NO POLICE PROTECTION

Complaint of a Physician to the Commissioners.

Major Sylvester's Report in the Case to the Effect That in the Particular Location Referred to the Greatest Possible Vigilance is Exercised.

The Commissioners are in receipt of a communication from Dr. Samuel E. Lewis, of 1418 Fourteenth Street northwest, in which he complains of the inefficiency of the police force in the vicinity of Fourteenth and P Streets.

The Commissioners are in receipt of a communication from Dr. Samuel E. Lewis, of 1418 Fourteenth Street northwest, in which he complains of the inefficiency of the police force in the vicinity of Fourteenth and P Streets.

The complaint having been referred to the Police Department, the Superintendent forwarded it to Lieutenant Heffer, with the request that he should inform Headquarters "as to the number of complaints in the vicinity of P Street."

Lieutenant Heffer is of the opinion that if the boys have cherished any ill-feeling toward Dr. Lewis which would prompt a revengeful spirit on account of the complaint, they would have manifested it long ago.

Lieutenant Heffer states that a physician has been in constant attendance on the corner in question on market days, and that in his opinion the officers give the locality as good protection as is possible for the amount of territory they have to cover.

In this connection I beg leave to state that I have frequently given this locality my personal attention, with a view to regulating conditions in the vicinity of the market house on P Street, between Fourteenth and Fifteenth streets, and on market days an officer is posted in the vicinity of the market house on P Street, between Fourteenth and Fifteenth streets, and on market days an officer is posted in the vicinity of the market house on P Street, between Fourteenth and Fifteenth streets.

The Auditor today received from "A Friend" the sum of \$1 which the said friend intimated was owing by him or her to the District of Columbia.

MUSCLE AND NOT FAT.

What Thin People Need to Round Out the Corners.

What thin folks need is flesh or muscle, not fat.

To be symmetrical and properly proportioned every body should have a certain amount of excess flesh, but to be plump does not necessarily mean to be fat.

It is undesirable, it clogs and retards the action of the muscles, interferes with the healthy action of the heart and lungs, and when very excess, predisposes to fatty degeneration of vital organs, to say nothing of the discomfort resulting from too much adipose tissue.

Common sense would suggest that if one wishes to become fleshy and plump the thing most needed would be flesh-forming food; that is, albuminous foods like eggs, beef, oatmeal, etc.

The kinds of food which make flesh are the foods we have on our tables every day; but the trouble is that our stomachs, from weakness or derangement of some kind, do not promptly and properly digest it.

Really, the principal reason so many people remain thin is because their stomachs do not properly digest the food they eat and assimilate the flesh-forming beefsteak and eggs we eat every day.

There are thousands of such people, and they are really dyspeptic, though they may not suffer any particular pain or inconvenience from their stomachs.

If such persons and all thin people would take a few doses of Dr. Williams' Pink Pills for Pale People, they would find that the food they eat is properly digested and assimilated.

The following deaths for twenty-four hours were reported at the Health Department to noon yesterday: Mary J. Steiner, 81 years; Sarah Williams, 75 years; Samuel McMonie, 65 years; Martha M. Jordan, 63 years; Dudley E. Baber, 57 years; John Reiner, 56 years; Charles E. Hall, 51 years; Rachel A. Pope, 49 years; Martin J. Bryant, 47 years.

WARTS AND WEEDS.

THE DIFFERENCE BETWEEN WISHING AND WORKING.

It is popularly believed that warts can be wished away. But the farmer who sat down and tried to clear his field by wishing the weeds away would soon find his crops gone.

It is a singular fact that a great many people treat certain forms of disease as warts are said to be treated—by wishing. This is especially so in the case of

coverts. It cures obstinate and deep-seated coughs, bronchitis, bleeding of the lungs and other diseases of the organs of respiration, which if neglected or unskillfully treated find a fatal termination in consumption.

Let every one who suffers from respiratory and pulmonary diseases cherish hope in Dr. Pierce's Golden Medical Discovery has been given a fair and faithful trial. It always helps. It almost always cures. Ninety-eight per cent of those who use "Golden Medical Discovery" get a perfect and permanent cure.

I want to say a word in favor of your grand medicine, writes Mrs. Priscilla Small, of Leechburg, Armstrong County, Pa. "About three years ago I was taken with a bad cough; had night sweats; would take coughing spells and have to sit up in bed at night for an hour at a time. When I would walk up hill I could hardly breathe; would get all snuggled up in my throat. I did not try any doctor but I saw the advertisement of Dr. Pierce's Golden Medical Discovery and decided to try it. I took three bottles which cured me. Whenever people tell me they are sick I say to them, 'Why don't you get Dr. Pierce's medicine? It cured me and will cure others.'"

A GREAT FREE OFFER. Persons suffering from chronic forms of disease are invited to consult Dr. Pierce by letter. All letters are held as private and their contents guarded by the same strict professional privacy observed by Dr. Pierce in personal consultations at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Address Dr. R. V. Pierce, Buffalo, N. Y.

This offer is not to be confounded with those offers of "free medical advice," which are made without any evidence of medical qualification or professional standing. For more than thirty years Dr. Pierce, as chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., assisted by his medical staff of nearly a score of physicians, has treated and cured many thousands of men and women who had been given up by friends and physicians as incurable.

Dr. Pierce's success has been founded on the fact that he cures so-called "incurables." The great thousands of men and women to-day living in the enjoyment of perfect health, who bless the day when they wrote the first letter to Dr. Pierce. Who can wonder that these people are enthusiastic over Dr. Pierce's medicines and advice? Write to Dr. Pierce. It may be to you as it has been to many others—the first step to health.

Dr. Pierce's Golden Medical Discovery contains no alcohol and is entirely free from opium, cocaine and all other narcotics. It is a true body-building, flesh-forming, strength-giving medicine. Sometimes a dealer tempted by the little more profit paid by less meritorious preparations, attempts to sell a substitute medicine as "just as good" as Dr. Pierce's. The only way in which to get the cure you seek is to insist upon the medicine which cured others, Dr. Pierce's Golden Medical Discovery.

Who wouldn't jump at such a chance? Yet "wisdom is better than gold," and that name of wisdom, Dr. Pierce's Common Sense Medical Advice, 1008 large pages (in paper-covers), is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. For the cloth-bound volume send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Wife's Suit for Divorce. Rosa Lilla Miller, through her attorney, William Ambrose, yesterday filed suit for a divorce from her husband, Hugh G. Miller, on the grounds of desertion and abandonment. It is stated that the petitioner was married to the defendant in October, 1895, and that the license, by mistake, was issued in the name of "Eugene Miller" instead of Hugh G. Miller, the proper name of the applicant. Mrs. Miller alleges that her husband deserted her on October 28, 1898.

An Impositor at Large. An impositor, calling himself "Brother Francis" and representing himself as from the Franciscan Monastery near Brookland, has been going about in the city recently, selling books and pamphlets at exorbitant prices. All these books are stamped with the name of "Brother Francis" and the Franciscan Monastery. The Franciscan fathers wish it understood that they have no engaged impositor, and any man engaged against having dealings with this man.
