WOODSTOCK NEWS

Over Three Inches of Rain.

The official rainmakers of the weather bureau have done well so far the present month, the precipitation far exceeding the average. Up to Thursday, the 19th, Observer Gearing's rain gauge recorded 4.33 inches, which is a good showing even for a whole month.

Rain began falling about 4 o'clock Wednesday morning and kept steadily at it until 8 a. m. Thursday, the downpour being terrific at periods. At 8 o'clock 2.79 inches had fallen, a fraction of an inch more was measured making a total of 2.86 inches.

After a let-up of a few hours the grouchy weather conditions continued, rain falling until into the evening and bringing the total two-days' record up to 3.14 inches, and the October rainfall to date, 4.61 inches.

FOOTBALL

Woodstock High was defeated at Bethel last Saturday, 6 to 5, by the Whitcomb High school gridiron artists. It was a close and interesting game, but the Bethel boys added a goal to their touchdown, winning by one point.

Woodstock High will play the New Hampshire Hall (Dartmouth) team on Vail field this afternoon at 3 o'clock.

LECTURE COURSE 1911-12

Four Excellent Bookings by the Local Managers.

Four entertainments of unusual interest are announced by those in charge of the lecture course for the coming season, as follows:

Tuesday, Nov. 21, lecture by David Starr Jordan, president of Leland Stanford University, California. Subject, "The Blood of the Nation."

Wednesday, Dec. 15, Rogers and Grilley, entertainers.

Monday, Feb. 5, lecture by Lieut. Charles F. Gammon. Subject, Present Day China.

Friday, Feb. 16, concert by the Boston Festival Orchestra Club, with Mrs. Bertha Cushing Childs, contralto soloist.

President Jordan, who opens the course, is one of the strongest and most interesting men on the lecture platform today, and the lecture association is very fortunate in securing him.

The Rogers-Grilley recital has been a standard attraction for several years. Mr. Rogers is a harp soloist of high rank, while Mr. Grilley, reader and impersonator, is much out of the line of ordinary entertainers, and the two men give a thoroughly unique and enjoyable program.

Lieutenant Gammon, formerly military instructor for the Chinese government, has spent 17 years in oriental lands. His experience covers a period of exciting events, including the Japan China war of 1894, the Boxer uprising of 1900, and the Russo Japanese war of 1904-5, and he is said to be a fluent and interesting speaker. The lecture will be illustrated with slides.

The fifth entertainment of the course, by the Boston Festival Orchestra club, including nine soloists, under the direction of George W. Stewart, will be of real musical interest. The club fully keeps up the reputation of the larger organization to which it belongs, and its work is well known throughout New England. Mrs. Childs, contralto, who assists the club, is one of the best of Boston's concert singers.

Advertising matter soon to be distributed will give further details of the course. The price of tickets for the course will probably be the same as last year, \$1.50.

Rainey-Follette Motion Pictures.

A series of fascinating, beautiful as well as novel and educating motion pictures of the "Land of the Midnight Sun," taken by Paul J. Rainey during his last expedition to the Arctic regions, will be shown at Music Hall, Woodstock, on Thursday night, Oct. 26.

The Arctic region in transition is shown from beginning to end in a wonderful and interesting manner by a series of the most wonderful motion pictures that have ever been shown in this country. The views, gathered by Paul Rainey, the millionaire sportsman and naturalist, during his perilous expedition to the frozen North, are shown on the canvas so wonderfully life-like that, though seated in a comfortable theatre, one almost feels himself transported to those icy fields. In rapid succession will be shown the Eskimo,

his family, his home, his mode of living and his wonderful dogs. Then will be depicted the exciting capture of a polar bear, a fight with a walrus, the spearing of a seal, and fishing for salmon. Then will be shown the destruction of an ice bound vessel by dynamite.

Mr. R. Follette, who will give the descriptive lecture about these pictures, was a member of Mr. Rainey's expedition, and his familiarity with that region will lend color to his glowing and interesting discourse about the scenes depicted.

WOODSTOCK NOTES.

Dr. and Mrs. Haskell expect to return home Monday.

Mr. and Mrs. George Nichols have moved into part of B. E. Chase's house on Golf avenue.

E. J. Squier of Jamestown, N. Y., national organizer of the Socialists, gave an address on French's corner Saturday evening, after an active day's work in distributing leaflets descriptive of Socialist aims and accomplishments. Mr. Squier had much to say of the helplessness of the working classes in this country, and what organization by them and in their behalf would do for their betterment. He had much to say that was to the point, but he was not an attractive speaker and was unable to hold his sidewalk hearers any length of time. At the close of his talk he asked those interested to adjourn to F. J. Perkins' store and join a local Socialist organization. About a dozen listeners accepted the invitation.

The speedy showing of Pauline and Floradora was the feature of the races at Fitchburg, Mass., last week Thursday. Pauline won the 2.20 easily and Floradora took first money in the 2.19 stake in straight heats. The Greenfield Sentinel says:

"The horses had trouble in getting away in the 2.20. Spafford was there with Pauline, who was picked to win. Goldbug broke once and got a setback. He recovered and forced Pauline to step in 2.20. It was a great speed test and the drivers used the braid in the stretch. The second heat was easy for Pauline, Paul Wilkes forcing her only a part of the way. Goldbug weakened and Fred R. beat him for third place. It was Pauline away in front again in the final with the other three bunched. At the half Goldbug was closing in and a procession following. Spafford didn't want to go four heats, so he teamed Pauline for the lead. Goldbug started a brush for the stretch but couldn't

THE BUCK-HUNT TIMBER LANDS
AND MILLS OFFERED FOR
SALE.

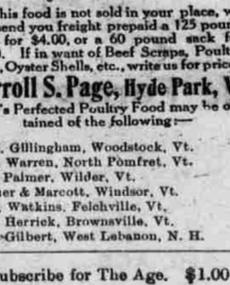

In order to close the Mudgett estate, what is known as the Buck-Hunt Mills and timber lands are now offered for sale. They consist of sawing and dressing mills, and three to four thousand acres of timbered land, several hundred acres of which are heavily covered with old-growth virgin spruce.

This is very fine property for some enterprising concern to take up. The lands nearly all slope down toward the mills, which are situated upon the estate, and alongside the property runs the St. Johnsbury and Lake Champlain branch of the Boston & Maine Railroad, the mills being on a private siding.

The mills have been recently enlarged by the addition of a commodious dry kiln, equipped with an up-to-date, latest style Sturtevant blower. A new Berlin hardwood flooring machine has also recently been added to the equipment.

We understand that the property will be sold on the basis of \$2.00 for the hardwood and \$4.00 for the spruce stumpage, and that two other large timber properties in this county are also on the market. The facts concerning any of them can be obtained by addressing Carroll S. Page, Treasurer, Hyde Park Lumber Company, Hyde Park, Vermont.—News and Citizen.
