THE COCA-COLA COMPANY  
ATLANTA, GA.

Whenever you see an Arrow that is the mark of Coca-Cola.

**Use Magazine Stories.**  
An invalid or aged person who enjoys magazine articles sometimes finds the magazines, with their bulk of advertising, hard to handle. If the magazines are taken apart by removing the little wire clips that bind the sections together, the stories or articles can be easily handled separately. And any article specially likely to be enjoyed by a friend at a distance can be sent by mail when separated in this way.

**Bathing Popular in Baltimore.**  
Nearly one hundred thousand baths were taken during May at the various indoor and outdoor stations controlled by the public bath commission, according to a report compiled by Robert F. G. Kelly, acting secretary to the commission. It beat the record for May, 1913, by about twenty-five thousand. Of the baths last month, 10,662 were taken at the three outdoor stations. At the eight indoor stations 87,530 were taken.—Baltimore Sun.

**New Wireless for Aeroplanes.**  
John Hays Hammond, Jr., has perfected at Gloucester, Mass., a wireless telegraph apparatus for aeroplanes which he intends to sell to the government. His instrument embodies several new features which have not yet been made public, among them a new coherent 20 times as sensitive as those now in use. This will enable aviators to receive messages as well as send them. To the present time the wireless instrument used on aeroplanes have been only to transmit, and the inability to receive messages has kept the operators tied to their base of instructions.

**Discoverers of Illuminating Gas.**  
It was in 1792 that a Britisher, one Mr. Murdoch, made the first successful experiments on the illuminating properties of gases. Six years later he erected a gas apparatus in Birmingham. In 1802 Monsieur Le Bon illuminated Paris by this new discovery.

**Libby's Picnic Specialties**  
The picnic is incomplete without Libby's good things to eat. Ready to serve—no fuss and bother. There are a number of Libby's Luncheon specialties at your grocer's. Get acquainted with them.

Libby, McNeill & Libby  
Chicago

**35 BUSHELS PER ACRE**  
was the yield of WHEAT

**160 ACRES**  
WESTERN CANADA  
FREE

On many farms in Western Canada in 1913, some yields being reported as high as 60 bushels per acre. As high as 100 bushels were recorded in some districts for oats. 80 bushels for barley and from 10 to 20 bus. for flax. J. Keys arrived in the country 5 years ago from Denmark, with very little means. He homesteaded, worked hard, is now the owner of 320 acres of land. In 1913 had a crop of 300 acres, which will realize him about \$4,000. His wheat weighed 68 lbs. to the bushel and averaged over 35 bushels to the acre.

Thousands of similar instances might be related of the homesteaders in Manitoba, Saskatchewan and Alberta.

The crop of 1913 was an abundant one everywhere in Western Canada.

MOTOR CARS hauled late models all guaranteed. Also other well known makes in the very best condition; fully equipped; \$800 up. Every one bargain. Write for our used car bulletin. It's gratis. Halley Automobile Company, 3916 Olive Street, St. Louis, Missouri

Their Minds Are Tranquil.  
"Why is it that women look so much cooler than men in summer?"  
"Well, for one thing, they are not always wondering who's going to pitch the next game."

Piles Cured in 6 to 14 Days  
Your druggist will refund money if PAZO OINTMENT fails to cure any case of itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

Due to Heat Radiation.  
A smart dealer in electrical supplies says: "Don't wait till the sands of the desert grow cold before buying an electric fan."  
"That isn't such a clever idea. The sands of the desert grow cold every night."

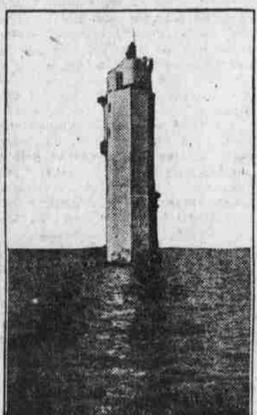

Whenever You Need a General Tonic Take Grove's  
The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

**GUARDS SHIPS ALONE**  
Platte Fougere Lighthouse Only Unattended One Built.  
Possesses a Powerful Fog Signal and Marks Entrance to Russell Channel Leading to Guernsey Capital of St. Peter's Port.

London.—What is declared to be the only unattended lighthouse built on a wave-washed rock, possessing a powerful fog signal, is the recently completed Platte Fougere lighthouse, marking the entrance to the Russell channel leading to the Guernsey capital of St. Peter's Port, a spot which figures in Victor Hugo's great romance, "The Toilers of the Sea." This unattended tower, built of ferro-concrete, which rises on a wave-washed rock, is of irregular octagonal shape, measuring 14½ feet and 17 feet across the faces and 80 feet in height. The head of the rock on which it stands is visible only at low tide, while it is difficult to approach even in the smoothest weather owing to the tides and currents. Much of the foundation work had to be carried out under water. The tower is solid for a height of 46 feet above the rock, and the base is formed of Portland cement placed in iron molds with iron bars driven into the solid rock to anchor the concrete firmly. On the side to which the building is exposed to the heaviest seas massive beams of rolled steel are driven into the rock so as to impart additional strength to the part of the tower where the greatest strains are likely to be set up.

On the entrance level is a compartment containing an electric motor and air-compressor, while on the floor immediately above is a duplicate installation. The siren projects through the top of the tower, the trumpet being so turned as to throw the sounds in a horizontal direction over the water. On the top of the tower is a small automatic acetylene-gas plant and light. These devices, many of which are the invention of the engineer-in-chief, Mr. E. O. Catford, are controlled from the shore station one and one-quarter miles distant by means of a submarine cable made specially for the work. It is 11 inches in diameter and weighs 45 tons to the nautical mile.

The foghorn has been heard 30 miles away on the French coast, while

Unattended Lighthouse Off Guernsey.  
The light is brought into being at sunset and automatically extinguished at dawn. The tower and its installation cost \$28,500. An ordinary stone structure would have demanded five or six times this amount and would have been far more expensive to maintain. Thus Guernsey's unattended lighthouse has solved a vexed problem.

**MAN WROTE WHILE FREEZING**  
Young Swiss Mountain Climber is Found Dead in an Alpine Hut.

Paris.—A dispatch from Geneva to the Petit Journal says that in a hut in the Valais Alps a young man named Johann Winkler was found frozen to death. In a letter which he wrote some hours before his death he said that he had lost his way in the snow, which was six feet deep.

For four days he had had no food and had lost part of his clothing. When he was writing the letter his feet were already frost-bitten.

**Four-Year-Old Milks Cow.**  
Dover, N. H.—Milking cows regularly at the age of four years, has brought fame to Master George Beard of Dover. A year ago the father, at the urgent request of the boy, permitted him to try his hand at milking one of the cows on the farm. Placing his stool he sat down to his first milking stunt with the air of a veteran and in a short time obtained three quarts of milk. After that he milked the cow regularly every night and has gradually acquired the strength to do a complete job.

**Leopard Tears Trainer.**  
St. Louis.—Emil Schwyer, an animal trainer in a circus, was attacked and torn by a leopard while he was trying to get it to walk a rolling globe in a steel cage. The leopard tore the flesh from the trainer's left arm and shoulder. Tom Hilton, an assistant trainer, then tried to make the leopard do the trick, when the animal leaped on him, bearing him to the floor. Circus attaches beat off the animal before Hilton was hurt seriously.

**Gets Profit From Thistle.**  
Odessa, Wash.—The value of the Russian thistle has been demonstrated by Herman Menrich, a farmer, the weeds bringing him \$854. This money was received through the sale of 8,100 pounds of wool at 14 cents per pound. Mr. Menrich fed his 1,003 sheep on the thistle. The shearing cost \$100, leaving a net profit from the thistle of \$754.

**WESTERN CANADA'S NATURAL RESOURCES**  
PETROLEUM, NATURAL GAS, COAL AND FARM LANDS.

The developments that have taken place recently in the oil and gas fields of Western Canada have but added another to the many previous evidences that have been produced, showing the great wealth that has been an unknown asset for so many generations.

The latest reports from the oil fields at Calgary show that there is a production there that would appear to equal the best paying fields on the continent. Experts have been on the ground for some time. It is said that one of the wells is able to produce 2,000 gallons an hour. If this is so there are but about a dozen wells in the world of greater production. During the past week discoveries of surface indications have been made which show that oil exists over a considerable portion of Alberta and Saskatchewan, while in Manitoba there have also been showings. At Battleford, Saskatchewan, a few days ago discoveries were made which led to the finding for leases on twenty thousand acres of land, all having strong surface indications. Companies were formed to carry on immediate work, and in a couple of months, or probably less, the story will be told whether oil exists in paying quantities.

But there are also the coal deposits and the natural gas deposits that are helping to make of Western Canada one of the wealthiest portions of the continent.

With the grain fields covering these hidden riches it is no wonder that a continued range of optimism is to be seen everywhere. Early reports of seeding of all grains being successfully completed all over the country are followed by reports of excellent and strong growth everywhere. During the first week in June most of the wheat had reached a growth of from twelve to twenty inches, with the most even appearance, almost universally, that has been seen for years. Oats appeared equally well, and covered the ground in a way that brought the farmer's countenance.

Barley, a favorite with the hog raisers, had taken good root, and was crowding oats for a first place, as to length of shoot. Cultivated fodder grasses are getting great attention, as a consequence of the inclination to go more largely into mixed farming, and the raising of hogs, cattle and horses. The weather is reported fine, just what is needed, and if present favorable conditions continue, the grain crop of Western Canada for 1914 will be the largest average in the history of the country.—Advertisement.

**The Flea.**  
Speaking of fleas—and they are a common topic of conversation in some parts of the United States—as common a subject as mosquitoes in New Jersey or flies in other places—certain British and other scientists have lately discovered that a flea becomes old and infirm within twenty days after its birth, although some fleas have been known to live to be ninety days old when especially well-fed. Up to the fifteenth day of its career the flea is able to do a considerable amount of execution. After that length of time it becomes rather sluggish and indifferent. These are important additions to the literature of the flea. It has long been known that the flea is no respecter of persons—is, in fact, very promiscuous in its associations; that it is extremely agile; that a settlement of fleas anywhere soon becomes overcrowded; that fleas thrive on most poisons; that they can easily distract one's attention from the most important topics, and that they are meaner, much meaner than flies in their manners—are, in fact, the most impolite of insects.

**Teaching the Children.**  
In the Woman's Home Companion appears a department called "The Exchange," in which various contributors give household suggestions. A Texas woman tells, as follows, how she has taught her children to pick up their playthings:

"Being a busy homemaker with three healthy babies to watch over, I try to teach them to help themselves. One great problem is to get scattered toys picked up and put away in proper places. I secured a good-sized soap box, which I covered neatly with denim, and to which I fastened four casters. At night this is our 'freight train' and it's a very simple matter to get my men to push the car around and collect scattered freight (toys)."

**Time to Moderate.**  
"Who is that fierce old dowager glowering at us?" he asked as they dipped together.  
"That's my mother," she answered.  
"Ahem! Suppose we make the next dip barely perceptible?"

**How to Give Quinine to Children**  
FEBRILINE is the trade-mark name given to an Improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for 2-ounce original package. The name FEBRILINE is blown in bottle. 25 cents.

**Life's Service and Joys.**  
Hall, social life! Into thy pleasing bounds I come to pay the common stock, my share of service, and, in glad return, to taste thy comforts, thy protected joys.—Thomson.

**Cures Old Sores, Other Remedies Won't Cure.**  
The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 5c, 50c, \$1.00.

**The Retort Courteous.**  
The Poet—My reading is in my mind.  
The Cynic—Bound in calf?

**FRENCH LEGION OF HONOR**  
Highly-Prized Decoration Which Every Son of France Has the Ambition to Receive.

The first decorations of the Legion of Honor, the famous French order of merit, were conferred in 1802 upon military and civil officers who had distinguished themselves under the consulate. The order was founded May 19, 1802, by Napoleon, when he was first consul. It consisted of various grades, as grand crosses, grand officers, commanding officers and legionaries, and was a reward for services of merit. The order was confirmed by Louis XVIII when the Bourbons were returned to the throne a century ago, and it has been continued, with necessary changes in the constitution, through the reigns of Charles X, Louis Philippe, Napoleon III, and the second and third republics. Many Americans and British subjects and other foreigners have received the decorations of the Legion of Honor.

**ECZEMA ITCHED AND BURNED**  
R. F. D. No. 2, Seymour, Mo.—"My scalp broke out with fine pimples at the start. They itched and burned so much that I was compelled to scratch them and they would fester and come to a head and break out again. The trouble was attended by such burning and itching I could not sleep, also when I sweat it burned the same. My hair fell out gradually and the scalp kept rough and dry with itching and burning. After about two years the pimples broke out between my shoulders. My clothing irritated them. I was troubled with that eczema five or six years.

"I tried everything that was recommended without any benefit until I used the Cuticura Soap and Ointment according to directions, and Cuticura Soap and Ointment cured me sound and well in two weeks." (Signed) S. L. Killian, Nov. 22, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

**Origin of Visiting Cards.**  
Some authorities hold that the origin of the visiting card lay in the circumstance that, when Pericles first laid siege to the heart of Asia, he sent her a bouquet to which, fearful lest she might not guess from whom the compliment proceeded, he caused to be attached a strip of wood wherein his name was cut.

According to Bertarelli, who, among others, has been at many pains to compile the history of the card, it is difficult to say whether it was first used in Greece or in China. However that may be, it seems to be an ascertained fact that the visiting card did not really obtain to any extent in Europe until the time of Louis.

**Just Like a Woman.**  
"Father, is mother your soul mate?" asked little Willie Botts.  
"Er—yes, I guess so, son," answered Mr. Botts, cautiously.  
"Umph!" snorted Mrs. Botts. "I'm not your soul mate, Henry, but if I ever catch you looking at her, there's going to be trouble in the family."

**From the fruit dealer we get our jams—and from the wet goods dealer we get our jimmams.**  
Femininity is one of the problems that scientists cannot solve.

**ON EGYPT'S FAMOUS RIVER**  
Sailing on its Placid Waters Rowers Weirily Chant as They Tug at Their Oars.

As we sat on deck, beneath the minarets of the mosque, the skies slowly turned from orange to lilac and purple of night, throwing a strange pink light over the city's buildings, Archie Bell writes in the Cleveland Plain Dealer. The mimosa trees and date palms became black and great white cranes, seemingly knowing that their wings had an appropriate background, circled over our heads, over the deep azure river and over the many white sailed dahabeahs that were floating along in the breezeless night, propelled by rowers who were chanting weirdly as they tugged at the oars.

Dimly we could see the black draped figures of numberless women approach the river's brink and we knew that the splashes in the water were caused by the dropping of their heavy jugs, which they twirl around till they are filled, after which they raise them laboriously to their heads and then skip up the banks and disappear in the darkness of the night.

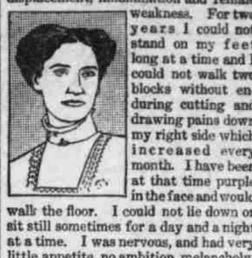

The sounds of the city ceased and all was quiet. All but the plaintive lay of a piper who must have been somewhere not far off on the bank of the river. It seemed that he was playing the love song of Larbi of Beni Mora. It was monotonous and drowsy and invoked sleep. In the morning before dawn I heard the boys pulling the stake near my window. I had fallen asleep to native music and now I was awakened by their song. As we started up the river, the clarion call of the muezzin rang out from the minaret. For good Mohammedans it meant that a new day had begun—but for infidel Americans, there were several additional hours of sleep.

**And the Clerk Smiled.**  
There recently went into a fashionable shoe shop the daughter of a man whose wealth has been acquired within very recent years. The young woman was disposed to patronize the clerk and rejected a number of "classy" slippers he produced for her approval. Finally she said: "I think, perhaps, I shall take these two pairs. But Louis XV heels are too high for me. Give me a size lower—or, stay—perhaps Louis XIII will be high enough."

**New Modern Dancing.**  
The leading expert and instructor in New York City writes: "Dear Sir—I have used ALLEN'S FOOT-BALE, the antiseptic powder to be shaken into the shoes, for the past ten years. It is a blessing to all who are compelled to be on their feet. I dance eight or ten hours daily, and find that ALLEN'S FOOT-BALE keeps my feet cool, takes the friction from the shoes, prevents corns and sores, and keeps them from becoming chafed. I recommend it to all my pupils." (Signed) E. FLETCHER HALLAMORE, Shoe-Fitter, Address Allen's Building, LeRoy, N.Y.

**Renewed Automobiles**  
It is better to buy a renewed Cadillac than any new car at the same price. The renewed Cadillac gives better service, depreciates less, costs less to maintain and always looks good. We sell used cars at cost and not for profit. Prices \$200 and upward. Write for our monthly bulletin of renewed cars. It is free. CADILLAC AUTOMOBILE CO. OF ST. LOUIS, 4137 Olive St., St. Louis

**WOMEN CAN HARDLY BELIEVE**  
How Mrs. Hurley Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Eldon, Mo.—"I was troubled with displacement, inflammation and female weakness. For two years I could not stand on my feet long at a time and I could not walk two blocks without enduring cutting and drawing pains down my right side which increased every month. I have been at that time purple in the face and would walk the floor. I could not lie down or sit still sometimes for a day and a night at a time. I was nervous, and had very little appetite, no ambition, melancholy, and often felt as though I had not a friend in the world. After I had tried most every female remedy without success, my mother-in-law advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and gained in strength every day. I have now no trouble in any way and highly praise your medicine. It advertises itself."—Mrs. S. T. HURLEY, Eldon, Missouri.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound. For sale everywhere.

It has helped thousands of women who have been troubled with displacement, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it? Lydia E. Pinkham Medicine Co., Lynn, Mass.
