The following appeared in last Friday's Globe-Democrat, telegraphed from Bismarck: "A stratum of rich bearing lead was struck here this morning by well diggers for the Iron Mountain Company. Fifty feet has been penetrated and the same rich stratum still exists at a depth of 450 feet. Bismarck is six miles from the great St. Francois lead belt. Much enthusiasm prevails here."

Bill Spough, the condemned murderer who is confined in the Dent county jail, has issued an appeal for assistance from the people of that county. Before extending him any aid the people of that county should acquaint themselves with the details of the horrible crime which he and his brother committed. The Supreme Court of the State of Missouri in passing on his case after a review of all the evidence, says that "it is inconceivable how a jury could have returned a verdict other than murder in the first degree."—Centerville Outlook.

The Supreme Court Tuesday rendered decision affirming the decision of the Iron County Circuit Court in the case of State vs. Amalek and John Brooks, and sentenced them to be hung April 18th. The opinion was written by Judge Ganti, who also rendered the decision in the case against Bill Spough. The Brooks brothers were convicted here at the April term of the Circuit Court in 1906, for the murder of John Clemens at Graniteville, in August, 1905. It is now up to Gov. Fox. Unless he interferes the double execution will take place in our jail yard on Thursday, April 18th.

Wm. Hendley died quite suddenly at the home of his son, J. G. Hendley, in west Ironton Sunday morning. Mr. Hendley had gone out in the yard, and not returning as soon as was expected, a member of the household went to look for him. He was found lying on the barn floor, his face downward. He was still breathing when discovered but in a few moments life became extinct. A few days previous he had suffered a slight stroke of paralysis, and it is thought the fall wrenched the spine, causing the fatal attack. The deceased came here from Arkansas about four months ago, and was about eighty-five years of age. The remains were interred in the K. P. cemetery Monday. Peace to his ashes.

A writer from Jefferson City says the following: "One of the best beloved and most conscientious members from the 13th district is Charles H. Polk of Iron county. Always courteous and genial, he is a general favorite with his fellows, and if nothing could be counted in his favor but his pleasing personality, his success as a Representative would be assured. But this is by no means all: Polk has a genuine ability and force of character, and he is possessed of no small amount of eloquence. Early in the session Mr. Polk introduced a bill intended to allow all persons summoned as jurors in felony cases a certain fee and mileage, and it was while this bill was being debated that Mr. Polk

showed what sort of stuff he is made of. Some of the old leaders objected to the bill, and in replying to them, and in defense of his measure, Mr. Polk rose and in a most eloquent and impassioned speech he forced the attention of the House, carried his point, and received an ovation. Gentle as a woman in his manners, easy as an old shoe in his social intercourse, when roused to action he is fearless and aggressive, and true as steel to his convictions."

Mr. Wm. Trauernicht, of Middlebrook, recently received word of the deaths of J. C. Brune and wife at the residence of their nephew, Henry Von Roden in Louisville, Kentucky. Mr. Brune died on February 19th and his wife on February 23d. Mr. Brune was 77 years of age and Mrs. Brune 74. After living together almost half a century they passed into the Great Unknown at practically the same time. And this had long been the wish of both of them—often expressed: that death might come to both of them at the same time. They had no children, and after constant companionship for so many, many years, life held no charms for one without the other. J. C. Brune was one of God's noblest—honest and true. For many years he made his home at Middlebrook, but left there in 1904 to go to Louisville to spend his remaining days. His good wife had been in poor health all winter, but Mr. Brune was sick but two days before he died. Four days later his faithful spouse joined him. Iron county friends remember these good people most kindly and are sure they are at perfect rest. Mr. Brune leaves an estate of about \$15,000, his life-long friend and business associate, Mr. Trauernicht, being named as executor in the will.

She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice, I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Remember the next time you suffer from pain—caused by damp weather—when your head nearly bursts from neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of Hempstead, Texas, writes: "I have used your liniment. Previous to using it I was a great sufferer from Rheumatism and Neuralgia. I am pleased to say that now I am free from these complaints. I am sure I owe this to your liniment."

Bill Spough Asks Aid.

The Dent County Democrat-Bulletin, published at Salem, Mo., prints the following from Wm. Spough, Jr., who is in the Dent county jail: "Standing apparently in the shadow of death with but few friends financially to assist me. Therefore I beg to address you with this letter. Seeking your friendly aid financially, so I may be able to fight against terrible odds, with some hopes of success. I am tearfully making a last stand for my life and ask of you to see that I get that which is an undeniable birthright of every American citizen, and to do so by appealing to Gov. Folk in my behalf to do as much as spare my life. I ask this in the name of fair play, human sympathy and Christian charity. See that I am fairly dealt with, gentlemen, before this great tribunal of American justice. I am entitled to a fair and impartial trial before jurors of my peers."

"Now, gentlemen, justice is something I have not received, and without the aid of some kind-hearted, fair-minded gentleman like yourself, who believe in fair play to all, I cannot hope to secure the iron justice which would free me from the county jail, St. Louis jail, Centerville jail and now behind the iron-bound portals of this Dent county jail, condemned and sentenced to die, in less than 90 days, for a crime which my brother committed, and for which crime my brother was placed on trial and admitted the killing and was given 55 years in the Missouri penitentiary."

"Good people, in my agony and distress and pitiful condition, I ask of you and your family in the name of Him who has said unto men do unto others as you would that they do unto you. Ladies and gentlemen, think of my awful condition, and lend me a helping hand. Good people, I have fought a mob, both legal and illegal, and now a mob seeks to hang me. I feel sure that if Gov. Folk knew how I was convicted he would order me released at once. Hoping you, one and all, will give this your earnest consideration and that I may hear from some one soon. Now, any assistance you feel like offering will be gladly accepted, highly appreciated and forever remembered. Sincerely, "WM. SPOUGH, JR."

The Right Kind of a Friend.

Advice is cheap; almost anyone is willing to give it gratis, but when a man backs it up with hard-earned dollars then you may count him as a real friend. Lucy Sudreth, of Lenoir, N. C., had been troubled with a very bad cough for over a year. She says: "A friend told me about Chamberlain's Cough Remedy, but as I had tried several cough medicines and none of them did me any good, I had no faith in it, did not get it and went on coughing. Later on my friend bought a bottle of it, brought it to me and insisted that I should take it. I did so and to my surprise it helped me. Four bottles of it cured me of my cough."
