IMPROVING THE SERVICE

Proposed Legislation Affecting Revenue Cutter Officers.

Placed by Mr. Frye's Bill on Practically the Same Footing With Those of the Navy—The Various Grades and Relative Rank Provided For—Rate of Pay After Retirement.

The bill to place officers the United States Revenue Cutter Service on practically the same footing as naval officers, as regards salary, allowances, and honors, which has been favorably reported by the Senate Commerce Committee, has caused a great amount of discussion both among the officers concerned and among people outside the Revenue Cutter Service. This same measure was introduced by Senator Frye in the last session, but, though warmly championed by him, did not come to a vote.

An amendment was also inserted in the Navy Personnel bill containing practically the same provisions as the present measure, but at the first sign of opposition to it in the conference Mr. Frye consented to withdraw it rather than endanger the whole bill by letting it remain as an additional cause for argument at a time when the passage of the original Navy bill looked doubtful. Now that the Commerce Committee has reported favorably on the Frye bill, and that other bills recognizing the work of the Revenue Cutter Service in the late war have received favorable consideration, it is regarded as probable that the measure will be passed during the present session.

The Frye bill provides that on and after its passage the commissioned officers of the Revenue Cutter Service shall be as follows: Captains, first lieutenants, second lieutenants, third lieutenants, assistant engineers, chief engineers, first assistant engineers, second assistant engineers, and constructors.

The provisions of the bill follow: "That captain of engineers, chief engineers, first assistant engineers, second assistant engineers, shall have the rank of captain, first, second, and third lieutenant, respectively, and that the constructor shall have the rank of first lieutenant.

"That the said commissioned officers shall rank as follows: Captains with majors in the army and with lieutenant commanders in the navy; first lieutenants with captains in the army and with lieutenants in the navy; second lieutenants, with first lieutenants in the army and with lieutenants in the navy; third lieutenants, with second lieutenants in the army and with ensigns in the navy.

"That the commissioned officers of the United States Revenue Cutter Service shall hereafter receive the same pay and allowances as are now provided by law for officers of the same rank in the army.

"That there shall be allowed and paid each commissioned officer of the United States Revenue Cutter Service an increase of ten per cent of his current yearly pay for each five years of service accrued since entry into service: Provided, That the total amount of such increase for length of service shall in no case exceed forty per centum of the yearly pay of the grade to which the officer belongs.

"That when any commissioned officer of the Service shall have served thirty years of active service in said Service he may be retired from active service by the President, upon his own application, and be placed on a retired waiting orders list, and hereinafter provided, that officers who have reached the age of sixty-four years shall be retired by the President from active service.

"That when any officer has become incapacitated for performing the duties of his office he shall be either placed upon the retired waiting orders list, or be wholly retired from the Service by the President, as hereinafter provided. Officers who shall be selected from medical officers of the Marine Hospital Service, for the purpose of examining and reporting on such officers of the Revenue Cutter Service as may be ordered by the Secretary of the Treasury to appear before it.

"That such board shall inquire into and determine the facts touching the nature and occasion of the disability of any officer who appears to be incapable of performing the duties of his office, and shall have such powers as may be necessary for that purpose.

"That when the board finds an officer incapacitated for active service, it shall also find and report the cause, which, in its judgment, has produced his incapacity, whether such cause is an incident of service; whether due to his own vicious habits; or to the infirmities of age, or physical or mental disability.

"That when a board finds that an officer is incapacitated for active service, and that his incapacity is the result of no vicious habits of his own, but is due to the infirmities of age, or physical or mental disability, and such decision is approved by the President, he shall be retired from active service and placed upon a retired waiting orders list.

"That when a board finds an officer is incapacitated for active service, and that such incapacity is the result of his own vicious habits and not due to any incident of service, and its decision shall be approved by the President, the officer shall be retired from active service, and be wholly retired, as the President may determine. The names of officers wholly retired from the service shall be omitted from the register of officers of the Revenue Cutter Service.

"That officers wholly retired from the service shall be entitled to receive one year's pay of the rank held by them at the date of their retirement.

"That officers retired from active service under the provisions of this act shall be retired upon the actual rank held by them at the date of retirement.

under the provisions of this act shall be retired upon the actual rank held by them at the date of retirement.

"That officers retired from active service shall be entitled to wear the uniform of the rank in which they were retired. They shall continue to be borne upon the register of officers of the Revenue Cutter Service, and shall be subject to the laws and regulations for the government of the Revenue Cutter Service, and to trial upon charges and specifications against them.

"That when a commissioned officer is retired from active service the next officer in rank shall be promoted in his place, according to the established rules of the service, and the same rule of promotion shall be applied successively, to the vacancies consequent upon such retirement: Provided, That all promotions shall be subject to examination to determine the professional qualifications of the candidates, and such examination shall be wholly written, before a board of officers of the Revenue Cutter Service, and such boards shall be composed of the Secretary of the Treasury whenever the exigencies of the service require.

"That in time of war retired officers may be assigned to such duty as they may be able to perform, in the discretion of the Secretary of the Treasury.

"That officers retired from active service shall receive 75 per cent of the duty pay of the rank upon which they are retired, and from and after the passage of this act all officers of the Revenue Cutter Service who were placed upon 'retired waiting orders' under the operations of the act approved March 2, 1895, shall be entitled to and shall receive 75 per cent of the duty pay and increase for service of their respective grades.

"That all official honors and courtesies now extended by law and regulation to officers of the American navy and other naval services, be in like manner extended by each to the commissioned officers of the Revenue Cutter Service of the same or equal rank.

SOCIAL AND PERSONAL.

Mrs. R. B. Hawley and Miss Hawley have arrived at the Gordon for the winter.

Continental Chapter, D. A. R. will hold a public meeting at the Elsmere, Monday evening, at 8 o'clock. Hon. William Elroy Curtis will make an address, his subject to be "The First Declaration of Independence in South America." There will also be music and recitations.

Representative Scudder of New York has leased 1701 Q Street, for the season. Mrs. Scudder will be at home Tuesdays after February 1.

The President and Mrs. McKinley will be entertained at dinner this evening by the Secretary of State and Mrs. Hay.

Senator and Mrs. McMillan entertained at dinner last night, when their guests included the Admiral of the Navy and Mrs. Dewey, Representative and Mrs. Hitt, Mr. and Mrs. McClellan, Mrs. Harriet Lane Johnston, Mrs. Slater, the Hon. Miss Pauncelote, Miss Helen Wetmore of Detroit, Senator Allison, Senator Hale, Senator Wolcott, Mr. Seckendorff, and Mr. Rockhill.

Senator Kean gave a dinner last night. The guests were Senator and Mrs. Frye, Senator and Mrs. Davis, Senator and Mrs. Cullom, Senator and Mrs. Burrows, Senator and Mrs. Foraker, Senator and Mrs. McComas, Miss Kean, Miss Eliza Kean, and Mr. Procter.

Mrs. Grant entertained at dinner last night. The guests were the German Ambassador, the Mexican Ambassador, and Senora Apizaco, the Austrian Minister and Baroness Hengelmuller, General and Mrs. Miles, Senator and Mrs. Platt, Mr. and Mrs. E. K. Smith, Mrs. P. D. Grant, Mrs. Sartoris, Mrs. Sheridan, the Japanese Minister, and Adjutant General Corbin.

BELASCO AFTER A THEATRE.

The Playwright to Put His Theories Into Practice.

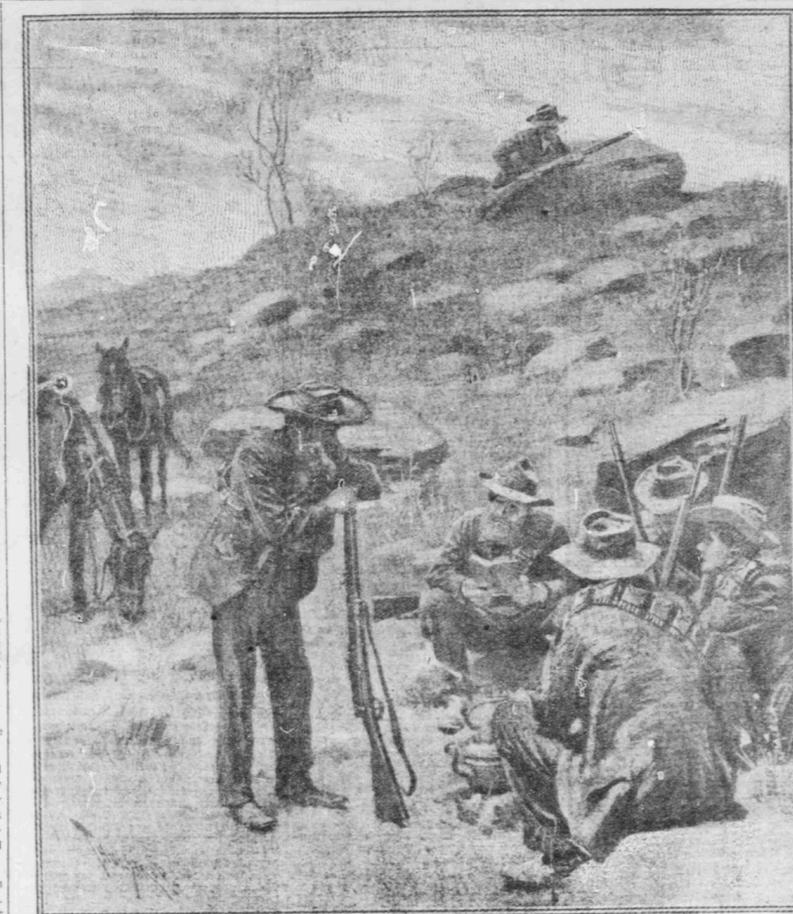

NEW YORK, Jan. 13.—Mr. David Belasco is trying to secure the Herald Square Theatre property as a site for the new theatre which he has promised to erect in this city.

When Mr. Belasco first announced, several months ago, his intention to build a new playhouse in New York, he said that he wanted to get a site north of Forty-second Street. At that time he was in negotiation for the property owned by the Astor estate at the corner Forty-third Street and Broadway, but objections by other property owners in the neighborhood were made and the matter dropped.

Since then, several other desirable plots of ground in the neighborhood of Longacre Square have been in contemplation, but something has always happened to prevent a closing of the deal. It is said now that Mr. Belasco's intention to build a theatre for himself and his partners interested in the Johnston estate have been considering the advisability of improving the property by the erection of a hotel or a business block, and for that reason Mr. Belasco feels hopeful that his proposition for them to build a theatre for him may meet with their approval.

Mr. Belasco's friends have assured him of an ample supply of capital, and in these negotiations he has the assistance of Mr. Charles Evans, the present owner of the Herald Square Theatre, who is anxious to take an interest in the enterprise. Mr. Evans has a four years' lease of the property now, but it is not Mr. Belasco's intention to enter into any partnership with him in the management of the present house.

"I don't want that," said the playwright last night. "I have my ideas about a theatre and I intend to carry them out—on this site I can get it; if not, on some other Mr. Evans wants to come in with me, and he is willing to give up his lease if the estate will sell out to us, give us a long lease or build us a theatre."

BORN PICKETS READING THE BIBLE.

AS VIEWED BY SCIENCE

A Study of Wounds From Modern Firearms to Be Made.

Dr. R. W. Hodge, of the Army Medical Museum, in the Philippine Islands to Investigate the Effect of the Krag-Jorgensen Bullets, as Compared to Those of the Old Style.

Dr. R. W. Hodge, of the Army Medical Museum, who sailed for Manila November 18 on the transport Logan, has announced his safe arrival in a letter to his wife. Dr. Hodge's mission in the Philippines is for the purpose of securing anatomical specimens of wounds inflicted by modern firearms. Special receptacles for the purpose of preserving and shipping such specimens have been forwarded to him.

It is expected that one result of Dr. Hodge's investigation will be to establish the destroying power of the modern Krag and other guns used in former wars. It is still claimed by many that the modern firearm does not possess the penetrating ability of the rifle of larger calibre, but that the ball passes through the part hit without impairing at the time the fighting ability of the soldier, unless a vital part is reached.

On the other hand, it is said that the large-bore gun, although not possessing the penetrating power of the new arm, will stop an enemy quicker and prove more effective than any of the long-distance weapons. Several specimens of gunshot wounds as a result of the Spanish-American war were secured by the Medical Museum officials which show the extent of the wound inflicted by the Krag-Jorgensen bullet, and other specimens of gunshot wounds, as they were taken from dead bodies.

Dr. Hodge's object will be to secure what are termed "live" specimens. These will be procured immediately after an amputation or soon after death.

From them, several facts of interest to physicians are expected to be obtained. The conditions of the muscles relating to their contraction, the bone resistance, the action upon the nerves and the general technical characteristics of wounds will be observed. All specimens of wounds will be given at Electric Park an exhibition and demonstration of an invention of novel character. The exhibition will be that of an airship, invented and made by Louis H. Kromm, a harnessmaker. The test will be made with a model which is now nearing completion, and the enterprise is backed by the American Airship and Construction Company of Baltimore.

The airship is shaped something like a cigar and is equipped with revolving screws on the sides and attached to a central shaft. A car is attached which contains the machinery. The car has a deck above the machinery, upon which are living quarters for the crew and room for cargo purposes. A marvelous speed is spoken for by its inventor by Mr. Kromm and the distance between Baltimore and Washington, it is claimed, will be covered in fifteen minutes. The motive power of the ship is a secret known to Mr. Kromm alone. The material used in construction is aluminum steel. When the test is made at Electric Park, Mr. Kromm will navigate the airship alone.

A NEW AIRSHIP INVENTED.

The Device to Be Tested in Baltimore at an Early Date.

BALTIMORE, Jan. 13.—Some time between now and the first of March there will be given at Electric Park an exhibition and demonstration of an invention of novel character. The exhibition will be that of an airship, invented and made by Louis H. Kromm, a harnessmaker. The test will be made with a model which is now nearing completion, and the enterprise is backed by the American Airship and Construction Company of Baltimore.

The airship is shaped something like a cigar and is equipped with revolving screws on the sides and attached to a central shaft. A car is attached which contains the machinery. The car has a deck above the machinery, upon which are living quarters for the crew and room for cargo purposes. A marvelous speed is spoken for by its inventor by Mr. Kromm and the distance between Baltimore and Washington, it is claimed, will be covered in fifteen minutes. The motive power of the ship is a secret known to Mr. Kromm alone. The material used in construction is aluminum steel. When the test is made at Electric Park, Mr. Kromm will navigate the airship alone.

Awakened From a Trance.

ASBURY PARK, N. J., Jan. 13.—Eva Rose, the girl who dropped into a deep sleep last Tuesday, has finally awakened, and is now quite herself again. During her long slumber she was conscious of everything that happened in her presence, but was powerless to make it fact known. She will go back to her work.

IN THE INTEREST OF THE ARMY

A Bill Looking to Changes in Staff Organization.

The Secretary of War is devoting considerable attention to the preparation of a bill in the interest of the army. Several bills for the reorganization of the army have been proposed and one is now under consideration looking to the changes in the staff organization. The reorganization of the entire staff of the regular army will, it is expected, receive considerable opposition from members of the House Committee on Military Affairs.

The Secretary of War in his annual report has expressed himself in favor of a staff composed of officers of the line, detailed for staff duty. The officials of the War Department fear, however, that such a recommendation cannot secure the approval of Congress, and a bill is now in preparation providing several minor changes in the staff without affecting the personnel.

Several plans have been proposed for a reorganization of the staff departments, and one which is favored by some of the members of the House Committee on Military Affairs contemplates the consolidation of the Commissary and Quartermaster's departments into one department to be known as the Department of Supplies. The same plan contemplates the consolidation of the Inspector General's Department with the Adjutant General's Office. It is said that this system of consolidation would receive the support of Mr. Hull, Chairman of the Military Committee of the House. Mr. Hull has taken considerable interest in the subject of reorganizing the army and has under consideration a bill providing for the permanent establishment of the regular army with a minimum strength of 65,000 men.

Mr. Hull strongly favors the continuation of the three-battalion organization in the army. He believes in a large and permanent increase in the artillery, and will recommend an entirely new organization of that arm. He is not in favor of establishing the artillery as a new department of the staff, but advocates its organization under one head with a brigadier general as chief of artillery to be on the staff of the Major General Commanding the Army.

The advocates of the consolidation of the staff departments, are not favoring the immediate adoption of this system, but believe that the change should be made gradually as the present chiefs of the departments retire from service.

Munio Garibaldi Dead.

ROME, Jan. 13.—Munio Garibaldi is dead. He was a son of the Liberator by his second wife, Francesca. He held a commission in the Italian navy.

DR. PIERCE'S Favorite Prescription

MAKES WEAK WOMEN STRONG AND SICK WOMEN WELL.

The success of Dr. Pierce's Favorite Prescription in the cure of diseases peculiar to women, is beyond comparison greater than that of any other medicine prepared especially for woman's use. It is not a cure-all but a scientific preparation, the prescription of an eminent living physician, still in active practice and who, assisted by his staff of nearly a score of trained physicians, treats and cures thousands of women every year.

"Favorite Prescription" has an invigorating and vitalizing power peculiar to itself and a pneumatic control of diseases which attack the delicate organs of woman. It permanently cures backache, bearing-down pains, ulceration, inflammation, and like ills by curing their cause. It dries up the drains, puts on the fever fire of inflammation and cures the corroding ulcer. It makes marriage a happiness and motherhood a blessing, by giving to women such an abundant vitality that the baby blossoms into life as sweetly, simply and naturally as a flower. Sick women are invited to consult Dr. Pierce by letter free of charge. All correspondence strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

It contains no opium, cocaine or other narcotic, and no alcohol or whisky.

A DUEL IN A ZOO.

A Condor and an Eagle Fight in New York.

NEW YORK, Jan. 13.—The supremacy of the eagle cage in the Central Park menagerie has been decided by a duel between a condor, the bird eagle, recently brought from the Thoms-nd Islands, and Andy, the condor from the Andes.

The bald eagle was held enough to go into the pool first for a bath yesterday, and that was too much of an infringement of the prerogatives of the condor, who has bossed it over the cage since his arrival. The condor, who is twice as big as the eagle, went at him.

It was a hard-fought battle, in which blood and feathers flew. A crowd of visitors watched it through the bars of the cage until Keeper Shannon went in and separated the two. The eagle had been no match for the big vulture, but he was plucky enough not to give in until the keeper dragged him out of the cage and took him to the bird hospital. The smaller bird was bleeding profusely from a number of wounds.

"He That is Angry Is Seldom at Ease."

This is true, also, of the person who has rheumatism, which is a most annoying and painful disease. Fortunately, however, it may be completely cured by Hood's Sarsaparilla. This medicine has given ease and comfort to thousands who once suffered from rheumatism.

Rheumatism—"I had rheumatism three or four years. Could not dress nor undress. Hood's Sarsaparilla did me good and I am now able to do all my work." Fannie L. Derricotte, Athens, Ga.

"Be sure to get Hood's and only Hood's Sarsaparilla, because
