HEREFORD CATTLE SOLD.

A Record-Breaking Event at the Chicago Stockyard.

CHICAGO, April 19.—The two days' sale of the champion Fairview herd of Hereford cattle was concluded last night at the Dexter Park Pavilion, Union Stock Yards, by F. A. Nave, of Attica, Ind. The sale was a record breaker, ninety-six animals of all ages having been disposed of at auction for \$64,415 or an average of \$671 per head. The event ranks as the greatest auction sale of Herefords ever held in this country.

Among the cattle sold are the following: Bulls—Dale, \$7,500; Viscount Rupert, \$2,400; Bruce, \$1,600. Perfection, a sixteen-month-old calf, \$1,200. Seven cows sold for \$14,300. Among them were Russet and Theresa, \$5,000 each; Lady Help, \$2,000, and Dollie, \$2,100.

WRATH IN WALL STREET.

The Manipulation of Iron and Steel Shares Discussed.

NEW YORK, April 19.—This morning's opening in the steel and iron stocks on the Stock Exchange was very quiet, compared with the other openings of the week. American Steel and Wire, common, opened on sales of about 2,500 shares at 41 3/4 to 42 1/4, a fractional gain from last night's closing. The preferred opened with sales of 1,600 shares at 77 and 75, a loss of 1 1/2-2 points. Federal Steel was quiet and unchanged at 42 1/2 for the common and 59 3/4 for the preferred.

Seldom has such a wave of denunciation passed over Wall Street as the one based on the manipulation of the steel and iron shares. There has been a great deal of talk about placing the responsibility for the events of the week and bringing some one to account. Stock Exchange action of any kind, however, is regarded as improbable. Just what kind of action could be taken has not yet been made plain.

Talk of dissensions in the American Steel and Wire Company and possible changes among its managers, is not very definite. The representatives of the various steel and iron properties dealt in on the Stock Exchange are very reticent, and inclined to refer to the episode as much as about nothing, a view that is not shared by the general public, which bought the manipulated stocks at much higher prices. Conflating reports prevailed in Wall Street today regarding the steel and iron trade, and the probable action of the steel and wire companies in opening up mills and shorting down others.

President Lambert of the Steel and Wire Company, who was quoted the other day as saying that "it is none of the pub-

lic's business" when the company's mills shut down, is expected to arrive in this city today. Reports were current to the effect that all of the outdowm mills would soon reopen. Another unconfirmed report was to the effect that one or two of the Federal Steel Company mills might temporarily shut down.

SOCIALISM IN PRACTICE.

Mayor Jones' Experiment Not Entirely Successful.

TOLEDO, Ohio, April 19.—Mayor Jones has been finding of late that his socialist ideas of brotherhood do not work to perfection, even in his own plant, the Acme Sucker Rod Company. Five years ago he instituted the plan. Each workman gets 1 per cent of his salary and the firm donates a sum equal to the aggregate collected from the men. This forms a fund out of which death claims and sick benefits are paid. The men attend to the distribution without any direction from the firm.

There has been much dissension of late. It is charged that men get drunk and draw sick benefits while sobering up. The mayor yesterday stopped the machinery of the fund and explained to the men that the dispute could be settled by the Socialist or public ownership if they could not manage so small a thing without quarreling. Even if he were ready to turn the plant over to them (which has been several times hinted at) they were manifestly not ready to take it. Socialism would come to them, he said, just as soon as they were ready for it.

FATAL END OF A STRUGGLE.

A Pole Meets Death in a Pennsylvania Town.

SCRANTON, Pa., April 19.—Joseph Szibozok, a Polish laborer, was fatally injured in a struggle with a fellow-laborer, John Kosko, at the pigiron beds of the Lackawanna blast furnaces yesterday. The men were employed to carry and pile iron. Both wanted to use the same iron hook and a struggle ensued. Kosko, who was the larger, pushed Szibozok away from his antagonist and then, it is charged, gave him a push.

Szibozok fell backwards and Kosko walked away. Szibozok got up, but had only proceeded a few paces when he fell into the pit, a distance of three feet. When picked up he was dead. His skull was fractured and his neck broken. Kosko was arrested.

English Actors in German.

(From the London Chronicle.)

Not the least noteworthy event in the professional career of Charles Wyndham has been his performance in the German town of "Gerrick" in the German tongue. This feat is about to be rivaled by an English actress—Miss Margaretta—when she appears in the leading female part in the performance at the German Theatre, St. George's Hall, next Friday and Saturday, of Edith Piaf's drama, "Aza." The two chief male characters will be represented by Herr Carl Schindler, from Berlin, and Herr August Jankmann, from Hamburg. Miss Margaretta has distinguished herself in parts of a strongly emotional type.

RESTORING PASSENGER RATES.

An Agreement Reached by Transcontinental Lines.

CHICAGO, April 19.—The Canadian Pacific Railway will not pay any commissions on any class of passenger traffic after the month. This ensures the permanency of the general agreement of the railroads in this country, Canada, and Mexico not to pay commissions for passenger service. A conference held here today between President Shaughnessy and Vice President McNamara, the Canadian Pacific; President Felton, of the Northern Pacific; Vice President Morton, of the Santa Fe; Vice President H. Trehan, of the Illinois Central, and Vice President Hannaford, of the Northern Pacific.

The result was the agreement by the Canadian Pacific to stop paying commissions on passenger business on May 1. The Canadian Pacific did not agree to do that until it was assured that certain differences it has with railroads of the United States would be satisfactorily adjusted.

Executive officers of the railroads in this country will meet within a short time to arrange to carry out the pledges made today by the special committee which attended the conference. The trouble between the Soo Line of the Canadian Pacific Railway and the Chicago-St. Paul lines was discussed today at the conference of executive officers, but they were of the opinion that the dispute could be settled by the passenger officials. They will meet tomorrow and will endeavor to reach an agreement for the restoration of all rates to a normal basis.

PARKING A HORSE.

Teaching Equines to Dance and Play Pretty Tricks.

(From the New Orleans Times-Democrat.) "Parking" a horse, said a veteran trainer who has brought a bunch of fine animals here for the show, is teaching him to execute those pretty, prancing steps and carolines that lend so much grace and spirit to a thoroughbred under the saddle. It is a natural way of making horses to do all that when they are slightly checked up, and in such a case it is simply the expression of a superabundance of fire and vitality. It makes no sense to teach a horse to park. When an animal is properly "parked," a gentle pull on the rein and a touch of the knee will set him dancing in the saddle, prettiest fashion imaginable. It is a quiver with life and ready at a word to fly away like an arrow from the bow. It is a graceful and highly effective performance and will easily add 10 or 15 per cent to the value of any fancy saddle park. There is a great difference between "parking," as the term is used technically, the dancer, prettiest fashion imaginable.
