

DERELICTIONS OF THE POLICE.

Report to Commissioners by Major Sylvester.

FINES AND WARNINGS ARE ADVISED

Neglect of Duty, Absence Without Leave, and Intoxication While on Duty Among the Charges Sustained by Trial Board.

The District Commissioners had before them today for consideration the cases of several members of the police force, who, according to the charges against them, have been guilty of various acts of indiscretion. The cases considered are the accumulated work of the Trial Board for the past three weeks.

Private H. A. Quail was charged by his superior officers with conduct unbecoming a policeman in that he went to a private house, at the instigation of an angry woman, broke open the door, and made an arrest.

Major Sylvester, in passing upon the matter, recommended that the finding of the Trial Board be approved, as the arrest was without warrant, and, in his opinion, the officer should be warned to exercise better judgment in similar matters in the future. The mitigating circumstance, according to Major Sylvester, was that the officer was under the impression that the lives of those interested were in peril.

Neglect of Duty. A fine of \$20 to be paid in four equal monthly installments is the gist of Major Sylvester's recommendation in the case of Private J. M. Wasson, charged with neglect of duty. The Superintendent adds that the officer should be warned that a repetition of such conduct would be visited with dismissal from the force.

According to the evidence before the Trial Board Wasson was in the habit of entering a shed on his beat and resting there during his labors. One occasion the rest continued for the period of forty-eight minutes. The finding of the board was "guilty on three charges."

Private T. F. Sweeney was found guilty of a similar charge before the Trial Board, his delinquency of duty lasting for a period of forty-eight minutes. Major Sylvester recommended that Sweeney be fined \$10, to be paid in two monthly installments.

Private J. P. Welsh, pleaded guilty to the charge of neglect of duty in not reporting from his patrol box as required by the regulations. The excuse rendered was that the officer was suffering from temporary stupor, caused, he thought, by taking a large dose of quinine. Major Sylvester recommended that in his case a fine of \$10, and greater care in the future in obeying the regulations.

Absence Without Leave. In view of charges preferred against Private W. L. And, that officer tendered his resignation as a member of the police force, and Major Sylvester has recommended that it be accepted. Policeman And was charged with failing to report for duty on two occasions, and in failing to give good and satisfactory reasons therefor.

Additional Private F. A. Dyson, was recently before the Trial Board charged with conduct unbecoming a policeman in failing to keep a specific promise made to the Superintendent relative to the payment of a debt. Major Sylvester recommends that the officer be required to discharge the obligation on or before the fifth day of January, 1902, and if he fails to comply within that time that he be removed from the force.

Intoxicated While on Duty. The same officer was later before the Trial Board charged with neglect of duty and intoxication while on duty. The specifications allege loud and boisterous conversation, the entrance of premises near his beat and his remaining there to the neglect of his post.

Major Sylvester recommends in this case that the officer be warned that the acting lieutenant be commended for his vigilance. This was Sergeant Matthews who observed the actions of the accused, and was an eyewitness of the officer's failure to perform his duty. Commissioner Ross has forwarded the papers in all these cases to his associates with the recommendations of the Superintendent approved.

NO TRACE OF MORSE.

Officers Return Empty-Handed From Their Pursuit.

But little progress is being made by the police in the locating of Thomas Morse, the negro who is wanted on a charge of having murdered James Haskins on the dairy farm of George A. Wise, beyond Chevy Chase, Saturday morning.

All of the officers have returned to the city with the exception of Detective Trumbo, whose whereabouts are as yet unknown.

Fresh men have been sent out in every direction and every member of the detective force is working almost continuously, but without result.

The last that was seen of Morse was in Newtown, after he had abandoned the horse on which he rode for a doctor.

SUIT ON APPEAL BONDS.

No Notes Involved in the Ashley-Bradshaw Case. Proceedings were instituted on Wednesday last, by Hayden H. Ashley against Aaron Bradshaw and Jesse L. Heiskell to recover \$2,000 claimed to be due on two appeal bonds in equity from the Supreme Court of the District to the Court of Appeals, and from that tribunal to the United States Supreme Court. When the suit was filed, a notice appeared in print in which it was stated that the subject of litigation was two "notes" instead of two bonds.

It is explained that the bonds are for \$1,000 each, and are due the estate of Nehemiah H. Ashley. It is further claimed that the bonds are still unpaid, and Hayden, who sues as the executor of the estate, claims \$1,000 as damages on this account.

MESSAGES TO THE SENATE.

The President Transmits Four Matters for Consideration.

In the Senate today messages were received from the President as follows: Transmitting two franchises granted to railroad companies by the council of Porto Rico, which will require the approval of Congress.

Transmitting the report of receipts and disbursements of the Louisiana Purchase Exposition Company.

Transmitting a petition by Senator Don F. Gamba and other citizens of Cuba asking the enactment of a law giving commercial reciprocity between the United States and Cuba.

Transmitting the claim of William Hardeman, a British subject, for damages done his property at Siboney, Cuba, during the Spanish war.

In the last-named matter Mr. Hale moved to refer the same to the Appropriations Committee. These claims, he thought, should go to the Spanish Treaty Claims Commission, which was created for the purpose of adjusting such claims.

Mr. Foraker said the Spanish Treaty Claims Commission had no jurisdiction over claims like this against the United States, but only of claims against Spain growing out of the war. Upon this statement the message was referred to the Committee on Foreign Relations.

THIS WEEK IN CONGRESS.

Programme of Legislation in the Two Houses.

In the Senate, before the holiday adjournment this week, little business will be done beyond consideration and ratification of the Hay-Pauncefote Treaty. The announcement of the committee changes will be made tomorrow and before adjournment Thursday some nominations, that of Attorney General Knox among the number, will be taken up in executive session.

In the House, Tuesday and Wednesday will be devoted to the Philippine tariff bill, which is to be passed at 4 p. m. Thursday. Mr. McCall of Massachusetts and Mr. Littlefield of Maine will oppose it, but Republican defections will be neutralized by Democratic accessions, the Louisiana members and several others having declared their intention to support the bill.

After the holidays the House Ways and Means Committee will give consideration to the questions of war tax reduction and Cuban reciprocity.

WISHES SENATE TO MAKE NEW RULES.

MR. CLAPP OPPOSED TO SECRECY.

His Resolution to Abolish Executive Sessions Referred to Committee on Rules—He Calls Present Method Farcical.

Senator Clapp of Minnesota wants the Senate to abolish the executive session. He claims that the American people regard the secret session as a huge joke and a farce and want it relegated to "the pile of traditional rubbish" in the upper house of Congress.

Mr. Clapp on Saturday introduced a resolution covering the ground, and today called it up for consideration.

"I won't make any speech on this resolution," he declared, "but I want these farces to be enjoyed by the people. They regard the executive session as a huge joke, and what transpires they read in the newspapers anyway. Let us quit fooling and do away with the executive session."

Favored by Mason. "I want to vote for the Senator's resolution," said Senator Mason. "These secret sessions are ancient barnacles and should be done away with. Let us have a vote on the proposition."

Executive Session Called. "This must be done in executive session," said Mr. Money.

The resolution was referred to the Committee on Rules and at 12:15 the Senate went into executive session.

OPPOSING GOV. OTERO.

His Mexican Birth Being Used Against Him.

A strong fight is being made against the confirmation of the recess appointment of Governor Otero of New Mexico.

Charges alleging corruption in office and indirect receiving of bribes have been filed against him by certain persons in the Territory.

The chances are, however, that he will be reappointed, inasmuch as he is said to have explained the charges to the satisfaction of the President.

One great cause of objection to Governor Otero is said to be due to the fact that he is Mexican-born, although a naturalized American citizen.

Mr. Eugene Fiske, former United States Attorney of New Mexico, called upon the President today and made specially strong objections to Governor Otero's reappointment.

NEW MEAT REGULATION.

Commissioners May Adopt Position of Butchers' Association.

For several months the Retail Butchers' Association, through its attorney, has been seeking to secure the approval by the District Commissioners of a regulation requiring the carcasses of animals exposed for sale as meat to be divested of pit, head, feet, and viscera.

The reason for delay in the consideration of the question has been that there was a sharp difference of opinion upon the question between the Health Officer and the association.

The first draft of the regulation specified that the carcass exposed for sale as meat should be divested of the pit, the head, the feet, the lungs, heart, liver, and entrails. The Health Officer returned to the Commissioners a long report upon the matter, in which he took exception to the suggestion to remove the heart and the liver, as these are regarded as proper articles of food, and held that their removal from the carcass should not be insisted upon.

The association, after several interviews with the Commissioners, drafted a new regulation, which was submitted to the Health Officer, and recently submitted the proposed regulation to the board for its consideration.

Commissioner Ross has now forwarded to his associates the papers in the case, with the statement that he prefers the first draft of the regulation, stating that he understands the objection to the fact that he has the united support of the retail dealers of the city.

LOW TEMPERATURES PREVAIL.

Cold Weather Reported Throughout the Country.

A special report from the Weather Bureau this morning says: "The temperature is from 15 to 35 degrees below the seasonal average east of the Rocky Mountains. During the last twenty-four hours it has fallen 15 to 20 from Florida to New England and 10 to 15 in northern Georgia, and freezing in northern Florida. There has been a general rise in the Missouri and Middle-Mississippi Valleys and throughout the Northwest."

"Cloudy and warmer weather will prevail during the next thirty-six hours in the interior valleys and the Southwest. The temperature will rise slowly in the Lake region and the Middle Atlantic States. Snow is indicated for the lower lake region and possibly the Ohio Valley; elsewhere generally fair weather will prevail."

"On the South Atlantic coast light to fresh northeasterly winds will continue. The Middle Atlantic coast winds will be fresh northerly, diminishing Tuesday."

Reports on the temperature give the following as the minimum at principal cities of the West during the past twenty-four hours: Indianapolis, 10; Milwaukee, 14; Chicago, 12; Duluth, 22; St. Paul, 22; Des Moines, 18; St. Louis, 4; Kansas City, 2.

The lowest temperature recorded during the past twenty-four hours was at Moorhead, Minn., when the thermometer registered twenty-eight degrees below zero.

Johnson, of 1122 Eighteenth Street northwest was damaged to the extent of \$5 about 10:30 o'clock this morning in a runaway accident at the corner of Eleventh and E streets northwest. The horse attached to the vehicle ran away and collided with a wagon belonging to Walter J. Cogswell, of 209 Eleventh Street northwest. The Cogswell wagon was not injured.

FOR THREE HIGH PROMOTIONS.

Congress Receives Bill to Advance Otis, Brooke, and Merritt.

Secretary Root has transmitted to Congress the bill for the retirement of veterans of the civil war with increased rank. It is this bill that is intended to permit the retirement of Major General Otis and Brooke with the rank of lieutenant general and granting the same rank to Major General Wesley Merritt, retired. The action of Congress on this bill is awaited with considerable interest in the army, as not until the attitude of Congress is learned will the selection of the new brigadier generals be made.

The bill is as follows: "Section 1—That any officer of the regular army now on the active list who served during the civil war prior to April 9, 1865, otherwise than as a cadet at the Military Academy, may, by the President and with the advice and consent of the Senate, be placed upon the retired list of the army with the rank and retired pay of one grade higher than that actually held at the time of his retirement."

"Provided, That this section shall not be construed as creating or reviving any rank not provided for by existing law and shall not apply to any officer whose length of service does not exceed thirty-five (35) years or to any general officer who has been advanced in rank since the 13th day of August, 1898."

"Section 2: That the President of the United States is hereby authorized to select from the officers of the army two major generals on the active list and one major general on the retired list who have rendered distinguished service in independent commands of great responsibility during the recent military operations, and to appoint them by and with the advice and consent of the Senate to be lieutenant generals on the retired list with the pay and allowances established by law of officers of that grade on the retired list."

PEACE BETWEEN LEAGUES.

American League Will Co-Operate With National Organization.

CHICAGO, Dec. 16.—The American League will do all in its power for peace in baseball. It will co-operate with the National League provided that chaotic organization ever gets its affairs straightened out, and A. G. Spaulding will have the support of President Johnson of the American League, whenever it will be deemed expedient.

The American League will not, however, mix in the affairs of the National League and will make no efforts to retaliate on Brush, Freedman, Soden, and others—the trio who were in compact to ruin the American League last season as brought out by the published correspondence between Spaulding and Brush.

The American League will only recognize the National League in so far as it would help the sport. This is the gist of President Johnson's comments when asked for an opinion on the present baseball situation.

WIFE APPEALS TO COMMISSIONERS

ASKS A PARDON FOR HUSBAND.

Serving a Three Months' Term in the Workhouse for Selling Liquor on Sunday—Family in a Desperate Condition.

The District Commissioners are called upon to act in all sorts of emergencies, but it is seldom they are asked to exercise executive clemency in releasing prisoners from the municipal workhouse. One such application, however, has been sent to them by the wife of James Poindexter.

It appears that Poindexter was convicted in the Police Court for violation of the excise laws and sentenced to the workhouse.

In the petition for pardon Mrs. Poindexter submits a statement to the effect that she has been left in destitute circumstances with four dependent children, and she petitions that her husband be released in order that he may provide for their wants.

The petition also sets forth that the violation of the laws was only technical, in that he sold on Sunday morning to a neighbor a small quantity of whiskey from a bottle kept in the house for medicinal purposes.

Board Without Power. At the instance of Commissioner Ross, the Board will reply that the Commissioners of the District have no power to grant a pardon under the circumstances.

The sentence in the case was for three months, and it is alleged in the petition that the wife and children are much of the time without sufficient fuel and clothing to be comfortable.
