I am different from all others because I not only read your life like an open book, but also help you out of your troubles. For instance what good would it do you simply to be told that you had a rival or enemy in your path, unless you were told just how to overcome them; or in case you wished to win the love of a certain person would you be satisfied to be told about it? or would you not rather know how you could win your desire?—In fact it does you no good to be simply told of your troubles unless the Psychic is able to point out the path to success and happiness. I will accept no fee unless you receive perfect satisfaction and find me superior to all others. I DO HEREBY SOLEMNLY AGREE and GUARANTEE to make no charge if I fail to tell JUST WHAT YOU WISH TO KNOW about friends, enemies or rivals. I promise to tell you whether your husband, wife or sweetheart is true or false; tell you how to gain the love of the one you most desire, even though miles away—in fact, tell you every hope, fear or ambition better than you can tell yourself. I have helped others. Why not you?

Barrett Money Savers for Farmers. If you want steady, sure profits, watch the little leaks in your purse. A stitch in time saves nine. Many a sturdy fence has to come down for want of preservative at the right time. Many a house has to be replastered because that little leak in the roof grew big. Many an order goes to manufacturers of farm implements because the older implements weren't painted. And so it goes. A little expenditure here, a little one there, until you are surprised at the sum on the debit side of your ledger.

Carbonol—When a product gives you the best possible aid in a hundred different ways, can you afford to be without it? Carbonol does this. It is a disinfectant of the highest grade. When you clean house, add Carbonol to the water. It removes grease marks, kills germs and banishes odors. If you cut yourself, you can heal the wound and prevent blood poisoning by using Carbonol. And sores that injure horses or cattle are easily cured with it. If the garbage pail draws flies, sprinkle it with Carbonol. It is the best thing you could use in the sick room to prevent contagion. There isn't anything like Carbonol for farm and home use. Get some today. Everlastic Roofing—In Everlastic Roofing we offer a thoroughly reliable "rubber roofing" at very low cost. It is easily laid without skilled labor and is famous for its wearing qualities. Wherever you have steep roofs, use Everlastic and do away with leaks. Water, wind and weather are defied by this roofing. The best value you ever saw. Creosote Oil—Barrett's Grade One Creosote Oil is the most effective wood preservative on the market because it penetrates more deeply than any other. And it's practical for you because you can apply it by the dipping or brushing method instead of the difficult and expensive closed-cylinder method. Barrett's Grade One Creosote Oil will make an ordinarily good fence post last 20 years. Use it on all your exposed woodwork. It makes exposed surfaces rot-proof and moisture-proof. Amalite Roofing—Amalite Roofing is distinctive for two reasons—its bright attractive, sparkling appearance and its great durability. It has wide fame, too, as the roofing that needs no painting. Its mineral surface is waterproof and fire-resisting. Amalite is made in rolls, each roll containing enough to cover 100 square feet with a 3 inch lap. Tylike Shingles—Would you like your roofs covered with a roofing whose exterior surface is pure, natural slate? Then use Tylike Shingles. A fire-resisting, waterproof roofing of rare beauty. Made in red or green without artificial coloring. The handsomest and most satisfactory roofing in your neighborhood will be yours if you use Tylike Shingles. You lay them just like slate. They look better and cost less than slate. Quality, durability and economy all rolled into one. Everjet—Black and more useful to you than that's Everjet Elastic Paint. This glossy, permanent, elastic paint is a triumph. Indispensable as a roof paint and covering for exposed surfaces. Make your roofs perm anent weather-proof and waterproof with Everjet. It's a wonder. Clings to metal surfaces regardless of temperature. Never peels or chips. Positively insures against rust. Sold by good dealers everywhere. Send for new "Money Savers" Booklet.
