RESULTS OF THE CENSUS

Interesting Resume of the Work Published by the Bureau.

Gain in Population for the Past Decade Over Thirteen Millions, or About Twenty-one Per Cent—Dependencies Not Included—Trend Toward Large Cities Noteworthy.

The Census Office has just published a very interesting resume of the results of its work up to date. The total population of the country has been placed at 76,285,225. The gain since 1890 amounts to 12,225,464, or about 21 per cent. The total is given for the States and Territories, including Hawaii, but not Porto Rico and the Philippines, which the Government does not regard as integral parts of the United States, but as mere provinces or dependencies outside of the constitutional system.

ANOTHER CASE OF SMALLPOX.

Mary Douglass sent to the Hospital by the Health Officer.

Mary Douglass, a colored woman, twenty-two years old, was found yesterday suffering with smallpox at 130 Thirteenth Street north east. It is thought by the health officers that she contracted the disease from the Brent family at 1504 Linden Street, whom she visited before they were removed to the smallpox hospital in the building by 12-225, 464, or about 21 per cent.

The Census Office has just published a very interesting resume of the results of its work up to date. The total population of the country has been placed at 76,285,225. The gain since 1890 amounts to 12,225,464, or about 21 per cent.

Most of the States and Territories have grown, while a few have remained stationary or suffered a decline. Nebraska has made a slight gain, while Kansas has remained stationary. Nevada lost a few thousand inhabitants. In some States the increase has been really extraordinary.
