

NATIONAL GUARD ORDERS

The Regulation-Governing the Annual Encampment.

Provisions for Guard Duty, Parades, and Other Ceremonies-Particular Attention to Be Paid to Extended Order or Skirmish Drill.

Brig. Gen. George H. Harries, commanding the District National Guard, today issued a general order covering the regulations to be observed at the annual encampment, beginning July 15. The orders governing the camp and the officers and men are as follows:

"Headquarters Dist. Columbia Militia, Washington, D. C., June 21, 1901. "I. The annual encampment, beginning July 15, will be held at a place to be designated by the commanding officer, and particular attention will be paid to guard duty and extended-order drill.

"II. Camp guard duty will be by regiments and separate battalions, and in addition to the required guard details for each regiment and separate battalion guard, there will be detailed daily from July 15, one corporal and five privates from each regiment and the separate battalions, to constitute a brigade headquarters guard, and, in addition, beginning with the Second Regiment, in the two regiments will alternate in detailing daily a lieutenant as the commander of the headquarters guard and a sergeant of the same guard. These details will be duly mounted daily, at the guard mounting of the respective regiments, to which they belong, and will be required to stand out on reaching the regimental or separate battalion quarters, and will be ordered to be reported without delay, by the officer or senior non-commissioned officer of the detail, to the Adjutant General at brigade headquarters.

"From each company of five privates thus detailed for headquarters guard duty, a sergeant and a corporal will be selected, and, as far as practicable, entire companies, furnishing their quota for guard; the commanding officer of the Separate Battalion, an entire platoon.

"The band and corps of field music will alternate in the performance of duty at guard mountings, except on special days when special exigencies of the service will render necessary the presence of both brigade headquarters on the subject.

"III. The tour of the first guard will be begun at the regular starting hour indicated in paragraph II, General Order No. 5, current series, at 8 o'clock a. m., July 15. For this duty, the commanding officer of each regiment and the separate battalions will detail a captain as officer of the day, and a company of privates to consist not less than 1 lieutenant, 1 sergeant, 3 corporals, and 21 privates (three of the latter for duty as regimental and battalion orderlies), in addition to the details for headquarters guard duty.

"These guard details will be reported, at the time and place designated, to the regimental or separate battalion officer of the day, who will report for orders to the Adjutant General, Third Battalion, who is detailed as field officer of the day for July 15 next.

"The guard thus detailed will complete its tour and be dismissed on the morning of July 15, in the usual manner, after guard mounting, under the direction of the field officer of the day.

"IV. No guard duty will be required of the Engineer Corps, Signal Corps, or Ammunition Corps, except on special days, at the option of the commander of each of these organizations, may be necessary, by running water, for the immediate protection of their camps and property.

"V. The counterpane and parcels will be published daily, from 8 o'clock, beginning at 8 o'clock, and continuing until 10 o'clock, and furnished for the information and guidance of all concerned.

"VI. The headquarters old guard will perform old guard fatigue, beginning at fatigue call, and continuing until 10 o'clock, in the morning, and will be required to stand out on reaching the headquarters of the day, to which they belong, and will be required to be reported without delay, by the officer or senior non-commissioned officer of the detail, to the Adjutant General at brigade headquarters.

"VII. The wearing of blue flannel shirts without blouse, and of blue trousers, is required, except at guard mounting and parades; but when so worn the use of suspenders will be required.

"VIII. There will be a morning and an evening gun fired by a permanent detail, under the direction of an officer of the guard, and the greatest care and caution are enjoined against all possibility of danger or accident. The morning gun will be fired in the manner prescribed at reveille, and the evening gun at retreat.

"IX. The band and corps of field music will be assembled daily at the flagstaff at the assembly for reveille. At reveille the field music will play a march, marching through camp in a manner hereafter to be indicated, until it returns to the flagstaff as so to begin the playing of reveille at that point. The band immediately on the completion of reveille will play the 'Star Spangled Banner' in compliment to the national colors.

"At retreat the field music will play retreat, and immediately upon its completion the band will play the 'Star Spangled Banner' in compliment to the national colors.

"In this connection, attention is directed, on the part of those charged with the proper direction of guard duty, to paragraph 5, Manual of Guard Duty.

"X. Brigades will be held daily on and after July 15.

"XI. The office of the Adjutant General will be open from 8 o'clock a. m. to 2 o'clock p. m. for transaction of official business.

"XII. The following additional regulations relative to duties in camp are published for the general guidance of all concerned:

"(a) Commanding officers will read all orders and circulars, and all orders issued relative to the camp, or that may be issued during the encampment, to their companies at the first assembly after they are received.

"(b) After the first day, consolidated morning reports of regiments and separate battalions (and morning reports of separate companies) will be sent to the Adjutant General daily, before 10 o'clock a. m.

"(c) All information of a company must be submitted by its commanding officer, and there will be three stated roll calls—reveille, assembly for retreat, and at 10 o'clock a. m.

"(d) At each stated roll call, except dress parade, the commanding officer of each company will station himself in front of his headquarters, and the adjutant will station himself near him to receive the reports of the company officers superior to the adjutant's roll call. The company officer making the report and the adjutant salute each other. Military courtesy will be observed in the report made by the representative of a common superior, as, for example, the adjutant's roll call, the day, etc.—the officer making the report, whatever his rank, will salute first; the officer to whom the report is made will acknowledge that he has received and understood the report by saluting in return.

"(e) Officers between battalions, and reports, will turn to the commanding officer of separate companies will receive reports from the senior non-commissioned officer, placing all rubbish in a pile at the end of the street nearest the color-line. If the reports are not received, the adjutant will walk up the walls of their tents, and lower them at afternoon fatigue call.

"(f) The tents will be pitched with one turn, the blankets to be neatly folded and placed on top of the bed-sack roll. All tents and equipment will be carefully and properly placed when not in use, and commanding officers will make frequent inspections of the tents and conditions prevailing in this regard.

"(g) Officers of the day will make thorough inspections of the tents and streets of their respective commands as soon as their duty is completed, and report the result to their commanding officers.

"(h) To prevent tearing or straining the canvas, tent ropes will be slackened at sunset and during wet weather, to be tightened again at reveille or when the weather clears.

"(i) The marking or defacing of tents in any manner is strictly prohibited. In case the tents are marked or defaced, the company in which it occurs will be required to pay the cost of such tent.

"(j) Men will not be allowed to wash in their tents or throw water in the company streets.

"(k) The firing of rifles, pistols, or fireworks in camp is absolutely prohibited. The use of firearms, except when permitted by a superior officer, is prohibited. The utmost attention will be given to the cleanliness of the men as to their persons, clothing, and tents. The hair will be kept short and neatly trimmed. Applications of oiled meat and soldier's. The most common cause of disease is cholera, which is spread by the use of oiled meat and soldier's hats worn on the side or back of the head, and coats unbuttoned. These habits will not be permitted, and a proper place will be designated for bathing.

"(l) All persons not belonging to the camp must leave it at sunset, unless they have permission of the commanding officer of the camp to remain on duty.

"(m) No peddlers, newsboys, photographers or stands for the sale of any articles will be permitted in camp without special written authority from these headquarters.

"(n) Officers desiring to be absent from camp must secure permission from their respective commanding officers (company, battalion, or regimental). Applications of enlisted men to leave camp must be made through first sergeants to company commanders, who, if they approve, will sign passes and forward them to battalion and regimental headquarters for approval. No man will be permitted to leave camp without such a pass.

Goldenberg's 7th and K Sts. A Saturday Exhibit of Special Sales.

WE HAVE PREPARED SPECIAL SALES FOR SATURDAY THAT NO ECONOMICAL INCLINED PERSON CAN AFFORD TO IGNORE!

A Band Carnival at Rockville. ROCKVILLE, Md., June 20.—A large number of people gathered at the Fair grounds, this place, today to attend the band carnival given by Mr. S. M. Kefauver, of Frederick. It was a politicians' day from the beginning until the close. Attractions were baseball, horse racing, trick dog performing, and dancing.

\$1.25 to Baltimore and Return via B. & O. Saturday and Sunday, June 22 and 23.

NEWS FROM ALEXANDRIA. ALEXANDRIA, June 21.—The following petit jury has been drawn for the July term of the United States Court, which meets in this city July 1: Harry Clark, Montpelier, Stafford county; R. E. Simpson, Landmark, Loudoun county; Henry Smith, Alexandria; W. H. Henson, Haymarket, Prince William county; B. W. Spencer, West Point; E. R. Hibbs, Middleburg, Loudoun county; W. E. Grigsby, Grigsby, King George county; William Boswell, Mountsville, Fauquier county; John A. Marshall, Alexandria; Charles H. Jordan, Boston, Fauquier county; J. M. English, Oldhams, Westmoreland county; Dr. Robert O. St. Clair, Warrenton, Fauquier county; Barbour Thompson, Mitchell's Station, Culpeper county; H. T. Kilty, Quantico, Stafford county; E. E. Hawshaw, Fairfax Court House; John Lewis, Stubbs, Spotsylvania county; Alpheus Barnes, Heathsville, Northumberland county; F. T. Craig, Landmark, Loudoun county; E. D. Jones, Southview, Northumberland county; Daniel Tyler, Acetotik, Fairfax county; T. E. Thomas, Fredericksburg; William Anderson, Delaplane, Fauquier county; J. G. Gannon, Meade, Essex county.

James Chauncey, who has been delegated by the committee on streets of the city council to superintend the repairing on King Street, today condemned a portion of the work that had been done for the alleged reason that the specifications in the contract were not being complied with. Mr. Chauncey stated that the concrete upon which the vitrified brick is to be laid was not of sufficient thickness, and by following the instructions of the contractors, he had been doing the work as being done according to the requirements of the city engineer. The latter, upon being called into the controversy, stated that part of the work had been done according to his requirements, but that another portion, which he had condemned yesterday, had not. After a consultation with the members of the street committee, the contractors agreed to tear up and reconstruct a part of the work in order that it might be done in a manner satisfactory to the committee.

S. H. Lunt, auctioneer, yesterday sold at public auction, a lot of ground, with improvements thereon, situated on the south side of Princess Street, between Fayette and Henry Streets, to the Mechanics' Building Association, No. 5, for \$100 cash.

The Quarterly Conference of the Free Methodist Church will be held in that church, commencing tomorrow evening at 8 o'clock, and will be concluded Sunday night. The Rev. George Ekins, of Wilkesboro, Pa., will be in charge. The annual commencement exercises of Washington Public School, for boys, will be held in that school building, commencing at 9 o'clock tomorrow morning. Lee Public School for girls will hold its closing exercises on Monday morning. The funeral of the late Dr. Mary Barton, whose death occurred yesterday, will take place at 2 o'clock tomorrow afternoon from the Second Presbyterian Church.

The ladies of the Methodist Episcopal Church South will tomorrow night give a strawberry festival on the church lawn. The proceeds will be used for the benefit of the Epworth League.

Superintendent K. Kemper, of the public schools, has received an official notice of his resignation from the school board. W. Dunn, who some time ago left this city for the Philippine Islands, has arrived in San Francisco and is on his way home.

The schooner Jennie D. Bell, loaded with fertilizer, from Norfolk, has arrived at the Bryant Fertilizer Works, this port.

CATARH CURED FOR \$1.00 A MONTH.

It is proper to call attention to the fact that the spring and summer months afford the best time for the treatment of Catarrh. This is because the system is purged by the summer rains, and the system is in a condition to receive the treatment of the physician, the Germs producing Catarrh are then less active, and the liability to take cold is reduced.

The belief of many persons that the only cure for chronic catarrh is a change of climate, is a mistake, because catarrh is found in all climates, where there is any climate, but the only way to do it is to destroy or remove from the system the catarrhal germs which cause the mischief.

\$1.00 a Month FOR 4 DAYS ONLY.

Under this rate all persons suffering from catarrh will receive the same honest, skillful treatment and the same care and attention that they would receive if they paid \$10 a month. Those who have read the chapters devoted to Germ disease and who have been impressed with a desire to be treated by these advanced methods have this opportunity now. Those who have felt they could not pay the regular fees, can under this offer receive the new anti-Germ treatment for \$1 a month. There will be no extension of the \$1 rate for catarrh which ends June 25 at 8 p. m.

X-Ray Examinations free in diagnosing for deep seated disease. No charge for Medicine or Advice. A whole staff of physicians at your service absolutely FREE.

This Treatment Can Be Taken at Home.

Patients living at a distance, enclosing \$1 with application by mail, are entitled to the privilege of this rate.

Rice Medical Society, Prof. F. R. Rice, F. R. S., Manager; Edward Hoff, M. D., Director; E. C. Barrow, M. D., Consultant.

AMERICANS ROBBED ABROAD. A Thief Steals Jewelry From Mrs. and Miss Stillwell in Venice.

BALTIMORE, Md., June 21.—News has just been received here of a robbery in Venice on May 25 of which Mrs. W. F. Stillwell and Miss Constance Stillwell, wife and daughter of William T. Stillwell, of this city, President of the Street Iron and Steel Company, were the victims. The ladies are spending the summer in Venice, and on the night of May 25 they went out in a gondola to attend a concert. Returning to their hotel they at once reported the loss of their jewelry to the police. Their room was on the second floor and the windows were left open because of the heat.

In the night some thief put a ladder against the side of the house and, mounting to the room, carried off all the jewelry he could find. The fruits of his raid were a diamond-studded watch, a scarf-pin and a shopping bag, the whole valued at \$300. No trace of the thief has been found, but the American Consul is interesting himself in the search for him.

Mrs. Stillwell and her daughter are now in Switzerland. They will remain there until July, when they will spend in Paris and other French cities, returning home about the middle of August.

To Be Compensated by England. LONDON, June 21.—The "Daily News" this morning says Great Britain has informed Germany and Holland that the German and Dutch shareholders in the Netherlands Railway in South Africa will be adequately compensated by England.

Blood Poison THE MOST DESTRUCTIVE OF ALL HUMAN DISEASES.

The poison ejected from the fangs of the rattlesnake is not more surely fatal than the virus of Contagious Blood Poison, which pollutes and vitiates the blood, destroys the tissues and bones and eats like a cancer into the flesh.

This disease appears first in the form of a little sore or blister; soon the glands begin to swell, pimples break out on the body, the mouth and throat become sore, making it painful to eat or swallow; deadly ulcers appear on the tongue, copper colored spots and other characteristic signs of Blood Poison come as the disease progresses, and the destructive virus takes deeper hold upon the system. The medical men are as sorely perplexed over the character of this disease as ever; they tell you to take mercury or other drugs, but these only destroy the strength of the patient, and do not cure the disease.

OUR FREE HOME TREATMENT. Our book on Contagious Blood Poison gives more information about this disease than you can possibly get from any other source. It describes accurately and fully the symptoms as they appear in each stage of the malady, enabling the reader to correctly diagnose his own case, and by following the instructions laid down in this book, to successfully treat himself at home. Should the patient need any special direction or advice, our physicians will be glad to correspond with and help him along in every possible way. Don't hesitate to write fully about your condition; what you have to say about yourself will never go beyond our office. You can have the best medical advice and this valuable little book without any cost to you whatever. Our physicians are in correspondence with hundreds all the time, and have successfully treated thousands of cases. Don't despair of a cure because something else has failed.

soon show signs of healing, and the unsightly, dirty spots and eruptions grow paler and paler, and finally disappear.

S. S. has for nearly 50 years been known and used as a remedy for this dreadful disease. Gently, but thoroughly, it removes all traces of the poison without the least injury to the system.
