NATIONAL CAPITAL AFFAIRS

—Or Incomparably the Biggest Navy on the Seas—

WASHINGTON.—A growing fear that the horrors of another and still more disastrous world war is not beyond possibility, lies behind the plans for the modern military machine now being devised for the United States, according to Washington official gossip.

Disillusionment, rather than the "menace of Japan," which Secretary of the Navy Josephus Daniels denied he invoked before the senate committee on naval affairs the other day, is admittedly behind his advocacy of preparedness.

The latest comparative figures on the navies of the great powers obtainable at the navy department are dated July 1, 1919. These showed Great Britain to be far in the lead in warship tonnage with 2,652,130 tons of fighting craft, as against 1,160,355 tons belonging to the United States, 623,850 tons flying the French flag and 580,716 tons belonging to Japan.

Yankee Flyer Goes "Under Two Flags" Two Better

WORD comes from Warsaw that Maj. Joseph C. Stehlin, a twenty-three-year-old aviator of Brooklyn, N. Y., who already has fought in three armies, has gone to Riga to enlist under the Lettish flag in the war against the Russian bolsheviks.

Since last fall Major Stehlin has been fighting in the aviation branch of the Polish army and in that service took part in the Polish drive which threw the bolsheviks out of Dvinsk.

Stehlin, who was formerly a life guard at Sheepshead Bay, Brooklyn, went to France in January, 1917, and joined the French flying corps, where he won two citations and was promoted to be sergeant for aiding fellow aviators attacked by German planes.

When the American army went over to France Stehlin transferred his allegiance to the American flag, received a commission as first lieutenant of aviators, and took part in actions in the Champagne, Verdun, and Solsons sectors.

Last September he joined the Polish forces recruited in New York, was commissioned as captain, went to Poland, and was assigned to duty on the northeastern front. He spent four months with a Polish flying squadron, the only American with the Poles on that particular front.

Stehlin has flown over parts of France, Belgium, Spain, Russia, Poland, Lithuania, and the United States and has hopes soon of seeing Letvia and Riga from the air in his service with the Letts.

Radical Preventives of Depopulation for France

FRANCE has 2,000,000 young women who will have to go without husbands under the established matrimonial customs. In consequence, some extremely radical preventives of depopulation are being proposed.

The plan provides for state support for the girls before and after confinement, while the children are to be reared at the expense of the state.

Married women are indignant, claiming Professor Carnot is "trying to take our husbands away." They say the plan would disrupt morals and break down the whole social system.

Odette Dulac, suggests a "maternity card," issued on a doctor's certificate to every expectant mother, married or unmarried, who makes a request for one.

Such a card entitles a woman to shorter working hours or lighter work, medical attention and, eventually, hospital room and a physician's care. The child is to be cared for by the state.

The maternity card gives a woman right over her child, doing away with paternal authority and making motherhood worth while for women.

Collette Willy believes a wisely organized polygamy to be the solution of the present crisis in the marriage problem. Old-fashioned marriage ideas have outlined their applicability under present conditions, she says.

U. S. Mounted Service Cup Endurance Test for 1920

CONDITIONS and details have been made public of the 1920 endurance test for horses for the United States mounted service cup, over a course of 300 miles. The winner of the first prize this year will get a leg on the mount service cup, which has to be won three times by the same owner to become his property.

This year's event will be held from October 11 to 15, the route being from Fort Ethan Allen, Vt., to Camp Devens, Mass. The fixture is sponsored by the Arabian Horse society, the National Steeplechase and Hunt club, and the Morgan Horse club, and is approved by the war department and the agricultural department.

It is designed primarily to stimulate interest in good saddle horses possessed of stamina and hardiness, and at the same time having the necessary quality to render them suitable for use in the mounted services of the United States; as a coequal purpose it has been sought to develop many points of interest in determining what blood will produce a mount which will satisfy the many and exacting requirements demanded of a charger.

The contest is open to civilians. Each rider is required to feed and care for his own mount and to take care of his own equipment. Horses are to carry a rider weighing not less than 145 pounds and complete cavalry equipment or its equivalent—100 pounds.

DOESN'T NEED ANY LAXATIVES NOW

Mr. Becker says life is a joy, without constipation or stomach trouble.

"I had catarrh of the stomach and head for three years. My stomach was so bad that every time I ate anything sweet, such as fruit or pastry, the burning hot water would run out of my mouth. I took a laxative every night."

"Since taking Milks Emulsion my bowels move regularly. I have now taken ten bottles and have gained 10 1/2 pounds. All my friends remark how fine I am looking, and it seems a pleasure to live again, without stomach trouble."—Bert Becker, Miami, Ohio.

Physicians usually make slaves out of their users, and weaken the bowels instead of correcting them. Stomach trouble in many cases is directly due to constipation.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions, and if not satisfied with the results your money will be promptly refunded.

Men with soft snags don't realize what a hard world this is.

MENTAL MATES' ROMANCE ENDS

Wife of Michigan Instructor Objects to Husband's Midnight Soirees.

Battle Creek, Mich.—"Mental mates" may travel along for a while in the ethereal delights of an intellectual companionship, but when idealistic soirees are conducted after midnight and with a wife and three kids waiting at home said mates are bound to come down to earth soon.

COURT GIVES DIVORCE

Wedded Life Was One of Bliss Until Female Instructor Came Across Husband's Path—Comes to Showdown.

A pretty girl at the time, six years ago, she now is what might be fittingly described as a beautiful woman. She is of an aristocratic and wealthy family. Her parents did not object to the match and when young Frye found himself about to complete his education her father sent him to University of Michigan, from which he graduated.

Other Woman Enters. The couple moved to Ithaca, Mich., where he became a teacher. Their wedded life was one of bliss for a while and he was regarded as an excellent instructor and his services were sought all over the country.

Finally he was thrown into the company of a woman teacher and they held debating classes in high school. After the classes broke up, Mrs. Frye testified on the stand, her husband and his companion would spend long hours together after midnight.

Came to Showdown. It came to a showdown one day and he confessed the "greater love," but promised that he would end it.

She told him that for the sake of her children she would forget it if he

would place himself on probation for a year and at the end of that time they would again consider the affair. He did not keep his pledge, she said.

After Mrs. Frye started divorce action, her husband became apparently penitent, but her mind was fixed. The action was not contested.

RESCUES BABY FROM BOILER. Mother of Jersey Youngster Faints as Officer Straightens Out Brother's Prank.

Newark, N. J.—Jerome Vreeland, baby son of Mrs. Anna Vreeland, of 182 Spruce street, crowded enough excitement into his seventeen-months' life to last him for years to come.

Jerome was playing in the kitchen of his home with his brother Sidney, six years old, and Sidney, having a jocular turn of mind, placed Jerome in an empty washbowl and placed the lid on. Jerome howled, but Sidney could not remove the lid. Mrs. Vreeland made equally frantic but fruitless efforts to rescue her child. Finally the mother carried the boiler, baby inside, to a barber shop two blocks away, and found the barber as helpless as she. Along came Patrolman Spillner, a resourceful officer of the law, and he saved the infant.

The patrolman turned the boiler upside down, Jerome's weight pried the lid off, and Mrs. Vreeland fainted.

Whipping Is Upheld. Ewing, Ky.—Believing in the old saying, "Spare the rod and spoil the child," a jury here has freed Prof. J. J. Asher, principal of the Ewing high school, charged with "cruel and inhuman" conduct. The mother of a girl student he had whipped caused his arrest. Following his acquittal patrons of the school made up a purse to reimburse the teacher for the cost of defending the case.

Prayed for Cure Finds it After 10 Years

Food Would Sour and Boil —Teeth Like Chalk

Mr. Herbert M. Gessner writes from his home in Berlin, N. H.:

I had stomach trouble over ten years; kept getting worse. I tried everything for relief but it came back worse than ever. Last fall I got awfully bad; could only eat light loaf bread and tea. In January I got so bad that what I would eat would sour and boil; my teeth would be like chalk.

I suffered terribly. I prayed every day for something to cure me. One day I read about EATONIC and told my wife to get me a box at the drug store as I was going to work at 4 p. m. I took one-third of it and began to feel relief; when it was three-fourths gone, I felt fine and when it was used up I had no pains. Wife got me another box but I have felt the pain but twice. I used five tablets out of the new box and I have no more stomach trouble.

Now I write to tell you how thankful I am that I heard of EATONIC. I feel like a new man; I eat what I like, drink plenty of water, and it never hurts me at all.

DEWS OF EVE

No More Gentle Than "Cascarets" for the Liver, Bowels

It is just as needless as it is dangerous to take violent or nasty cathartics. Nature provides no shock absorbers for your liver and bowels against calomel, harsh pills, sickening oil and salts.

Cascarets give quick relief without injury from Constipation, Billiousness, Indigestion, Gases and Sick Headache. Cascarets work while you sleep, removing the toxins, poisons and sour, indigestible waste without griping or inconvenience. Cascarets regulate by strengthening the bowel muscles. They cost so little too.—Adv.
