WILLIAM R. ROBERTSON
of Webb City
PRESIDING JUDGE OF THE SPRING-
FIELD COURT OF APPEALS.
Candidate for re-election, subject to
Democratic Primary.

After I was elected four years ago,
it was necessary under the law to cast
lots for the terms of four, eight and
twelve years. I drew the short one,
and now at the privilege of making
the race for a regular term of twelve
years.

I have not asked for formal in-
dorsements of lawyers and conventions—I
have been discharging the duties of my
office. The Democrats in general make
the nomination. My record and rep-
utation are open before you. If you
do not know about them ask those
who do. The lawyers of my own
county and of the district are my
friends.—Adv.

Tells How to get Rid of Fly Pests.

Swarms of filthy pestilence bearing
flies are with us again in such num-
bers as to make life miserable. How
can we get rid of them? According
to L. R. Haseman of the department
of entomology of the University of
Missouri at Columbia, to free our-
selves from these unwelcome in-
truders, stables should be cleaned out,
and manure and other rotting materials
scattered in the use of bait, traps,
rattle foot and swatters. A few drops
of formaldehyde in a plate of milk
placed out of reach of children is an
excellent poison bait.

On the farm a tight nail keg or
barrel can be used as a convenient fly
trap, by cutting out a circular open-
ing in the bottom to receive a wire
cone and by removing the top and
screwing it on so as to turn the light
toward which the flies are attracted
when they enter the cone below. For
further light make holes in the sides,
carefully screening them. When the
trap is prepared stand it on four
bricks where the flies are most abun-
dant and place a dish of attractive
bait directly underneath the wire funnel.
The flies on leaving the dish of bait
will rise into the mouth of the cone
and be carried up into the trap. As
a further relief from the pests, keep
the doors and windows screened and
screens closed.

Carrying off germs by houseflies
may sometimes be exaggerated, but
the importance of preventing flies
cannot be overestimated. You can
never know when you may eat food
on which flies have scattered typhoid
germs. "Safety First" with this
speedy messenger of disease and
death.

Shade Trees Should not be Butchered in
Pruning.

There is a right and wrong way of
pruning shade trees just as there is a
right and wrong way of pruning fruit
trees. H. W. Major of the Missouri
College of Agriculture has prepared a
circular which illustrates the exact
ways in which the common shade
trees should be pruned. The reasons
for pruning shade trees are to remove
dead wood, to take out crossing
branches, to increase the bulbs that
produce flowers, and to balance up
the tree.

(Circular 81—Pruning Shade Trees—
is available for free distribution to the
citizens of Missouri who want to
prune their shade trees in such a
way as to make them more beautiful
and preserve them without destroying
their effectiveness for a year or two
after the pruning. Anyone can easily
follow the simple directions and illus-
trations given and prune their own
trees according to the methods follow-
ed by the leading landscape architects
of the country.

The Call of Arcadia Heights to You.

If you have ever attended an As-
sembly at Arcadia Heights you will
find the call of Arcadia Heights well-
irresistible. If you have not yet had
that privilege, open your heart to
the call now. Nothing will help you
so much to see the work of God
among men in its true light as to spend
two weeks on the mountain with those
who love God. This is the place where,
as "Preachin' Bill" said, "The Lord
done His bestness." Such sights
as these will fill you with awe and lift
you to higher levels of life.

You will never be the same person
after having spent two weeks on Ar-
cadia Heights in a prayerful state of
mind. All the rocks, trees, hills and
skies unite in calling upon your soul
to open the door to God's secret which
is written here upon the face of Na-
ture. You will find that even your
hours spent in recreation will be filled
with the spirit of worship. When you
meet with the others at Sunset Rock,
just as the sun is setting behind old
Pilot Knob, and there behind the
gates of night thrown open, you will
catch a glimpse of the world beyond
which will give you a new strength
for your sojourn here below.

You cannot receive such messages
direct from God while you remain in
the cities and towns. When Christ
wanted to teach His disciples a special
lesson He said, "Come ye yourselves
apart into the desert place and rest
a while." When He wanted to give
them a glimpse of His power and
glory He took them apart on the
mountain top.

The Rolla School of Mines Wins Out.
(West Plains Gazette.)
The Supreme Court on banc Mon-
day afternoon in an opinion by Judge
James T. Blair, sustained the valid-
ity of the Buford act passed by the
last general assembly, enlarging the
scope of the State School of Mines at
Rolla, by authorizing it to confer
degrees in civil, mechanical and elec-
trical engineering in addition to con-
ferring degrees in mining engineer-
ing.
The law was fought by the board
of curators of the State University
and the friends of that institution on
the grounds that it was destined to
cripple the university.
Judge Blair holds that the legis-
lature has the right, if it sees fit, to
pass enactments prescribing a course
of study and a writ is ordered issued
requiring the curators to establish the
curriculum called for in the Buford
act.
This is a great victory for the friends
of the School of Mines. The curators
of the State University at one time
sought to move from Rolla the class
that now are taught in the School
of Mines and teach them at Columbia.
It was planned to use the building at
Rolla for an industrial school. Rolla
citizens who have always pointed
with pride to their wonderful school
did not take to this idea and the re-
sult was that the legislature conferred
more powers upon the School of
Mines, from which the State Univer-
sity appealed to the Supreme Court
and lost out. It was a great victory
for Rolla and her excellent state in-
stitution.

After Three Years

Ironton Testimony Remains Unshaken.

Time is the best test of truth.
Here is an Ironton story that has stood
the test of time. It is a story with a
point which will come straight home
to many of us.
Anderson Rust, Ironton, says: "I
was badly in need of something to re-
lieve me of lameness in my back. My
kidneys were frequently too active,
especially at night and sometimes the
passages of the kidney secretions were
accompanied by pain. Short use of
Doan's Kidney Pills, procured at the
Arcadia Valley Drug Co., cured me."
Over three years later, Mr. Rust
said: "I haven't had any return of
kidney complaint since Doan's Kidney
Pills cured me."

ing a part of a ten acre tract conveyed by
Minnie G. Elgin and husband to Joseph
Hasty by deed dated February 4th, 1903,
recorded in Book 46, Page 185, of Iron

described as follows: Beginning at the

with west line of said lot 3, 40 rods; thence

point one rod east to the middle of the road

which is the line formerly between Elgin

thence north to point of beginning, con-
taining 10 acres, more or less. Excepting
and reserving from the effect of this convey-
ance 3 acres heretofore conveyed to William

Sheriff's Sale Under Deed of Trust.

Whereas, Ed. Sutton, a single man,
by his certain deed of trust, dated the
5th day of January, nineteen hundred and
sixteen, and duly recorded in the office of
the Recorder of Deeds for the County of Iron,
and State of Missouri, in Book 69, at page
18, did convey to Chas. E. Bolch, trustee,
the following described real estate,
situate, lying and being in the County of
Iron and State of Missouri, to wit:

All of the northeast quarter of section
twenty-three, (23), township thirty-one,
(31), range three (3) east, except one and
one-half acres now owned by William
Jones, fifteen and one-half acres now owned
by Chas. E. Bolch, ten acres now owned by
John Jackson, and five acres now owned by
F. C. Warncke—this five-acre tract being
known as the Benson land; also that tract
or parcel of land described as follows:
Commencing at the southwest corner of the
southeast quarter of the southeast quarter
of section fourteen (14), township thirty-one,
(31), north, range three (3) east, running
thence north ten hundred and fifty-five feet,
thence east twelve hundred feet, more or
less, to Kinney's Branch, thence south
along said branch a hundred and fifty-
five feet, thence west to point of beginning.
This parcel of land is supposed to contain
thirty (30) acres, making a total of one
hundred and fifty-eight (158) acres, more
or less. (This deed of trust given subject
to one dated February 23d, 1915);

Which conveyance was made in trust to
the said Chas. E. Bolch to secure the pay-
ment of one certain promissory note de-
scribed therein;

And, whereas, default has been made
in the payment of said note and interest, now
past due and unpaid;

And, whereas, it is provided in said deed
of trust, that in case of death, removal from
the state or refusal to act, of said Chas. E.
Bolch, as trustee, the then acting Sheriff of
Iron County, Missouri, shall act in his
stead, and sell the foregoing property in
case of default;

And, whereas, Chas. E. Bolch, trustee in
said deed of trust, has refused to act as such
trustee and foreclose the property conveyed
by said deed of trust;

And, whereas the undersigned Sheriff of
Iron County, Missouri, has been requested
by the legal owner and holder of said note
to exercise the power of sale in him vested
by said deed of trust;

owner and holder of said note, and in
pursuance of the conditions in said deed of
trust contained, I, the undersigned, the duly
elected, qualified and acting Sheriff of
