Mr. Bones Gives His Opinion as to Why a Certain Celebrated Act Was Done.

"Misto' Interlocutor," began the end man, "I wants to ax yo' a question."

"Very well, Mr. Bones. What is your question?"

"Why does a chicken cross de road?"

"That is a very old one, Mr. Bones. She crosses the road because she wants to get on the other side, of course."

"Yessuh, dat's right, Misto' Interlocutor. An' now, since yo' is so smart, mebbe yo' kin tell me why she wants to git on de other side."

"No, Mr. Bones, I'm afraid I can't tell you that. Why does the chicken want to get on the other side of the road?"

"Cause dey's a young gemman over dere what's got de price of a ice cream soda in his pocket."—Exchange.

Boss Tweed's Old Home to Go.

Boss Tweed's old home at Fifth and Forty-third street, New York, soon will give place to the 16-story office structure of the Guaranty Trust company. The house, one of the city's landmarks, covers a space of 62x123 feet and was sold by the notorious Tammany chieftain to Richard T. Wilson some years ago for \$1,200,000. The exterior of the place has not been altered since Tweed escaped from the police. He requested that his guards permit him to pack some clothes. They waited a long time at the front door and then realized that the prisoner had fled. Tweed had escaped to Forty-third street and then to the river, where his yacht was ready to sail. He reached Spain, was caught and returned to the United States.

Johnny Had the Proof.

In instructing a youthful class in mathematics the teacher turned to John Jones.

"Johnny," she remarked, "can you tell me what an average is?"

"Yes, ma'am," was the prompt response of Johnny. "An average is what a hen lays eggs on."

"What?" exclaimed the amazed teacher. "What on earth are you talking about?"

"That's right, Miss Mary," was the rejoinder of Johnny. "Most every lesson in our 'rithmetic starts off 'if a hen lays three eggs a week on an average.'"

A Natural Inference.

"Ah, this world is growing better! I do not believe there is any danger of our getting into war. The return of prosperity is already apparent. This weather is truly salubrious. All reports tell of the most bountiful crops, and—"

"Look here!" interrupted Gaunt N. Grimm. "You've had your salary raised."

IT SLUGS HARD.

Coffee a Sure and Powerful Bruiser.

"Let your coffee slave be denied his cup at its appointed time! Headache—sick stomach—fatigue. I know it all in myself, and have seen it in others. Strange that thinking, reasoning beings will persist in its use," says a Topeka man.

He says further that he did not begin drinking coffee until he was twenty years old, and that slowly it began to poison him, and affect his hearing through his nervous system.

"Finally, I quit coffee and the conditions slowly disappeared, but one cold morning the smell of my wife's coffee was too much for me and I took a cup. Soon I was drinking my regular allowance, tearing down brain and nerves by the daily dose of the nefarious beverage.

"Later, I found my breath coming hard, had frequent fits of nausea, and then I was taken down with bilious fever.

"Common sense came to me, and I quit coffee for good and went back to Postum. I at once began to gain and have had no returns of my bilious symptoms, headache, dizziness or vertigo.

"I now have health, bright thoughts, and added weight, where before there was invalidism and the blues.

"My brother quit coffee because of its effect on his health and now uses Postum. He could not stand the nervous strain while using coffee, but keeps well on Postum." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

Heavy Wash Fabrics for Everyday Suits

Suits for little boys under six, like those for little girls, are made of wash fabrics for both summer and winter. Heavy linens and cottons in strong weaves and in fast colors that stand strenuous wear and much tubbing, are used in the new suits for daily wear which have just been brought out.

When the little gentleman is dressed for a grand occasion he wears velvet and looks princely in it. The simple tub suits for every day make it possible to keep him refreshingly clean in spite of the fact that the small chap is usually oblivious to dirt and has a faculty for gathering it.

Two of the new models for little boys' suits are shown here. They leave nothing to be desired in excellence of design, style or thoroughly practical wearing qualities.

At the right a suit of linen rep is pictured with collar and belt in plain brown. Smocking across the front of the blouse gives it the requisite fullness. Straps of the white linen are attached to the blouse and support a belt of the brown linen fastening with three bone buttons at the front. The collar is a small sailor pattern in brown linen but the cuffs are made of the same linen as the suit.

At the left a suit in the same color combination is shown finished with black buttons, and a black silk tie. The belt is posed lower on the figure than in the other model and is supported by narrow straps of the brown linen sewed on at each side. A pocket with flap finished with two buttons is a smart and practical item in the detail of the blouse. The small tie does not extend around the neck. It is

Victorian Sleeve Revived.

Another Victorian revival is the puffed sleeve coming midway between shoulder and elbow. Thus far these sleeves adorn only evening gowns, the long sleeve to the wrist being used on all bodices and blouses for day wear. Low necked waists are filled in at the top with gathered tuckers—another dainty Victorian feature of dress—and the décolletage is growing round instead of V-shaped as the season advances. Dimity and flowered organdie find special favor and lavender—the color of colors in demure Victorian days—is particularly fashionable.

The belle of 1820 veiled herself partly for coquetry and partly to protect her complexion, for tan was considered a disgrace then, as rough, red hands would be now. Over the quaint poke bonnets of this summer will be thrown graceful veils in bordered and wide patterns and from the tiny hat floats a short, flaring veil such as the 1830 bella affected.

Bead Work and Needle Craft in Fall Millinery

Among the really new things that have appeared on the millinery horizon for fall, the bead ornaments and the bead work which adorn many of the hats, are the most novel. Also they are very handsome. Now that Americans are learning how to rely upon themselves for artistry in creating headwear, it seems especially appropriate that they should have drawn an inspiration from the original Americans—the red men who have used beads always. And anyone who will examine a collection of headwear or other apparel of many Indian tribes, will develop a respect for the art of its makers and for their patient work.

Beads and needlework are the new touches appearing on the two fall hats shown here. The shapes are wide-brimmed sailors, covered with velvet.

The hat at the right is in a strong, bright shade of blue velvet. About the crown a heavy silk floss appears in parallel rows of even stitches and this decoration appears in four rows at the edge of the upper brim. At the front many strands of white beads are knotted and fastened to the top crown. The strands terminate in bead-covered balls fastened to the brim at each side.

The black velvet hat at the left is embroidered with a spider's web in

For the Fair Skin.

Bicarbonate of soda and hot water, a teaspoonful of soda to a pint of boiling water, will make the skin fair and white. As soon as the water has cooled enough to be bearable, but while still hot, dab it over the face with a tuft of absorbent cotton. Repeat the treatment every three hours for two days. A marked improvement will be apparent.

Here is an excellent skin food for early spring use: Half an ounce of white wax, half an ounce of sperma-

cel, one ounce of lanolin, two ounces of oil of sweet almonds. Melt together in a porcelain kettle and remove from stove; add one ounce of orange flower water and three drops tincture of benzoin and beat briskly till creamy.

Dangerous to Fire Fighters.

Measuring the current carried from electric wires by streams of water from fire hose, an Italian experimenter found that chemical extinguishers were the most dangerous fire fighting equipment to use around live wires.

Cold Douche.

President Wilson tells of a famous Princeton professor who supplied the pulpit one Sunday in the hamlet of Penn's Neck.

He preached his finest sermon and thrilled the congregation in the little country church as it had never been thrilled before. At the close of the service he was feeling particularly well satisfied with himself when the leading elder approached and asked him:

Sweden has smelted iron for more than 20 centuries, and some of the ancient furnaces still are in existence.

Didn't Work Both Ways.

The timid man was about to pay for his luncheon of "ham and" when the following conversation took place:

"Pardon me, sir, but our rules forbid us to receive bent or battered coins from customers."

"But I received that very coin here yesterday by way of change."

"Very likely, sir. We have no rule against giving bent or battered coins to customers."

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the BLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which is poisonous doses produce stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without your or your physician's knowledge of what it is composed. **CASTORIA DOES NOT CONTAIN NARCOTICS**, if it bears the signature of Chas. YARB DOCTAH WAS TO BLAME

Second Mistake That Medical Adviser of Negress Had on Record Against Him.

Guy Hoerner, South Philadelphia apothecary, was urbanely dispensing a postal card to a "flapper" when an Amazonian negress in a calico wrapper of morning-glory pattern entered and bulked herself against the counter.

"I wants a 'description' filled foh half-dozen five-ounce quinine pills," she announced.

"Why, woman, that pill would paralyze an ox; what's the matter with you?" asked the astonished chemist.

"Nothin' de matter wif me," she answered. "It's foh mah daughter, and she's some heft. Gladys, she takes aftah me. Mah husband's bench-kneed and insignificant."

"But, quinine comes in grains, not ounces."

"Well," was the scornful rejoinder, "It's jest another mistake of dat fool yarb doctah. Last yeah, when she had only a misery in her stomach he got her to swallow a spoonful of bird shot; said her lights was riz and she hac to weight 'em down."

How to Clean Stone Window Sills

In the Woman's Home Companion a Missouri woman told us follows how to clean stone steps or stone window sills:

"Get five cents' worth of the coarsest sandpaper and rub stone steps or stone window sills briskly until all marks are removed, then simply dust them with a duster or a rag. They will stay white much longer by using this method than scrubbing them with water. I always wear a pair of canvas gloves, as they protect the hands from any scratching."

On an Island.

"Where can I buy a souvenir postcard?"

"You can't buy one on this island. This island belongs to a man who positively won't allow 'em to be sold."

"Hum," said the summer visitor. "I see I am going to like this place even more than I expected."—Louisville Courier-Journal.

Tame Description.

"I saw your husband at the ball game yesterday."

"What was he doing?"

"Why, he seemed to be an interested spectator."

"That doesn't describe my husband. He's a cyclonic rooster."

One of the best grades of Italian cheese is sold only after it has been seasoned for at least four years.

Some men are never neutral. They are either kicking or being kicked.

His Cruel Treatment.

Some time since pretty young wife brought suit against her husband for divorce on the ground of cruelty, and when the case was called the fair petitioner was put on the witness stand.

"You say on your petition, madam," interrupted the judge at one interval, "that your husband treated you with great cruelty?"

"Yes, sir," was the soft and meek rejoinder of the witness, "he was cruel to me very often."

"In what particular way?" asked the judge. "I want to hear some specific cases."

"In many ways," answered the petitioner. "One of the worst things he used to do was to say things to me on the telephone, and then hang up the receiver before I could answer back."

Concerning Women on Juries.

"Do women have to sit on juries if they vote?" Dr. Anna Howard Shaw, president of the National American Woman Suffrage association was recently asked.

"Not necessarily," said Doctor Shaw; "but I have seen a lot of juries which needed to have someone sit on them, and I have known women who have had to stand up at most difficult and disagreeable employments who would be glad to sit on juries and receive about double the price they get by standing. And these men and women who prey upon the virtue of girlhood and boyhood would rather face Satan himself than a jury of mothers. Yes, we need women on some juries."

Wasting Time.

"Friction always takes time. An object rolling down a smooth hill goes much faster than when it bumps along over stones and cobbles. A courteous remark will carry you quicker to the bargain than querulous bickering over prices which the sales woman cannot control. When you allow the saleswoman to bring out dozens of \$40 and \$50 suits when you know you will not pay a cent over \$25 you are wasting your own time and hers. When you chat with an acquaintance at the glove counter and ignore the girl's "Do you wish eight or twelve buttons?" you are wasting time again and depriving the girl of another customer."

SAFETY IN USE OF ASBESTOS

Material Chiefly Valuable for Protection Against Fire, But Has Many Other Good Qualities.

Asbestos is a potential lifesaver. We do not all realize, perhaps, that the fireproof theater curtain is made of asbestos, which is rock matter, but nevertheless almost as soft and pliable as cotton or woolen fabric.

Asbestos has, of course, many other uses. Its incombustibility and its fibrous structure make it one of the most useful minerals for many and various structural purposes.

It is used in making lumber, roofing, plaster and stucco.

Houses that are built largely of asbestos afford their occupants not only complete protection from fire because it is a "nonconductor," but assure them also the comfort of freedom from extreme heat and cold.

The asbestos-producing industry of the United States is growing. For many years we have been the greatest manufacturers and users of asbestos, drawing our raw material from Canada, but we are now getting some excellent fiber in our own country.

Swift Uppercut.

"I see you have your arm in a sling," said the inquisitive passenger.

"Broken, isn't it?"

"Yes, sir," responded the other passenger.

"Meet with an accident?"

"No; broke it while trying to put myself on the back."

"Great Scott! What for?"

"For minding my own business."—Ram's Horn.

5 Women Avoid Operations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

- HODGSON, ME.**—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman."—Mrs. HAYWARD SOWERS, Hodgdon, Me.
- SHELBYVILLE, KY.**—"I suffered from a severe female trouble. My right side hurt me badly—it was finally decided that I must be operated upon. When my husband learned this he got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and after taking it a few days I got better and continued to improve until I am now well."—Mrs. MOLLIE SMITH, R.F.D., Shelbyville, Ky.
- HANOVER, PA.**—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it."—Mrs. ADA WILZ, 503 Walnut St., Hanover, Pa.
- DECATUR, ILL.**—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me."—Mrs. LAURA A. GRISWOLD, 2437 West William Street, Decatur, Ill.
- CLEVELAND, OHIO.**—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. GRUFFITH, 1268 Constant St., Cleveland, O.
