HUGE CROWDS BID COLONEL AND FAMILY FAREWELL AT ALEXANDRIA.

MOB MAKES DEMONSTRATION

Angered at American's Speech at University of Egypt Hostile Mob Surrounds Hotel at Cairo Crying "Down with Liars."

Alexandria, Egypt, Mar. 31.—Theodore Roosevelt bade farewell to Africa and, accompanied by Mrs. Roosevelt, Miss Ethel and Kermit, left for Naples on the steamer Prinz Heinrich. By Sunday the party will be in Rome. They were given a hearty welcome and farewell, but had little time to spare while here.

Receives Note of Thanks.

Mr. Roosevelt received here a note of thanks from American missionaries in appreciation of his courtesy to them and his condemnation of the Nationalists in his Cairo address.

Huge crowds awaited the Roosevelt train and followed the party along the quays to the Prinz Heinrich which was gay with flags, the Stars and Stripes predominating.

The colonel's departure from Egypt was like his arrival. He goes out absolutely the one dominating feature, the greatest personality of Egypt today.

He was given a rousing send-off when he bade farewell to Cairo and the government officials breathed a deep sigh of relief at his departing.

Nationalists Are Hostile.

Resentment of Col. Roosevelt's exploitation of England and demands that the assassination of Minister Boutros Pasha be avenged in his speech at the University of Egypt was expressed by a mob scene in the principal streets of Cairo, when 2,000 ultra-Nationalists took possession of the thoroughfare overlooked by the windows of the Roosevelt's apartments in Shepherd's hotel. For half an hour deafening cries, uttered with fanatical intensity, filled the air.

"Down with liars!" shouted the mob. "Long live liberty! Long live Egypt! We demand a constitution! Long live independence!"

Authorities Fear Violence.

The authorities feared to attempt intervention in any way, as the spirit and strength of the mob were such that opposition would have precipitated violence.

Col. Roosevelt was not at the hotel, but this fact was unknown to the mob.

The mob finally marched down the street, wheeled and returned to repeat the demonstration, with its ranks augmented by Cairo ragmuffins, then departed to disperse.

Copts Reassure Roosevelt.

Col. Roosevelt was visibly agitated when he returned to his apartments and learned of the significant demonstration.

A committee of Copts rushed in to reassure him, but at the same time he received this written message from the Nationalists:

"At our meeting resolutions were approved which we forward to you protesting against your references hostile to an Egyptian constitution."

BIG ROW IN PINCHOT QUIZ

Chairman Nelson Accuses Attorney Brandeis of Concealing Evidence and Misleading Committee.

Washington, Apr. 2.—There was a lively row at the Hallinger-Pinchot congressional inquiry.

Testimony for Secretary Hallinger was begun, and it soon developed a clash between Chairman Nelson of the committee and Attorney Brandeis, counsel for L. R. Glavis.

The chairman accused Mr. Brandeis of concealing certain evidence and trying to mislead the committee.

Brandeis resented the charge and demanded a withdrawal, which was refused.

Democratic members of the committee took the side of Brandeis in urging withdrawal, but Nelson was obdurate, and finally the record was allowed to stand.

Elmer E. Todd, United States district attorney at Seattle, Wash., when called, contradicted certain statements made by Special Agent H. L. Jones when he was testifying for Louis R. Glavis.

The witness declared that Jones' statement that he had advised against criminal action in the Alaska cases "because Judge Hanford was constitutionally opposed to land fraud trials generally," was absolutely false.

DEFENDS RAIL BILL

SENATOR ROOT COMBATS CUMMINS' ARGUMENT AGAINST TAFT MEASURE.

WILL IMPROVE PRESENT LAW

New Yorker Declares It Represents Continuous Republican Policy Through Three Administrations—Amendments Presented to Senate.

Washington, Mar. 31.—Following the presentation in the senate of amendments to the railroad bill agreed upon by the organization leaders, Senator Root began a strong legal argument combating the reasons advanced by Senator Cummins in opposition to the administration measure.

Amendments in Brief. The amendments submitted provide briefly as follows:

Authorizing appeals to the supreme court from interlocutory decrees; compelling a hearing upon five-days' notice in connection with a temporary suspension of any orders of the commission; changing the section relative to the control of water routes so as to eliminate the supervision of the commission over port to port rates; permitting complainants before the commission to be represented by counsel in cases taken up on appeal; reversing the original Wickham amendment limiting the jurisdiction of the court of commerce to that jurisdiction now exercised by circuit courts of the United States.

Senator Root said he believed that in some particulars the pending bill ought to be amended. In the main, however, he gave it his approval. Its general scope showed that it would improve and strengthen the present law.

Bettors Present Law.

"This bill," said Senator Root, "is a decided, positive and progressive measure towards the better accomplishment of the purpose of the law creating the interstate commerce commission. I believe the bill responds to the expressed and continuous policy of the party now in power and responsible for the conduct of governmental affairs."

Senator Root read extracts from the speech of acceptance of President Taft on this subject. That speech, he said, had been the subject of a conference between Mr. Roosevelt and Mr. Taft and it was fair to assume that it represented a continuous Republican policy through three administrations.

SEEK IMPEACHMENT OF JUDGE GROSSCUP

Illinois Congressman Introduces Resolution Asking Investigation by Congress.

Washington, Apr. 2.—A movement started by organized labor to institute impeachment proceedings against United States Circuit Judge Peter S. Grosscup is behind a resolution asking an investigation of the federal court officers' fees which Representative Sabath of Chicago introduced in the house.

Congressman Sabath's resolution directs the attorney general to furnish the house with the names of all persons connected with the department of justice, and particularly the United States circuit and district courts, who receive compensation other than a fixed salary.

Mr. Sabath said that he desired mainly to break up the "court cliques in Chicago that have got a corner on bankruptcy proceedings and receiverships."

The primary purpose of the resolution, he explained, was to secure a record of all clerks, special attorneys, masters in chancery, referees and other attaches of the court who receive compensation other than that fixed by the regular salary list, in order that their relations with the several courts could be checked up.

Naturally, he added, the investigation would lead up to Judge Grosscup, who appointed his confidential clerk one of the receivers of the Union Traction Company at Chicago. Sabath asserts that nearly a quarter of a million dollars was taken out of the assets to pay receivers, special attorneys and other appointees of the courts.

House Sub-Committee May Limit Ban to Cotton Exchanges—Grain Makes Good Showing.

Washington, Apr. 1.—A prohibition of dealings in futures in the grain markets in the United States, through the Scott bill, with amendments so as to apply specifically to the cotton exchanges only, is the indicated outcome of the deliberations of the subcommittee of the house committee on agriculture, to which the proposed anti-option legislation was referred. The subcommittee was unable to reach a conclusion, although it is not unlikely that the grain exchanges, which made a favorable showing at the hearings before the committee, will be eliminated from the scope of the bill.

PEACE IN WAGE WAR

BOTH SIDES MAKE MOVES TO BRING ABOUT A SETTLEMENT.

LONG ILLINOIS SIEGE SEEN

Miners to the Number of 300,000 Are Out and Wage Negotiations Are Undertaken — Issues Will Take Time to Adjust.

Indianapolis, Apr. 2.—Both sides are making moves to bring about peace in the great wage war started when 300,000 miners in the bituminous fields walked out.

The miners demand that their new contract must provide for a wage increase of 5.55 per cent. a ton on screened and an equivalent increase on "run-of-the-mine" coal.

Conferences between the miners, organizations in the various districts and the corresponding operators' associations have been arranged. Adjustment of the difficulty may take weeks or days. In the Brazil block coal district of Indiana there will not be a suspension, for the operators conceded the demand of the miners.

Illinois Peace Not So Near.

In Illinois and western Pennsylvania, where the powder question and who shall pay the shot-firers enter the controversy, a prolonged contest is likely.

At hundreds of meetings in large and small miners' communities, where the people dependent on the industry assembled to listen to the speeches of their union leaders, the "strike" was the one subject of discussion. National officers and members of the executive board of the United Mine Workers of America, who had been in secret session at their headquarters in this city, departed for their districts to advise the local organizations in the negotiations with the mine owners.

President Thomas L. Lewis spoke at Beelleville, Ill., East St. Louis and other towns.

Illinois Strike May Last Long.

Chicago, Apr. 1.—Unless the miners' strike should continue several months there is declared to be no danger of a fuel famine in Chicago. Officers of the coal operators' association last night again expressed this belief.

"The shut-down will continue at least 30 days," said E. T. Bent, secretary of the organization. "The railroads and large concerns have a supply which will last from 30 to 60 days. The visible supply is adequate for all. Here in Illinois we have not less than three weeks of hard work before us in an effort to reach a settlement. The result is that idleness in April is inevitable."

FINAL STAGE OF RATE WAR

Government Files Brief in So-Called Missouri River Cases, Which Involve Many Interests.

Washington, Apr. 2.—The biggest freight rate fight since the passage of the Hepburn rate bill has entered its final stages. The government filed in the supreme court of the United States a brief in the so-called Missouri river rate cases. These involve the interests of manufacturers, jobbers, merchants and railroads from the Atlantic to the Rockies.

One case involved the class rates from Chicago and St. Louis to Denver.

Two cases arise out of an order issued by the interstate commerce commission effective November 16, 1908. This directed a reduction of rates for the transportation of various classes of freight, originating at Atlantic seaboard points, from Mississippi river crossings to Missouri river cities.

PUBLICITY BILL IN SENATE

Washington, Apr. 2.—Senator Bailey introduced a bill for the publication of campaign contributions. A similar measure has been ordered reported favorably by the committee on the election of president, vice-president and members of congress, but Chairman Gaines has not presented the report.

The bill is the one which Perry Belmont, president of the National Campaign Contribution Publicity association, said he had endeavored without success to persuade Senator Burrows, chairman of the senate committee on privileges and elections, to offer.

On embarking at New York Mr. Pinchot was listed as "Gaylord Smith," in order that he might avoid reporters.
