

THE GREAT ISSUE

AFRAID OF TRICKERY PRESIDENT AS A POLITICIAN

PEOPLE WANT TO KNOW MORE OF ALDRICH'S FINANCIAL PLAN.

'National Reserve Association' a Cloak for National Bank—Whole Truth of the Matter Must Be Made Public.

Many a good dinner has been eaten in New York and elsewhere, incidentally to discuss Mr. Nelson W. Aldrich's new financial plan.

The delicacy became popular at financial banquets without delay, but, having a desire to oblige his friends, the great chef who first prepared it has encouraged other good-livers to suggest improvements.

Some plain Americans have noted the fact that on the menu cards of our 50-to-date hotels very homely articles of diet are often hidden behind strange French or Italian phrases.

A great deal is to be said in favor of a Central bank. That such an institution has many advantages is proved by the experience of other nations.

It is morally certain that no Central bank will ever be established in this country under a misleading title.

Something of a Contrast. The Democratic house of representatives is doing things. That body has made the following record in a little more than a month:

Passed the "farmers free list" bill. Cut off a lot of useless offices, resulting in saving about \$200,000 a year.

Approved the Canadian reciprocity measure.

Adopted resolution in favor of popular elections of United States senators.

Passed the apportionment bill.

Passed the measure to provide for publicity of campaign expenses.

Meantime the Republican senate has 'cooled away' its time in a wrangle over assignment of committee places and begun plans for "hearings" on the reciprocity matter!

Reciprocity in the Senate. Among the poor farmers who have appeared before the senate finance committee to utter their jeremiads over the "ruin" threatened by reciprocity with Canada was W. J. Larrimore of North Dakota, who owns a small farm of 15,000 acres.

Standpatism dies hard. Restating the coercion of the great merit of the proposition and every influence which the leaders of their party could bring to bear, seventy-eight Republican members of congress voted against reciprocity.

Cabinet Appointments Seem to Show That He Knows Something of the Game.

Exit Mr. Dickinson from the Taft cabinet. Enter Mr. Stimson of New York.

Admirers of Mr. Taft have said he is no politician. One of his pet projects has been to secure Republican aid in the south.

Mr. Dickinson, a Tennessee Democrat, was appointed secretary of war.

Higher and higher do our skyscrapers soar, outtopping everything but the mephitic clouds of smoke from their own boilers; deeper and deeper do they thrust down through the soil until their massive steel roots find anchor in the rock below.

Mr. Dickinson steps down. Mr. Stimson has been regarded as a representative of the Roosevelt faction. He was Roosevelt's candidate for the governorship.

Mr. Oliver's Inconsistent Consistency. The reasons Senator Oliver of Pennsylvania gives for opposing the pulp and paper provision of the Canadian agreement are like the weapon employed by the butcher in a fight, who grabbed the first thing he could get his hands on, which, in the case of the butcher, was a sausage.

Mr. Oliver points out that under the provisions of the agreement only pulp taken from private Canadian lands and paper made from such pulp would be admitted free because the agreement retains the duty on these articles when they are subjected to a Canadian export duty.

The senator, therefore, puts himself in the attitude of objecting to free pulp and paper because it would not be so free as it should be when, as a matter of fact, he does not want it to be free at all.

As Representative Hill says that the farmer's free list bill will help the trusts instead of harming them, doubtless that is why those same trusts are so vigorously opposed to it. They dissemble beautifully.

Lower Tariff is the Demand. The question for congress—and we commend it specially to the progressive Republicans—is whether it will legislate in the interest of the people, or in the interest of those who insist on their indefeasible right to tax the people.

Passed the measure to provide for publicity of campaign expenses. Meantime the Republican senate has 'cooled away' its time in a wrangle over assignment of committee places and begun plans for "hearings" on the reciprocity matter!

Thinks Statement Not Fair. It will probably never be easy for the Hon. Theodore Roosevelt to state with entire fairness any question upon which he sets out to engage in an argument. He has decided to take part in discussing the proposed treaty of arbitration between Great Britain and the United States.

Democratic Position. The Democrats now hold the whip hand. The more progressive leaders of their party believe it would be a serious blunder, indeed, if they are induced by the conservatives to consent to an adjournment before they have outlined an unmistakable policy on every feature of the tariff controversy.

Woman Dies of Hiccoughs. Philadelphia, Pa.—After giving a most remarkable instance of the power of the mind over the body, Kathryn O'Donnell died of hiccoughs at her home in Camden. For fifteen months she had been subject to paroxysms from a weight of 140 pounds she became a living skeleton of sixty-five pounds. Five times medical science declared she could not survive more than a few hours. Each time she declared she would not die, and she recovered sufficiently to attend to ordinary household duties.

SHE KNEW ALL ABOUT SILAS

Mrs. Hopkins Well Understood the Frugality of Her Esteemed Fellow Townsman.

Mrs. Wiggins had "run in" for a minute to talk over the latest news of the village with her friend, Mrs. Hopkins.

"Do you know," she said, "they tell me that old Mr. Magee didn't subscribe but 50 cents to the minister's salary. That doesn't seem possible, does it?"

"To anybody that knows Silas Magee real well, it does," replied Mrs. Hopkins. "You haven't lived in this town all your life, Miss Wiggins, and you don't know what Silas is capable of. Why, I remember once when he was a young fellow, going to singing school with the rest of us, we got up a picnic."

"One of the girls spoke up and said she'd bring some chicken sandwiches. 'I'll bring some frosted cake,' says another."

"I'll fetch some jelly and cookies," says somebody else, and so it went on till we had most everything we could eat, promised. Then one of the boys who had no sisters said he would bring the coffee. That gave Silas his chance. He'd been sitting by, listening to it all, and now he spoke up real brisk, and says he:

"I'll bring the water for the coffee!" "No, Miss Wiggins, I ain't surprised a mite at his subscribing only 50 cents. The only surprising thing is that it wasn't a quarter."—Youth's Companion.

DON'T NEGLECT YOUR KIDNEYS.

Kidney troubles are too serious to neglect. Slight ailments are often fore-runners of dangerous kidney illness and should be treated without delay. J. L. Richardson, Red Key, Ind., says: "My back ached as though it would break. I could not move without intense pain. My kidneys were in such bad shape that it was necessary to draw the secretions. The doctor said I was beyond help. I began the use of Doan's Kidney Pills and gradually improved until completely cured. I have not had the slightest trouble since."

SHE GOT WHAT SHE WANTED

This Woman Had to Insist Strongly, but it Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—he said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it, and I am so glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman that if medicine does not help her, there is nothing that will."—Mrs. JANET ZIKI, 2963 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.
