No Tires are "larger,"—
taken Type for Type,—than
—GOODRICH Black-Treads

SIZE for Size, and Type for Type, Goodrich Tires are as large as the largest put out by any Maker, and WILL BE SO MAINTAINED.

This means larger than corresponding Sizes and Types of many other Tires for which even higher prices are asked.

It means, too, the most generously made FABRIC Tires on the Market, at any price.

Manufactured by the largest Rubber Factory in America, with a 47 year Experience in Rubber-working, and a Record for DEPENDABILITY which makes the above statements worthy of prompt acceptance.

Made from the new "Barefoot Rubber," which gives its maximum Traction with minimum Friction,—with resilience, liveliness and long-life to Tires.

PRICED on that "Fair-List" basis initiated Jan. 1st, 1915, by the B. F. Goodrich Co., which saved more than \$25,000,000 last year to Tire-Users, through its propaganda against Padded Price-Lists.

Priced so reasonably low that Competitors, whose products are not comparable, claim superiority on the mere strength of their Higher Prices (and the Larger Profits they demand from the Tire-User and Dealer).

Goodrich Prices are based on what it costs the largest, and longest experienced, Rubber Factory to manufacture Tires, as ONE of the 269 lines of Goodrich Rubber Goods for which it buys Crude Rubber, and over which its Overhead Expenses are divided.

Good Business Men should know, from this, why Goodrich "Barefoot" Tires can be (as they are) the best Tires on the Market AT ANY PRICE,—though quoted at the moderate "Fair-List" figures frankly and openly published herewith.
