

THURBER TESTIMONY TOPIC AT CAPITOL

Its Ultimate Effect on Cuban Tariff Legislation.

SOURCE OF THOSE VOUCHERS

Another "Leak" Suspected and a Thorough Investigation Likely—Object of the President's Hurried Return to Washington—Position of Mr. Root.

The sensation caused by F. B. Thurber's disclosure before the Senate Cuban Committee yesterday to the effect that President Havemeyer, of the Sugar Trust, contributed \$2,500 to a propaganda for reciprocity between the United States and Cuba, and that General Wood spent thousands of dollars of the Cuban funds for the same purpose and through the same channels, was the most widely discussed topic at the National Capitol today.

That the development of these facts has disconcerted the Administration is said to be shown by the fact that President Roosevelt has abandoned his announced intention of going from West Point to Oyster Bay on a two days' visit to his family. Instead, he hastens back to Washington and will arrive here tonight. It is expected that an official statement on the subject will be issued by him.

When recently the fact was published that General Wood had been paying a pension to Gen. Maximo Gomez from the Cuban treasury the reply was made by Secretary Root to those questioning the authority for this expenditure that he and the President were responsible for every item of expenditure made by General Wood. If, therefore, there is anything wrong in General Wood's appropriation of nearly \$9,000 to promote the cause of reciprocity with Cuba, Secretary Root's words would make himself and President Roosevelt responsible.

Attitude of the Democrats. Although the Democrats in Congress would like to have an investigation into all of General Wood's expenditures while governor of Cuba, bringing him as a witness, it is unlikely that a motion to that effect from Democratic sources would be accepted by the Republican majority. Whether any of the beet sugar Republicans will have courage enough to propose such an investigation has not yet developed.

The question which pleases the beet sugar men and the Democrats next to the disclosures of yesterday, next to the fact that for the first time they proved a direct connection between the Sugar Trust and the Cuban reciprocal movement, is that it was shown that General Wood used F. B. Thurber as the agency through which to conduct his propaganda and to whom he paid the money.

When Mr. Thurber was testifying last January before the House Ways and Means Committee he was asked whether he was not employed by the Sugar Trust, and whether he was not actually receiving a salary from President Havemeyer, he entered an emphatic denial to both of these questions.

Issue of Veracity Raised. Recently one of the beet sugar witnesses before the Senate Cuban Committee was asked by Senator Teller what he knew of Mr. Thurber's relations with the Sugar Trust. In equally positive terms he declared that Mr. Thurber was in the pay of the Sugar Trust and related various incidents which, he claimed, supported him in that belief.

This raised a direct issue of veracity between the witness and Mr. Thurber, and it was expected by those who have been following the Cuban hearings that when Mr. Thurber was placed upon the stand he would have been questioned further about the matter.

Mr. Teller was, however, satisfied with what he did obtain from Mr. Thurber and did not press him as to whether he had ever been in the employ of the sugar trust. For the purpose of the Democrats, however, the question that has been raised in the subject is sufficient, and they will make the most of it.

May Recall Havemeyer. Because Mr. Havemeyer, when he was on the stand, absolutely denied that the sugar trust was specially interested in the proposed Cuban reciprocity legislation, or that he had spent any money in the distribution of literature on the subject, it is quite likely that he will be recalled to explain his statements, especially in view of Mr. Thurber's testimony that Mr. Havemeyer contributed \$2,500 to help meet the expense of printing and circulating his reciprocity pamphlets and dodgers.

The Outcome Uncertain. The ultimate effect of yesterday's disclosures is uncertain. The beet-sugar Senators and Representatives have undoubtedly been strengthened in their belief of the justice of their position, and Senator Elkins, who has recently been claiming only fifteen supporters in the Senate, now says that the original twenty who attended his luncheon a couple of weeks ago have rallied again to his standard and that he expects additional recruits. It is also the belief of the beet sugar men that the disclosures will cause the reciprocity Senators to weaken in their determination to press the reciprocity bill to a vote this session.

Senators Aldrich and Platt of Connecticut insist, however, that they have not changed in their determination to force the bill through. They say the necessity of doing something for the relief of Cuba still exists, despite Mr. Havemeyer's display of zeal. They will maintain their confidence that the bill will be passed.

Where the Document Came From. An interesting feature of the present situation is the speculation as to where Senator Teller obtained his copy of the voucher for General Wood's payment of \$2,500 to Mr. Thurber and the latter's receipt. It must have come from the War Department archives either in Washington or in Havana. The production of this document, following so closely upon Senator Chamberlain's dramatic reading in the Senate of the charges of Private Weir against Lieu-

tenant Arnold in the Philippines, which paper had been kept a close secret in the War Department has led to the belief that the Democrats have a private channel of information in that department. A rigid inquiry will undoubtedly be made to discover this "leak," and if the clerk who is supplying these documents from the department's files to the enemies of the Administration is found his career in the Government service will reach a sudden end.

MATTERS OF INTEREST IN DISTRICT AFFAIRS

The Inspector of Buildings has requested the Commissioners to cancel their order accepting the proposal of Charles D. Derney to drive a well on the proposed engine house site at Congress Heights, with a view to obtaining other proposals for the same work.

The Superintendent of the Water Department has forwarded to the Commissioners a schedule of the proposals received for furnishing cast iron specials for the Trumbull Street pumping station, and has recommended that the bid of the United States Cast Iron Pipe and Foundry Company be accepted.

On the recommendation of the Superintendent of Police the Commissioners have appointed Frank Gardner as an additional private of the police force, for duty in and about the Coliseum at Fourteenth and East Capitol Streets southeast.

The Superintendent of Sewers has sent to the Commissioners the proposal of the Washington Asphalt Block and Tile Company to furnish asphalt paving blocks to the District for the ensuing fiscal year, and has recommended its acceptance.

Some of the residents in the vicinity of the "Jolly Fat Men's Club," on D Street northwest, recently entered complaint against the noise caused by the rolling of the balls and the shouts of the bowlers in the rear of the club building. Lieutenant Amis, of the First police precinct, has reported that the complaint has been laid before the management of the club and they have promised to close the windows of the alley at 9 o'clock p. m. and to stop the bowling at 11 o'clock p. m.

The committee appointed to open and schedule bids for general supplies received June 5 sent to the Commissioners a list of the proposals for furnishing and installing paving blocks for the ensuing fiscal year, and have recommended that the contract be awarded to the Mack Manufacturing Company.

At his own request the commission of F. B. Thurber, patrol driver in the police force, had been renewed for a period of three years, to take effect June 2.

The Inspector of Plumbing has recommended the execution of orders for service upon plumbers J. W. Hurley and Michael Gaghan to report for final inspection and test plumbing work at 713 Market Space and premises on Brightwood Avenue, respectively.

A notice is to be served on Mrs. Ellen Doyl to repair certain plumbing in premises 613 Sixth Street southwest.

On recommendation of Captain Newcomer, acting Engineer Commissioner, the application of Sedg. N. Landers, of 302 Pennsylvania Avenue southeast, has been adversely acted upon.

The papers in the case of Alexander Muncaster, in behalf of Lewis L. Watson, who requested the removal of the fence obstructing the alley in square 882, which have been under consideration by the Commissioners for some time, were today referred to the City Solicitor to determine the status of the alley, whether public or private. Some days ago Captain Newcomer, acting Engineer Commissioner, recommended that the public character should be affirmed to the Board, but Commissioner Ross dissented from that action.

WEDDING PARTY THROWN DOWN AN EMBANKMENT

Barge Bearing Twenty-three Guests to Reception Overturns, Injuring Many.

DEDDHAM, Mass., June 12.—There came near being a tragic ending of a wedding party at East Deddham last night, when a barge containing twenty-three of the wedding guests was overturned and all the occupants were thrown down an embankment. Fortunately, however, there were no fatalities and no very serious injuries, except broken arms and wrists and lacerated flesh.

The accident happened just outside the Church of the Good Shepherd at Oakdale, after the wedding of Miss Alice Cox and William B. Hancock. The party got into the barge to be conveyed to the reception. In some way the rigging got caught under the end of the pole and the horses were turned in the wrong direction, going down over a bank and taking the barge with them.

CEMETERY NOT WANTED.

Verona, N. J., Decides It Has Troubles Enough of Its Own.

VERONA, N. J., June 12.—The Mt. Kenisco Cemetery Company presented a petition to the Verona township committee for permission to locate a cemetery in the township, which was rejected by the township committee by a unanimous vote, after Judge John L. Johnson had demanded protection of the citizens.

"We don't want any corporation in our pretty town to bury the pauper dead of the State, even if it brings them here in funeral palace coaches," he declared. "It would be a constant source of danger, for it would send bodies here infected with scarlet fever, smallpox, and other contagious diseases. We have enough to contend with now. We will take care of our own dead."

Then the township committee voted to refuse the request, and there was applause.

DYING MINER'S LETTER.

Message Written to His Family by a Victim of an Explosion.

KNOXVILLE, Tenn., June 12.—Another dying message written in Frater mine at Coal Creek after the explosion May 19 has been found. It reads as follows: "Dear Wife and Family: Be good children. I am just about to die. Tell my family I am here. Good-bye to you all. Be good children. B. BROOKS."

SCIENTIFIC SHARPS TO FIGHT MOSQUITO

Common or Garden Variety as Bred in Montclair to Be Attacked With Ruthless Vigor.

NEW YORK, June 12.—The fight against mosquitoes in Montclair has begun in earnest by the health board. In addition to spraying ponds and other places, experts will investigate the different species, their growth and the best methods for their annihilation.

The board will carry out the suggestions of Inspector Parker, made last night, as follows: A study of the variety of mosquitoes to be found in Montclair, the variety of larvae to be found in the different breeding places, a search for the breeding places of anopheles, the work of putting oil on ponds to confine, and to extend the work to sewer and catch basins; to urge people who have rain barrels to make them mosquito proof, the collection of tin cans abolished, and, finally, to have property-owners co-operate with the board in this work.

Health Inspector Parker, in a report presented, says: "In the great majority of cases houses breed their own mosquitoes, and the breeding places are usually pools, drains, empty tin cans and rain barrels that are on the premises."

"This is true, because mosquitoes tend to abide near their breeding places. Unfortunately, the variety is a common one, and rises in swarms on favorable nights and is carried to varying distances by the wind."

APPROPRIATION BILLS WELL OUT OF THE WAY

Only District Measure Yet to Be Acted Upon.

The Senate has disposed of all the appropriation bills that have passed the House except the District bill, which is still before the subcommittee on the District of the Senate Appropriations Committee. The District bill will probably be completed and reported to the Senate by Saturday.

The subcommittee on the District of the Senate Appropriations Committee has made a number of important amendments to the District measure, in addition to making some changes in the personal tax feature of that measure.

WELL-KNOWN CITIZEN BECOMES BANKRUPT

Charles C. Duncanson Says He Is Unable to Meet His Obligations.

Charles C. Duncanson, the well-known broker and auctioneer at Ninth and D Streets northwest, today went into voluntary bankruptcy. In his petition he states he owes debts which he is unable to pay, and is ready and willing to surrender all his property for the benefit of his creditors. He lists his liabilities at about \$165,000 and his assets at about \$300,000. The liabilities represent mostly notes due banks and individual notes.

Attorneys Charles C. Cole and R. Golden Donaldson are named as counsel for the petitioner.

WILL ADJOURN FOR SUMMER.

Meeting of Brightwood Citizens' Association Called for Tomorrow Evening.

A meeting of the Brightwood Citizens' Association will be held at Brightwood Hotel tomorrow evening at 8 o'clock. This will be the last meeting of the association until September or October. Several important resolutions will come up for consideration.

The following gentlemen will be present and address the members: Hon. David H. Mercer, member of Congress from Nebraska; Col. S. E. Chamberlain, Mr. Arthur F. Kinnam, president Brookland Citizens' Association, and Mr. W. G. Henderson, president North Capitol and Eckington Association.

SCURRY ATTACKS CREW OF NORWEGIAN VESSEL

Almedia Arrives at Halifax After Long Cruise From East Africa.

HALIFAX, Nova Scotia, June 12.—The Norwegian ship Almedia has arrived at Sydney, from Bari, Portuguese East Africa, via St. Helena. The Almedia left Bari early in March, bound to North Sydney for orders. Captain Michaelson fell sick, and the ship put into St. Helena about two weeks later for medical aid. While at St. Helena the captain succumbed to his disease and was buried on the island. First Mate Nelson then assumed command, and the ship proceeded on her voyage to this port. After leaving St. Helena scurvy broke out among the crew, and it was with the greatest difficulty that the ship was brought to port. The ship was towed into the harbor by the Merimac.

The Almedia is a steel ship of 1,400 tons, and is owned by a Norwegian firm in Glasgow. A captain from Christiania will now be put in command.

CO-EDUCATION DOOMED AT CHICAGO UNIVERSITY

Faculty and Trustees Said to Have Decided the Question.

CHICAGO, June 12.—According to a statement printed here this morning, co-education at the University of Chicago is doomed. A majority of both the faculty and the board of trustees of the institution has secretly taken a stand against the long-thretened co-educational feature, and Saturday is the day set for official action.

As is usual with changes at the university, a question of finance is involved. A promised gift of \$1,500,000 from an individual opposed to co-education is the incentive to the decision. The gift and its secret donor are forcing the question at this time. The donor is so anxious for the separation of the students in the junior colleges that he promises the sum for the establishment of two new quadrangles, one for the men and another for the women.

AN IMMENSE METEOR UNearthED IN MEXICO

Professor Ward Finds It Under Ground.

STONE WEIGHING FIFTY TONS Unable to Stand the Expense of Transportation It to the Seacoast—Specimen Not So Large, However, as Peary Brought From Greenland.

ROCHESTER, June 12.—One of the largest meteorites known to the world has been unearthed in Western Mexico by Prof. Henry A. Ward, formerly of this city, now of Chicago. The first public announcement of his great find was made on Monday night before the Rochester Historical Society. Prof. Ward is widely known in the world of science as the founder of the Ward Natural Science establishment of Rochester. His collection of meteorites is fourth in point of size in the world, and contains many stones of great rarity and value.

The discovery of this great meteorite in Mexico is considered an important addition to the knowledge of these aerial visitors. The stone weighs over fifty tons, is thirteen feet and one inch in length, and lay buried by the terrific force of its own momentum nearly twenty feet in the earth. It ploughed into it like a steel shell from a thirteen-inch gun.

Prof. Ward broke off small portions of the great mass as specimens for his collection, but left the remainder intact, practically as he had found it. He said that the cost of transporting it to the seacoast, seventy miles away, would have been more than \$50,000. He succeeded in securing several fine photographs of the stone, which show it in all its huge, ungainly shape. Prof. Ward thus described his expedition after the great stone:

Rumors and stories had come to me for many years past of the presence of such a huge meteorite in the State of Sinaloa, Mexico, but not until last winter did I find an opportunity to investigate some of these stories. Mexico, it may be well to state, is richer in meteoric remains and specimens than any other country in the world. Why this is so it is puzzling to explain. Some scientists say that Mexico's rocks possess some peculiarly strong attraction for the flying masses, but that I hardly think will stand against criticism. It is also noticeable that almost without exception the meteorites are purely iron in their composition, which distinguishes them sharply from the others which are found elsewhere on the globe. These things, it is best frankly to admit, are beyond human power to elucidate.

I set out from Mexico City in the early spring and under the leadership of John Davis and Grant S. Zeal, friends of the dead sheriff, who have been missing since last Friday, have been found at an isolated spot near their home, their bodies riddled and the bodies covered with mud and blood.

A dozen or more men are suspected of the crime.

MOUNTAIN FEUD SPREADING.

Two Men Missing From Home Found Dead in Woods.

KNOXVILLE, Tenn., June 12.—The killing of Clinton Legare, a deputy sheriff of Hancock county, a year ago, has resulted in the death of half a dozen men, and the feud is spreading into Kentucky and Virginia.

John Davis and Grant S. Zeal, friends of the dead sheriff, who have been missing since last Friday, have been found at an isolated spot near their home, their bodies riddled and the bodies covered with mud and blood.

SHE SPOILED HONEYMOON.

Other Girl Appeared With \$25,000 Breach of Promise Suit.

CHICAGO, June 12.—Nellie Burke has brought a \$25,000 breach of promise suit against John Spreng, a wealthy New Orleans manufacturer, now in Chicago on his honeymoon. Nellie is a waitress, and as it is said that all things come to those who wait" she feels hopeful about the suit.

Spreng was rudely awakened in the Palmer House and served with the papers. Nellie and he met last summer at the home of a mutual friend. She proposed, she accepted, and went to considerable expense preparing for the marriage.

AWOKE IN SYNAGOGUE.

New York Boy, Forgotten by Parents, Has an Odd Experience.

NEW YORK, June 12.—Reuben Cohen, eleven years old, of 881 Third Avenue, attended all-night services in the Synagogue Orach-Chaim, Fifty-first Street, near Third Avenue, with his parents on Tuesday night. The services were over at 5 o'clock yesterday morning and Mr. and Mrs. Cohen went home, forgetting about Reuben. He was asleep under a bench and didn't awake, apparently, until 9 o'clock last night. Then he went to a window and yelled.

A crowd of boys and Policeman Godley responded. Godley got a ladder, put it against the window and Reuben climbed down. He went home to get more sleep.

FIVE CHINESE CAPTURED.

Arrested at Buffalo After Being Smuggled Across Canadian Border.

BUFFALO, June 12.—Five Chinamen who had been smuggled across the border were found hiding in the New York Central trainshed at 2 o'clock this morning waiting for a train to take them to New York. They were arrested on the charge of being in this country illegally and were lodged in the county jail with seven other Chinamen who were caught on Monday night. The twelve prisoners, it is said, are only a part of a large number that were smuggled from Toronto to a few days ago.

PRISONERS ATTEMPT TO SECURE LIBERTY

Make Some Progress When Their Scheme Is Frustrated.

BALTIMORE, June 12.—An attempt on the part of several prisoners to dig out of the jail at Towson was discovered by Night Watchman E. M. Price when he went on duty at 6 o'clock Tuesday evening. The spot selected for breaking out was cell 1, on the ground floor, also known as the coal cell, which afforded four prisoners an avenue of escape during Sheriff Hobbes' term. The work of effecting a breach must have been carried on during the day, because the cell is locked at night and the prisoners are also confined in their respective quarters.

Soon after going on duty Tuesday, Night Watchman Price received an intimation that something unusual was in progress. He made an examination and in the coal cell found that the mortar around a large stone had been dug out to a depth of eight to ten inches, and that it would have been comparatively easy to drive a hole through the wall large enough to admit a man's body.

Mr. Price said nothing of his discovery, intending to inform the day officials so that the prisoners implicated could be surprised at work. Watchman Hoshall yesterday morning set a watch, and one of the prisoners was soon seen to enter the cell. But he must have divined that he was being observed and made no attempt to resume operation. The identity of the prisoner was not divulged. The information that the officials had gotten wind of the attempt to escape was soon communicated to all other prisoners in the mysterious manner common to inmates of such institutions, and all kept away from the cell in question.

TAYLOR RESOLUTION PROBABLY BURIED

Senate Refers It to Civil Service Committee.

On motion of Senator Platt of Connecticut the Senate this morning referred to the Committee on Civil Service and Retrenchment the Carmack resolution asking for an investigation of the recent dismissal of Rebecca J. Taylor from her position in the classified service of the War Department.

This action on the part of the Senate is regarded as the burial of the resolution.

MOUNTAIN FEUD SPREADING.

Two Men Missing From Home Found Dead in Woods.

KNOXVILLE, Tenn., June 12.—The killing of Clinton Legare, a deputy sheriff of Hancock county, a year ago, has resulted in the death of half a dozen men, and the feud is spreading into Kentucky and Virginia.

John Davis and Grant S. Zeal, friends of the dead sheriff, who have been missing since last Friday, have been found at an isolated spot near their home, their bodies riddled and the bodies covered with mud and blood.

ANTARCTIC EXPLORER MARRIES IN BROOKLYN

Dr. Frederick A. Cook and Mrs. Mary F. Hunt Quietly Wedded.

BROOKLYN, June 12.—Dr. Frederick A. Cook, who was on several Arctic expeditions, and was surgeon of the last Belgian Antarctic expedition, and Mrs. Mary F. Hunt, of Brooklyn, were married on Tuesday in the New York Avenue Methodist Episcopal Church by the Rev. Dr. Charles H. Buck.

Only a few of their most intimate friends were present, and the doctor and his bride immediately started for Saratoga. They will live in a beautiful mansion at Bushwick and Myrtle Avenues, Brooklyn.

While Dr. Cook was in the Antarctic three years ago, his first fiancée, Miss Annie E. Forbes, died.

Big Theft in Paris Bank.

PARIS, June 12.—A theft of 1,000,000 francs has been discovered at the Bank of France.

JEWISH OBSERVANCE OF THE FEAST OF WEEKS

A Thanksgiving for the Blessings of Harvest.

Today is being celebrated among the orthodox congregations of the Jewish churches as the Feast of Weeks, or the Hebrew Thanksgiving for the blessings of the harvest.

The Feast of Weeks, or Shebuoth, is kept on the sixth day of the month of Sivan, which occurs this year (being the Hebrew New Year) on June 11. The following day is also observed by many. Shebuoth is frequently called the "day of the first fruit offering," and also "harvest feast," as it is the day of thanksgiving for the blessing of the harvest. On this day is celebrated also the anniversary of the revelation on Mount Sinai.

Two Cases of Plague.

DUNKIRK, June 12.—Two fresh cases of plague have been discovered aboard the British steamer City of Perth, from Calcutta May 4.

GOLDENBERG'S SEVENTH AND K STREETS. "THE DEPENDABLE STORE."

FRIDAY'S REMNANT LIST —includes some of the biggest and best offerings of the season. The middle of June marks the height of the season's business, and it is natural that Remnants and Small Lots should accumulate rapidly. Little prices will move them out tomorrow.

\$1 and \$1.25 Wrappers, 69c. Odds and ends of summer Wrappers, comprising sheer Lawns and Percales, broken sizes, trimmed in various pretty styles. 69c. Regular \$1 and \$1.25 lines—reduced to.

Odd Lots Waists. Ladies' black Lawn Waists, in broken sizes. Regular 50c. value—reduced to. 19c. Small sizes only in this lot of ladies' fine white Waists, embroidery and insertion trimmed. Regular \$1.00 and \$1.25 values for. 39c.

10c and 12c Wash Goods, 5c Yard. Another great purchase of 10,000 yards of "Mill Ends" of choice new Wash Goods, consisting of Lawns, Dimities and Batiste, in all sorts of pretty and effective colorings. Regular 10c. and 12c. qualities for. 5c.

Soiled and Mussed Lots of HANDKERCHIEFS. Odds and ends of Handkerchiefs, including Men's generous-size Handkerchiefs with fast color, fancy border and Ladies' Plain Hemstitched and Mourning Handkerchiefs. Regular 25c. values for. 3c.

Odds and Ends of Ladies' GLOVES. A special lot of Ladies' 2-button Fabric Gloves; in black, gray, and tan; light weight for wear; regular 25c. values; to be closed out for. 14c.

Broken Assortments of NECKWEAR. Another lot of Auto Ties; twice-around styles, the newest of the season. Regular 25c. values. To be closed out. 11c.

Remnants and "Loom Ends" of RIBBONS. Remnants of All-silk Taffetas and Satin Gros Grain Ribbons, in all the favorite colors, including pink, blue, lavender, white, etc., desirable lengths and various desirable widths. Regular 10c and 12c. qualities for. 3c.

Remnants of Taffeta Ribbons, widths up to 3 1/2 inches; leading colors, including light blue, pink, cardinal, etc.; qualities sold up to 21c yard. Come early for best widths, for. 7c.

Extraordinary Remnant Lots of Laces and Embroideries. Remnant lot of Wide and Narrow Embroideries of Nainsook, Cambric, and Swiss, in lengths from 2 1/2 to 4 1/2 yards. Also Torchon Laces. Qualities which sell usually at 5c to 7 1/2c yard. Remnant price. 1c.

A fine remnant lot of Point de Paris and Torchon Laces. Some of the latter in match sets. Also Cambric and Swiss Embroideries. Regular 8c and 10c. qualities. Tomorrow for. 3c.

Another lot of Cambric and Swiss Embroideries; widths up to 5 inches; wide range of new patterns. Worth up to 12 1/2c yard. 6c.

Another lot of Fine Embroideries, widths up to 10 inches. In 2 to 4-yard lengths. Beautiful patterns and the newest designs. Worth up to 25c yard. Remnant price. 10 1/2c.

Odds and Ends of Ladies' UNDERWEAR. Odds and ends in Ladies' Union Suits of Lisle thread and Swiss-ribbed Vests, low neck, sleeveless and high neck, long and short sleeves. Sold up to 50c—for. 19c.

A lot of Ladies' Swiss-ribbed Vests, low neck and sleeveless. Proper thin weight for summer wear. Friday for. 5c.

Odds and Ends of Ladies' HOSIERY. Broken assortment of Ladies' Regular 15c. Seamless Hose, in all sorts of fancy patterns, including black with white embroidery—polka dots, fancy stripes and figures in various colors. Closed out—ing-out price tomorrow. 8c.

A Remnant Lot of SILKS. A lot of Plain White Japanese Habutai Wash Silks; also Colored India and Taffeta Silks, in a good assortment of shades. Worth 25c. For Friday. 23c.

Fractional Prices for Oddments. BOYS' CLOTHING. Children's Broad-brim Sailors and High-crown Straw Hats; worth up to 35c—will be closed out tomorrow for. 12c.

Boys' Percale Shirts, with two separate collars. Size 12 1/2 neckband only. Regular 50c. value. Tomorrow for. 29c.

Boys' Dark Outing Shirts, with collar and cuffs attached. Sold at 35c. These are odds and ends—so out they go at. 15c.

An odd lot of Boys' and Youths' Thin Summer Coats. Broken sizes. Tomorrow for. 19c.
