St. Paul Depressed—Rock Island Opens at a Sharp Advance—Upward Movement in the Industrial Quarter—Railway List Below Yesterday's Closing—Weakness in London

NEW YORK, Jan. 8.—The transactions in the Stock Market upon the opening this morning were again in large volume and resulted in exceedingly irregular price changes.

Rock Island opened at a sharp advance while St. Paul was equally sharply depressed and Burlington and Quincy was traded in yesterday's final level.

In the industrial quarter there were a number of noteworthy advances while the railway list for the most part was dealt in below yesterday's final prices.

The steel industry was all particularly strong and Tennessee Coal and Iron, after opening lower, showed a tendency toward recovery.

Active features of the railway list were the granger stocks, Union and Northern Pacific, Reading and Ohio, the Erie second, the Baltimore and Annapolis, and the Chesapeake and Potomac.

The local traction shares received rather more attention than for some time and in the main were steady.

The London market was decidedly weak, chiefly on account of the thoroughly discouraging advices from South Africa.

American shares participated in the declines there, the losses in some instances being in excess of one point.

The dealing here for foreign account upon the opening of business were mainly on the selling side. Little that was new bearing upon the general financial situation was shown in the news of the morning.

BATTERED BY HEAVY SEAS.

A German Steamer's Rough Voyage From Boulogne.

NEW YORK, Jan. 7.—The German steamer Cap Fritz, which arrived today from Hamburg and Boulogne, reports exceedingly heavy weather at sea. On January 4, in a heavy northeast gale, the fore part of the vessel was damaged and started by huge seas, causing the ship to lurch heavily.

A large section of the rail was carried away and the damage was sustained about the decks. The rudder chain parted and the steamer was obliged to stop and lay to, falling away before the gale helpless until the chain was repaired.
