RECORD OF WORK WELL DONE
 Anti-Tuberculosis Campaign Fruitful of Results for the Good of All Mankind.

Some comparisons showing the progress of the anti-tuberculosis campaign in the last eight years and the present needs of this movement are made by the National Association for the Study and Prevention of Tuberculosis in a brief report of its work recently issued. During the eight years of its work, the national association has assisted in the organization of over 800 state and local anti-tuberculosis societies located in almost every state and territory of the Union. Over 500 hospital and sanatoria have been established, with more than 30,000 beds for consumptives. About 400 physicians, with more than 1,000 physicians in attendance and at least 150 open air schools for tuberculous and anaemic children, have also been provided. Laws dealing with tuberculosis have been passed in 45 states, and ordinances on this subject have been adopted in over 200 cities and towns. An active field campaign of education against tuberculosis has been carried on in 40 states and territories by means of lectures, exhibits, the press, and the distribution of over 100,000,000 pamphlets on this disease.

Boundless Love.
 Robert, seven years old, snugly tucked in bed, called to his mother in the next room. "I can't tell how much I love you, mother," he announced.

"Yes, dear, go to sleep now," admonished his mother. There was silence for thirty seconds. Then: "Mother, God couldn't tell how I love you."

"All right, Bob. I appreciate that. But let's talk about it tomorrow." Silence. Robert's thoughts turned to father's automobile troubles, and of the expert called to disentangle matters.

"Mother," he remarked suddenly, "even an expert couldn't tell!"

Its Place.
 "Where shall we put this sleepy hollow chair?"
 "On the nap of the carpet."

CONSTITUTION
 Munyon's Paw-Paw Pills are unlike other laxatives or cathartics. They coax the liver into activity by gentle methods, they do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

RESINOL STOPS SKIN TROUBLES
 If you have eczema, ringworm, or other itching, burning, unsightly skin or scalp eruption, try Resinol Ointment and Resinol Soap, and see how quickly the itching stops and the trouble disappears, even in severe and stubborn cases. Pimples, blackheads and red, sore, blotchy faces and hands speedily yield to Resinol.

Resinol Ointment and Resinol Soap heal skin humors, sores, boils, burns, scalds, cold-sores, chafings and piles. Prescribed by physicians for eighteen years. All druggists sell Resinol Soap (50c) and Resinol Ointment (50c and \$1). Sent by parcel post on receipt of price. For sample of each write to Dept. 6-K, Resinol Chem. Co., Baltimore, Md.

QUININE AND IRON-THE MOST EFFECTUAL GENERAL TONIC
 Grove's Tasteless Chill Tonic combines both in a tasteless form. The Quinine drives out Malaria and the Iron builds up the System. For Adults and Children.

You know what you are taking when you take GROVE'S TASTELESS CHILL TONIC recognized for 30 years as the standard General Strengthening Tonic. It has no equal for Malaria and Fevers, Weakness, general debility and loss of appetite. Removes Biliousness without purging. Relieves nervous Depression and low spirits. Invigorating to the pale and sickly. It arouses the liver to action and purifies the blood. A true tonic, and sure appetizer. Guaranteed by your Druggist. We mean it. 50c.

There is Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for signature of E. W. GROVE on every box. Cures a Cold in One Day. 25c.

ARCTIC SKEPTICISM.

"Did you see the janitor?"
 "Yes. I told him it was as cold in our flat as at the north pole."
 "What did he say?"
 "He merely looked supercilious and asked for my proofs."

No Little Girl for Him.
 The six-year-old son of a well-known Indianapolis family attends a dancing school. He is a chubby little fellow, who has not begun to stretch out yet, and he keenly feels his "shortage." He demands that he be recognized as a little "grownup." Several days ago the teacher planned to instruct her pupils in dancing "the Butterfly." A five-year-old girl who is small for her age, and just a trifle stouter than our hero, but an adept at dancing, was assigned as his partner. He gazed at her in silence. Then he took hold of her hand and, with his mouth set firmly, walked straight over to the teacher.

"Don't you think you'd better give me a bigger girl?" he asked.—Indianapolis News.

Explaining the Needle.
 A typesetter in a printing house became a very adroit in explaining the large number of misprints for which he was responsible. Even when he changed his work and became a waiter in a restaurant, says Das Echo, his skill did not forsake him.

One day he had served a guest with a plate of soup, and was turning away, when he was called back sharply.

"This is an outrage!" cried the indignant diner. "I find a needle in my soup! What does this mean?"

"Just a misprint, sir," explained the former typesetter. "It should have been a noodle."—Youth's Companion.

Counter-Thrust.
 "A very good retort!" said Senator Lodge in an argument in this city over the immigration bill. "A very good retort indeed! It reminds me of Weeks.

"Weeks and his wife were quarreling. Weeks, with a hard, scornful laugh, you acted like a fish out of water."
 "Weeks sighed.
 "But a very cleverly landed fish," he said, in a musing voice."

FLY TO PIECES.
 The Effect of Coffee on Highly Organized People.

"I have been a coffee user for years, and about two years ago got into a very serious condition of dyspepsia and indigestion. It seemed to me I would fly to pieces. I was so nervous that at the least noise I was distressed, and many times could not straighten myself up because of the pain."

Tea is just as injurious, because it contains caffeine, the same drug found in coffee.

"My physician told me I must not eat any heavy or strong food, and ordered a diet, giving me some medicine. I followed directions carefully, but kept on using coffee and did not get any better."

"Last winter my husband, who was away on business, had Postum served to him in the family where he boarded. He liked it so well that when he came home he brought some with him. We began using it and I found it most excellent."

"While I drank it my stomach never bothered me in the least, and I got over my nervous troubles. When the Postum was gone we returned to coffee, then my stomach began to hurt me as before, and the nervous conditions came on again."

"That showed me exactly what was the cause of the whole trouble, so I quit drinking coffee altogether and kept on using Postum. The old troubles left again and have never returned."

"There's a reason," and it is explained in the little book, "The Road to Wellville, in pkgs.

Mustard Kills Boy.
 Canton, O.—Roderick McKensie, a fourteen-year-old school boy, died from the effects of eating too much prepared mustard. The boy's mother was out of the city and an aunt had been left in charge of the children. "The boy exhibited an abnormal fondness for strong mustard and ate a jar and a half of it in a day. The mustard destroyed the mucous membrane of the boy's stomach and he lived only two days."

NEW SCHOOL IS A MODEL
 New York Now in Possession of Public Institution to Accommodate 5,900.

New York.—The world's most up-to-date school is now a part of New York's educational system as a result of the opening here of the city's newest high school, which at the same time is one that in the opinion of famous educators, marks the beginning of a new educational epoch.

This unique school will be larger than any except a few of the great universities, having accommodations for 5,900 pupils and 238 instructors. Its curriculum will include many branches of practical training on a scale not hitherto attempted.

For example, there is a seven-room furnished apartment, in which the students of domestic science can struggle with the problems of housekeeping under actual conditions, and a model banking institution in which the future leaders of high finance can master its intricacies in a manner never before possible.

Then there is a garment factory with many sewing rooms in which management and other details of the garment trade will be taught, a book-binding plant in which pupils may take a complete course in this industry, a miniature "zoo" for the study of animal life and a root conservatory in which horticultural knowledge may be gained in regular classes.

While vocational training is provided for in many ways hitherto unattempted, the care of the physical welfare and recreation of the students has been provided for along lines equally unique. For these purposes the new school contains a theater with a seating capacity of 1,500, in which historic ability may be encouraged; basketball courts, gymnasiums in which particular attention will be paid to the physical deficiencies of the students together with their upbuilding, shower baths and a luncheon in which 700 pupils can eat at one time.

THE DEAREST BABY
 Mrs. Wilkes' Fondlest Hopes Realized—Health, Happiness and Baby.

Plattsburg, Miss.—"Lydia E. Pinkham's Vegetable Compound has proved very beneficial to me, for now I am well and have a sweet, healthy baby, and our home is happy."
 "I was an invalid from nervous prostration, indigestion and female troubles."

"I think I suffered every pain a woman could before I began taking Lydia E. Pinkham's Vegetable Compound, and I think it saved this baby's life, as I lost my first one."
 "My health has been very good ever since, and I praise your medicine to all my friends."—Mrs. VERA WILKES, R. F. D. No. 1, Plattsburg, Miss.

The darkest days of husband and wife are when they come to look forward to a childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to some derangement of the feminine system, often curable by the proper remedies.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

CROW IS FRIEND OF FARMER
 Biological Survey Discovers That Birds Devour Insects Injurious to Man.

Washington.—The biological survey, a branch of the department of agriculture, which studies the problems of what animals and birds are beneficial and what detrimental to the welfare of man, has just been looking into the case of the crow. The farmer has long accused this middle-size bird of doing him much damage through pulling up his corn. The biological survey, upon examination, that there were extenuating circumstances. The stomachs of hundreds of crows were examined that the diet of the crow might be definitely determined. In some of these stomachs sprouting corn was found. In some of the eggs of other birds indicated that the crow was a robber of its fellows. For each grain of corn or bird egg, however, the investigators found that there had

OLD BILL GOOD, SHE THOUGHT
 Negro Woman Puts It in Circulation, Believing Mr. Wilson's Election Restored Its Value.

Raleigh, N. C.—The Goldsboro negroes cleared up a counterfeit mystery in the federal court of Goldsboro when a woman confessed that she started a Confederate bill to circulate under the belief that Woodrow Wilson's election restored the money of her masters.

The case reached federal court when a hotel bell boy made demand upon Will Love, negro, for the ten dollars which Love received when the Confederate note was changed.

Love refused to pay back good money and was arrested by United States Deputy Marshal Smith. The bellboy had made an effort to get the money from a drug store, when he was told the bill was worthless. On trial Love, who passed the bill testified that a woman had given him the money, declaring it good under the present administration.

The woman confessed her part in it, restored the ten good dollars and said she had found the Confederate note. The commissioner thinks the woman received her inspiration from the perverted promises of Wilson campaigners in the fall.

Flowers in the Household
 Snapshot of Quiet Domestic Scene When Rivalry Fought for the Control of Mexico.

To make flowers last a week or more, four things are necessary. First, do not try to arrange them the moment you get them, but put them in a pail of water for a few hours, so that every stem will be under water up to the flower. Second, cleanse the vase thoroughly before putting in the flowers and change the water every day. Third, the cooler you keep the flowers the longer they will last. If you are too busy in the morning to enjoy them or have to go out for the afternoon, do not leave them in the living room, for they are not used to such a temperature. Every night put the vase in a cool place, or better still, plunge the stems up to the flowers in a pail of water. Fourth, cut about a quarter of an inch off each stem in the morning. It is more trouble to do this under water, but it pays. If you cut the stems in the ordinary way air bubbles get into the stems and impede the taking in of water.—Delineator.

Profound Criticism.
 Kin Hubbard, the Indiana humorist—one of them, that is to say—once was assigned to cover a performance of "Uncle Tom's Cabin." Hubbard had his brain-child, old "Abe Martin," report the play. BABY IN MISERY WITH RASH
 Monroe, Wis.—"When my baby was six weeks old there came a rash on his face which finally spread until it got nearly all over his body. It formed a crust on his head, hair fell out and the itch was terrible. When he would scratch the crust, the water would ooze out in big drops. On face and body it was in a dry form and would scale off. He was in great misery and at nights I would lie awake holding his hands so that he could not scratch and disfigure himself. I tried simple remedies at first, then got medicine, but it did no good.

"Finally a friend suggested Cuticura Remedies, so I sent for a sample to see what they would do, when to my surprise after a few applications I could see an improvement, and he would rest better. I bought a box of Cuticura Ointment and a cake of Cuticura Soap and before I had them half used my baby was cured. His head is now covered with a luxuriant growth of hair and his complexion is admired by everybody and has no disfigurements." (Signed) Mrs. Annie Saunders, Sept. 29, 1911.
