Egg Shell Far From Fragile.
The strength of an egg when it is not generally fully realized. Recently eight ordinary hens' eggs were submitted to pressure applied externally all over the surface of the shell, and the breaking pressures varied between 400 and 675 pounds a square inch. With the stresses applied internally to twelve eggs these gave way at pressures varying between 32 pounds and 65 pounds a square inch. The pressure required to crush the eggs varied between 40 pounds and 75 pounds. The average thickness of the shells was 13-thousandths of an inch.

The Next Step.
Be the noblest man that your present faith, poor and weak and imperfect as it is, can make you be. Live up to your present growth, your present faith. So, and so only, do you take the next straight step forward, as you stand strong where you are now; so only can you think the curtain will be drawn back and there will be revealed to you what lies beyond.—Phillips Brooks

Everything Worth While.
Never think yourself too insignificant or the thing too mean. You and it have an infinite capacity for absorbing, storing away, raying out glory.—J. F. W. Ware.

Area of New York and Brooklyn.
The area of New York state is 49,000 square miles. That of Brooklyn is 82 square miles. The area of Long Island is 1,337 square miles. The area of the borough of Manhattan is 18 square miles.

A beautiful handmade imported French lace centerpiece will be raffled to the profit of the convent school. It may be seen in the window of the Bosworth Store during the first week of November. Certain young ladies attending the convent have been authorized to collect mon-

ey on this article; one chance for 15 cents; two for 25 cents. It will make a very appropriate and handsome Christmas gift.

For several days the past week Mrs. John H. Wright of New York, formerly Jessie Dunbar, was entertained at the home of Edward Dickson, with her two year old daughter, Florence Ellen. She called on as many of her old friends as possible in so short a time. Mrs. Wright manifested great pleasure at the cordial way her old friends greeted her, and only wished that her visit in Island Pond might have been longer.

Charles N. Moulton of East Charleston, president of the Brighton Checker Club, while in Boston on business last week played with the New England Checker League against Boston, winning all but one game out of a possible eight and played a draw with S. Crumb, who played fifteen boards at once, the "3-8 cross" variation. This speaks very highly of Mr. Moulton who is not continually at the game and does not consider himself a professional.

L. F. JONES, DRY GOODS

Dr. C. H. Parkhurst, Dorothy Dix, the famous writer, the Rev. Allyn K. Foster, pastor of the first Baptist Church of Worcester, Mass., and many others have written articles of preached sermons endorsing the moral of "The Blindness of Virtue," the picturization of which, produced by the Essanay Film Company, will be shown here at the Idlehour theatre on Tuesday, Nov. 2. The film, which is featured by Edna Mayo and Bryant Washburn, deals with the greatest duty of motherhood—to protect daughters from the pitfalls of ignorance by informing them of the important functions of womanhood.

Through carelessness in makeup several editorials appeared in this paper last week which bore no relation to it. They were marked not to go in but in the hurry of makeup slid in somehow. We intend to repeat only those editorials which cover the state and general conditions. In this connection we will state that while on the road we have been frequently requested to print locals of Newport, Stanstead, Beebe and those towns west of Island Pond and have concluded to do so. We think many will appreciate this.

Essex County Court News.

Guildhall, Vt., Oct. 26, 1915.
Court convened here today, with a large attendance of attorneys and with Hon. Leighton P. Slack, chief judge, and Hon. Kyle T. Brown and Hon. E. J. Nelson, assistant judges, presiding.

The jury men in attendance are as follows:—S. W. Smith, John Stanton, F. G. Seoff, Bloomfield; Chas. Roby, W. A. Paine, W. H. Murphy, Leo J. Steady, William Nish, Brighton; Frank Mason, Brunswick; Neil A. Ross, T. E. Dorman, Canaan; Frank Heywood, Allie Carrier, C. A. Carroll, W. P. Streeter, Clark Steere, Concord; L. T. Parker, East Haven; J. L. Wells, Granby; E. E. Wilson, Chas. Hill, Chas. Fitch, Guildhall; Heman Mason, Lemington; Ernest Silsby, Henry Stevens, John Wilson, Irving Bowker, Lunenburg; John G. Beattie, Madstone; Fred J. Daniels, Norton; C. C. Dunn, Victory.

There are 24 cases marked for the jury and four for the court. Out of these not more than five or six will probably be tried, although the prospect indicates twice that number.

The case now going on is Farmers Company vs. Sandwich Mfg. Co., on breach of contract in the sale of a hay press. The Farmers Company is a corporation operating in Madstone in this county, and Hon. Isaacland B. Howe, U. S. district judge, is the principal owner therein. Mr. Howe is the first witness and has already occupied the stand for half a day, and his direct examination is not yet finished. The next case for trial will be

Jean Louis Robert vs. Fitzgerald Land & Lumber Co. for breach of logging contract. This will take several days; there are also several other long cases in line. On the whole this bids fair to be a record term for length.

Moreover, Guildhall is booming in more respects than one. The abandoned mill, built several years ago, has been purchased by some New York company which is making thorough repairs preparing to manufacture paper on an extensive scale. If we had a hotel large enough and a free bridge in place of the old tumble down toll bridge, Guildhall would surely be on the map to stay for no more beautiful town topographically can be found in Vermont.

Masonic District Meeting.

Two hundred and sixty-six brethren in masonry were present at the tenth district meeting held here on Saturday afternoon and evening. While there are but seven lodges in this district, the visiting masons from other districts made a total of thirty lodges represented. Harry C. Belknap was initiated into the first mysteries of the art in the afternoon and in the evening Francis H. Johnson was made a master mason. Banquets were served simultaneously in the banquet hall of the opera house block and the Stewart House dining room so that practically all were accommodated at one seating.

The Masonic Symphony Orchestra furnished excellent music during the supper hour and in connection with the work in the evening. At the close of the work, Grand Lecturer Harriman offered such few corrections as he found and spent some time in explaining certain features of the ritual. Deputy Grand Master Stannard spoke for the tenth district. Grand Secretary Ross was on hand with his usual amount of good stories interspersed with a serious talk as to what constituted a "High Mason." The evening closed with a brief but eloquent address by Grand Master Charles H. Darling of Burlington, dealing chiefly with the origin of the first three degrees of masonry.

Card of Thanks.

We wish to express our deep gratitude to all who assisted and sympathized during the last days and funeral services of our husband and father, to the church, Grand Army and other organizations and friends for beautiful flowers, to those in charge and the singers for their kindness.

Get Wrong Impression.

"A heap of unhappiness," remarked Uncle Eben, "is due to de way a girl figures out de chance of a man's bein' a good pervider by his willingness to buy ice cream soda."

Seeing the Pacific.

Nunez of Balboa bears a peculiar relation to Panama. He was not the discoverer of the country nor its first settler, nor was he the organizer or administrator of the government in this part of Spanish territory, but he was the first white man to behold that broad sweep of ocean which we now call the Pacific, and he saw it from Panama territory.

Cheap Paint

There are 1000 "cheap" paints and a dozen really cheap ones. That double word "cheap" is the cause of waiting more money than good paint costs, two or three times over. Cheap paint is good paint; there is no other; no other is cheap. The two words sound alike but their meanings are opposite. "Cheap" costs double. Cheap is Devoe. DEVOE

Brotherly Love.
Brotherly love is vital, not mechanical. How refreshing is the dew! it gives new life and verdure to all it touches. Brotherly love is independent of organizations, it is independent of all social mechanisms.—Doctor Thomas.

Daily Thought.
Nature has presented us with a large faculty of entertaining ourselves alone, and often calls us to it, to teach us that we owe ourselves in part to society, but chiefly and mostly to ourselves.—Montaigne.
