

WILL ASCERTAIN TRUE CONDITION

President Has Declared Intention of Making a Visit to Territory of Alaska.

MEANT TO GO LAST SUMMER

Mrs. Taft's Illness Alone Prevented Trip at That Time—Ex-President Roosevelt's Plans—Three Senators in Trouble.

Washington.—Congress is engaged in the passage of an act to simplify and to strengthen the government of the Territory of Alaska. Senator Beveridge is the sponsor for the measure in the senate and Representative Hamilton is its sponsor in the house. President Taft has studied the proposed legislation carefully and if it goes through without too many amendments he will fix his signature.

Last summer keen disappointment came to the president because he could not visit the northern territory of the United States. The illness of Mrs. Taft forbade the long journey, but within a day or two the president has said that he has made up his mind to make the trip to the land of gold next summer.

Every delegate who has come to congress from Alaska since it was made a territory has insisted that the Alaska country and the Alaska people have been misunderstood. Alaska always has wanted a greater share in the work of governing itself than has been given to it. In the bill now before congress there are provisions for commissioners who shall in a sense form the cabinet of the territory, formerly a Washington newspaper correspondent and now the governor of Alaska.

Special Agents Kept Busy.

The special agents of the land office which is a bureau of the interior department have their hands full just at present investigating Alaska mining claims. The law is intended to prevent the securing of a great quantity of mining land by different individuals who intend after securing it to form themselves together in a great company, and thus to secure as far as they can a monopoly. All kinds of schemes have been worked to hoodwink, and while many of them have been discovered and turned to the light there are men always ready to try it again.

At the present time special agents are investigating the working of a company which has one hundred and seventy-three members. The combination was made, on the face of it, not for the purpose of getting mining land collectively so that it might all be thrown together and worked by a corporation, but for greater convenience in entering claims and proving up on them. The government has become suspicious that all may not be right and the agents of the department are at work trying to ferret out the truth.

After the legislation which congress is putting through this winter on behalf of Alaska has been given a trial the president will judge of results, and will make further recommendations for laws for the territory. In the meantime he will go to Alaska himself to look the land and the people over.

Ex-President Roosevelt's Plans.

Friends of former President Roosevelt now say it is definitely decided that he will go to England in May and from there return directly to New York, giving over his planned trip to Paris and Berlin. If this is the case the talk about the around the world trip and the landing in San Francisco and a journey through the heart of his beloved west is all talk for talk's sake only.

There seems to be a general misunderstanding as to the nature of the collection which Col. Roosevelt has sent to the Smithsonian institution in Washington. The officials of the institution say that visitors come there every day expecting to see great groups of African animals, elephants, lions, leopards, buffaloes, gnus, rhinoceroses and other creatures all grouped and beautifully mounted among reproductions of their native African surroundings.

It is perfectly true that the Roosevelt expedition has sent thousands upon thousands of specimens to the Smithsonian institution, but where there are ten large animals there are 500 small ones. The species in the collections range from the size of a mosquito to the size of an elephant, and when it is said that thousands of specimens have been sent it does not mean that Col. Roosevelt and his son and the rest of the expedition have been killing thousands of great game animals. There are more mice in the

collection than there are elephants, lions, leopards and other great animals all told.

Taxidermy Now an Art.

The Roosevelt animals only in small part will be mounted and grouped for public inspection in the main halls of the National museum. In recent years taxidermy has been put upon the plane of art, and where in past years the custom was merely to "stuff" the animals and to wire them so that they would stand up, the work-to-day means an exact reproduction of the live animal with every vein marked and every posture carefully studied. To the modern taxidermist, the verb "stuff" is abhorrent.

Senators Have Opposition.

Three United States senators, all Republicans and all men of long continued service, are confronting contests in their states, and in the cases of two of them there is a real chance that they may be "overcome by the enemy."

Senator Julius Caesar Burrows of Michigan has been in congress in one house or the other for over 30 years. The senator is a candidate to succeed himself, but a hard fight is being made by Representative Charles F. Townsend of Jackson, Mich., who for a long time has had an ambition to enter the upper house.

Eugene Hale of Maine has been in the United States senate continuously ever since 1881. For the first time in his senatorial career he is facing a hard fight in the home state. Already a candidate has appeared who represents what is called the progressive element of Republicanism in the Pine Tree state.

There are three men in the state of Maine who before long, it is said, will enter the field against Mr. Hale. One of these prospective candidates is Carl S. Millikin, who is known as a young and active Republican of the Roosevelt type.

Would Succeed Senator Lodge.

In Massachusetts a representative in congress, Butler Ames, a grandson of Maj. Gen. Benjamin F. Butler and a son of Maj. Gen. Adelbert Ames, announced himself as a candidate to succeed Senator Henry Cabot Lodge. It is admitted by Col. Ames' friends (the representative was a lieutenant colonel in the army during the Spanish war) that he has no particularly brilliant record of getting possession of the toga of Senator Lodge, but it is promised that enough of a fight will be put up against the senior senator from the old Bay state to make things somewhat lively during the coming year.

In Michigan, where Senator Burrows is trying to secure permission to hold on to his seat and where Representative Townsend is trying his best to defeat the senator's purpose, there is a primary law, and while the senators are of course chosen by the legislature of the state, the voice of the voter as heard at the primary is supposed to be obeyed. In Illinois the primary law did not work much as it was expected it would when the time came to elect a senator to succeed A. J. Hopkins. The Michigan law is somewhat similar to the Illinois law, but both Senator Burrows and Representative Townsend have made public declaration that if the majority of the voters in Michigan declare for one or the other of them the wish of the voters must be binding on the legislature. This means simply that if Burrows gets more votes in the primary than Townsend it is thought that he will succeed himself as senator, and that the reverse will happen if Townsend gets the most votes.

Means Much to the Senate.

If by any chance these three Republican senators of such long service in the senate should be compelled to give up their seats, each of them would leave behind him a position which can be defined only by the one word, "power." Legislation in the senate is done largely through committees, for what a committee recommends ordinarily is passed by the senate as a whole.

Senator Burrows is a member of the finance committee, the most powerful subsidiary body of the senate, and of the committees on naval affairs, Philippines, postoffices and postroads, and is the chairman of the committee on privileges and elections. Four of these bodies are of the first rank in importance, and the power that they wield is enormous.

Senator Hale of Maine is the chairman of the committee on appropriations and he is a member of the committee on finance. The Maine senator also is the Republican leader on the floor of the senate most of the time, for Mr. Aldrich, excepting when tariff bills are up, rarely exerts his right of leadership.

Senator Lodge is the chairman of the Philippine committee and has a membership in the committee on finance, foreign relations and immigration. Burrows, Hale and Lodge are three of the most powerful senators in congress and they are made powerful largely by their committee holdings. If any one of them loses out he will drop not merely the senatorship, but a great bundle of power and influence.

GEORGE CLINTON.

ROACH MURDERS BIG SNAKE

Bored Into Head of King Cobra and Causes Death by Nesting in Brain.

New York.—Rex, the king cobra at the Bronx park, one of the deadliest snakes on earth, is dead.

He was murdered while he slept, in the most cowardly and atrocious manner—by a little black roach. The king of all snakes had suffered indignities for some weeks, but the ignoble way his earthly career was ended was the climax.

Rex ate only on Sundays, and this season of the year he slept most of the time between meals. Last Sunday he had a square meal, snake-like, he went to sleep. He did not stir after this meal.

Keeper Snyder, whose special pet Rex was, discovered Rex was dead. He hadn't been sick and bore no marks of violence. This puzzled the keeper.

Dr. W. Reid Blair, the veterinarian, was called in to perform an autopsy. It was thought something the snake had eaten had disagreed with him, but

the autopsy proved this theory unsound.

Upon further cutting up it was found that the cause of Rex's death lay in his head. The head was cut open and inside the brain was found a little black roach, still alive. This roach had bored into the cobra's cranium. This is the first case of the kind on record.

Well Done.

Zelaya was furious. "And those Yankees refuse to recognize me as president of Nicaragua!" he stormed. "And they say I am too raw to hold such a high position. Preposterous! I am not raw."

"You certainly should not be," ventured the American correspondent. "You have been roasted enough."

And then Zelaya became so fery he threatened to put the correspondent in a dungeon.

An Exception.

"Did you ever hear of anything so absurd as an auto suggestion to another person?"

"Certainly, when it is a hint for the gift of a motor car."

NOT MAJORITY RULE

HOW "CANNONISM" WORKS IN THE HOUSE.

Action in Case of the Postal Savings Bank Bill Shows How Much Power is in the Speakers' Hands.

A Washington dispatch says the postal savings bank bill has been pushed in the senate because the president learned that it was making no progress in the house committee on post offices and postroads. Not a particularly striking piece of news, perhaps, but of significance in showing how the present organization of the house lends itself to the reactionaries.

It must be understood in the first place that the majority of the members of the house are for the Postal Savings Bank bill. If it could be brought to a vote to-morrow it would be adopted by a large majority. The trouble is that the house will have no chance to express an opinion on the bill to-morrow or the next day. Until the speaker is scared into letting the measure be acted on it is likely to rest with the committee.

This situation didn't come about accidentally. It was known that an effort would be made to pass the bill at this session. Speaker Cannon and his reactionary friends are against it. The problem was to prevent a vote if possible. So this is the way the Speaker set about it:

The important position of chairman of the post office committee was vacant. The speaker appointed to it Mr. John W. Weeks of Massachusetts, transferring him from the committee on agriculture. On the agriculture committee Mr. Weeks had been a most progressive member. Over the opposition of Chairman C. F. Scott of Kansas he had induced the committee to report an Appalachian conservation measure that was obnoxious to Mr. Cannon. He is a partner of Hornblower & Weeks, bankers, of Boston; president of the Newtonville Trust Company and vice-president of the First National Bank of Boston. Now bankers generally are opposed to the postal savings bank bill, which they fear will interfere with the banking business and perhaps disturb credits.

In making this transfer Speaker Cannon was getting a troublesome man off the committee on agriculture and he was heading the committee on post offices with a chairman after his own heart. By that one move he was putting crimps in the Conservation bill and in the postal savings ban measure. All of which illustrates admirably the workings of the beautiful system by which the speaker of the house is permitted to thwart the will of the majority.

PROTECTION FOR THE PACKER

Tariff on Meats Cannot in Any Way Be Proved of Benefit to the Farmer.

The tariff is not the mother of the beef trust, we are assured. In all the discussion as to the cause of the high price of meats, and as to remedial measures, the tariff has been ignored. To be sure the tariff is not prohibitory, yet the boycotters have rejoiced when they forced the price of meat down one cent a pound. But the tariff which places one-and-a-half cents a pound on all foreign meat, interposes a barrier between us and cheaper beef from the Argentine and mutton from Australia. Preserved meats are taxed 25 per cent, while fish is taxed at the customs three-fourths of a cent a pound.

We are assured that the population has so increased, and the supply of beef so diminished that production is inadequate. In what sense, then, does the farmer need protection? He has not enough meat to sell. We are persuaded that it is the packer who needs protection, and who gets it. Instead of meekly submitting and practicing penance by doing without meat, the consumer should rise up and demand the free entry of fresh meats and of fish. The question of food for the people has taken on a shape more ominous than that of industrial helplessness. How can this cent-and-a-half a pound on fresh meat, 25 per cent on preserved meat, and 27 1/2 per cent on cattle on the hoof be justified under present conditions, unless the Taft-Aldrich-Payne bill has been designed solely for the packing interests?

People Out After Facts.

Simply that we have just had a new lot of tariff schedules bound on us will not save them from being examined and tested. Unless we go too much after our wonted manner and make this whole agitation a nine days' wonder and then forget all about it, there will be a "squaring" of many things, and in this process the sacred character of the tariff will not suffice to exempt it. Incantations will no longer answer. The people are out after facts.

"I fancy we are not to have any monetary report until after the next election."—Secretary MacVeagh.

And a considerable number of other people are beginning to fancy that we are not going to have a good many other things until after the next election.

A Lot of Statesmen are Doubtless Envyng Senator Aldrich the Privilege of Going Fishing.

But it must be admitted that Senator Aldrich works very hard indeed when he is in harness.

Mr. Ballinger's Case.

Developments in the Ballinger-Pinchot hearing in Washington make it plain there was nothing revolutionary in the State Journal's demand that Secretary Ballinger quit the national administration. For the good of the country and his political party, Ballinger should have resigned. He having failed to do so, President Taft should get rid of him, following the course he pursued when he disposed of Pinchot's services. Ballinger's day of usefulness is at an end.—Illinois State Journal.

PHYSICIANS OF OMAHA DISAGREE

DIFFERENT OPINIONS ON COOPER'S REMARKABLE SUCCESS HELD BY MEDICAL MEN OF NEBRASKA METROPOLIS.

Omaha, Neb., Feb. 16.—The astonishing sale of Cooper's preparations in this city has now reached such immense figures that the medical fraternity at large have become forced into open discussion of the man and his preparations.

The physicians as a whole seem to be divided with regard to the young man's success in Omaha—some being willing to credit him for what he has accomplished, while others assert that the interest he has aroused is but a passing fad which cannot last, and which will die out as quickly as it has sprung up.

The opinion of these two factions is very well voiced in the statements made recently by two of a number of physicians who were interviewed on the subject.

Dr. J. E. Carass when questioned about the matter said: "I have not been a believer in proprietary preparations heretofore, nor can I say that I believe in them at present. But I must admit that some of the facts recently brought to my notice concerning this man Cooper have gone far towards removing the prejudice I had formed against him when the unheard-of demand for his preparations first sprang up in this city. Numbers of my patients whom I have treated for chronic liver, kidney and stomach troubles have met me after taking Cooper's remedy and have stated positively that he has accomplished wonderful results for them. I notice particularly in cases of stomach trouble that the man has relieved several cases of years' standing that proved very obstinate to treatment."

"I am the last man on earth to stand in the way of anything that may prove for the public good simply through professional prejudice, and I am inclined to give Cooper and his preparations credit as deserving to some extent the popular demonstration that has been accorded them in this city."

Another well known physician who was seen took the opposite view of the "Cooper-man," as he called it, which now has this city in its grip. He said: "I can only liken the present state of affairs to a certain kind of hallucination. For want of a better name, I might call it 'Cooper-mania.' The people of Omaha seem to be firm in the belief that this man Cooper has health coked up in a bottle."

"Some of them imagine that he has completely cured them of various ills, judging from their statements. It is beyond me to say why the city has gone crazy over the man. It may be safely put down, I think, to one of the passing fads that so often attack the American public."

"Sooner or later the people are bound to regain their senses and will then realize that the reputable physician is the one to whom their health had best be entrusted."

COULDN'T DO IT.

"That'll do! Dry up this minute!" "I c-can't, pa. Willie just soaked me."

Doubtful.

A teacher was telling a class at school on a recent Sunday about the deluge, remarking:

"And then it rained for 40 days and 40 nights."

Then a little boy asked: "Were the farmers satisfied then, miss?"—Trib.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson* in Use For Over 30 Years.

When Rubbers Become Necessary

And your shoes pinch, shake into your shoes Allen's Foot-Powder, the antiseptic powder for the feet. Cures itching feet and takes the sting out of Corns and Bunions. Always use it for Breaking in New shoes and for dancing parties. Sold everywhere 25c. Sample mailed FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Down Easy.

"Golly, Mike! are you alive after falling two stories?"

"Why, that's not far. This is a 51-story building."—Judge.

Great Home Eye Remedy.

For all diseases of the eye, quick relief from using *PEITZ'S EYE SALVE*. All druggists or Howard Bros., Buffalo, N. Y.

It is easier for men to get on financially than it is for women to get off a car forward.

HAVE YOU A COUGH, OR COLD?

If so, take at once Allen's Lung Balm and watch results. Simple, safe, effective. All dealers. Popular prices—25c, 50c, and \$1.00 bottles.

And the more a woman knows about men the less she has to say on the subject.

Lewis' Single Binder cigar. Original in Tin Foil Smoker Package. Take no substitute.

Many a doctor has saved a patient's life by not being in when called.

HE MEANT EVENING GOWNS

Well-Meant Compliment to American Woman Somewhat Marred by Unfortunate Error.

Mons. Pruger, who from his triumph at the Savoy hotel in London has come to New York to conduct a very fashionable restaurant, was complimented by a reporter on his perfect English.

"Well," said Mons. Pruger, smiling, "my English is, perhaps, better than that of the Marquis X., who supped here after the opera the other evening."

"Our fine supper rooms looked very gay and fine, diamonds flashed, pale fabrics shimmered, and everywhere, turn where it would, the eye rested on dimpled, snowy shoulders shining like satin above décolleté bodies of Paris gowns."

"These décolleté bodies impressed the Marquis X. He waved his hand and said:

"I have known parfaiment that the American young ladies was beautiful, but ah—I cannot say how far more beautiful they seem in their night dresses."—N. Y. Press.

ROCKY BOY INDIAN LANDS OPEN FOR SETTLEMENT.

Secretary Ballinger has issued instructions to throw open 1,400,000 acres of land in Eastern Montana to white settlers.

This land was withdrawn about two years ago for the purpose of allotting to the Rocky Boy Indians. The tract contains the very choicest lands in Valley County and wherever farming has been carried on, it has produced yields of from 20 to 30 bushels of wheat per acre, 40 to 70 bushels of oats and large crops of hay, alfalfa and vegetables.

There are over 8,000 160-acre homesteads in this tract, which is considerable more than the combined total in the Flathead, Spokane and Coeur d'Alene Reservations, which were opened to settlement last summer.

Worth Keeping.

"John, do you recognize this hat?"

"No, I can't say that I do. It looks rather dilapidated."

"Yes, I have been keeping it as a dear memento. I was wearing it when you and I first met. That was 11 years ago."

"I hope you'll keep it always. It ought to convince you that you must have been mighty good looking once, seeing that even with that thing on your head you caused me to fall in love with you."

STATE OF OHIO CITY OF TOLEDO, [vs. LOCAL GOVERNMENT.]

FRANK J. CHENEY makes oath that he is senior partner of the firm of F. J. CHENEY & CO., doing business in the City of Toledo, Ohio, and State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every copy of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY, sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1910.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Sold for testimonials, free. F. J. CHENEY & CO., Toledo, O. Sold by all Druggists.

Take Hall's Family Pills for constipation.

He Owned Up.

"OWN UP, now. Who's the head of your family?"

"My wife used to be," admitted Mr. Enpeck, "but since my daughters are grown, we have a commission form of government."—Exchange.

Noncommittal.

"What do you call your cook?"

"Mary is her name."

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Anything is wrong that is almost right.

Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and vitality may have been undermined and broken-down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a priceless boon to prepare the system for baby's coming and rendering the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headache, backache, dragging-down distress or from painful irregularities, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable, catarrhal drain, prolapsus, antevulsion or retroversion of other displacements of weakly organs from weakness of parts will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famed specific for women's weaknesses and peculiar ailments is a pure glyceric extract of the choicest native medicinal roots without a drop of alcohol in its make-up. All its ingredients printed in plain English on its bottle-wrapper and attested under oath. Dr. Pierce thus invites the fullest investigation of his formula knowing that it will be found to contain only the best agents known by the most advanced medical science of all the different schools of practice for the cure of women's peculiar weaknesses and ailments.

If you want to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free booklet treating of same or, better still, send 31 one-cent stamps for cloth-bound copy of Dr. Pierce's Common Sense Medical Adviser, new, revised up-to-date Edition, 1908 pages.

You can't afford to accept as a substitute for this remedy of known composition a secret nostrum of unknown composition. Don't do it. It is not only foolish but often dangerous to do so.

More Free Homesteads

Secretary Ballinger has ordered 1,400,000 acres of choice land thrown open to settlers under the homestead laws, on and after March 1, 1910. This land is mostly level or rolling prairie and is covered with a heavy growth of wild grass. The soil is a brown clay loam. This land lies in Valley County,

Eastern Montana

It is known to be very fertile and wherever farming has been carried on, good yields of wheat, oats, rye, barley, flax, alfalfa, hay, potatoes and even corn have been obtained. The land is free under the homestead laws. No registration—no drawing. No long waits and disappointments as in the case with the lottery system. No expense—except the few dollars for filing fee.

The Great Northern Railway is now building a branch line through the very heart of the tract. Low one way and round trip rates during March and April. Send for map folder giving full details. Ask for "Rocky Boy" Indian Lands Circular.
