Worst Kind of Dust.

Dust is everywhere, but the worst kind of dust is that which is confined within the four walls of a room. The dust is always germ-laden, because it is infested with effete matter thrown off by human bodies.

Willing to Compromise.

One evening at the supper table Johnnie told his father that Willie, his brother, had used profane language at school. Willie, of course, denied it, but Johnnie insisted that he heard him. The father said, "Eat your supper, William, and then I will settle with you." Willie sat in silence for some time, then he looked up and said, "Papa, I'll tell you how to settle this. Just say nothing more about it."

Hardly Worth Considering.

"Would your wife vote for you as a candidate for office?" "I don't think there's any use of my bothering my head about that," replied Mr. Meekton. "I don't believe Henrietta would let me run in the first place."—Washington Star.
