The ladies of St. Paul's Guild meet at the residence of Mrs. Stowell Thursday afternoon.

Prof. T. W. Shannon, of Fredericktown, will deliver a sermon at the Fort Hill church to-night.

The school children are selling buttons with which to secure funds to buy a flag to put on the school building.

The county court Tuesday refused a dramshop license to A. E. Bish, holding that his petition was insufficient.

I will have a bunch of horses and young mules for sale in Ironton next Saturday. Call and see me. A. L. HILL.

The lecture must have been a long-winded affair. We hear of one fellow who did not get home therefrom until nearly two o'clock.

Louis Miller has resigned as postmaster in Arcadia. We understand that Miss Florence Fletcher, who has been Mr. Miller's assistant, is an applicant for the place.

Most of the time of the adjourned term of circuit court, last Saturday afternoon, was occupied in trying a land case brought here from Reynolds county on a change of venue. Decision was reserved.

We understand that our city marshal, Mr. G. W. Marshall, has purchased the old Bonanza store building, just north of the Academy of Music. Price, \$850. Mr. Marshall will take possession at once.

Sheriff Marshall left Monday for Guthrie, Oklahoma, for one Munson Henderson, a school teacher in the west end of the county, charged with seduction under the promise of marriage. A warrant was issued for Henderson several months ago, but he was not located until a few days ago. He agrees to return to Missouri without a requisition.

The editor is in receipt of a letter from Mr. Emil Roehry, who is touring Missouri and Arkansas as a member of the Missouri University Glee Club. There are twenty of them, traveling in a private car, and Emil says they are having a time. The letter was written at Fort Smith, Ark., and Emil says there were violets in bloom and green leaves down there.

Week before last the north-bound mail train in the morning pulled away from the station here before the mail carrier had time to load the REGISTER sacks on the mail car. As a result the paper was twenty-four hours late in reaching the subscribers that week. Again we repeat that the mail service at present accorded this town is worse than abominable. Is there no remedy?

THE REGISTER this week publishes the announcement of Oscar E. McGee as a candidate for County Commissioner of Public Schools. Prof. McGee is a progressive and successful educator, and is well known in school circles throughout the county. For several years past he has been principal of the Pilot Knob school, where he has given rare satisfaction. His friends say that he has excellent qualifications for the office of Commissioner, and they will do all in their power to land him in the office at the school election in April.

Sheriff Pitts and Deputy George Goggin took Bill Spough, the convicted murderer, to Salem, Dent county, where he was lodged in jail. The people of Dent county have an excellent jail and the expense of taking him to that place for safe keeping is not nearly so much as the trip to St. Louis costs. And again they are assured that it will not require the services of a lawyer to compel the jailer to turn him over to the sheriff when he goes after him, as was the case recently in St. Louis. Spough is the only inmate in the Salem jail. —Centerville Outlook.

The sad news was received this morning in a telegram from Lowell, Arizona, that Miss Addie Downey, formerly of this city, had died in Lowell last night. Miss Downey, who is 27 years old, went to Arizona about a month ago for her health. The funeral will be held in Lowell. She is survived by her father, Samuel Downey, of 529 Veronica avenue, and sisters, Mrs. S. W. Hogan, Misses Zella, Clara, Emma, Nora, and brothers, Charles and Harry Downey. —East St. Louis Journal.

The deceased was a sister of our popular and accommodating railroad agent, Mr. Chas. E. Downey, and has the sympathy of a legion of friends in his bereavement.

The case of the State against Napoleon Hargis for not sending his children to school was tried before Justice Day in this city last Friday. The defense made by Mr. Hargis was that he was beyond the pale of the law, which only includes those living within two and a half miles of the school house. The case was tried before a jury of six of Fredericktown's best citizens who rendered a verdict of \$10 on each of two counts. The defense was not pleased with the verdict and appealed the case to the circuit court. This is a very important case as it is the first tried under this law in this county, and its disposition will be a precedence for future school boards. —Fredericktown Tribune.

Judge Williams held an adjourned term of circuit court last Saturday and rendered a decision in the Emerson will case. The court decreed that the personal estate of the late John W. Emerson would go to the estate of the late Mrs. Hattie Emerson, widow of Dr. Geo. F. Emerson. The court also held that money made on the personal estate of Judge Emerson in the time intervening between Judge Emerson's death and that of his wife should go to the heirs of the wife. Under this decree the estate of Mrs. Geo. F. Emerson will receive about \$20,000 from the estate. The property has been devised to charitable institutions in Boston. It is said that Judge Dinning and Mr. Darnon, representing Stephen Emerson, of Canada, a brother of the

late Judge, will appeal the case to the Supreme Court.

The shipment of a car of blister copper from this city last Monday morning by the North American Lead Company, marks the beginning of a new era of prosperity to Fredericktown and Madison county and southeast Missouri in general. It is, we believe, the first car of copper ever smelted in Missouri, and the copper ore was taken from the mines of the North American near this city. The supply of ore is inexhaustible; the North American Company have spent in the neighborhood of \$300,000 in erecting their smelting plant; the industry is in its infancy and should be fostered and encouraged by our people, every encouragement should be given the men who are at the head of this enterprise, their success means the success of every other enterprise in Madison county. —Fredericktown Democrat-News.

A representative of the Democrat was recently informed that when the new general superintendent of the St. Louis, Iron Mountain & Southern railway took his position with the company as superintendent of the road, he made some pledges that don't sound at all good for Poplar Bluff. It is alleged that he pledged the stockholders of the Iron Mountain that he would make them \$1,000,000 a year profits off of the Missouri division. In order to do this it necessitates a reduction of expenses and the expenditure of no improvements. It means that section and train crews are out down and, in fact a rigid economy in the operating department, thereby throwing an unjust amount of work on to a small force of employees of the company. It also means that not only will the keeping up of the tracks be neglected, but Iron Mountain buildings, too, will be neglected, and where improvements are needed they will be overlooked. The Iron Mountain at one time promised Poplar Bluff a \$90,000 station; at another time a \$55,000 station, and at another time a \$33,000 station, but with these pledges existing it is very probable that we will be compelled to do with our \$3.98 depot. The Iron Mountain makes a practice of changing managers every year, and every new manager tries to make his first year in cutting expenses. If the company keeps changing managers, and Poplar Bluff sleeps on her rights, it will be August 18, 1884, before a new depot is secured. The company, some time within the next twenty-five years, may do as Division Engineer Carroll suggested—raise the depot a foot and a half and give it a coat of paint, and, as he said, "make a depot of it that the town will be proud of." The above information as to the pledge between the division superintendent and the railway company was given by an employe of the Iron Mountain, and for that reason we do not give our authority. —Poplar Bluff Democrat.

To Der Ole Man.

Just listen to "Der Ole Man," He keeps a country store; He's got a great big sugar. But he don't know how to bore. Suppose for illustration, I should adopt his style And him accuse of falsehood, Dishonor, theft and guile, Regardless of his feelings, With him I care not to mix? He thinks my vile productions Would be somewhat like this: His tobacco's old and funky, His pepper is half p's, His cracker's somewhat musty, There's maggots in his cheese. His customers, they tell me, That they long ago have found His selling weight was only Twelve ounces to the pound. He pours water on his sugar, At least, that's what they say, Puts sand in bran and shipstuf, You see that makes them weigh. Right here just let me whisper, Then pass the matter by, One day a fellow told me There was "bitters" on the sly. He claims to be a doctor, Pretends to cure all ills By some kind of "cool decoction," So kind of "patent pills" 'Twould never do to trust him, His practice is to (a) l(ose). The only work he's ever read Is the "Statute on the Goose," The wild ducks on migration. In passing o'er his shack, Their voices hit me around And loudly sing "quack! quack!" Now I'll say in conclusion, The fact I'll not disguise, The rhymes I here have jotted down, Are a pack of barefaced lies. Still you'll find the same truths in them, As in modern politics, Or your talk of "stranded records" And three hundred seventy-six. W. C. JOHNSON.

Rising From the Grave.

A prominent manufacturer, Wm. A. Fertil, of Lucoma, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at Arcadia Valley Drug Co. Price only 50c.
