

AFTER TRUESDELL'S PLACE

Leading Republican Candidates for Commissionship.

R. ROSS PERRY'S CHANCE

Candidacy of Messrs. Warner, Edson, Fardon and Others—Only Cash Givers to the Cause Need Apply—A Little Inside History—Parker Is in Control.

"By their fruits ye shall know them," or, in other words, by their cash contributions ye shall know them.

This is the prevailing opinion on the wall in the way-back little private office of Col. Myron M. Parker, on F street, near the big clock that two o'clock is striking.

Mr. Parker is a man who has been in the law these days as many a man in the "edoulet's" office to feel his way toward a place where he can get a good salary.

There is a little book kept up by Col. Parker's secretary, and it is called "The Cash Givers." It is a record of the names of those who have given to the cause.

CHASING A RAINBOW.

Secretary Richardson Still Thinks Bryan Has Carried Kentucky.

Mr. Richardson thinks it probable that not only Smith, who heads the list of Democratic electors, but also J. P. Taylor from the State at large and J. D. Flournoy from the first district will pull through.

Mr. Richardson also said: "I have not stopped figuring yet. We still think that Bryan has carried Kentucky."

The Republican managers say that but one Bryan elector, if any, will win.

WANT TO FORCE THE ISSUE

Representatives Are Eager to Fight for Tariff.

SENATORS WOULD GO SLOW

Later Think the Dingley Bill Can Be Passed—Messrs. Dalzell and Stone on the Situation—Mr. Carter of Montana Says That Silver Must Take a Back Seat.

Senators and Representatives seem to be divided on the necessity of an extra session of Congress.

Senators are conservative and inclined to think that their ends may be gained by compromise. Representatives, fresh from the people, are ready to force the issue.

At least this is the way they seem to think and talk as they arrive in the city, ready for the short session, which meets in a few weeks. All are ready to express their conviction that their views are all on the lines outlined above.

MR. DALZELL'S VIEWS. Representative John Dalzell of Pittsburg is one of the latest arrivals at the capital. Mr. Dalzell received an overwhelming majority in the district where the silvermen expected to make great gains.

His district is composed entirely of manufacturing interests and the workingmen there have taken their dose of medicine for the past four years and want to move on. Even the fierce animosities aroused by the Homestead strike were forgotten and Mr. Dalzell and his colleagues were found standing side by side for protection.

Mr. Dalzell is the third member on the Ways and Means committee and as a member of the committee on rules is one of the leaders of the House. He is supposed to be in touch with Speaker Reed and his views are worthy of consideration.

Mr. Dalzell thinks an extra session is inevitable. He adds that the revenue of the government must be increased and in speaking of that question says:

"I believe that there should be a general revision of the present tariff law, both to correct the inequalities and injustices in nearly every schedule now in operation and to provide for larger customs receipts." The operation of the law during the last year or two has revealed its crudities and the necessity of reforming its schedules. Much if not all of this work might be done before the next Congress is called together. It must be a Republican tariff, which means simple revenues and adequate protection for the farmer.

Means Committee could probably work out a bill that could be taken up next Congress and be acted upon promptly. Mr. Dalzell also says that it is his belief that the reciprocity features of the McKinley bill will be inserted in the new revision. He says that he has no objection to the bill as it is and that it has worked well and very popular with the people of western Pennsylvania. It is said that Major McKinley himself has some very advanced ideas on this line, which he will urge on Congress at the first opportunity.

Col. W. A. Stone, of the Allegheny district, and the probable candidate of the Republican party for governor of Pennsylvania, thinks like Mr. Dalzell. He holds that it will be impossible for the Dingley bill to pass the present Senate and that it will be necessary to call an extra session.

Senator Teller is expected in the city shortly, and his views on the situation will be awaited with a great deal of interest. He is expected to come out and say that he will not place any obstacles in the way of a tariff measure, the trouble will be over. Republicans can then see their way clear.

KNIGHTS OF LABOR. Twentieth Annual General Assembly Begins Work in Rochester. Rochester, N. Y., Nov. 10.—The twentieth annual general assembly of the Knights of Labor began its work this morning with a public meeting, held in the assembly room of the new Osborn Hotel. Several women were included among the delegates.

Master Workman Sovereign called the convention to order at 10 o'clock, and Mayor Warner responded to the passed and they supplement the remarks which had been made in recognition of the mayor's address. Mrs. Ford was enthusiastically received.

At 10:45 o'clock the general assembly went into secret session.

Geraldine Umar Divorced. London, Nov. 10.—Geraldine Umar, the actress and singer, has secured a deed of separation from her husband, Ivan Carlil. About three years ago Mrs. Umar and her husband secured a verdict of £10,000 damages against the London correspondent of a New York newspaper for defamation in alleging that Mr. Carlil was taking proceedings for a divorce.

SCHOEPF'S REPORT.

Says the Eckington and Belt Lines Cannot Afford Rapid Transit.

"HANDS WANTED," THE CRY

General Demand for Workingmen in All Industries.

Philadelphia, Nov. 10.—Fresh evidences of increasing business activity, due to restoration of confidence, are to be found in nearly every line of manufacture carried on in the great Kensington mill district. The daily opening up of the mills and factories in the district, many of which have been practically shut down for over three months, is giving employment to hosts of the men, and the cry "hands wanted" has already become so familiar in the northern part of the city as to cease to excite remark.

Conservative manufacturers, who scout the idea of realizing prosperity in a single leap, say that the manifestations of activity are caused by the filling of orders which have been held in abeyance, but all agree in the belief that operations will gradually increase until all the big plants are running full blast.

GLASS PLANT TO OPEN. Bellefonte, Pa., Nov. 10.—The Bellefonte glass plant, which has been idle the past five years, is to be blown in. All arrangements are complete for starting one furnace of six pots, and repairs will be completed by the beginning of operations by November 20.

Johnstown, Pa., Nov. 10.—It was authoritatively stated today that the great Cannon Mills, which have been closed down for some time, will resume work the latter part of the week, giving employment to a large force of men. The company plans to put the blooming and billing in operation about the same time.

Atton, Mass., Nov. 10.—The Assabet Wood Mill, employing 1,500 hands, has been running again yesterday on a schedule of five hours per week.

These mills are the second largest in the United States. For some time they have been averaging three or four days a week. Yesterday every department was put in operation.

Winsted, Conn., Nov. 10.—Business has improved in all the thirty local factories since election. Some departments of the Winsted Shoe Factory and Gilbert Clock Factory are running nights.

The New England Knitting Company has started to build a large dyehouse, and C. E. Berde, of New York city, has commenced the erection of a factory here for the manufacture of silk crabs and tassels.

ENGINE WORKS RESUMED. Elmira, N. Y., Nov. 10.—R. W. Payne & Sons, engine works, resumed yesterday in consequence of the election of McKinley. The rebuilding department of the Elmira Iron and Steel Rolling Mills, which has been shut down for the past four weeks, started up yesterday.

Windsor, Vt., Nov. 10.—Rochester manufacturers are preparing to meet the increased trade, and conditional orders are now being filled as rapidly as possible. The W. A. Barber Company, Adolph Schierer, perfumery, and L. W. Ross, shoes, are in this class.

The shoe manufacturing industry and boot and shoemakers, forming two of Rochester's largest industries, are between the fall and spring seasons and are consequently not in receipt of new orders to any great extent, but have sent out their traveling salesmen and expect to employ additional shop help and run on full time.

The James Cunningham, Son & Co. coaches and harness, one of the largest establishments of the kind in the world, has put on a large force of extra men.

The Strecher Lithographing Company has hired more help and is running day and night.

WAGES BEING RAISED. Kansas City, Mo., Nov. 10.—Beginning tomorrow the wages of a large number of the Bond Engine Company's employees in this city will be raised from 25 to 75 cents per day. This is entirely due to the election of McKinley. The company is also contemplating important improvements.

The wholesale merchants in the West Indies are experiencing the benefit of the results of the election. Inquiry among them reveals the fact that the immense impetus already given to business in all branches has been felt by the shippers, who are sending out extra traveling men to gather their share of the increasing business.

Piqua, Ohio, Nov. 10.—The Corrugating Works, the Rolling Mill, the Snyder Wood Works and the Orr Linsced Mill, started yesterday, giving employment to 500 men. The American Strawboard Works will start as soon as repairs are made.

San Francisco, Nov. 10.—The San Francisco Glass Works, which have been closed down for many months, will resume operations tomorrow, giving employment to about 250 men and women. The proprietors report a great number of orders received since the election.

Cleveland, Ohio, Nov. 10.—The Walker Manufacturing Company, one of the largest concerns manufacturing electrical goods and other high grade machinery, will double its force of 350 men this week.

Maline, Ill., Nov. 10.—Deere & Co. resumed work yesterday with 500 men. The Maline Flour Company started up last Thursday morning and has increased its force to 500 men.

Reading, Pa., Nov. 10.—The Moniela Brick Company, which has only been working four days a week, will go on full time commencing on Monday. Supt. Gery said: "We have one order for 2,000,000 bricks for a large industrial plant to be erected at Edson, N. J., which was contemplated upon the election of McKinley, and we have already commenced work on it. Other orders which were held back until the result was known are now coming in, and the plant will be very busy for some time to come. We employ 104 hands at present."

MRS. LANGTRY IS DESERTED

Her Evidence as Taken in the Divorce Suit.

CORROBORATIVE EVIDENCE TO BE SECURED FROM OTHER WITNESSES—PARKERS WILL BE SENT TO CALIFORNIA.

London, Nov. 10.—The evidence of Mrs. Langtry, the actress, in the suit for divorce brought by her against her husband, which is pending in California, was taken at the United States consulate in this city today before Mr. F. W. Frigout, deputy United States consul general.

Mrs. Langtry deposed that Mr. Langtry had deserted her, and that she had taken action against him, and that she had taken Corroborative evidence will be taken from other witnesses, after which the papers will be sent to California, where the issue of the case will be settled.

UNSUCCESSFUL EFFORTS TO UNITE INDIANA DEMOCRATS. Chicago, Nov. 10.—A special from Indianapolis says: During the last two days of the present session of the Indiana Democratic party in this State has been unable, but nothing has resulted therefrom. The free silver leaders are disposed to respond to the appeal of William J. Bryan to keep up the agitation for free silver. Gold Democrats say that, as long as the State Democratic organization is engaged in keeping alive the silver issue, there can be no union between the two factions.

The gold Democrats think their State organization should be kept intact. Many of the influential gold Democrats from different parts of the State have urged that the organization should not be abandoned, and there is a disposition on the part of the regular Democratic organization to support the cause of free silver.

Col. W. A. Stone, of the Allegheny district, and the probable candidate of the Republican party for governor of Pennsylvania, thinks like Mr. Dalzell. He holds that it will be impossible for the Dingley bill to pass the present Senate and that it will be necessary to call an extra session.

DECISION NOT TO BE GIVEN

Venezuelan Commission Thinks Boundary Dispute Will Be Settled.

Probability of Amicable Termination of the Matter Between Venezuela and Great Britain.

The Venezuelan commission met today, with all members present. The report of Prof. Burr, who has been at The Hague studying Dutch archives, was received, and the professor was heard on it.

Mr. Mallet-Prevost, secretary of the commission, made the following statement after today's session: "The statements of Lord Salisbury, as reported in the morning papers, makes it probable that the boundary dispute now pending between Great Britain and Venezuela will be settled by arbitration at an early day."

"Under these circumstances, the commission, while continuing its deliberations in the preparation and receipt of a report of many valuable maps, reports and documents which have been procured and used in the course of its labors, does not propose to formulate any decision, for the present, on the matters subject to its examination."

It will continue its session from time to time, but with the hope and expectation that a friendly and just settlement of all pending differences between the nations interested will make any final decision on its part unnecessary."

CHAIRMAN BABCOCK FEARS BUSINESS HOUSES MAY BE TOO RAPID. Chicago, Nov. 10.—Chairman Babcock of the Republican Congressional Committee, who was re-elected to Congress by his personal campaign in his district, passed through Chicago yesterday en route to his home.

He shares in the general belief that the days of returning prosperity are at hand and his only fear is the pace set at the beginning may be too fast. He was appalled by the reports that the McKinley bill would be passed, and he is anxious to see free silver well defeated by the owners of money when business men are not dropping industries.

His statement of the Congressional election, which was completed just before leaving Washington, showed there were 371 seats in the House, with a Republican majority of 45 over all opposites.

THE RELEASE OF MRS. CASTLE. Mrs. Castle has been released from the prison at Wormwood, Scrabble, this morning and took her life away.

ARRIVED AT MIDNIGHT. The receipt of the news of the liberation of Mrs. Castle, and had the effect of transforming him from a condition of despondency to a state of contentment and joy. Mrs. Castle had scarcely had an hour's sleep since the unexpected sentence of three months' imprisonment, accompanied by a trained nurse, and Mrs. Castle was at once placed in a carriage and taken away.

The physical and mental condition of Mrs. Castle is such as to make her immediate sailing for America impossible and for the present she will be taken to the quietest English country retreat where she will be kept absolutely free from excitement.

It is officially stated at the home office that after receiving reports on Mrs. Castle's condition from Dr. Scott, the physician in charge of the hospital at Holloway jail, Dr. Palmere, of the Wormwood Scrabble prison, and Dr. Nicholson, of the British Lunatic Asylum, all of whom examined the woman physically and mentally, the home secretary ordered her release, her husband undertaking to cover her back to America with the least possible delay.

HAZARD'S INFLUENCE. Mr. Castle has conveyed to the United Associated Presses, through Solicitor Abrahamson, an expression of his thorough appreciation of the determined fight to release Mrs. Castle and himself made by the newspapers in America receiving the United Associated Presses' reports.

Mr. Castle further stated that he was prohibited by his solicitors from speaking further on the subject, in consequence of the desire of the English authorities that their action in releasing Mrs. Castle should obtain as little publicity and as small a degree of discussion as possible.

The release of Mrs. Castle is attributed practically to the personal influence of United States Ambassador Hazard.

AMBASSADOR HAZARD SENT THE FOLLOWING CABLEGRAM TO SECRETARY OLNEY THIS MORNING: "Mrs. Castle released. Leaves for America in her husband's custody."

SLATED FOR BIG JOB. Hon. Robert P. Porter to Hold Office Under McKinley. Cleveland, Ohio, Nov. 10.—Important changes have taken place in the management of the Cleveland World. In all of the editions of the World yesterday the list of officers after which which has appeared at the head of the editorial page heretofore, was omitted, and in its place appeared simply the words, "Robert P. Porter, editor."

It is said by persons in a position to know that Mr. Porter's connection with the World is to terminate entirely soon after the 31st of March next, when, it is understood, he is to occupy an important position under the McKinley administration.

MRS. CASTLE IS SET FREE

Consigned to Her Husband's Care This Morning.

TAKEN TO THE COUNTRY

Home Secretary Acted Promptly When Medical Reports Were Received—She Is to Return to America as Soon as Physically Able to Stand the Fatigue of Journey.

London, Nov. 10.—Mr. Bernard Abrahamson, solicitor for the defense in the case of Mrs. W. M. Castle, of San Francisco, who, upon pleading guilty of shoplifting, was sentenced to three months' imprisonment, received a communication from Sir Matthew W. Ridley, home secretary, last evening stating that in consideration of her mental
