MORGAN SURROUNDED AGAIN.

The latest news from Morgan is that, after crossing the Muskingum River at Eaglesport, some miles below Zanesville, he came upon some of our forces who engaged him and drove him back to the river. At 10 o'clock last night [Thursday] he was surrounded. We hope to hear of his capture to-day. It was reserved, we think, for the Buckeye Boys to capture and destroy the hand of this distinguished thief and robber.

To the Boys of the Volunteer Militia Company.

The Independent Company, Captain CLARKE has been disbanded by the Adjutant General. This was done upon the letter of the Military Committee representing that they could endorse the officers and men of the company, but that a number of men joined it under a misapprehension. The Military Committee, we think, have acted with undue haste in the absence of half the company, and the dissatisfied members are not as numerous by one-half as represented to the Committee. It would have been an easy matter to release all the dissatisfied members without disbanding the whole company.

The thing which we most regret about it is that many of our friends have been led to do the very thing which a nest of three or four Copperheads labored so hard and vainly to do on the morning of the 14th, before the Company started to Camp Chase. The Company cares nothing about its enemies, but it hopes to be saved from its friends.

The Company will be re-organized on a sure basis.

To Persons who may be Drafted.

Attention is called to the notice, published elsewhere, of the Provost Marshal of this District to drafted men. The \$300 exemption money is to be paid to the District Collector of Internal Revenue, who will give duplicate receipts, which receipts are to be presented to the Board of Enrollment, upon which a certificate of exemption will be given by the Board.

Papers throughout the District will please notice.

The Board of Directors of the Cincinnati, Wilmington and Zanesville Railroad, at their meeting yesterday, unanimously ratified the schedule of reorganization agreed upon between the first mortgage bondholders and Charles Reemelin, at his late visit to New York.

The following sums of money have been received at the Hocking Valley Bank, Lancaster, from the soldiers named: to be paid to the persons designated:

SENSIBLE.—"The Press and Leader,"

a staunch Democratic paper published at Bryan, Williams county, has thrown the Vallandigham ticket overboard and has placed at the head of its columns the glorious Union ticket with John Brough for its standard bearer.

DR. OLDS DULY APPRECIATED.—Hon D. R. Vanbaskirk, of the Indiana Legislature, is a preacher as well as a legislator, and we add a patriot and a wit.

In a late speech at a Union meeting in Indianapolis, he told the following, which brought down the house:

"He claimed that as a minister, he had the right to wage warfare on the devil. All the traitors who are trying to build up a Southern Confederacy were in league with the devil himself. He said Dr. Olds had a nightmare, thought he was dead and gone to the devil himself. The devil asked him where he came from; he said he came from Ohio, Eleventh District. 'What,' said the devil, 'are you Edson B. Olds?' 'Yes,' 'Then,' said the devil, 'you can just unswear my tail and put it on.'—Muesatine Journal.

We tender our thanks to Geo. F. Hamlin for another list of new subscribers. Let us hear from more of our friends.

IMPORTANT FROM MISSISSIPPI.

WASHINGTON, July 22. The following has been received here:

Vicksburg, July 18. To Gen. Halleck:

Johnston evacuated Jackson on the night of the 16th. He is now in full retreat. Sherman says most of Johnson's army must perish from heat and lack of water and general discouragement. The army paroled here has to a great extent deserted and scattered throughout the country.

General Ransom, who was sent to Natchez, captured a number of prisoners and 5,000 head of Texas cattle. In Louisiana they captured more prisoners and a number of teams loaded with ammunition.

Over two million rounds of ammunition were brought back to Natchez, and we also destroyed 268,000 rounds of artillery ammunition.

U. S. GRANT, Major General.

St. Louis, July 22.—A special dispatch to the Republican from Memphis dated the 20th, says that by an arrival from below, we have Natchez dates to the 15th, Jackson dates to the 15th and Vicksburg dates to the 18th. Gen. Sherman ordered a charge on Johnston's forces on Friday, but they had so far escaped, that capturing them was out of the question. We only got a few stragglers, a few guns, and some ammunition.

A portion of Sherman's army is now in Jackson, which is his headquarters, while the remainder is on its road back to Vicksburg.

Johnston's army swam Pearl River. Eight steamers left Vicksburg on the 6th for Natchez, having on board twelve hundred soldiers under command of Gen. Ransom. On arrival he captured five rebel officers crossing the river. He captured a battery of nine guns, four of which were 12-pound Parrotts.

He then marched back into the country nine miles and captured two hundred and forty boxes of ammunition and nine more guns. The rebels fled in consternation. On returning to Natchez he found five thousand head of Texas cattle and four thousand hogs, heads of sugar, all of which he took possession of in the name of the United States.

On the 8th two steamers arrived in New Orleans via Port Hudson, bringing up two thousand three hundred paroled rebel prisoners.

Two steamers left on the 8th for New Orleans with large loads of cattle, and three more for Vicksburg with live stock.

The steamers Louisville and Elmira, captured up Red river, arrived at Vicksburg on the 17th.

The above from the Gazette charges that the negro recruits here who enlisted to fight for their country, were assailed with stones by Copperhead (Democrat) rowdies.—Eagle.

If the Eagle will read the article which it copies, it will find that the word Democrat does not occur. We said "Copperhead rowdies." Let us, once for all, explain what we mean by Copperhead and what by Democrat.—A Copperhead is one who sympathizes with the rebellion, who prefers his party organization to his country, and who hopes that the Federal arms may be defeated in order that their party may be preserved. A Democrat is one who stands by his government against all enemies, foreign or domestic, and against all parties, and who in times like the present ignores party and unites with all patriots for the single purpose of maintaining the authority of the government. Brough, Johnson, Dickinson, Holt, McClellan, Burnside, Col. Connel, &c. are Democrats. Vallandigham, Wood, Pugh, McCasters, and many others are Copperheads. And there are many honest men in Fairfield county who are misled by the Copperheads and deceived into voting the Copperhead ticket.

GREAT RIOT IN NEW YORK.

BUSINESS SUSPENDED.

A NUMBER OF THE RIOTERS KILLED.

THE RIOT SUBSIDING.

New York, July 15, 1863.—The mob reign has not yet ceased, although to-day will probably witness its end. There is no doubt but that vastly larger numbers engaged in it yesterday than Monday.

All the large manufactories have closed. Labor of the docks and shipyards has been suspended. The object of the rioters yesterday, undoubtedly, was plunder. At noon, yesterday, the rioters turned out about five thousand strong. They attacked the Union Steam-works, corner of Twenty-second street and Second avenue. At two o'clock three hundred police arrived.

The rioters were in possession of the building, and finding escape impossible they made an assault on the police, who shot five of the mob. About twenty remained in the building. The rioters becoming desperate, again assaulted the police, who killed fourteen of the ruffians.

Four were killed and a number injured by jumping from the second-story windows. As the dead were borne from the scene, men, women and children ran howling through the streets in the most frantic manner.

The rioters were then dispersed, and the police held the building on yesterday morning.

The mob gutted the house of Colonel O'Brien, of the 11th New York Volunteers, who tendered his services to suppress the riot.

A force of three hundred policemen have charged upon the mob, and driven the rioters into the houses, the officers charging them all over the buildings and felling them with their clubs.

A detachment of the 11th Regiment reached the scene and aided in dispersing the mob. Colonel O'Brien, who went forward near the crowd, was set upon and beaten to death almost instantly.

A crowd afterward amused themselves by firing at his head, as he lay on the sidewalk, and afterward hung him to a lamp-post. He was then taken down and thrown into the streets, where he remained up to eight o'clock last evening.

All jewelers and money brokers were closed, also the Custom-house and Assay offices.

The mob fired the Ferry-house at the foot of Forty-second street. Early in the morning the mob assembled on Fifth avenue, at the Mayor's house, and broke the plate-glass windows.

Colonel Maunier and a few friends, with clubs and revolvers, checked them until they were relieved by the police and United States soldiers.

The mob made an onslaught on the negro dwellings in Thirty-fifth street, but fortunately the occupants had been taken to the Station-house for safety.

New York, July 15.—A terrible onslaught was made on negro dwellings on York street last night, amid the shrieks and groans of the unfortunate women and children.

A collision occurred on Forty-fourth street this morning, in which three soldiers are reported killed.

Report says there has been quite an importation of rowdies from Baltimore and Philadelphia, but it is discredited by well-informed persons.

Mayor Opdyke recommended immediate proclamation of martial law.—Governor Seymour opposed it.

This afternoon the mob again collected in Thirty-second street, near where a negro was hanging. Failing to disperse, a howitzer was turned upon them, loaded with canister. The first discharge wiped out six; two more discharges increased the number to twenty-two, when the villains alive skedaddled.

Two negroes were killed this afternoon, one on Pier No. 4, and the other in Washington street.

Harper & Brothers, and M. & A. Gray, printers, and others, have been warned that their establishments would be destroyed if the workmen are kept on duty.

Colored people are fleeing from the city in all directions.

We have some particulars of the riot in Thirty-seventh street to-day. Another attack on the 7th Avenue Arsenal was to be made. A detachment of 220 men, with an artillery company with four twelve pound howitzers, proceeded to the corner of Thirty-seventh street and Broadway. The street from Sixth to Seventeenth avenues was crowded with men, women and children. Fifteen minutes were given for the crowd to clear the street.

No one stirred; and at the expiration of time allowed, artillery, loaded with canister, opened, and five rounds were fired. A good many were hurt, but it is not known how many. The street was cleared, the military having dispersed the mob from the vicinity. The firemen checked the flames, so that only three or four buildings were burned.

The rioters then proceeded to 33d street, and erected a barricade of wagons across Thirty-third street and Fifth and Sixth avenues. Some hundreds of negro women and children were allowed to escape, but none of the negro men. Buildings occupied by colored people were set on fire, with the intention of burning the colored men in them. At the last accounts the military had arrived at the scene, and a fight probably occurred.

More Mob Outrages.—Efforts to mob Harper & Brothers.

The mayor of Brooklyn refused to call a meeting of the citizens on the plea that it would inflame the rioters.

The inquests on bodies already numbered about fifty, including nearly a dozen innocent people—on a mother and her infant child just born.

A dry goods store in avenue C was sacked of \$40,000 worth. A residence on twenty-ninth street was destroyed by the mob. It was not Horace Greeley's as the mob supposed, but Mr. Sinclair's, where the former sometimes stayed. A man resembling Greeley was awfully beaten.

Movements on the Potomac. WASHINGTON, July 19.—The rebel army has not made as rapid progress toward Culpepper as has been generally supposed. There is good reason for stating that the bulk of Lee's army is in the vicinity of Winchester.

There was also quite a rebel force at Bunker Hill, which was between Winchester and Martinsburg, yesterday.

It would be improper to state where Gen. Meade's army is, but there is yet good ground to hope that they may complete the destruction of the remains of the rebel army.

PHILADELPHIA, July 20.—The Inquirer has a dispatch from Hagnum, 18th, stating that the rear guard of Lee's army left Martinsburg on Saturday morning. Our whole force is across the river.

The Potomac is falling rapidly. Lee is retreating his main force by Strasburg and Stanton, not by Culpepper.
