MINERS INDORSE MITCHELL'S PLAN

Two Millions a Month and a Fight to a Finish.

100,000 PERSONS NOW DEPENDENT

Strikers and Their Wives and Children to Be Properly Cared For.

FUND OF \$350,000 A WEEK

This Would Enable Union to Keep Up Struggle All Winter—Millions Already on Hand, and There is a Determination to Stand by the Men.

INDIANAPOLIS, Ind., July 18.—John Mitchell has won a marvelous indorsement from the United Mine Workers. This morning even the anthracite men came up smiling with the statement that they did not want a general strike. Mitchell's plan, they said, pointed to the right course.

This adoption of Mitchell's plan means that while there will be no general shut down, the anthracite strike, which is the largest in history, will be prosecuted to the bitter end. Ever organized mine worker in the country and thousands of other union men are going into the fight with their money and influence. There will be a fight every day over every inch of the ground. The anthracite and bituminous strikers involve, including women and children, about 500,000 persons. There are now 100,000 dependent and there will be more.

Mitchell's plan of assessing members of the union \$1 a week each would yield about \$250,000 a week. An assessment of 10 per cent upon the earnings of members of the union, which will probably be substituted for the \$1 levy, would yield about \$350,000 a week.

Promises from other unions indicate that the total will be brought up to \$600,000 a week. That sum, maintained, would enable the union to keep up the strike all winter. Big contributions will come from the miners' unions besides the regular assessment. The Illinois district of the union will lead with a gift of about \$100,000.

Liberal contributions will be made from treasuries of other districts and local unions. They have several million dollars on hand, and will give every dollar if necessary.

It's a big contract to carry all involved in the strike, but it has been assumed with a determination to stand by the strikers until they win. Two million a month and fight to a finish—this victory comes—is the program.

M'NABB TURNED OVER TO LOCAL AUTHORITIES

Will Arrive in City Tonight in Custody.

Detective Sergeant Lacey of the local Police Department is expected to arrive in this city tonight from New York city, bringing a well-known negro who was formerly a policeman in this city, and is wanted here for having seriously assaulted his wife on last Christmas day.

After committing the assault McNabb made his escape to New York city where he has remained ever since. A few days ago the New York authorities notified Captain Boardman that they had taken the accused negro into custody after a struggle, and that he would be turned over to the local authorities should they want him. Detective Sergeant Lacey, who had been working on the case, was sent to New York last night.

The assault for which McNabb is being brought back to this city was one of an exceedingly serious character, and almost terminated in murder. For several years McNabb, who was a crossing policeman, had trouble with his wife and they finally separated. She went to live at 1206 Linden Street northeast, and did not see her husband for several months until one night he appeared on the premises and threatened her bodily harm.

Several nights after that he called again and told her he was coming back to live with her. She informed him that he had better stay away. This so enraged him that he drew from his pocket a penknife and slashed her across her throat. After doing this, it is alleged that he dragged her from the house. Citizens responded to her cries for help, but McNabb escaped.

The woman was removed to the Casualty Hospital where it was thought at one time she would die, but her condition improved greatly and she was soon able to go to her home.

McNabb is said to have been a man of roving disposition. He served a considerable length of time in the navy, and also served some time on the police forces in other cities. He is well-known in this city, and the authorities are exceedingly glad of his capture.

Was Notorious Bank Robber and Killed Constable.

TORONTO, Ontario, July 18.—Fred Lee Rice, a notorious bank robber well known to the police in the United States and Canada for some years, was hanged here this morning for the murder of Constable Boyd. His mother and sister, Mrs. Turner, of Champaign, Ill., came here to try to get the sentence commuted. Rice was only twenty-six. The minister of justice refused to interfere but his friends were given leave to remove the body to their home in Illinois. Rice's neck was not broken. He was strangled and did not die for twelve minutes after the trap was sprung. He refused stimulants before going to the scaffold and died gamely.

MARLBOROUGH SLATED TO SUCCEED CADOGAN

Will Probably Be Made Lord Lieutenant of Ireland.

Thought That the Post Will Not Carry Membership in the British Cabinet.

LONDON, July 18.—While nothing is positively known as to who will be the next Lord Lieutenant of Ireland, the Duke of Marlborough is mentioned as a probable successor to the Earl of Cadogan, who yesterday resigned the post.

In case Marlborough is given the portfolio, it is not thought that he would be a member of the cabinet, the Lord Lieutenant of Ireland being one of the posts which Premier Balfour is likely to drop from the ministry.

It is also thought probable that the Right Hon. George Wyndham, Chief Secretary of Ireland, will join the cabinet, retaining his present position.

SHERIFF CUDDEE GETS THE "DOUBLE CROSS"

Outlaw Hunters Fooled by Tracy's Partner.

SEATTLE, Wash., July 18.—Outlaw Tracy again has disappeared. It was supposed that he had been located in a cabin near Lake Sawyer, with two accomplices, Fred Simmons, an ex-convict from San Francisco, and Fred Floyd, a "stool pigeon," through whom the location was made. Floyd gave Sheriff Cuddee the "double cross" by warning the outlaw when he visited him Tuesday, for the cabin was found to be deserted when it was rashed by the posse yesterday.

Tracy has been lying in the brush since Sunday, nursing the wounds inflicted on his back by Deputy Bunce in the fight Thursday. His hiding place is not four miles from Covington. With him are his two accomplices.

DUBARRY DISMISSAL APPROVED BY SHAW

Secretary Upholds the Action of Commissioner Sargent.

INSPECTOR WAS OBNOXIOUS

Used Objectionable Methods and Language and Did Not Obey Orders and Instructions of His Superior Officers, Making Him Unfit for the Service.

Secretary Shaw today upheld Mr. Frank P. Sargent, Commissioner General of Immigration in discharging Mr. J. R. DuBarry, an immigration inspector, stationed at Buffalo, N. Y.

It is charged by Mr. Sargent that DuBarry was dismissed from the service on account of conduct unbecoming a gentleman and an officer of the United States Government. Mr. Sargent said that numerous complaints had been received from people who had occasion to travel between the United States and Canada coming in contact with DuBarry.

It was his practice to come up behind a person, it is said, and in every objectionable language, demand to know where the person was going.

It is also alleged that DuBarry did not obey the orders of his superior officers, and that his general behavior and conduct was not conducive to discipline and good order. Mr. Sargent fully investigated the charges, and came to the conclusion that DuBarry was not a proper person to be in the service of the United States Government.

KING EDWARD TO BE CROWNED AUGUST NINTH

Date Officially Announced in London.

Rehearsal of Procession Between the Palace and Westminster Abbey.

LONDON, July 18.—It is officially announced that the coronation will take place on August 9.

The coronation procession, which will be between Buckingham Palace and Westminster Abbey, was rehearsed this morning. Eight cream colored horses drew a heavy drag, representing the royal coach. The officials concerned in the Abbey ceremony have resumed the preparations.

The "British Medical Journal" says: "The King's progress is quite satisfactory. Everything has gone on well. We can give an absolute and emphatic denial to the rumors of the existence of any constitutional malady. We are authorized to state that his majesty has no sign or suspicion of any malignant disease in any part of his body."

The "Lancet" says: "The King's condition is eminently satisfactory. The wound is filling up surely, if slowly. The freedom from state cares and social duties, together with the enforced rest in bed, has had a most beneficial effect. His majesty looks better now than for some years."

COWES, England, July 18.—The following bulletin concerning the King's condition was given out from the royal yacht Victoria and Albert this morning:

WARRANT FOR ARSON IN JACKSON CITY CASE

Rumor That Prominent Sporting Man Is Wanted.

DOES NOT DENY THE CHARGE

May Surrender Himself to Sheriff This Afternoon—Cause of Act a Grievance of Long Standing Against the Virginia Gambling Resort.

A rumor was in circulation this morning to the effect that, as an outcome of the disastrous fire which occurred in Jackson City last Monday night, as a result of which gambling in that historic village has come to an end, a warrant was sworn out by persons interested in the burned establishments this morning for one of the best-known sporting men in this city, charging him with arson.

The warrant, it is alleged, has been turned over to Sheriff Palmer, of Rosslyn, to be served. Upon hearing that such action had been taken, the man, it is said, informed Sheriff Palmer that he would arrange with his bondsmen this morning and meet the sheriff at 3 o'clock this afternoon and surrender himself.

The news of such action did not come as a surprise to the sporting element in Washington, many of whom have been anxiously watching the outcome of the feud which it is alleged exists between certain parties interested in the burned gambling houses, and the affair gives promise of developing into an unusually interesting one.

According to a report which has been circulated for some days past, ever since the buildings were burned, the man admits having been the one who applied the match to them. He has made no attempt to conceal his act, and has awaited the outcome of the affair calmly.

What will be done with the man if he is found guilty is not known, but the penalty provided by the code of Virginia for arson is extremely severe, several persons having been executed for the crime, and others given long sentences in the penitentiary.

The man is exceedingly popular, and is regarded as being one of the foremost sporting men in the National Capital. He has been playing the games in Jackson City for years.

A DISASTROUS FIRE VISITS BLOCK ISLAND

Rhode Island Summer Resort Almost Wiped Out.

FIREMEN SERIOUSLY INJURED

High Wind Was Blowing and the Flames Made Rapid Headway, the Town Being Saved by Tearing Down a Large Frame Building.

NEWPORT, R. I., July 18.—The most disastrous fire Block Island has ever seen visited that place last night, and at one time it looked as if it would lay that popular summer resort in ashes. As it was, no one was killed and but two persons were injured. The fire started at midnight in Mott's livery stable, and before it had burned out at 4 o'clock this morning it had leveled to the ground Mott's stable, MacComber's cafe and summer garden, Narragansett Hotel, Mitchell's souvenir store, the United States Weather Bureau, the Western Union Telegraph office, and the National Hotel. The progress of the fire was stopped by the tearing down of Simons' dry goods store. There was a high southwest wind blowing and the flames leaped from one building to another.

Two volunteer firemen fell from the roof of the Surf Hotel and were badly injured. With the burning of the telegraph office all communication with the island was cut off. The guests in the burning hotels got out their belongings and were sheltered in the other hotels that the fire did not reach. The boat this morning brought over the information about the fire, but no one could estimate the damage.

It is thought that the fire originated from a man sleeping in the stable who was smoking and dropped a lighted match.

The attendance this year at the camp is not as large as last year, but it is expected that all the companies will be increased by Sunday. Much trouble has been experienced this year by company commanders in securing leave for their men.

Field Maneuvers Held for Over Two Hours This Morning.

Roads Dusty and Air Hot, But Good Breeze Makes Tent Life Comfortable. Cavalrymen Give Fine Exhibition. Compliment Paid to Major Neumeyer.

(Special to The Evening Times.)

CAMP ORDWAY, July 18.—All's well at Camp today. Regular routine work has been taken up, and things are running as smoothly as though the boys had been in camp for a month.

For over two hours this morning there was squad drill in extended order by all the companies. The regimental and battalion commanders were also out in the field to superintend the work. Everyone is praying for rain, as the roads are dusty and although there is a good breeze blowing over the camp grounds the air is very hot.

The first night in camp was a quiet one and this morning all were awake with the sound of reveille at 5:30 o'clock ready for a hard day's work. So far there have been very few complaints from the men and the medical officers have only had to treat minor disorders. General Harries, with Captain Brett,

LADY DE LA WARR IS GIVEN HER DIVORCE

Granted on Grounds of Desertion and Misconduct.

LONDON, July 18.—Sir Francis Jeune, president of the divorce court, today granted a degree of nisi to Lady de la Warr against her husband for desertion and misconduct.

The trouble between the earl and Lady de la Warr dates back some months. As early as last March Lady de la Warr sued to have her conjugal rights restored, claiming that the earl had practically deserted her. Her suit was granted. The couple were not happy, however, and some five weeks ago the countess entered a suit for divorce on the grounds of desertion and misconduct. She named a prominent American actress as co-respondent in her original complaint, but this charge was afterward withdrawn.

Countess de la Warr, before her marriage, was the Hon. Muriel Agnes Brassey, daughter of Lord Brassey, one time Governor of Victoria, Australia. She married Earl de la Warr in 1891. Earl de la Warr is thirty-three years old and comes of an old and proud English family, which traces its lineage back 600 years.

The earl has had a most varied career. He was identified with the Hooley companies, was a correspondent in South Africa, a captain in the army, a hotel proprietor and an organizer of automobile carnivals.

George T. Johnson, of 3106 P Street northwest, a bridegroom of two weeks, committed suicide shortly before 11 o'clock this morning by shooting himself in the left temple with a revolver. Johnson was thirty-three years of age and employed as a clerk in the hardware store of Copley, Butler & Co., 3313 M Street northwest. The cause of his rash act is not yet definitely known.

THE SHOTS HEARD

Johnson was alone in his room this morning and his brother, William Johnson, and a friend, Roy Payne, were sitting on the rear porch of the house. Suddenly the brother and friend heard two pistol shots fired in rapid succession. Without stopping to investigate William Johnson immediately ran to the office of Dr. Munson, at Thirty-fifth and P Streets, and asked him to come to the house, saying he was afraid his brother had shot himself.

Dr. Munson went to the Johnson house immediately. Entering George Johnson's room, he found the latter lying on the floor with a smoking revolver grasped in his hand. Blood was pouring from the wound in his head. Dr. Munson did everything possible, but he was too late. Johnson expired five minutes later without regaining consciousness.

The police of the Seventh precinct were notified, and Sergeant Schneider made a search of the room. He failed to secure anything tending to show the cause of Johnson's self-destruction. Coroner Nevitt was notified by the police and is making a thorough investigation of the case.

Two weeks ago Johnson was married to Miss Devine, daughter of Mr. Thomas Devine of 1417 Thirty-third Street northwest. She is said to have been in ill-health and has not yet been informed of her husband's death. Johnson has been suffering with malaria for several months past, and it is supposed that he became melancholy.

MOTHER DIED A MONTH AGO

Another thing that may have contributed to his despondency is the fact that his mother died about a month ago. He is said to have been a young man of most exemplary habits.

Johnson is survived by his father, William Johnson, a brother, also named William Johnson, and a married sister. The suicide and his father, brother, and newly married wife resided together. The wife is kept to her room through illness.
