four per cent. Future extra dividends will depend entirely upon the growth of business and consequent earnings. Why not join the list of our depositors and thereby make it possible that further "extras" be declared? FOUR PER CENT IN ANY EVENT!—Possibly More. The Burlington Trust Co.
