KNEIPP MALT COFFEE.

THE GREAT HYGIENIC COFFEE.

Invaluable for children and for those suffering from Nervous Debility, Dyspepsia and Indigestion; and especially valuable for those to whom the effects of COFFEE are injurious, owing to the powerful narcotic properties of CAFFEIN, the active principle of COFFEE and a most powerful poison. MALT COFFEE combines the health-giving properties of MALT EXTRACT with the pleasant and aromatic properties and qualities of coffee, without, however, the injurious effects of the latter. Endorsed by the leading medical authorities of Europe and America, and endorsed by Pope Leo XIII, who upon the recommendation of Father Knapp, had the Malt Coffee introduced into the Vatican. Knapp Malt Coffee had the unanimous endorsement of the 11th International Medical Congress at Rome, and enjoyed the distinction of having made the subject of a lecture by Dr. Giuseppe Stefancich, which appeared in Il Policlinico on April 4, 1901, and of a thesis by Dr. Med. et. Phil. Carl Garter, read at this congress.
