

"I DON'T SUFFER ANY MORE"

"Feel Like a New Person," says Mrs. Hamilton.

New Castle, Ind.—"From the time I was eleven years old until I was seventeen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. HAZEL HAMILTON, 822 South 15th St.

"When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, it is not reasonable to believe that it is an article of great merit. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence."

Vengeance First.
A young convict came singing around the corner of the big, sunny yard, and Judge Briles had just made himself comfortable in an easy chair on the big house porch.

"Good morning," said he to the man. "Good morn'g!"

"What are you here for?"

"Beatin' up a policeman."

"That is a serious offense. Now, aren't you glad you have thought better of it, and intend to turn about?"

"Yes, suh."

"And when you get out you will reform?"

"Yas, suh. I'll done beat up dat perleceman what sent me up fo' beatin' him up—after dat, I've gwine 't be a diffunt niggah, judge."—Pittsburgh Chronicle Telegraph.

The Plot.

"That fellow Jones-Smythe is getting too darned popular around this club. I wish we could put a spoke in his wheel somehow."

"I'll tell you what we'll do. Let's elect him chairman of the house committee."

When Housework Drags

Keeping house is hard enough when well. The woman who has a bad back, blue, nervous spells, and dizzy headaches, has a hard lot, for the family tasks never let up. Probably it's the result of kidney trouble and not the much-feared "woman's weakness." Strengthen the kidneys with Doan's Kidney Pills. They are as harmless as they are effective and may be used for children with weak kidneys, too.

An Indiana Case

Mrs. R. P. Feaster, 267 W. South St., Greenfield, Ind., says: "Kidney trouble clung to me thirty years and finally I had a terrible spell of gravel, passing several stones. After that I had attack after attack of kidney trouble and I was often confined to bed. My back was terribly painful and my ankles and limbs swelled so badly I couldn't get my shoes on. Eight boxes of Doan's Kidney Pills cured me and I have had no further trouble."

HOW SOME SCANDALS START

Silly Act of Waiter Caused Embarrassment to Lady Who Was Taking Lunch Alone.

Her husband was out of the city and she came downtown for lunch, choosing a tearoom for her eating place, relates the Indianapolis News. She was led to a small table where she sat alone—for a minute. A man entered the place, and, notwithstanding there were plenty of empty tables, the waiter took the man to her table and seated him opposite her.

"You may imagine my surprise," she said to a friend later. "The tearoom began to fill up, and among the lunchers were many persons I knew. 'What will they think?' I said to myself. 'All right, out of town, and here I'm dining with a strange man.'"

"But my troubles had only begun. The waiter put down my order and the man's order on the same slip."

"What are you doing that for?" I demanded. "Put my order on a separate slip."

"The man opposite me seemed to see humor in the situation, as I caught him smiling."

"O, I didn't mean any discourtesy," I said to him.

"The situation is just as embarrassing to me as it is to you," he replied, and seemingly to prove that he was a gentleman, he placed his card on the table. I recognized his name as that of one of my husband's friends, but I did not feel that I ought to introduce myself. Soon afterward some of my friends who had eaten their lunch came over to my table and began talking. I saw them sizing up the man, but, of course, I could not introduce them and they went away with plenty of material for gossip. I now realize how easily the mistake of a waiter might develop into a scandal and I have resolved never to enter a tearoom alone again."

HAS WON PLACE IN HISTORY

Work of German Engineer in Asia Minor Deserving of the Highest Commendation.

Meissner, who is but a few years older than the kaiser, went out to Turkey as a young engineer shortly before Wilhelm ascended the throne, and has made one portion or another of the Ottoman empire his special field of endeavor ever since. As Germany's Eastward Ho! policy was a nebulous hope rather than a definite plan up to the beginning of the present century, the first decade or so of Meissner's work in Turkey was as unselfish in character as were the labors of those distinguished Britons who have built the railways of Argentina and Peru or reformed the customs of China. During this period the foundation of the present railway system was laid in what was then Turkey in Europe, and considerable construction was also carried on in Asia Minor. How much of Meissner's work of the last fifteen years has been in direct furtherance of the kaiser's far-reaching eastern ambitions it would be very difficult to say; probably, indeed, he has little idea himself. But however much he has been made a pawn in the game of Realpolitik, I am confident that there are very few who have followed his work of the last thirty years who will not grant that the mainspring of his personal efforts was a deep and sincere affection for Turkey and the Turkish people. The type is a common one in the last century of British history, but Meissner is the only German I have ever met worthy of inclusion with the elect.—The Atlantic.

Government "Movies."

The department of agriculture keeps up a special motion picture factory at which it makes the films it uses in promoting scientific farming. The department heads use the films to illustrate lectures and the field force shows them at country schoolhouses and churches, where they have invariably attracted large and interested audiences. Even before the factory was set up various bureaus of the department made use of films in educating the public. Thus, the bureau of animal industry had a special film to show the southern farmers how to make and use the dipping vats that would free their herds of ticks. It also shows films that illustrate the correct ways of handling meat, breeding cattle and raising poultry. The good roads division and the forest service have made a similar effective use of motion pictures.

Economy in England.

"What's this?" exclaimed the young husband, referring to the memorandum she had given him. "One dozen eggs, a pound of raisins, bottle of lemon extract, a tin of ground cinnamon, and a half pound of sugar. What on earth do you want with all these things, Elsie?"

"I've got a stale loaf," replied the young wife, "that I am going to save by working up into a bread pudding. I never let anything go to waste, Henry—especially in war time!"—London Answers.

Mighty Power of Love.

Love is the purification of the heart from self; it strengthens and ennobles the character; gives higher motive and nobler aim to every action of life, and makes both man and woman strong, noble, and courageous. The power to love truly and devotedly is the noblest gift with which a human being can be endowed; but it is a sacred fire that must not be burned to idols.—Miss Jewsbury.

Pretty, Simple Waist

Of all simply made waists this is, perhaps, the prettiest. Its soft fullness in front and the fullness gathered from the shoulders are very attractive, while the gathered surplice collar—if this name may be given quite a new form of decoration—is most charming and becoming. Indeed, the whole decorative scheme of the waist lies in this broad, short surplice, which, instead of being gathered into the waistband, is cut off and arranged to hang in folds, like the fronts of a

Bolero Surplice Waist.

bolero. The idea is quite new and very simple, although it does not look so. One has only to gather the top into the shoulder seam and let the pointed ends fall naturally. A pretty little twilled ruffle edges the fronts, sailor collar and cuffs, and nothing could be more easily made than this form of sleeve and collar.

The design also is made so that the surplice pieces can be omitted and leave a most attractive plain waist with a full front.

Everybody likes this style of blouse, because it is easily put on and buttoned up in front, and is equally applicable to many sorts of material. You will find that all the crepes—both silk and cotton—are very attractive when made up this way, and silks and gingham serve as useful and decorative an end. A great many attractive plaid silks and gingham are in the market, and they are smart with plain-colored dresses. Then, too, the pattern will be found very practical for thin summer goods, such as dotted and figured swisses and lawns. In case you make the waist of any summer material the collar may be omitted and a fichu or net collar worn separate, since this may be removed and a fresh one put on at will, and so the waist remain nice for several wearings.

NEGLIGEE OF CREPE

Charming negligee of crepe meteor trimmed with cording and mouffin fur. The "Chin-chin" cap has a corded net crown, and is trimmed with pink roses in pastel shades and ribbon streamers. Petticoat of white washable satin, plaited chiffon and net.

DRESS WELL FOR RAINY DAYS

Inclement Weather Should Not Be Made an Excuse for Undue "Sloppishness" in Dress.

The up-to-date business woman refuses to work in unbecoming garments, no matter what the weather may be. Rain or shine, she insists upon looking well dressed, knowing that her appearance is no small part of her success. The time has passed when the efficient worker was content to wear

any sort of clothes. She dresses herself for the office just as immaculately as for a drawing room.

An essential to a neat, attractive appearance on a rainy day is some sort of waterproof coat. This need not be a hideous affair of rubber, drab in color, shapeless as to fit. Really smart waterproof coats are to be found in these enlightened times, one seen recently being in pewter gray waterproof tweed, designed to withstand the wickedest weather. It was lined with a lovely Wedgwood blue shade of silk. The coat buttoned at the top with two large tweed-covered buttons, or it could be worn open. It had two capacious pockets at the sides, and the garb was completed by a jaunty and sensible little hat in blue felt, with a gray ribbon and unadorned steel buckle, and a pair of high waterproof boots.

The whole was a judicious mixture of the picturesque and the practical, and proved that we can wear the most perfectly weather-resisting garments and still look quite charming on a wet day. The idea that "any old clothes" will do for bad days is quite exploded nowadays.

TOILET CASE FOR TRAVELER

Adapted to Every Requirement Needed by Man Who Is Frequently Away From Home.

This is a handy case that would form a most acceptable gift to prepare for a man who has much traveling to do. It is designed to contain a military hair brush, razor, shaving brush and shaving papers. It is carried out in dark-colored art linen, lined with saten and bound at the edges with narrow ribbon.

The center portion is stiffened with a piece of strong cardboard, sewn in between the linen and the lining, and on the left there is a loop of broad white elastic, under which the hair brush may be slipped and held in place. On the right of this there is a pocket for a razor, provided with a fold-over flap that fastens with a push

button. On the right of this again there is an open pocket, bound at the edge with narrow ribbon, for the shaving brush, and below all this is a large pocket for the shaving papers.

The case can be cut out entirely in one piece, and the portion that forms the pocket for the shaving papers folded over and sewn down at the sides. To close the case, the two side flaps are folded on to the center portion, then the large pocket folded upwards and the top flap folded downwards.

To secure the case, the top flap is tied on to the back of the pocket for the shaving papers. This is illustrated by the lower sketch, and the initials of the owner of the case might be worked where indicated.

FOR THE SMALLER CHILDREN

Nothing Better Than the Rompers, Either for Playtime or the Formal "Dress-Up" Occasions.

For playtime nothing can ever take the place of rompers. These can be as attractive as one wishes them to be. They should, however, be made of some color that does not show the first streak of soil nor the first wrinkle. Gingham is always good. A big check is effective and does not show soil easily. Use a dark, plain material for trimming bands, at belt, for a collar, cuffs and at the knees.

For the very small boy, the one under five or six years, wash suits are always best. Those of pure white or pink or blue are quite suitable for afternoon wear, but they become soiled so quickly that they are quite inappropriate for morning wear. One of tan or a stripe of tan and white, red and white, blue and white or blue and tan is a much wiser choice for morning than the all-white sort. Galatea is a good material to choose.

For afternoon, however, a suit of blue or pink poplin with collar, cuffs and belt of white and tie of black is very attractive, especially if white stockings and black patent leather pumps be worn.

Two-Toned Manila Sport Hats.

One side of the two-tone Manila is always white, and the other may be any of the brilliant sweater shades. Then huge flower motifs cut from denim are buttonholed with heavy embroidered floss to the hat, which is often embroidered in other ways. Two-tone Manilas are certainly stunning, and lend themselves to the many embroidery ideas which are much favored.

If you Suffer from Backache, Lumbago, Kidneys or Rheumatism, Take Hot Water and "ANURIC"

American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache or dizzy, nervous spells, sick stomach, or you have rheumatism when the weather is bad, get from your druggist—"ANURIC." Because of uric acid in overabundance in the system, backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica result. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and eradicate this uric acid from the system. Dr. Pierce believes "Anuric" to be 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10c for trial package or \$1.00 for full treatment "Anuric."

Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past 50 years. Adv.

LOST HER FAITH IN BOOKS

How Small Marian's Mind Underwent a Complete Revision as to the Abodes of Kings.

Marian has an open mind and is always willing to have opinions she has framed, changed.

"Mamma," she said, looking up from a book of fairy tales, "do you know that castles are solid gold and have solid gold furniture?"

"Those are fairy castles," replied mother. "Real castles are built of brick and stone, and the furniture is very fine, but not of gold."

A few minutes elapsed.

"Say, mamma, you can't believe anything you read in these books, can you? I'll bet a lot of real poor kings live in shacks and don't even keep a hired girl."—Indianapolis News.

Mandy the Undisturbed.
Solitude does not make for eloquence.
"Mandy," said Bill Ittner, the ultimate denizen of Bitter Creek, "where's my razor? I need a shave."
Entered then Ike Kidder, the arch enemy of Bill Ittner, a bad citizen from across the range. A nine-inch bogie flashed in his hand. Bill clinched with Ike and the mountain cabin trembled in their struggle. The table was demolished, the stove collapsed, the matutinal water bucket was overturned. Finally, Bill secured the knife. As he pushed the dying Ike from its blade—
"Behind the clock," said Mandy. "You sure do!"—Judge.

Bumper Grain Crops

Good Markets—High Prices
Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.
No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. There

is no war tax on land and no conscription.
