Visited several towns near here. Was in Babee, Arizona, for ten days. Returned here to-day. Leave to-morrow for San Diego, California, and return via Caroua, to see Mr. Scoville. We are sure enjoying the trip. Will be home the last of the month. Regards to all."

The electric light company had men to remove the dynamo and other apparatus from the Bismarck mill on Wednesday and loaded it on a truck and hauled it to Flat River. This means that Bismarck will be without electric lights for some time to come and to the reader it may seem as if the town is retrogressing, but we are about as well off without electric lights as having to put up with the service which we had been getting of late.—Bismarck Gazette.

State Game and Fish Warden Birmingham announces that it is his purpose to most rigidly enforce the law against keeping imprisoned all fur-bearing animals during the months of November, December and January. If you desire to restrain any fur-bearing animal of his liberty during those three months, it will be to your advantage to first write Warden Birmingham and get his permission to do so; otherwise you are liable to have a heavy fine assessed against you.

R. M. Goff of near Mountain View, Arkansas, arrived in Centerville Tuesday. Mr. Goff is manager of the Lee Hub Factory near that place, and says he has been very busy the past few months. The timber in the northwestern part of Arkansas, Mr. Goff thinks, is not so good as the timber in Missouri. And, Mr. Goff says, that part of the state is very, very rough, almost inaccessible in places. Mr. Goff buys all of his timber in the block—hub lengths—for which he pays from 16 to 24 cents, each. He will remain a week before returning.—Centerville Outlook.

They were visiting Mrs. Lichtler's brothers and families, Messrs. Edw. and Walter Masterson. They report the roads much better in Missouri than in Illinois. They say the rock-bottom roads are the only kind. Mr. Lichtler is one of Illinois' expert farmers, farming about 200 acres. He praises the tractors very highly. They left for home Tuesday by the way of St. Louis, where they will leave their car and take the train for Murphysboro, on account of the mud in Illinois.

Elvins correspondence in Flat River News: "Jas. G. Newman who has lived practically all his life in Ironton, Mo., has accepted a position as salesman in Miller's Store. Mr. Newman is a man of exceptional qualities, both as a business man and a citizen. Mr. Miller has been fortunate to secure his services. For the present he will board here, but contemplates moving his family here in the future. His wife and two little sons, Paul and Jim, Jr., his brother-in-law, Marcus Yount, and Miss Katherine Bush, all of Ironton, accompanied him here Sunday, but returned to Ironton the same day."

Thos. Hart, who left here about ten days ago for Detroit, Michigan, writes: "Dear Editor—I will write a few lines to your paper to let my Iron County friends know that we arrived safely in Detroit, Michigan, September 17th. We stopped at Festus twenty-four hours, and also in St. Louis twenty-four hours, leaving St. Louis at 6 o'clock Tuesday afternoon, and were on the way all night and until 10 o'clock Wednesday morning. We had a very pleasant trip as we were treated with great kindness by friends at all places where we made stops. We took a Pullman at Union Station and slept all night, and had a good time in general. Well, this is a great place for all kinds of work and good wages, and I think I will like this city fine when I get time to see more of it. Tell all of those idle boys in town to come out here and get work and make some good money. Please send the REGISTER."

"Crisis" Facts.

Winston Churchill wrote "The Crisis," a story of our natural life. The story has been filmed by the Selig

PRINCE ALBERT

The national joy smoke

PUT a pipe in your face that's filled cheerily brimful of Prince Albert, if you're on the trail of smoke peace! For, P. A. will sing you a song of tobacco joy that will make you wish your life job was to see how much of the national joy smoke you could get away with every twenty-four hours!

You can "carry on" with Prince Albert through thick and thin. You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclusive patented process that cuts out bite and parch—assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

Company with inspiring sympathy, sincerity and patriotism. There is not a scene in the film drama but what can be found in the story. Academy Theatre, Thursday, September 25th.—Adv.

Notice of Booster Meeting.

All citizens of Iron County, are invited to be present at a Booster Meeting to be held in the Courthouse at Ironton, on Saturday, September 27th, for the purpose of discussing a county-wide movement for the betterment and improving our County Highways.

The State Legislature has recently made it possible for Iron County to receive from \$120,000.00 to \$150,000.00 of State and Federal Aid on two State Highways, provided Iron County raises her share.

At this meeting we expect to work out a plan whereby Iron County can secure the State and Federal Aid on the two State Highways, and also build the county cross or feeder roads.

This is a meeting of the citizens of this County and we are going to have a heart to heart discussion among ourselves and formulate a plan for the betterment of our Highways as it affects you and the future of your family.

We expect to have some Good Road speakers so let us see your face among those present.

Yours respectfully,
ADD REESE,
Pres. Judge Iron County.

One Name Missing.

Mr. Editor—In seeing a list of the soldier boys, who were wounded in the columns of your paper, will say there is the name of one boy missing, viz., Private Toney L. Lewis, Infantry, wounded in action, October 14, 1918. I am writing you this because you asked for corrections.

Yours truly,
W. R. PROBST,
Sabula, Mo., September 17, 1919.

School Notes.

The High School boys won in basket ball from Piedmont by a score of 32 to 20. Piedmont will come to Ironton for a return game Friday, October 4.

All classes have elected officers. The Seniors have ordered class rings.

The School Faculty would be glad to co-operate with the community in reducing the number of tardies. The pupil who comes to school on time generally demonstrates a greater interest in his school work than the pupil who continually comes late.

Frank Tyndall has dropped school work, for a while, at least. Parents should see that their children continue in school until at least a High School course is completed. The individual in the future who has not a High School education will find himself handicapped in many things he would like to do.

The school is always eager to receive visitors. Patrons should not fail to take advantage of every opportunity to personally inspect the work of both teachers and pupils.

Dr. Howard Lindsay will exchange furniture for gravel.
