

THE MORNING TIMES has the best Sporting Page published in Washington. It has long fought the fight for true sport, as opposed to rascality and crookedness of every description.

THE MORNING TIMES gives all the news. It is supplied by the United Press and the Bennett Cable. Sent free by mail to the Associated Press Service. The Morning Times leads in News.

AUTUMN DAYS IN LONDON

Gossip Divided Between Christian Reunion and Speculation.

FORTUNES MADE IN A DAY

Barney Barnato, Not Long Ago a Fakir Juggler, Now Juggles South African Shares, and Has Made His Millions Within a Few Months, While Many Others Become Rich.

London, Sept. 14.—The Catholic conference that is annually held in England under the auspices of the Catholic Truth Society, has hitherto been treated by the press as unworthy of mention. It has this year suddenly assumed the importance of a leading congress. The conference began at Bristol on Monday and terminated Thursday. The questions before the conference were not new, but the meeting derived an unusual interest from Cardinal Vaughan's address on Christian reunion.

The Archbishop of Canterbury's recent misgiving on this subject, which was a reply to the Pope's letter to the English people, required a reply, and Cardinal Vaughan gave it in such clear terms as will elicit discussion within the Anglican Church on the basis of an agreement with the Roman Catholic Church.

OLDEST SHRINE. The report was accepted as true among the members of the congress that at the next consistory at Rome another Cardinal will be created for England.

The congress extended on Thursday with a pilgrimage to Glastonbury Abbey, the oldest shrine in England. Thousands of pilgrims, including ordinary workmen, traveled by train from Bristol to Glastonbury.

On Thursday a large crowd watched with the greatest sympathetic interest the long, banner-carrying procession composed of Catholics, Protestants, Unitarians, Franciscans, Benedictines, and Carmelites, alternately singing and reciting prayers. The scene was an impressive and picturesque one, and witnessed an immense change in the position of the Roman Catholic Church in England.

The speculative mania in South African stocks shows no sign of abatement. Stock exchange dealers compare the present time with that of Law's Mississippi bubble in France and the South Sea bubble in England.

Men who were financially broke two months ago, now boast that they are worth tens of thousands of pounds. Stocks that were quoted in June at one pound are now quoted at forty pounds. Brokers who were recently struggling to keep their heads above water are now making large profits.

JUGGLER NOW MILLIONAIRE.

Barney Barnato, the leader of the boom, who at one time was an itinerant juggler, is now a multi-millionaire. He is about to build a palace in Piccadilly which will cost \$250,000 pounds. In the meantime he has leased Earl Spencer's home. Despite the success of his financial hook and every other scheme in which he has entered, he has not succeeded in entering the highest financial circle, which is also opening its doors to his financial hook.

The representative of the United States learns that an Anglo-American syndicate has been formed to develop the lead and silver strike for combination of European and American copper producers. The key to the whole affair is the projected acquisition of the amount of \$300,000. This concern will be transferred into a limited liability company with a capital of \$9,000,000 in \$25 shares. The syndicate will take the \$300,000 shares at \$30 each, provided the report of the well-known expert, Hamilton Smith, confirms the underlying value of the property. Kuhn Loeb & Co., of New York, represent the American members of the syndicate, and the Rothschild Exploration Company the English members. The latter must be concluded at the latest by October 15.

CROKER'S VIEWS.

In an interview with Mr. Richard Croker on his visit to the United States, he said that he was going to the States to see what he was doing there on private business. With regard to political movements there he knew little, although he might be induced to take some interest in them after his return. He is likely to return to the United States with his family and settle down, perhaps in the course of the next few years.

Speaking of the recent earthquake in the Derby, he had found that American horses suffered from the hardness of the ground here until they became used to it, as they were accustomed to a soft turf in America.

The recent spell of dryness in England had hardened the ground. He intended to retain Dobbin for his own stud. Montagu will be put in training early in the spring for the Derby. Mr. Croker added that he had entered another colt for the Derby of 1897. He had a strong desire to win the Blue Ribband of the turf, and meant to keep on making entries for the Derby, if he had good stock worthy of the honor, until he won it.

He did not intend to trouble himself much about turf matters in the United States. Mr. Croker further said that he was greatly interested in the contest for the America's cup. He had closely scanned the cable dispatches reporting the event, and held that the Defender's superiority had been amply proved from the first race.

EX-FRAME MURDERER. Roseberry returned to London Thursday. He says there is not the slightest truth in the report that he intends to visit America.

Dr. Fontecoe, who has his ministry at the Marylebone Church and grand crowds attend the services.

Dr. Millerton has completed three weeks' services at St. Andrew's, where he made himself very popular.

Dr. Hugh Johnson, of Washington, is president of the Churchmen and Clergymen's Day in the city. The church is drawing a large congregation.

Among the saloon passengers who sail to-day from Southampton for New York on the American Line are Miss Ada Hoban, Augustin Daly, Madame M. B. Dr. and Mrs. Cuth Low, Gen. G. S. Belcher, Dr. W. C. Sawyer and family, A. J. Cassatt and family, Hon. G. J. Chapman and Hon. H. A. Rogers and family.

The Morning Times

THREE DAYS HAVE PASSED.

What Will the Trolley Trust Do in the Next Seven?

THROWN FROM HIS BICYCLE

Prof. C. V. Riley Receives Injuries Which May Be Fatal.

His Wheel Struck an Obstruction and His Skull Was Fractured From the Terrible Fall.

Prof. C. V. Riley, formerly entomologist of the Agricultural Department, was probably fatally injured this morning by a fall from his bicycle.

The professor was proceeding along Connecticut avenue, near 8 street northward, when he struck a large stone and was thrown to the ground, falling on his face and head.

Those near by who saw him fall ran to his assistance and removed him to a shady spot, when it was found that his face was lacerated and blood flowing from several cuts upon his head.

Medical aid was summoned and Drs. Clayton and Clark responded, and after his injuries were temporarily dressed he was taken to his home on Wyoming avenue, where the physicians gave him further attention.

The professor became unconscious after he fell and remained so for several hours. A more complete examination of his injuries revealed that there was concussion of the brain and probably fracture of the base of the skull.

The news of the accident spread rapidly over the city, and many friends of the professor soon were at his residence, but to all offers of assistance the reply came that everything that could be done was being done by the physicians, but very little hope of recovery was given.

Prof. Riley is about 55 years old, and for many years occupied the position of entomologist at the Agricultural Department.

He has hosts of friends, and was particularly popular with his associates in the Department. Mr. Riley retired from the Agricultural Department about one year ago.

AWFUL SLAUGHTER OF MINERS.

Six Hundred in Seven Years in the Calumet Region.

Cleveland, Ohio, Sept. 14.—A special from Calumet, Mich., to the Press says:—

This is funeral day in Calumet. Two of the victims of the Osceola fire were buried yesterday, and the others, except the last three, are being interred to-day.

Every house in the county has been pressed into service, and the mines are idle, the miners being kept busy going from one funeral to another.

In addition to the thirty killed in the Osceola a week ago, four miners have since been killed by minor accidents.

In the seven years ending with 1894 632 men were killed by accidents at the mines of the Upper Peninsula of Michigan, and the recent disaster here will bring the list to more than 600.

A verdict exonerating the Osceola company is almost certain to be returned by the coroner's jury, though many of the miners who escaped think the shafts were closed too soon.

REMARKABLE TIDAL WAVE.

Lake Superior Rises Six Feet in a Few Minutes.

Ashtland, Wis., Sept. 14.—A tidal wave swept over Lake Superior and Chgoqueton Bay late yesterday afternoon doing considerable damage.

The water rose nearly six feet in a few minutes.

The engine rooms in the elevators at Washburn were flooded and several wagon roads washed out.

HOLLOW HORN BEAR.

Indian Agent Wright Has Him Pinned in the Guardhouse.

Omaha, Neb., Sept. 14.—A telegram from the Rosebud Agency says that Agent Wright had Hollow Horn Bear put in the guardhouse yesterday. No resistance has been offered thus far by his friends, although some fear trouble.

Major Wright is an excellent judge of Indian character, and the chances are that the agent's action will break up the outbreak.

Hollow Horn Bear was surrounded by the police while riding over the reservation inciting his braves to action.

MACEO'S FINE STRATEGY

Cleverly Flanked the Spaniards at the Battle of Savigne.

WAS A VERY PRETTY FIGHT

Jose Maceo's Presence Not Suspected by the Spaniards Until He Swept Down Upon Them With Twelve Hundred Picked Men—Antonio Maceo's Cavalry Completed the Rout.

Santiago de Cuba, Sept. 3.—Via Key West, Sept. 14.—Particulars have just reached here of the engagement between the forces of Garza, Gomez and Jose Maceo at Savigne, on the 30th, where the loss of life was very heavy.

A Spanish column of 800 men of the regiment of Simancas, 400 guerrillas of Guantanamo, under Commander Garrido Capt. Gomez, with two pieces of artillery, met the vanguard of Jose Maceo's forces a short distance from Camp "Santa Maria Salvago," near Riancho de Las Yaguas.

The Spanish attacked the skirmishing party, the fighting continuing all the afternoon. The Cubans retreated slowly to the foot of the hill on the peak of which their camp was located, drawing the enemy on.

MACEO'S STRATEGY. Maceo, with 1,200 men, watched the fight from his well-fortified position on the hill-top, his men being unsuspected by the Spaniards. At break of day Saturday, the 31st ultimo, the Spaniards resumed their march, placing themselves along the bank of a creek at the foot of the hill.

E. J. MARSHALL. When the engagement was at its height Maceo sent part of his force of 1,200 down the opposite side of the hill and surrounded the enemy. Returned on either side, the Spaniards fought desperately, and for some hours the list of slain grew rapidly.

Antonio Maceo, who was in Escandell, eighteen miles from the scene of conflict, learning that his brother was fighting the Spaniards, sent 600 cavalrymen to his aid.

With this additional force Jose Maceo soon had the enemy whipped and retreating, but it was not until after eight hours of hard fighting.

The Spaniards' loss was about 200 killed and wounded. Two officers lost their lives and nine were wounded, among them Capt. Gomez, of the artillery, whose wounds will probably prove fatal.

The city last night along with many others who were crippled in the battle. The Spaniards, in their official report, confess twelve killed and fifty wounded. The rebels lost fifteen men and thirty were wounded.

OTHER BATTLES. General Garcia Navarro, with 800 men, left Christo, on the 31st. ulto., to go to the assistance of Canellas, but on arriving at Caney, he learned that Antonio Maceo was in Escandell with 3,000 men, so Navarro returned to Christo.

A small band of rebels led by Chongo Rivero, whom the Spaniards have reported killed, attacked the village of Campuchuela on the 30th. In the battle twenty guerrillas belonging in the village were killed. Several persons were wounded.

There was a great deal of excitement among the residents of the eastern portion of this city on the night of the 31st instant. The van guard of one of the rebel parties fired on the government guards in the suburbs and the volley could be heard in the center of the city. The excitement was soon over, however, as the rebels retreated without loss of life to either side.

EX-MAYOR COMMITS SUICIDE.

Pecuniary Losses and His Son's Disgrace the Reason.

Reading, Pa., Sept. 14.—Ex-Mayor Henry A. Tyson committed suicide at his residence in this city last night by shooting himself in the head with a revolver.

Deceased was sixty-three years of age and one of Reading's best known citizens.

During the past few years it is known that the ex-mayor had troubles originating over the loss of his early savings, but these difficulties were not of his own creation.

He was the father of A. Harvey Tyson, who financial transactions led to his arrest and imprisonment lately.

PLANNING A CUBAN COUP

Naval Department Collecting Data on the Southern Waters.

Significant Actions Which Point to an Espousal of the Insurgents' Cause When Congress Meets.

According to attaches of the State and Naval Departments it has become evident that Mr. Cleveland is mediating some new surprise for the country.

According to these sources of information there is abundant evidence that some policy is being thought over by the President, which concerns some foreign power, presumably Spain, and its dependency, Cuba.

It is pointed out by these naval informants that they have been called upon recently to make reports upon and gather information concerning South Atlantic waters, the shores and waters of which he has particularly studied. From this same source it is learned that plans for naval evolutions and fleet maneuvers with the capture of Cuba as an object and its defense after capture, have been called for and submitted by various experts in the department.

From a well-posted political source it is learned that there is a talk of a vigorous foreign policy and a possibility of Cuba as an object and its defense after capture, have been called for and submitted by various experts in the department.

INSURGENT VICTORY. Capture of Prisoners, Arms and Ammunition at Calmanera.

New York, Sept. 14.—Sympathizers in the Cuban revolutionary movement in this city have received a letter from Cuba which states that Jose Flores, a lieutenant under Gen. Rodriguez, of Gen. Maceo's division, made an attack, September 7, upon a force of Spaniards in the village of Calmanera, about ten leagues from the city of Santiago.

After a short engagement the insurgents were victorious, capturing twenty prisoners, 200 stand arms, 50,000 rounds of ammunition, stores and provisions in large quantities and medicines and clothing.

The loss on the side of the insurgents was unusually heavy, killed and fifteen men being killed and thirty-one men and officers wounded.

It is not known exactly what the Spanish losses were. The Spanish force was the flower of the Valencia contingent, who acquitted themselves with credit in Spain's war with Morocco.

PROTECTING ORE MINES.

United States May Be Asked to Save American Investments.

Baltimore, Sept. 14.—The vessels which have arrived in Baltimore from Cuba this week report that the Spanish authorities have ordered troops to protect the iron ore mines of Juraguas and the Spanish-American companies, both American-owned properties.

The same sources of information state that there is an increased apprehension over the ability of the Spaniards to protect the mining property. No troops have been ordered to protect the property from the filibusters. If the Spanish authorities prove unable to cope with the situation, the United States Government will be probably asked to protect the American property.

The mines of the two companies are situated here in Baltimore and Philadelphia exclusively. Keeping about eight steamers always going back and forth.

During the past few days five ore steamers have arrived in Baltimore from Cuba. During the first six months of this year the importations doubled those of all last year.

Must Explain the Hanging.

Brussels, Sept. 14.—Captain Lothaire, at whose order the British trader, Stokes, was hanged in the Congo country, has been recalled to Brussels to give an explanation of Stokes' execution.

SPAIN GIVES UP THE GOLD

Mora Claim Formally Paid to Acting Secretary Adee.

IN THE FORM OF A DRAFT

Beneficiary Is in the City and Will Make Washington the Home of His Declining Years—Possible Complications Growing Out of the Dexter Injunction Suit.

The Mora claim was paid shortly after 12 o'clock to-day by Senator Deputy de Lome, the Spanish minister to Washington, handing to Acting Secretary Adee a draft on the Spanish fiscal agent at London for \$1,448,000 in gold. Mr. Adee gave the minister a receipt for the draft.

Antonio Maximino Mora, a feeble man, eighty-seven years of age, who has devoted nearly a quarter of a century to attempting the collection of the claim against the Spanish government for the destruction of his property in Cuba, last night arrived in the city and is now the guest of Dr. Jose L. Boncompagni, 217, 1540 Vermont avenue.

Mr. Mora expects to remain in the city several days and will probably devote a portion of his time to selecting a suitable residence in which to spend his remaining years.

Being a native Cuban he finds the climate of New York too rigorous and has long contemplated leaving the United States.

Neither Mr. Mora nor any of his attorneys were present to-day when the Spanish minister transferred to Acting Secretary Adee the amount agreed upon as constituting final settlement.

NO DELAY IN DIVIDING.

Cranmond Kennedy, chief counsel for Mr. Mora, said to the Times reporter that he did not expect any delay in distributing the funds among the beneficiaries of the claim.

He believes the temporary restraining order secured from Justice Colver by Mrs. Frazer will under no circumstances serve as a bar to the distribution of the money. He says it is an injunction issued against Richard Olney as an individual and cannot affect his actions in an official capacity.

On the contrary, Mrs. Frazer intimates that she has assurances which convince her that Mr. Olney will transfer no portion of the money until all legal questions involving any part of it have been settled in the courts.

MR. OLNEY NOT HERE.

Mr. Kennedy, however, holds that no other assignments can be affected except by the action of the courts, which will still be brought by Mrs. Frazer.

Secretary Olney is not expected to return until a week from this time, and in meantime Mr. Adee as Acting Secretary of State, will have replied on next Wednesday as to the temporary injunction, and this question will be cleared up so that Mr. Olney can go to his office without fear of becoming entangled in legal complications.

There was no ceremony about the paying of the Mora claim. Senator Lome appeared at the State Department a few minutes after noon.

He handed to Mr. Adee a draft, signed by himself, on the London financial agent of the Spanish government, for \$285,412 16.11d., the equivalent of \$1,448,000, or 1,500,000 Spanish pesetas, and Mr. Adee delivered in return a formal receipt for the amount signed by himself as Acting Secretary of State.

What step will be taken to collect the amount of the draft, has not been determined. Mr. Adee has left it to Secretary Olney, and Mr. Adee will be busy in the matter, as it may take some time to arrange the assignments.

This morning a bailiff attempted to serve English papers on Mr. Adee, but as they were directed to Richard Olney, Mr. Adee refused to accept the service, and, at his suggestion, the bailiff returned to the court to have the papers served on the Secretary of State, which would fit Mr. Adee's present position.

BOUGHT A MANTEL.

Now Mrs. Shea is Charged With Receiving Stolen Goods.

Mrs. Mary Shea, of Maryland avenue, was before Judge Kimball in police court this morning on a charge of receiving stolen property.

Some weeks ago thieves broke into Springfield's warehouse, on South Capitol street, and stole some electric fans and a hardwood mantle top.

A few days later a couple of men came to Mrs. Shea's residence, where the mantle top is in a parlor. Mrs. Shea, who was on her front porch, was asked to buy it. After a little wriggle she paid \$3.50 for the piece of furniture, which was valued at \$10.

Detective Lacy afterward located it and arrested Mrs. Shea for receiving stolen property. Mrs. Shea pleaded her own case and said she was not guilty.

The case was continued in order to give the woman time to procure witnesses.

SOMEBODY TO BLAME.

One Coroner's Jury Failed to Find the Old Verdict.

St. Cloud, Minn., Sept. 14.—The list of killed in the Great Northern Railroad wreck at Bellevue has been increased to seven by the finding of two bodies in the wreck yesterday.

They were unknown tramps who were searching for food. The coroner's jury rendered a verdict finding Engineer Haines responsible for the disaster, for acting under wrong orders.

The jury also censured the company for ordering passenger trains to meet on a blind siding, where there was no sign and where no lights are kept, also in allowing a conductor to send two orders to the engineer where only one was needed.

EX-PRESIDENT BREAKS CAMP.

Entire Party Leave the Adirondacks for Indianapolis.

New York, Sept. 14.—Preparations were made yesterday for the breaking up of Doud Camp, where Gen. Harrison has been for the past two months.

This afternoon the ex-president and the entire party will take the Adirondack and Montreal express for New York, where they will remain until Monday afternoon, when they will go to Indianapolis.

Yesterday afternoon ex-Secretary of State Foster and Mrs. Foster, who have a conductor to send two orders to the engineer where only one was needed.

New Australian Cabinet.

Vienna, Sept. 14.—A new Austrian cabinet has been formed as follows: Badi, President of the Council and Minister of the Interior; Belinski, Minister of Finance; Gellspach, Minister of Justice; Ledebur-Wichien, Minister of Agriculture; Glanz, Minister of Commerce; Gautsch, Minister of Education; and Weisgerber, Minister of National Defense.

After Train Robbers.

Henney, Okla., Sept. 14.—W. D. Felt, chief of the Rock Island detective force, passed here with a posse yesterday afternoon, claiming to have the trail of the Santa Fe train robbers. He says Bill Doolin is the leader of the gang, and that they crossed the Rock Island railroad just north of Henney about noon yesterday.

IN THE PUBLIC EYE.

THE DUKE OF YORK Who will some day be King of England and Emperor of India, provided English Royalty outlasts Victoria and the Prince of Wales.

HONDURAS' BAD SHAKE-UP

First Accounts of the Earthquake in No Way Exaggerated.

Trembling and Eruptions Have Ceased and Citizens and Soldiers Are Burying the Hundreds of Dead.

RECEIVED THAT IT WILL BE TAKEN OUT OF RECEIVERS' HANDS.

Philadelphia, Sept. 14.—A local paper this morning has the following: There were a number of rumors afloat yesterday on the street in regard to the Philadelphia and Reading Railroad Company, all of which were intended to and did have an influence on the stock.

It was said early in the day that application would be made on Monday for the removal of the receivers and a syndicate was ready to take the Reading Company, assume all obligations and place it on a firm footing.

It is reported that Lehigh stockholders are in the deal.

HE CHARMS NO MORE.

Foolish and Fatal Performance of a Snake Fakir.

Centerville, Iowa, Sept. 14.—While exhibiting at the county fair here this morning, William Primer, a snake charmer, was bitten by a rattler in the tongue. He died this evening.

Primer was new at the business and failed to have the fangs of the reptiles removed, and when he fearlessly put the head of the rattler in his mouth the animal bit his tongue.

WEST VIRGINIA QUARANTINE.

Wheeling, W. Va., Sept. 14.—The health authorities here, in a most anxious situation, reported to-day no more cases were reported. There were twenty-four cases altogether. Martin's Ferry, Bridgeport and Belhairs, suburban towns, lying on the west side of the river, have quarantined against Wheeling, as well as a number of small towns throughout the State.

CABLE FLASHES.

Constantinople, Sept. 14.—It is stated that Russia has been increased to Great Britain and Armenia. France has made no reply as yet.

London, Sept. 14.—The Daily News will tomorrow publish a dispatch from Copenhagen stating that the condition of King Christian, who has been ill for some time, has become worse.

London, Sept. 14.—The Chronicle to-morrow will print a dispatch from Vienna stating that Count Baden, a young and able Pole, who is governor of Galicia, has arrived in Vienna entrusted with the formation of a ministry to replace that of Count Klemensberg.

London, Sept. 14.—The Post will tomorrow publish a dispatch from Lorenzo Marques, on the east coast of Africa, stating that the Portuguese have defeated the native chief Zichanhu, killing 310 of his followers. The Portuguese lost six killed and twenty wounded.

Palermo, Sept. 14.—The twelve Socialists, members of the dissolved electoral society, who were arrested and imprisoned Wednesday night, include a young Sicilian prince, several advocates and doctor.

The arrest of such prominent men has caused a great sensation throughout Sicily.

London, Sept. 14.—The Chronicle to-morrow will publish a Vienna dispatch stating that Russia and France both accept the Russian proposal in respect of the reforms in Armenia. The dispatch adds that Great Britain insists that the Vah and districts prefects be selected from Christians and Mohammedans equally. She also insists that agents of the powers shall sit on the Control Commission.

WAS A WASHINGTON BOY.

Sailor Goebel, Who Died on the Bennington, Entered from Georgetown.

William H. Goebel, a first-class apprentice on the U. S. S. Bennington, whose death from cholera at Honolulu was announced in today's Morning Times, was a resident of Washington.

His father, John G. Goebel, resides at No. 3333 Cresspet avenue, Georgetown.

Young Goebel's parents yesterday read the notices printed in the papers concerning the death of their son, and to-day Mrs. Goebel called at the Navy Department and was given all the information obtainable.

The son enlisted in the Navy September 22, 1890, as a third-class apprentice, and had gone through the various grades up to that of first-class apprentice.

BELONGED IN WASHINGTON. A dispatch was received at the Navy Department today stating that the Cruiser Olympia had arrived at Honolulu on the second, anti-diphtheria cholera there had left for Lahaina, where she will remain for about twenty days to repair her condenser tubes.

The Bennington, the dispatch says, is in quarantine outside of the harbor of Honolulu. Two cases of cholera, the report says, have occurred on her, one of which, W. H. Goebel, first-class apprentice, proved fatal.

RECEIVED THAT IT WILL BE TAKEN OUT OF RECEIVERS' HANDS.

Philadelphia, Sept. 14.—A local paper this morning has the following: There were a number of rumors afloat yesterday on the street in regard to the Philadelphia and Reading Railroad Company, all of which were intended to and did have an influence on the stock.

It was said early in the day that application would be made on Monday for the removal of the receivers and a syndicate was ready to take the Reading Company, assume all obligations and place it on a firm footing.

It is reported that Lehigh stockholders are in the deal.

HE CHARMS NO MORE.

Foolish and Fatal Performance of a Snake Fakir.
